INDEPENDENT AUDITOR'S REPORT

Board of Directors

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan
Hinckley, Ohio

Opinion

We have audited the financial statements of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan’s transactions that are presented and disclosed in the financial statements are in conformity with the plan’s provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually

or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year is presented for purposes of additional analysis and is not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan

The following description of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Great Lakes Construction Co. (the “Company”) established The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan on September 15, 1980.

The Plan operates as a leveraged employee stock ownership plan (“ESOP”) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (“Code”) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the ESOP Committee comprised of five or more persons, including at least three non-management members of the Board of Directors of the Company and two Company management members, one of which is the Chief Executive Officer. ESOP committee members serve one-year terms.

On November 15, 2021, the Plan received financing through the Great Lakes Companies, Inc. in the form of a note payable in order to purchase 60,000 total shares of the Great Lakes Companies, Inc. stock. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible employees’ accounts in accordance with the applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2023 and 2022 and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

- (a) The accounts of employees with vested rights in allocated shares (“Allocated”) and
- (b) Shares not yet allocated to employees (“Unallocated”).

Eligibility:

All employees of the Company, with the exception of college interns, are eligible to participate in the Plan. Employees whose employment is governed by a collective bargaining agreement and independent contractors are excluded from participation in the Plan. Participants who are not employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions:

Each year, the Company may make discretionary contributions to the Plan solely at the discretion of the Company’s Board of Directors. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan, Continued

Participants' Account:

Each participant's account is credited with an allocation of the Company's discretionary contribution and Plan earnings and losses thereon. Contributions to the Plan are allocated to each eligible participant based upon the participant's eligible compensation for the Plan year, as defined by the Plan. Plan earnings or losses are allocated annually based on each participant's account balance.

Diversifications:

Any participant or former participant who has attained the age of 55 with at least 10 years of service/participation may diversify a portion of the assets in their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the Company stock allocated to their account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

Vesting:

Vesting in the participant's account balance is based on years of service. A participant is vested as follows:

Years of Service	Vested %
Less than One Year	0%
One Year but less than Two Years	20%
Two Year but less than Three Years	40%
Three Year but less than Four Years	60%
Four Year but less than Five Years	80%
Five or More Years	100%

Forfeitures:

The non-vested portion of a terminated participant's account under the Plan shall constitute a forfeiture. Forfeitures are allocated to the accounts of active participants based on the same formula used to allocate Company contributions. During 2023 and 2022, approximately \$22,706 and \$44,617, respectively, were forfeited into the suspense account and redistributed to eligible participant accounts. The outstanding forfeiture balance was \$0 for both years.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan, Continued

Payment of Benefits:

Upon termination of service by reason of retirement, death or total and permanent disability, a participant may elect to receive a lump sum amount equal to the value of his or her account or annual installments over a future period not longer than the life of the participant or participant's beneficiary. Payment of benefits will be in the form of cash or Company stock, or both. A participant may designate that the entire payment be in the form of Company stock. If cash is required for distributions, the Company may make additional contributions or the Plan has the ability to obtain a loan collateralized by the Company stock.

If the participant's account balance is less than \$1,000, the Plan may make an automatic lump-sum distribution to the participant equal to the participant's vested interest in his or her account. The Plan requires the mandatory repurchase by the Company of terminated participants' holdings of the Company stock. The repurchase schedule is based on a participant's continuous years of service prior to termination. The repurchase period ranges from one lump-sum repurchase in the first year following separation to installment repurchases over a five-year period, as defined. The mandatory repurchase period begins on the last day of the Plan year following the Plan year in which a participant's termination occurs. Proceeds from the sale of Company stock for terminated participants that did not elect a distribution from the Plan are transferred into a Qualified Default Investment Account which is currently held in a mutual fund.

Related Party and Parties-in-Interest:

The Great Lakes Companies, Inc. stock is held by the ESOP and is a party-in-interest and related party to the Plan. In addition, the Plan has a number of service providers and these providers qualify as parties-in-interest under ERISA.

Put Option:

Under federal income tax regulations, Company stock that is held by a Plan and its participants and is not readily tradeable on an established market or subject to trading limitations, must include a put option. The put option provided by the Company allows participants and beneficiaries to require the Company to repurchase any shares distributed to them within a sixty-day period from the date of distribution at the most recent annual fair market value as reported by an independent third party appraiser. If the put option is not exercised within the initial sixty-day period, it may be exercised within an additional sixty-day period in the following Plan year. If the put option is not exercised in either period, the mandatory repurchase of terminated participants' holdings of Company stock will occur over a one to five-year period, as defined.

Voting Rights:

The Trustee, The Great Lakes Companies, Inc. ESOP Advisory Committee, votes on behalf of the Plan and is required to vote on behalf of the collective best interest of Plan participants and beneficiaries. Plan participants may vote directly on issues related to the merger, sale or liquidation of the Company.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition:

The Plan's investments are stated at fair value. Company common stock is valued by an independent third party appraiser.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Benefit Payments:

Benefit payments are recorded when paid or stock is distributed.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and employer stock. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies, Continued

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 8, 2024, which is the date the financial statements were available to be issued.

3 Tax Status

On June 30, 2020, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2023, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Investment in Company Stock

Plan investments are carried at fair market value and consist of voting common stock. The fair market value per share of the stock, as determined by an independent appraiser, was \$172.50 and \$155.00 at December 31, 2023 and 2022, respectively.

A summary of the Plan's investments is as follows:

	12/31/2023		12/31/2022	
	Allocated	Unallocated	Allocated	Unallocated
Number of Shares	<u>378,890</u>	<u>48,000</u>	<u>413,544</u>	<u>54,000</u>

5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices. This investment is classified within Level 1 of the valuation hierarchy.

Common Stock:

The fair value of the Company common stock held by the plan is valued at fair value based upon an independent appraisal. These instruments are classified within Level 3 of the valuation hierarchy. This appraisal was based upon the market valuation method consistent with prior years. The appraiser took into account historical cash flow and net income, return on assets, return on equity, revenue multiples, EBIT multiples, EBITDA multiples, and public company comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which the ESOP Committee, along with the Board of Directors, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan.

5 Fair Value Measurements, Continued

Common Stock, Continued:

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2023

Investments at Fair Value	<u>\$ 245,855</u>	<u>\$ -</u>	<u>\$ 72,469,361</u>	<u>\$ 72,715,216</u>

For the years ended December 31, 2023 and 2022, the Plan had purchases of assets using significant unobservable inputs of \$277,274 and \$2,039,447, respectively. In addition, the Plan had sales of assets using significant unobservable inputs of \$6,578,648 and \$6,472,567, respectively.

6 Loan Payable

In 2021, the Plan entered into a \$7,665,000 term loan agreement with the Great Lakes Companies, Inc. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments.

4h			
4i			
4j			
4k			
4l			
4m			
4n			

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)

d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)

e Was this plan covered by a fidelity bond?

f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?

g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?

h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?

i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)

j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)

k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?

l Has the plan failed to provide any benefit when due under the plan?

m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)

n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year
