Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☐ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☒ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BULTYNCK & CO., P.L.L.C.**

(2) EIN: **20-3920878**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		2500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Plumbers Local No. 98 Defined Benefit Pension Fund
Troy, MI

Opinion

We have audited the accompanying financial statements of Plumbers Local No. 98 Defined Benefit Pension Fund (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022 and 2021, the related statement of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2022 and 2021, and the changes in its accumulated plan benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and

therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets Held for Investment at End of Year and Reportable Transactions, together referred to as "supplemental schedules," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Plumbers Local No. 98 Defined Benefit Pension Fund
Troy, MI

Opinion

We have audited the accompanying financial statements of Plumbers Local No. 98 Defined Benefit Pension Fund (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022 and 2021, the related statement of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2022 and 2021, and the changes in its accumulated plan benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatements, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and

therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Assets Held for Investment at End of Year and Reportable Transactions, together referred to as "supplemental schedules," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note A – Description of the Plan

The following brief description of Plumbers Local No. 98 Defined Benefit Pension Fund (the “Plan”) is provided for general purposes only. For more complete information, refer to the Summary Plan Description.

General

The Plan, and trust established under the plan, was established effective January 1, 1993 by a collective bargaining agreement between Plumbers Local No. 98 of Detroit, Michigan and the United Association of Journeyman and Apprentices in the Plumbing and Pipefitting Industry of the United States and Canada, AFL-CIO (the “Union”) and Metropolitan Detroit Plumbing and Mechanical Contractors Association, Inc. (the “Association”). The Plan is a multi-employer defined benefit pension plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. Employees of signatory contractors of the various collectively bargained agreements between the Union and the Association are eligible to participate in the Plan. In 2019, the Plan adopted a cash balance benefit to the Plan.

Contributions

Contributions are obtained directly from participating employers and are based on hours worked by Plan participants at hourly rates as specified in the collective bargaining agreements.

Vesting and Payment of Benefits

The Plan provides monthly retirement benefits and death benefits to eligible participants. Under the legacy plan, participants are eligible for benefits upon attaining the age of 65 with 5 or more years of vested services. Under the cash balance plan, a participant is eligible for benefits upon attaining the age of 65 with 3 or more years of vested services. The Plan also permits early retirement and allows participants to elect to receive benefits under various retirement options. The pension amount shall be in the form of a lump sum payout or an actuarially equivalent annuity.

Prior to August 5, 2019, no vesting or credited service is earned in a year when fewer than 375 hours are worked. One year is earned for 1,500 hours or more worked. In between these hours a participant's vesting and credited service is calculated by multiplying hours worked by .000667. SUB hours were included prior to January 1, 2017. After August 5, 2019, the Plan adopted a cash balance benefit whereby for each hour worked, a Participant with an individual account will be credited with the principal credit, as set forth in the collective bargaining agreement, to his or her individual account as of the first day of the second month following the month in which such hours were worked. The amount of principal credits shall adjust from time to time per the collective bargaining agreement. The Summary Plan Description provides further detail on vesting and the calculation of benefit amounts under the provisions of the Plan.

Note B – Summary of Significant Accounting Policies

The following are significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Cash and Cash Equivalents

The Plan considers cash and cash equivalents to include all monies in checking accounts, savings accounts, money market accounts including highly liquid investments with a maturity of three months or less, and short-term cash deposits. The carrying value of cash and cash equivalents approximates fair value based on their short-term maturities.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note B – Summary of Significant Accounting Policies (Continued)

Contributions

The Plan is funded entirely by employer contributions as specified in the collective bargaining agreements. Contributions receivable principally represent amounts received from employers in January based on participants' credited hours worked prior to January; therefore, no allowance for doubtful accounts is required.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. When a quoted market price is not available, investments are valued at estimated fair value. See Note H for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation or depreciation includes the gains and losses on investments bought and sold during the year as well as held during the year.

Concentrations of Credit Risk

Financial instruments that potentially subject the Plan to concentrations of credit risk consist principally of cash deposits. Accounts at each institution are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000.

Payment of Benefits

Benefit expenses are recognized when incurred.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan. Administrative expenses are recorded during the period in which the Plan receives the benefit of goods or services.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits and changes therein. Accordingly, actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employers' contributions and participants' years of credited service. Benefits payable under all circumstances, i.e. retirement, death, disability, and termination of employment, are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note B – Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits is determined by Segal, an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of December 31, 2022 and 2021 were:

- (a) Life expectancy of participants - 97 percent of the PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2020 projection scale was used for 2022 and 2021.
- (b) Investment return - The assumed average rate of return of 7.00 percent for the legacy portion of plan in 2022 and 2021, and 4.00 percent for the cash balance portion of plan in 2022 and 2021, including reductions of \$650,000 in 2022 and 2021 per year to reflect anticipated administrative expenses associated with providing benefits was used.
- (c) Assumed hourly contribution rate - The average future hourly contribution rate of \$15.99 and \$15.84, of which average \$4.99 and \$4.57 is directed to participant's cash balance notional account, as specified by the collective bargaining agreements, was used in the 2022 and 2021 valuations, respectively.
- (d) Future hours worked - Assumed future hours worked of 1,800 hours per year for vested active lives was used in the 2022 and 2021 valuations.
- (e) Average expected retirement age - The average retirement age of 61 for active participants and 65 for inactive vested participants was used in the 2022 and 2021 valuations.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023 and 2022. Had the valuations been performed as of December 31, 2022 and 2021, there would be no material differences.

Subsequent Events

The Plan has evaluated subsequent events through October 2, 2024, the date the financial statements were available to be issued, and no issues have come to our attention that would require recognition.

Note C – Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the "PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pension benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

PLUMBERS LOCAL NO. 98 DEFINED BENEFIT PENSION FUND
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note C – Plan Termination (Continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the Pension Benefit Guaranty Corporation.

A full description of the Plan's termination priorities is available in the Plan Document, as amended.

Note D – Funding Policy and Plan Status

The Plan is funded entirely by employer contributions as specified in the collective bargaining agreements. For plan years beginning January 1, 2023 and 2022, the Plan met the minimum funding requirements established under ERISA. As of plan year beginning January 1, 2022 and 2023, the Plan continued to be in a safe – neither endangered nor critical – status, as determined by the Plan's actuary.

The Plan's actuary, in the most recent certification effective January 1, 2023, certified the Plan continues to be in safe – neither endangered nor critical – status.

Note E – Tax Status

The Plan obtained a favorable determination letter on October 19, 2020, in which the Internal Revenue Service stated that the Plan and related trust, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's legal counsel believe the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

Note F – Contingencies

In the normal course of business operations, the Plan is involved in litigation from time to time. In the opinion of management, the ultimate liability, if any, for these matters is not expected to be significant or have an adverse effect on the Plan.

Note G – Commitments

The Plan has the following potential future commitments to the respective investments as of December 31, 2023:

	2023
Blackstone Tactical Opportunities Fund, LP	\$ 304,796.00
Blackstone Tactical Opportunities Fund II, LP	2,133,231.00

Note H – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means;
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of this asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lower level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Management reviews and approves fair value measurement policies and procedures annually, and determines if the valuation techniques used to measure assets at fair value remain appropriate.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022. All Plan assets are measured at fair value on a recurring basis.

Money market funds: The Plan's investments consist of shares of various money market funds which are valued using amortized cost which approximates fair value.

Mutual funds: Valued at the closing price reported in the active market in which the individual securities are traded.

Common / collective trusts: The fair value of the Plan's interest in common/collective trust funds is based on the net asset value after adjustments to reflect all fund investments at fair value. The net asset value is quoted on a private market that is not active; however, the unit price is based on underlying investments that are traded on an active market. Unit values are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

Hedge funds: The fair value of the Plan's interests in hedge funds is based on the net asset value after adjustments to reflect all fund investments at fair value. The net asset value is quoted on a private market that is not active; however, the unit price is based on underlying investments that are traded on an active market. Unit values are determined by dividing the fund's net assets at fair value by its units outstanding at the valuation dates.

Limited partnerships: Valued on the basis of a discounted cash flow approach, which includes the future rental receipts, expenses, and residual values as the highest and best use of the real estate from a market participant view as rental property.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

Note H – Fair Value Measurements (Continued)

Net Asset Value (Continued)

- (c) Common / collective trusts: This class invests in one or more pooled investment funds, which in turn will hold direct or indirect interests in real property.

Note I – Party-in-Interest Transactions

Fees paid during the year for legal, auditing, investment advisory and custody, and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note J – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Statement of actuarial assumptions, methods and models

Mortality rates

Healthy: 97% of the amount-weighted rates in the Pri-2012 Blue Collar Employee Mortality Tables, projected generationally with the MP-2020 Scale.

Beneficiary or Healthy Pensioner: 97% of the amount-weighted rates in the Pri-2012 Blue Collar Retiree Mortality Tables, projected generationally with the MP-2020 Scale.

Disabled: 97% of the amount-weighted rates in the Pri-2012 Disabled Retiree Mortality tables, projected generationally with the MP-2020 Scale.

The underlying mortality tables, including the 97% multiplier, with generational projection to the ages of participants as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date. They were then adjusted to future years using the generational projection to reflect future mortality improvement between the measurement date and those years.

The mortality rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths by age and liability change and the projected number and liability change based on the prior years' assumption over the most recent five years.

¹ Mortality rates shown for the current year.

² Disability rates do not apply at or beyond earliest age with unreduced retirement benefit.

³ Withdrawal rates do not apply at or beyond early retirement age.

The withdrawal rates and disability rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of withdrawals and disability retirements and the projected number based on the prior years' assumption over the most recent five years.

Retirement rates for active participants

Age	Annual Retirement Rates
58	14%
59	17%
60	20%
61	30%
62-64	50%
65	60%
66	75%
67	100%

The retirement rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent five years.

Description of weighted average retirement age

Age 61, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2023 actuarial valuation.

Retirement age for inactive vested participants

65

The retirement age for inactive vested participants was based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual average retirement age and the assumed age based on the prior years' assumption over the most recent five years.

Future benefit accruals and contribution income

1,800 hours per active employee included in the valuation. Active employees are assumed to remain in their current job class for all future Plan years.

For contribution income purposes, 15% of the total hours are assumed to come from locals with reciprocity agreements with the Plan. The assumed hourly contribution rate for the reciprocal hours is \$7.00 per hour.

The assumed future benefit accruals were based on historical and current demographic data, adjusted to reflect the Plan changes effective August 5, 2019, estimated future experience and professional judgment.

Unknown data for participants

Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male.

Definition of active participants

Active participants are defined as those who worked at least 375 hours during the most recent Plan year, excluding those who have retired as of the valuation date.

Exclusion of inactive vested participants

Inactive participants over age 72 are assumed deceased and will never apply for their benefits.

The exclusion of inactive vested participants over age 72 was based on historical and current data and estimated future experience and professional judgment. As part of the analysis, the ages of new retirees from inactive vested status over the most recent five years were reviewed.

Percent married

80%

Age and sex of spouse

Spouse is assumed to be three years younger than a male participant, and three years older than a female participant. If the spouse's sex is not provided, the spouse is assumed to be the opposite sex of the participant.

The assumed age and sex of spouse were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual characteristics of spouses relative to the participants.

Benefit election

- **For benefits accrued prior to August 5, 2019:**

- Married participants are assumed to elect the 50% joint & survivor form of payment. Non-married participants are assumed to elect the single life annuity form of payment.

- **For the cash balance portion of the benefit:**

- All participants are assumed to elect a lump sum.
- The assumed benefit elections were based on historical and current demographic data, adjusted to reflect the plan design and estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual option election patterns over the most recent five years.

Delayed retirement factors

Active participants assumed to work enough hours each month to not qualify for delayed retirement adjustment. Inactive vested participants who are assumed to commence receipt of benefits after attaining normal retirement age qualify for delayed retirement increases.

Net investment return

7.00%

The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.

Cash balance interest crediting rate

4.00%

The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation for cash balance assets.

Annual administrative expenses

\$650,000 for the year beginning January 1, 2023 (equivalent to \$626,728 payable at the beginning of the year).

The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.

Actuarial value of assets

The market value of assets less unrecognized returns in prior years. Initial unrecognized return is equal to the difference between the actual market return and the expected market return, and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.

Actuarial cost method

Unit Credit Actuarial Cost Method. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis.

Benefits valued

Unless otherwise indicated, includes all benefits summarized in Exhibit K.

Current liability assumptions

- **Interest:** 2.55%, within the permissible range prescribed under IRC Section 431(c)(6)(E)
- **Mortality:** Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1(a)(2): RP-2006 employee and annuitant mortality tables, projected generationally using scale MP-2021 (previously, MP-2020)

Actuarial models

Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are prepared to meet regulatory, legislative and client requirements. Deterministic cost projections are based on a proprietary forecasting model. Our Actuarial Technology and Systems unit, comprised of both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible Enrolled Actuary.
