Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee and participants of the
Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) which comprise the statements of net assets available for benefits and statements of accumulated plan benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits and statement of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements (the financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of the report,

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current Plan instrument, including all Plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to

or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion,

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Attachment to 2023 Form 5500, Schedule SB

Schedule SB, Part V – Summary of Actuarial Assumptions/Methods

Actuarial Methods

The actuarial methods described in this section are either required by IRC Section 430 or were selected from the methods permitted by IRC Section 430.

Funding Method

The funding target and target normal cost for minimum funding calculations are determined using the unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the funding target liability. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

The Projected Unit Credit method is used solely for development of maximum deductible contribution.

Asset Valuation Method

The Valuation Assets are determined using a method that spreads asset gains/(losses) over a two-year period on an annual basis. The gain/(loss) for each period is determined as the actual return during the period less the expected return based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value. Accrued contributions receivable, if any, are included in the Valuation Assets. This is known as an actuarial value of assets and is in compliance with the Pension Protection Act of 2006. As a result of applying these smoothing techniques, the valuation assets will generally fluctuate less than the market value of assets.

Attachment to 2023 Form 5500, Schedule SB

Schedule SB, Part V – Summary of Actuarial Assumptions/Methods (continued)

Rationale for Significant Actuarial Assumptions	
Interest Rate	The lookback basis was selected from the methods permitted by IRC §430. The underlying rates are based on historical market data and are published periodically by the IRS.
Plan-related Expenses	As required IRC §430, we have estimated plan-related expenses anticipated to be paid from the Plan's assets for the coming plan year. This may include, but is not limited to, anticipated PBGC premiums, trustee fees, actuarial fees, legal fees, and administration costs that are paid from the plan trust.
Assumed Rate of Return on Assets for Purposes of Calculating Actuarial Value of Assets	The assumed rate of return of 6.00% for the 2022 plan year, which was used in calculating the Actuarial Value of Assets as of January 1, 2023, is the assumed rate of return on assets for the 2022 plan year for the US GAAP valuation. This rate was then compared to the 3rd segment rate applicable for the plan year and limited if necessary.
Mortality	The mortality tables and any applicable improvement projection scales used for purposes of this valuation were selected from those permitted by IRC §430. Updates are published periodically by the IRS.
Termination and Retirement	The termination and retirement rates are based on an experience study that was performed by the prior actuary in 2018. Actual experience and gains and losses are periodically reviewed to identify any significant deviation from expectations.
Commencement Dates for Terminated Vested Participants	The commencement dates for terminated vested participants are based on the plan sponsor's expectations of future experience. Early commencement factors for deferred vested benefits are subsidized for Terminated Vested participants with at least 15 years of service; however, based on an experience study that was performed by the prior actuary in 2018, participants generally did not commence benefits prior to age 65. Therefore, participants are assumed to commence at age 65. Actual experience and gains and losses are periodically reviewed to identify any significant deviation from expectations.
Form of Payment	The assumed form of payment at commencement is based on an experience study that was performed by the prior actuary in 2018. Actual experience and gains and losses are periodically reviewed to identify any significant deviation from expectations.
Beneficiary Age Difference	The spousal age difference assumption is based on the plan sponsor's expectations of their population.

Plan Provisions

Normal Retirement

- Eligibility* The later of: 1) age 65 and 2) the earlier of five years of Vesting Service and five years from the first day of the Plan Year in which Plan membership occurs.
- Annual Benefit* Sum of (a), (b), and (c):
- (a) 2.33% of Final Average Earnings multiplied by Credited Service up to December 31, 1996 (December 31, 2001 for a Grandfathered Participant), not to exceed 15 years
 - (b) 1.50% of Final Average Earnings multiplied by Credited Service up to December 31, 1996 (December 31, 2001 for a Grandfathered Participants), in excess of 15 years, not to exceed 20 years (i.e., 35 total years for formula parts (a) and (b))
 - (c) 1.00% of Final Average Earnings multiplied by Credited Service earned on or after January 1, 1997 (January 1, 2002 for a Grandfathered Participant).
- For participants with a vested benefit from another defined benefit plan affiliated with the plan sponsor (e.g., Union), the Accrued Benefit is the greater of:
- (1) Amount calculated by the above formula using only non-union service and compensation.
 - (2) Amount calculated by the above formula using all service and compensation (Union and Non-Union) minus the vested accrued benefit earned through December 31, 2002 payable from the Union plan.

Early Retirement

- Eligibility* Age 55 and 5 years of Vesting Service.
- Annual Benefit* Normal Retirement Benefit reduced by the following:
- Less than 15 years of Vesting Service: $\frac{1}{2}$ of 1% for each month benefit commencement precedes Normal Retirement Date.
 - At least 15 years of Vesting Service: $\frac{1}{2}$ of 1% for each month benefit commencement precedes age 62.

Deferred Retirement

Participants may continue employment after their Normal Retirement Date, in which case they will receive the greater of (A) the Accrued Benefit as of the Late Retirement Date, and (B) Accrued Benefit as of Normal Retirement Date actuarially increased to the Late Retirement Date.

Actuarial increases are not provided if a Suspension of Benefits Notice is issued, except as required by law.

Deferred Vested

Eligibility

Termination for any reason other than death or retirement.

Annual Benefit

Accrued Benefit as of the date of termination multiplied by the Vesting Percentage. The benefit is payable at any age after Early Retirement Age. If benefits commence before Normal Retirement Age, the benefit will be reduced based on the reduction factors described in the Early Retirement Benefit section.

Pre-Retirement Death Benefit

Eligibility

Vested at death

Annual Benefit

Surviving Spouse Benefit:

The greater of:

- (a) 50% of the amount that would have been payable to the member as if the member had terminated on the earlier of his/her actual employment termination date or date of death, survived to his/her earliest retirement age, and had elected the 50% joint and survivor option provided the member had been married at least one year. Benefit commences no earlier than the first day of the month the member could have retired, but not later than the member's Required Beginning Date.
- (b) The actuarially equivalent benefit payable to other beneficiaries.

Benefit to All Other Beneficiaries:

If the participant does not have a qualified spouse or waives the spousal death benefit, a monthly benefit is payable to the surviving beneficiary immediately following the participant's date of death. The benefit is paid for ten years only. The benefit amount is the amount payable to the beneficiary as if the participant terminated employment on the earlier of his/her actual termination date or the day before his/her death, retired with a 50% Joint and Survivor option, then died the following day.

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

1. Description of Plan

The following description of the Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC (the Plan) provides only general information. Participants should refer to the Plan document, copies of which are available from the plan administrator, for a more complete description of the Plan's provisions.

General

The Plan is a non-contributory defined benefit pension plan covering nonbargaining unit employees of Young's Market Company, LLC and its subsidiaries and affiliates (collectively, the Company) who completed at least one year of service prior to December 31, 2002, the date the Plan was frozen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective December 31, 2002 (Freeze Date), the Plan was amended to cease benefit accruals and close the Plan to new participants. All participants who were active participants on December 31, 2002, are fully vested. Vested participants may receive reduced benefits at age 55 or full benefits at age 65. A vested participant who discontinues employment with the Company has a deferred vested benefit available at age 65 (or at age 55 in a reduced amount).

Benefits

For participants who had at least 15 years of service, had attained age 55, and had a combined total of age and years of service of at least 75 years (Grandfathered Participants) who have not earned a vested benefit under another defined benefit pension plan to which the Company contributed, normal retirement benefits are the sum of (i) 2.33% of final average monthly compensation, multiplied by years of service determined on December 31, 2001, but not to exceed 15 years of service, (ii) 1.50% of final average monthly compensation, multiplied by years of service determined on December 31, 2001, in excess of 15, but not to exceed 35 years of service, and (iii) 1.00% of final average monthly compensation, multiplied by a full or partial year of service earned in 2002. Since the Plan was frozen on December 31, 2002, the participants will not earn years of service on or after December 31, 2002, and any compensation that is paid to the participants on or after December 31, 2002, will not be taken into account for purposes of calculating the final average monthly compensation.

For participants who are not a Grandfathered Participant and have not earned a vested benefit under another defined benefit pension plan to which the Company contributed, normal retirement benefits are the sum of (i) 2.33% of final average monthly compensation, multiplied by years of service determined on December 31, 1996, but not to exceed 15 years of service, (ii) 1.50% of final average monthly compensation, multiplied by years of service determined on

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

December 31, 1996, in excess of 15, but not to exceed 35 years of service, and (iii) 1.00% of final average monthly compensation, multiplied by years of service earned from 1997 to 2002.

For participants who have earned a vested benefit under another defined benefit pension plan to which the Company contributed, different formulas are used to adjust the benefit earned under the Plan based on years of service while the participant was an active participant in the Plan or by reducing the benefit amount calculated under the Plan by the vested accrued benefit earned under other Company-sponsored plans.

Early retirement benefits are available to vested participants who have attained age 55.

In July 2023, the Plan was amended to provide certain participants whose actuarial present value vested benefit was more than \$5,000, a one-time special commencement of their retirement benefit beginning December 1, 2023. Eligible participants were required to make this election during a lump sum distribution window from September 15, 2023 through October 31, 2023.

Death Benefits

Death benefits are provided to participant's designated beneficiaries upon death of a participant in accordance with Plan provisions, which may vary depending upon if death is prior to participant's retirement or after termination of employment and before pension payments commence. Forms of death benefit payments and amounts may vary, depending upon Plan provisions. Amounts of death benefits may vary according to certain conditions noted above, but will be based on frozen accrued benefit calculated as of December 31, 2002.

Funding Policy

The Plan is funded by periodic employer contributions, which are actuarially determined to provide necessary assets to meet benefits payable to plan participants.

Administrative Expenses

The Plan pays the custodian fees, actuarial, audit, legal, and Pension Benefit Guaranty Corporation (PBGC) fees. Payments made to service providers of the Plan qualify as party-in-interest transactions. Investment-related expenses are included in the net change in fair value of investments.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates, and such estimates may be material to the financial statements.

Contributions

All contributions to the Plan are accounted for on the accrual basis and are made by the Plan Sponsor based on actuarially determined annual funding requirements of the Plan. As of December 31, 2023 and 2022, the Plan has met the current minimum funding contribution requirements of ERISA.

In accordance with Financial Accounting Standards Board's (FASB) Accounting Standards Codification 326, *Financial Instruments—Credit Losses*, the Company estimates the current credit risk associated with employer contribution receivables. The Company determined that no allowance for credit losses is necessary as of December 31, 2023 and 2022, and there was no activity in the allowance for credit loss account in 2023.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on participants' final average monthly compensation, as defined, and the number of years of credited service and in effect at the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included in accumulated plan benefits to the extent they are deemed attributable to employee service rendered through December 31, 2002.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 8, 2024, which is the date the financial statements were available to be issued.

3. Information Certified by the Qualified Institution

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2023 and 2022, and net change in fair value of investments, and interest and dividend income for the year ended December 31, 2023, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Bank (Principal) the Plan's qualified institution.

4. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an independent consulting actuary and is the amount that results in applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Assumption changes primarily include changes in the interest rate from 6.25% to 6.20%.

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

The significant assumptions used in the actuarial computations as of December 31, 2023 are as follows:

Interest rate	6.20%
Mortality basis	Pri-2012 mortality table for employees, retirees, and contingent survivors projected generationally with Scale MP-2021. The contingent survivor table is assumed only after retiree death.

The foregoing actuarial assumptions are based upon the presumption that the Plan will continue in existence. If the Plan were to terminate, different actuarial assumptions and other factors might be applied in determining the actuarial present value of accumulated plan benefits. Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

The Plan's Adjusted Funding Target Attainment Percentage (AFTAP), calculated under provisions of the IRC, was 92.17% and 90.34% at December 31, 2023 and 2022, respectively. There were no restrictions on benefit payments during 2023 or through the date of this report.

5. Investments and Fair Value Measurements

Plan investments as of December 31, 2023 and 2022 include a cash equivalent fund managed by Principal. Principal is a service provider for the Plan; therefore, transactions in this security qualify as party-in-interest transactions.

Investments are exposed to various risks, such as market, currency, interest rate, and credit risks. Market risks include U.S. and global events which could impact the value of Plan investments. Such events would include healthcare crises, such as a pandemic, international conflicts, supply chain disruptions, global monetary policy decisions, significant exogenous economic influences, and significant cybersecurity attacks, among others. It is at least reasonably possible that changes in their fair value will occur in the near term and that such changes could materially affect the funded status of the Plan and the amounts reported in the statement of net assets available for benefits.

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

The FASB established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities, and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 – other significant observable inputs, including quoted prices in active markets for similar securities (ratings, interest rates, maturity, etc.) and quoted prices for identical securities in inactive markets

Level 3 – unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies, and similar techniques that use significant unobservable inputs.

Observable inputs are those based on market data obtained from sources independent of the Plan, and unobservable inputs reflect the Plan's own assumptions based on the best information available. The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level but rather the degree of judgment used in determining those values.

Following is a description of the valuation methodologies used for the assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

The cash equivalent includes a short-term money market fund that is stated at quoted market prices for the identical security in an active market (Level 1). The plan administrator's policy is to classify cash and cash equivalents held for investment purposes as investments in the accompanying statements of net assets available for benefits.

Investments in mutual funds and exchange traded funds are valued at the daily closing price as reported by the fund. Mutual funds and exchange traded funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds and exchange traded funds held by the Plan are deemed to be actively traded (Level 1).

In 2023, the Plan invested in real estate investment funds. These funds are valued at NAV as the practical expedient, since the underlying assets typically do not have publicly available observable inputs. The fund managers value the underlying assets using the income approach. The income approach requires an estimate of cash flows for each investment over the anticipated

Retirement Income Plan for Nonbargaining Unit Employees of Young's Market Company, LLC

Notes to Financial Statements December 31, 2023 and 2022

holding period. The fair value of the funds is determined by aggregating the value of the underlying assets less liabilities. Since the resulting valuations are based on estimates, the values may materially differ from the values that would be determined by negotiations held between parties in a sales transaction. The funds transacts at NAV, daily. The investment strategies of the real estate funds is to provide investors with access to an institutional-quality portfolio of core real estate investments throughout the United States. As these are valued at NAV as a practical expedient rather than fair value, they are excluded from the fair value leveling hierarchy. The following table summarizes the real estate investment funds as of December 31, 2023:

	2023	Unfunded Commitment	Redemption	
			Frequency	Notice Period
Boyd Waterson GSA Fund, LP	\$ 3,318,096	n/a	Quarterly	60 days*
Nuveen U.S. Cities Industrial Fund, LP	3,316,217	n/a	Quarterly	45 days*
Total	\$ 6,634,313			

* Subject to the managers' ability to meet requested redemptions and managers may, at times, establish entry and exit queues which may take several quarters to fully execute such requests.

The investments at December 31, 2023 and 2022 are comprised of the following:

Notes to Financial Statements December 31, 2023 and 2022

6. Income Tax Status

The Internal Revenue Service has determined and informed the Company, by letter dated March 7, 2016, that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business income tax. The Plan's income tax returns for the past three years are subject to examination by taxing authorities and may change upon examination.

7. Plan Termination

Although the Plan was frozen at December 31, 2002, the Company has not expressed any intent to terminate the Plan. However, the Plan may be discontinued at the option of the Company, subject to the provisions of ERISA. In the event of Plan termination, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations governing the priority order of participants' rights to the net assets of the Plan. To the extent unfunded benefits may exist, ERISA provides that such benefits, subject to certain limits, are eligible for payment by the PBGC, a federal corporation created by ERISA.

In general, the PBGC will guarantee the payment of most vested normal retirement age benefits and early retirement age benefits that employees were receiving or were entitled to receive as of the date the Plan terminated. Such benefits, however, are only guaranteed to the extent of the actuarial value of the vested benefits as of the date the Plan terminated, payable in the form of a straight-life annuity commencing at age 65. Additionally, the total amount of such guaranteed benefits is subject to an overall ceiling that is adjusted periodically by PBGC.
