Report of Independent Auditors

Board of Directors
Premier Resources, LLC 401(k) Plan
Mt. Pleasant, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Premier Resources, LLC 401(k) Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Premier Resources, LLC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Premier Resources, LLC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Premier Resources, LLC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and delinquent participant contributions are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of Premier Resources, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to qualifying employees of Premier Resources, LLC (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Through March 31, 2023, to be eligible to participate in the Plan, an employee must have attained the age of 21, have completed at least one year of service and be a full-time or part-time employee who had worked at least 1,000 hours during such plan year. An amendment to the Plan was made on March 31, 2023, to change the service portion of the eligibility requirements to only require three months of service.

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. The Company may make an annual discretionary matching contribution based upon each participant's contributions for each plan year. The Company may also make discretionary contributions to the Plan determined by its Board of Directors. The participant's contributions and the Company's matching and discretionary contributions are invested in the Plan's investment options as directed by the participant. For the years ended December 31, 2023 and 2022, the Company matched 30% of employee contributions up to 6% of the employee's compensation.

Participant Accounts

Each participant's account is credited with their contribution, the Company's contributions, and an allocation of earnings and administration charges. Allocations are proportionately among all participants based on participant account balances. Participants direct the investment of contributions into the investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contributions is based on years of service. Participants vest 20% per year of service beginning with the second year of service and are 100% vested after six years of service.

Payment of Benefits

Benefits are recorded when paid. Upon termination of service, due to death, disability, retirement, or separation, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account or installment payments under various annuity options beginning on the participant's normal retirement date. If the value of the participant's vested account is less than \$1,000, the participant must receive a single lump sum payment instead of annual installments.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested benefit under the Plan. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a principal residence. The loans are secured by up to 50% of the participants' vested interest in the Plan and bear interest at a rate comparable to rates being charged by lending institutions in the local area as determined by the plan administrator. The loan principal and interest are repaid ratably through bi-weekly payroll deductions. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest.

Administrative Expenses

The Company pays all administrative expenses for the Plan except for participant loan fees, surrender charges, plan asset conversions to new investment providers, and asset management fees. The Plan's administrative expenses paid by the Company, including salaries, accounting, and legal, qualify as party-in-interest transactions that are exempt from prohibited transaction rules.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce Company contributions. Forfeitures used to reduce the Company's contributions amounted to \$3,669 during the year ended December 31, 2023 and \$136 during the year ended December 31, 2022. There was \$8,432 of forfeited nonvested accounts as of December 31, 2023 and \$4,306 as of December 31, 2022.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except the guaranteed investment contract which is valued at contract value. The mutual funds are stated at fair value, which has been determined by quoted market prices of the underlying securities as reported by the custodian of the Plan. See Note 5 for more information on the guaranteed investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The change in aggregate fair value and the cost of investments purchased, sold, and held is reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income, and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily-observable, market-corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3. As of December 31, 2023 and 2022, the Plan had no investments classified as Level 3.

For the years ended December 31, 2023 and 2022, the application of valuation techniques applied to similar assets and liabilities has been consistent.

Subsequent Events

Management has evaluated subsequent events through October 9, 2024, which is the date the financial statements were available to be issued.

3. Information Certified by the Trustee (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the investment balances, notes receivable from participants, net appreciation (depreciation) in fair value of investments, dividends, and participant notes receivable interest income included in the accompanying financial statements and supplementary information, was obtained from data that has been prepared and certified as complete and accurate by the trustee, Fidelity Management Trust Company (Fidelity). This certified information has not been audited by independent auditors.

Notes to Financial Statements

4. Fair Value Measurements

The following describes the valuation methodologies used for Plan assets measured at fair value.

Cash – interest bearing: Fair values are estimated to approximate deposit account balances.

Mutual funds: Stated at quoted market prices in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2023				
Cash – interest bearing	\$ 9,427	\$ -	\$ -	\$ 9,427
Mutual funds	4,455,991	-	-	4,455,991
	<u>\$ 4,465,418</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,465,418</u>
	Level 1	Level 2	Level 3	Total
2022				
Cash – interest bearing	\$ 45,924	\$ -	\$ -	\$ 45,924
Mutual funds	3,632,504	-	-	3,632,504
	<u>\$ 3,678,428</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,678,428</u>

5. Guaranteed Investment Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Standard Insurance Company (Standard) holding \$56,928 as of December 31, 2023 and \$60,100 as of December 31, 2022. Standard maintains the contributions in a general account. The account is credited with earnings in the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

5. Guaranteed Investment Contract with Insurance Company (continued)

This contract meets the fully-benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Standard Insurance Company, represents contributions made, less withdrawals and administrative expenses, plus interest credited. Daily liquidity at contract value is available for participant contributions and withdrawals regardless of market conditions. These transactions are valued at the daily net asset value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain unlikely events may limit the ability of the Plan to transact at contract value. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The Company may choose to pay the market value adjustment directly, if applicable, so that participants' contract values are not affected.

Standard may terminate the contract with 30 days advance written notice to the Plan for reasonable cause, which includes failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, and plan disqualification.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Plan has been amended since then; however, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Generally, tax years 2020 through the current year remain open to examination. Plan management does not believe that the results from any examination of these open years would have a material effect on the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in the employer contributions credited to their accounts.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Parties-in-interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan paid Fidelity, the trustee, \$22,577 during the year ended December 31, 2023 and \$31,715 during the year ended December 31, 2022. The Plan holds shares of mutual funds managed by Fidelity. Notes receivable from participants are also considered party-in-interest transactions since employees are considered parties-in-interest under ERISA. Independent Advisor Alliance is also an advisor to the Plan therefore they are considered a party-in-interest.

10. Reconciliation to Form 5500

Report of Independent Auditors

Board of Directors
Premier Resources, LLC 401(k) Plan
Mt. Pleasant, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Premier Resources, LLC 401(k) Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Premier Resources, LLC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Premier Resources, LLC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Premier Resources, LLC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and delinquent participant contributions are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of Premier Resources, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to qualifying employees of Premier Resources, LLC (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Through March 31, 2023, to be eligible to participate in the Plan, an employee must have attained the age of 21, have completed at least one year of service and be a full-time or part-time employee who had worked at least 1,000 hours during such plan year. An amendment to the Plan was made on March 31, 2023, to change the service portion of the eligibility requirements to only require three months of service.

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. The Company may make an annual discretionary matching contribution based upon each participant's contributions for each plan year. The Company may also make discretionary contributions to the Plan determined by its Board of Directors. The participant's contributions and the Company's matching and discretionary contributions are invested in the Plan's investment options as directed by the participant. For the years ended December 31, 2023 and 2022, the Company matched 30% of employee contributions up to 6% of the employee's compensation.

Participant Accounts

Each participant's account is credited with their contribution, the Company's contributions, and an allocation of earnings and administration charges. Allocations are proportionately among all participants based on participant account balances. Participants direct the investment of contributions into the investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contributions is based on years of service. Participants vest 20% per year of service beginning with the second year of service and are 100% vested after six years of service.

Payment of Benefits

Benefits are recorded when paid. Upon termination of service, due to death, disability, retirement, or separation, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account or installment payments under various annuity options beginning on the participant's normal retirement date. If the value of the participant's vested account is less than \$1,000, the participant must receive a single lump sum payment instead of annual installments.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested benefit under the Plan. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a principal residence. The loans are secured by up to 50% of the participants' vested interest in the Plan and bear interest at a rate comparable to rates being charged by lending institutions in the local area as determined by the plan administrator. The loan principal and interest are repaid ratably through bi-weekly payroll deductions. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest.

Administrative Expenses

The Company pays all administrative expenses for the Plan except for participant loan fees, surrender charges, plan asset conversions to new investment providers, and asset management fees. The Plan's administrative expenses paid by the Company, including salaries, accounting, and legal, qualify as party-in-interest transactions that are exempt from prohibited transaction rules.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce Company contributions. Forfeitures used to reduce the Company's contributions amounted to \$3,669 during the year ended December 31, 2023 and \$136 during the year ended December 31, 2022. There was \$8,432 of forfeited nonvested accounts as of December 31, 2023 and \$4,306 as of December 31, 2022.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except the guaranteed investment contract which is valued at contract value. The mutual funds are stated at fair value, which has been determined by quoted market prices of the underlying securities as reported by the custodian of the Plan. See Note 5 for more information on the guaranteed investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The change in aggregate fair value and the cost of investments purchased, sold, and held is reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income, and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily-observable, market-corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3. As of December 31, 2023 and 2022, the Plan had no investments classified as Level 3.

For the years ended December 31, 2023 and 2022, the application of valuation techniques applied to similar assets and liabilities has been consistent.

Subsequent Events

Management has evaluated subsequent events through October 9, 2024, which is the date the financial statements were available to be issued.

3. Information Certified by the Trustee (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the investment balances, notes receivable from participants, net appreciation (depreciation) in fair value of investments, dividends, and participant notes receivable interest income included in the accompanying financial statements and supplementary information, was obtained from data that has been prepared and certified as complete and accurate by the trustee, Fidelity Management Trust Company (Fidelity). This certified information has not been audited by independent auditors.

Notes to Financial Statements

4. Fair Value Measurements

The following describes the valuation methodologies used for Plan assets measured at fair value.

Cash – interest bearing: Fair values are estimated to approximate deposit account balances.

Mutual funds: Stated at quoted market prices in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2023				
Cash – interest bearing	\$ 9,427	\$ -	\$ -	\$ 9,427
Mutual funds	4,455,991	-	-	4,455,991
	<u>\$ 4,465,418</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,465,418</u>
	Level 1	Level 2	Level 3	Total
2022				
Cash – interest bearing	\$ 45,924	\$ -	\$ -	\$ 45,924
Mutual funds	3,632,504	-	-	3,632,504
	<u>\$ 3,678,428</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,678,428</u>

5. Guaranteed Investment Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Standard Insurance Company (Standard) holding \$56,928 as of December 31, 2023 and \$60,100 as of December 31, 2022. Standard maintains the contributions in a general account. The account is credited with earnings in the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

5. Guaranteed Investment Contract with Insurance Company (continued)

This contract meets the fully-benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Standard Insurance Company, represents contributions made, less withdrawals and administrative expenses, plus interest credited. Daily liquidity at contract value is available for participant contributions and withdrawals regardless of market conditions. These transactions are valued at the daily net asset value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain unlikely events may limit the ability of the Plan to transact at contract value. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The Company may choose to pay the market value adjustment directly, if applicable, so that participants' contract values are not affected.

Standard may terminate the contract with 30 days advance written notice to the Plan for reasonable cause, which includes failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, and plan disqualification.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Plan has been amended since then; however, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Generally, tax years 2020 through the current year remain open to examination. Plan management does not believe that the results from any examination of these open years would have a material effect on the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in the employer contributions credited to their accounts.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Parties-in-interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan paid Fidelity, the trustee, \$22,577 during the year ended December 31, 2023 and \$31,715 during the year ended December 31, 2022. The Plan holds shares of mutual funds managed by Fidelity. Notes receivable from participants are also considered party-in-interest transactions since employees are considered parties-in-interest under ERISA. Independent Advisor Alliance is also an advisor to the Plan therefore they are considered a party-in-interest.

10. Reconciliation to Form 5500

Report of Independent Auditors

Board of Directors
Premier Resources, LLC 401(k) Plan
Mt. Pleasant, MI

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of the Premier Resources, LLC 401(k) Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Premier Resources, LLC 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Premier Resources, LLC 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Premier Resources, LLC 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Premier Resources, LLC 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and delinquent participant contributions are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of Premier Resources, LLC 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan available to qualifying employees of Premier Resources, LLC (Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Through March 31, 2023, to be eligible to participate in the Plan, an employee must have attained the age of 21, have completed at least one year of service and be a full-time or part-time employee who had worked at least 1,000 hours during such plan year. An amendment to the Plan was made on March 31, 2023, to change the service portion of the eligibility requirements to only require three months of service.

Contributions

Participants may contribute up to 100% of their annual compensation, subject to certain limitations, with the contributions and earnings thereon being nontaxable until withdrawn from the Plan. The Company may make an annual discretionary matching contribution based upon each participant's contributions for each plan year. The Company may also make discretionary contributions to the Plan determined by its Board of Directors. The participant's contributions and the Company's matching and discretionary contributions are invested in the Plan's investment options as directed by the participant. For the years ended December 31, 2023 and 2022, the Company matched 30% of employee contributions up to 6% of the employee's compensation.

Participant Accounts

Each participant's account is credited with their contribution, the Company's contributions, and an allocation of earnings and administration charges. Allocations are proportionately among all participants based on participant account balances. Participants direct the investment of contributions into the investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contributions is based on years of service. Participants vest 20% per year of service beginning with the second year of service and are 100% vested after six years of service.

Payment of Benefits

Benefits are recorded when paid. Upon termination of service, due to death, disability, retirement, or separation, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account or installment payments under various annuity options beginning on the participant's normal retirement date. If the value of the participant's vested account is less than \$1,000, the participant must receive a single lump sum payment instead of annual installments.

Notes Receivable from Participants

Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested benefit under the Plan. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a principal residence. The loans are secured by up to 50% of the participants' vested interest in the Plan and bear interest at a rate comparable to rates being charged by lending institutions in the local area as determined by the plan administrator. The loan principal and interest are repaid ratably through bi-weekly payroll deductions. Notes receivable from participants are valued at their unpaid principal balance plus accrued but unpaid interest.

Administrative Expenses

The Company pays all administrative expenses for the Plan except for participant loan fees, surrender charges, plan asset conversions to new investment providers, and asset management fees. The Plan's administrative expenses paid by the Company, including salaries, accounting, and legal, qualify as party-in-interest transactions that are exempt from prohibited transaction rules.

Forfeited Accounts

Forfeited nonvested accounts are used to reduce Company contributions. Forfeitures used to reduce the Company's contributions amounted to \$3,669 during the year ended December 31, 2023 and \$136 during the year ended December 31, 2022. There was \$8,432 of forfeited nonvested accounts as of December 31, 2023 and \$4,306 as of December 31, 2022.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except the guaranteed investment contract which is valued at contract value. The mutual funds are stated at fair value, which has been determined by quoted market prices of the underlying securities as reported by the custodian of the Plan. See Note 5 for more information on the guaranteed investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The change in aggregate fair value and the cost of investments purchased, sold, and held is reflected in the statements of changes in net assets available for benefits as net appreciation (depreciation) in fair value of investments.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan uses various methods including market, income, and cost approaches. Based on these approaches, the Plan often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily-observable, market-corroborated, or generally unobservable inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Fair Value Measurements (continued)

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In determining the appropriate levels, the Plan performs a detailed analysis of the assets and liabilities. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3. As of December 31, 2023 and 2022, the Plan had no investments classified as Level 3.

For the years ended December 31, 2023 and 2022, the application of valuation techniques applied to similar assets and liabilities has been consistent.

Subsequent Events

Management has evaluated subsequent events through October 9, 2024, which is the date the financial statements were available to be issued.

3. Information Certified by the Trustee (unaudited)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the investment balances, notes receivable from participants, net appreciation (depreciation) in fair value of investments, dividends, and participant notes receivable interest income included in the accompanying financial statements and supplementary information, was obtained from data that has been prepared and certified as complete and accurate by the trustee, Fidelity Management Trust Company (Fidelity). This certified information has not been audited by independent auditors.

4. Fair Value Measurements

The following describes the valuation methodologies used for Plan assets measured at fair value.

Cash – interest bearing: Fair values are estimated to approximate deposit account balances.

Mutual funds: Stated at quoted market prices in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	Level 1	Level 2	Level 3	Total
2023				
Cash – interest bearing	\$ 9,427	\$ -	\$ -	\$ 9,427
Mutual funds	4,455,991	-	-	4,455,991
	<u>\$ 4,465,418</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,465,418</u>
	Level 1	Level 2	Level 3	Total
2022				
Cash – interest bearing	\$ 45,924	\$ -	\$ -	\$ 45,924
Mutual funds	3,632,504	-	-	3,632,504
	<u>\$ 3,678,428</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,678,428</u>

5. Guaranteed Investment Contract with Insurance Company

The Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Standard Insurance Company (Standard) holding \$56,928 as of December 31, 2023 and \$60,100 as of December 31, 2022. Standard maintains the contributions in a general account. The account is credited with earnings in the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

5. Guaranteed Investment Contract with Insurance Company (continued)

This contract meets the fully-benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for the fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported by Standard Insurance Company, represents contributions made, less withdrawals and administrative expenses, plus interest credited. Daily liquidity at contract value is available for participant contributions and withdrawals regardless of market conditions. These transactions are valued at the daily net asset value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain unlikely events may limit the ability of the Plan to transact at contract value. Such events include termination of the contract, spin-offs, divestitures, layoffs, corporate relocation, partial or total plan termination, retirement incentive programs, and the liberalization of plan withdrawal or transfer rules. Upon occurrence of any of these events, a market value adjustment or other withdrawal restrictions may apply. The Company may choose to pay the market value adjustment directly, if applicable, so that participants' contract values are not affected.

Standard may terminate the contract with 30 days advance written notice to the Plan for reasonable cause, which includes failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least \$25,000, and plan disqualification.

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated June 30, 2020, that the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Plan has been amended since then; however, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Generally, tax years 2020 through the current year remain open to examination. Plan management does not believe that the results from any examination of these open years would have a material effect on the Plan.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in the employer contributions credited to their accounts.

Premier Resources, LLC 401(k) Plan

Notes to Financial Statements

December 31, 2023

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Parties-in-interest

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan paid Fidelity, the trustee, \$22,577 during the year ended December 31, 2023 and \$31,715 during the year ended December 31, 2022. The Plan holds shares of mutual funds managed by Fidelity. Notes receivable from participants are also considered party-in-interest transactions since employees are considered parties-in-interest under ERISA. Independent Advisor Alliance is also an advisor to the Plan therefore they are considered a party-in-interest.

10. Reconciliation to Form 5500
