INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the
Benevento Companies 401(k) Plan
Wilmington, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Benevento Companies 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the banks or similar institutions or insurance carriers in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institutions).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and

was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Benevento Companies 401(k) Plan

Notes to Financial Statements

December 31, 2023 and 2022

(1) Description of Plan

The following description of the Benevento Companies 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Adoption Agreement for a more complete description of the Plan’s provisions.

- (a) General – The Plan was established January 1, 2000 as a defined contribution plan covering all eligible employees of Benevento Sand and Stone Corp. (the “Company”). Employees can enter the Plan upon attainment of 18 years old. Nonresident aliens, members of a collective bargaining unit, and leased employees are not permitted to join the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- (b) Employee Contributions – Participants may contribute up to 100% of eligible compensation as defined in the Plan, limited to a maximum amount as set by the Internal Revenue Service (IRS). These contributions may be pre-tax or Roth after-tax contributions. Participants who have attained the age of 50 before the end of the year may contribute additional catch-up amounts as set by the IRS. Participants may also contribute amounts representing rollovers from other qualified plans.
- (c) Employer Contributions – The Company makes a safe harbor matching contribution for eligible employees of the Plan. There is no service requirement for the matching contribution. The Company will match 100% up to 3% deferred by participants, and 50% of employee deferrals between 3% to 5%. The Company may also make a discretionary profit-sharing contribution. Participants must complete one year of service and be employed on the last day of the Plan year in order to receive an allocation of the profit-sharing contribution. These contributions are allocated to participant accounts on the last day of the Plan year. There were no discretionary profit-sharing contributions in 2023 or 2022.
- (d) Vesting – Participants are 100% vested in their salary deferrals, Company safe harbor matching contributions, and earnings thereon. Company discretionary profit-sharing contributions are based on years of service. A participant earns a year of service for purposes of vesting if they are credited with 1,000 hours of service during the Plan year. A participant is 20% vested after two years of credited service, 40% vested after 3 years of credited service, 60% vested after 4 years of credited service, 80% vested after 5 years of credited service, and 100% vested after 6 years of credited service.
- (e) Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive distributions equal to the value of the participant’s vested account balance in the form of a lump-sum. If a participant’s vested balance is less than \$1,000, consent is not required and will be automatically distributed. Hardship distributions are not permitted. In-service distributions are allowed for participants that have attained age 59½ .

Description of Plan (continued)

- (f) Participant Accounts – Each participant's account is credited with the participant's contribution, allocations of the Company's safe harbor matching and discretionary profit-sharing contributions, and Plan earnings. Earnings are allocated to participant accounts based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant determines the investment strategy of their account as provided by the Plan.
- (g) Forfeited Accounts – Forfeitures represent amounts which could not be paid to terminated participants due to failure to meet vesting requirements. Forfeitures are used to reduce the Company's contributions or pay plan expenses. There were no forfeitures used in 2023 or 2022. Available forfeitures at December 31, 2023 and 2022, were \$4,272 and \$3,283, respectively.
- (h) Notes Receivable – Participants are permitted to have one outstanding loan at any time. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate as specified in the Wall Street Journal, plus 1%. Principal and interest is paid ratably through payroll deductions.
- (i) Plan Termination – Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination and payment of all expenses, the assets of the Plan would be distributed to participants based upon amounts outstanding in their account as of the date of liquidation. Additionally, the Company may amend the Plan at any time without the consent of any participant or beneficiary, provided that no amendment deprives any participant of the participant's non-forfeitable accrued benefit.

(2) Summary of Significant Accounting Policies

- (a) Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.
- (b) Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Summary of Significant Accounting Policies (continued)

- (c) Investment Valuation and Investment Income – Investments are reported at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.
- (d) Risks and Uncertainties – The Plan utilizes various investment instruments. Investment securities in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.
- (e) Benefit Payments – Benefits are recorded when paid.
- (f) Administrative Expenses – Certain investment and administrative expenses regarding distributions and loans are charged to participant accounts or deducted from check proceeds. The other administrative expenses are generally paid by the Company.
- (g) Notes Receivable – Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan Adoption Agreement.
- (h) Subsequent Events – The Plan has evaluated subsequent events through September 20, 2024, the date the Plan's financial statements were available to be issued.

(3) Information Certified by the Plan's Trustee

Under the regulations issued by the U.S. Department of Labor, the Plan has elected the "alternative method of compliance" with respect to the required audit of the financial statements for the years ended December 31, 2023 and 2022. As a result of adopting this method, Newport Trust Company, LLC, trustee of the Plan's investments, certified to the plan administrator that the information provided to the plan administrator by the trustee, which indicates the Plan's investments held by the trustee as well as earnings on those investments, was complete and accurate and that reported investments were under their control. The accompanying financial statements and supplemental schedule summarize the information provided and certified by the trustee.

(4) Fair Value Measurements

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation method used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded. Mutual funds totaled \$9,479,903 and \$7,100,951 at December 31, 2023 and 2022, respectively, and were classified as Level 1.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Investment Contract

The Plan has entered into a fully benefit-responsive guaranteed investment. The trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and changed for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment income contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment option or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, (d) a material misrepresentation. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with plan participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

(6) Income Tax Status

The Plan is based on a prototype plan that has received a favorable determination letter from the IRS, indicating that the prototype plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC), and was, therefore, exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan is no longer subject to income tax examinations for years before the year ended December 31, 2020.

(7) Related Parties

The Plan has a number of service providers. Such parties are considered parties-in-interest under ERISA.

(8) Withdrawing Participants

All participants who have withdrawn from the Plan and requested their benefits have been paid as of December 31, 2023.
