## Independent Auditors' Report

Plan Administrator  
Riley Industrial Profit Sharing Plan

### *Opinion*

We have audited the accompanying financial statements of the Riley Industrial Profit Sharing Plan (the plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of July 24, 2023 and December 31, 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Riley Industrial Profit Sharing Plan as of July 24, 2023 and December 31, 2022, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Riley Industrial Profit Sharing Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Responsibilities of Management for the Financial Statements*

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Riley Industrial Profit Sharing Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### *Auditors' Responsibilities for the Audit of the Financial Statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting

from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Riley Industrial Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Riley Industrial Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

*Supplemental Schedules Required by ERISA*

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) and Schedule of Assets (Acquired and Disposed of Within Year) are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**RILEY INDUSTRIAL  
PROFIT SHARING PLAN  
NOTES TO FINANCIAL STATEMENTS  
July 24, 2023 and December 31, 2022**

**NOTE A. DESCRIPTION OF PLAN**

The following description of the Riley Industrial Profit Sharing Plan (the plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

Effective July 24, 2023, the Riley Industrial Profit Sharing Plan was merged into the Riley Industrial Services, Inc. 401(k) Retirement Plan. Assets transferred from this plan as a result of the merger was \$3,090,509.

1) *General*

The plan is a noncontributory defined contribution plan which provides benefits to substantially all employees of Riley Industrial Services, Inc. The plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Employees of the company are generally eligible to participate in the plan upon reaching age twenty-one and completing one year of continuous service working a minimum of 1,000 hours.

2) *Contributions*

Participants are not permitted to make contributions to the plan, with the exception of rollover contributions transferred from another qualified plan. The company makes a discretionary contribution according to the plan. Company contributions are made during or shortly after the year to which they apply.

3) *Participant accounts*

Each participant account is credited with any rollover contributions and allocations of (a) the company's contribution, (b) plan earnings, and (c) forfeitures of terminated participants' non-vested accounts. Allocations are based upon the relative portion of the participant's account balance to the total balance of plan assets or participant earnings, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4) *Vesting*

Participants are immediately vested in their rollover contributions plus actual earnings thereon. Participants are vested in the employer contribution portion of their accounts based on years of continuous service. A participant is 100% vested after six years of credited service.

Participants with vested balances of \$344,707 and \$274,882 had terminated, but not been paid out of the plan as of July 24, 2023 and December 31, 2022. These balances have been transferred to the Riley Industrial Services, Inc. 401(k) Retirement Plan and each participant can request payment of their benefits at any time.

**NOTE A. DESCRIPTION OF PLAN (CONTINUED)**

5) *Payment of benefits*

Upon retirement, disability, death, or termination of service followed by a two-year waiting period, a participant may receive a lump-sum amount equal to the value of the vested interest in his or her account. Other withdrawals from a participant's account balance may be made under certain circumstances, as defined in the plan document.

6) *Administrative Expenses*

Administrative expenses incurred by the plan are rarely paid by the company. These expenses totaled \$0 for the plan years ended July 24, 2023 and December 31, 2022.

Administrative expenses paid by the plan by participant accounts are shown below for the years ending July 24, 2023 and December 31, 2022.

7) *Forfeited accounts*

Forfeitures are the non-vested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the plan, and after five years can be used to reduce future employer contributions, pay administrative expenses, or be allocated to participant accounts. At July 24, 2023 and December 31, 2022, forfeited non-vested accounts totaled \$300 and \$300, respectively. During the 2023 and 2022 plan years, \$0 of forfeitures were utilized to pay plan expenses.

8) *Investment options*

Participants may not direct the investment of their account balances between the various investment options offered by the plan. The custodian directs the plan's discretionary contributions not held in financial institutions into any of the mutual funds and ETFs maintained by the trustee for the plan.

9) *Plan modification or termination*

Although it has not expressed any intent to do so, the company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

**NOTE B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*1) Basis of accounting*

The financial statements of the plan are prepared on the accrual method of accounting in accordance with principles generally accepted in the United States of America. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain amounts and disclosures. The estimate of fair value of investments is an example of such an estimate. It is at least reasonably possible that the estimate of fair value of investments will change in the near term. Certain amounts in the 2022 financial statements have been reclassified to conform to the 2023 presentation.

*2) Investment valuation*

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note E for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

*3) Payment of benefits*

Benefits are recorded when paid.

*4) Subsequent events*

The plan has evaluated subsequent events through October 10, 2024 which is the date the financial statements were available to be issued. No subsequent events requiring disclosure were noted.

**NOTE C. INCOME TAX STATUS**

The plan uses a prototype plan document sponsored by Pension Plan Consultants, Inc., the plan's third-party administrator through December 31, 2022. Pension Plan Consultants, Inc. received an opinion letter from the IRS dated June 30, 2020, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The plan itself has not received a determination letter from the IRS and the plan has been amended after this opinion letter was received; however, the plan's administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2020.

**NOTE E. FAIR VALUE MEASUREMENTS**

FASB ASC 820 provides the framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements). Level 2 measurements are described as quoted prices for similar assets or liabilities in active markets; or quoted prices for identical or similar assets or liabilities in inactive markets. Level 3 measurements are described as derived from unobservable inputs, or derived principally from or corroborated by observable market data by correlation or other means. Quoted market prices were available for all investments of the plan at July 24, 2023 and December 31, 2022; all of those investments are valued using Level 1 measurements. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in or transfers between the methodologies used at July 24, 2023 and December 31, 2022.

Mutual funds and exchange traded funds (ETFs): valued at the daily closing price as reported by the fund. Mutual funds and the ETF held by the plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and ETF previously held by the plan are deemed to be actively traded.

The mutual funds in the value investment class invest the majority of assets in companies with market capitalizations similar to those of companies in the Russell Mid Cap Value Index. Mutual fund managements select investments primarily on the basis of fundamental security analysis, focusing on the company's financial stability, sales, earnings, dividend trends, return on equity and industry trends. They may invest up to 25% of assets in foreign securities.

The mutual funds in the growth investment class seek long-term growth of capital. The funds normally invest at least 80% of their net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations (those with market capitalization ranges similar to the companies in the Russell 1000® Growth Index) at the time of purchase. They invest in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average. The funds also invest in securities of foreign companies.

**NOTE E. FAIR VALUE MEASUREMENTS (CONTINUED)**

The mutual funds in the blend investment class invest a majority of assets in common stocks of a broad range of domestic companies, including small, medium, and large capitalization companies. Mutual fund managements look at stocks with value and/or growth characteristics and construct an investment portfolio that has a blend of stocks with these characteristics. These managements do not have a policy of preferring one of these styles over the other.

The mutual funds and ETF in the international investment class seek to invest a majority of assets in companies (1) with their principal place of business or principal office outside of the United States, (2) for which the principal securities trade on a foreign exchange, (3) with small to medium market capitalizations and (4) that derive 50% or more of their total revenue from goods or services produced or sold outside of the United States.

The mutual funds in the fixed income investment class invest primarily in fixed securities such as asset backed securities, commercial and residential mortgage-backed securities, corporate bonds or commercial real estate, which includes mortgage loans that are backed by the associated properties.

The mutual funds in the money market investment accounts seek as high a level of current income as is considered consistent with preservation of principal and maintenance of liquidity. It invests in a portfolio of high quality, short-term money market instruments. The investments are in U.S. dollar denominated securities which the sub-advisor believes present minimal credit risks. The sub-advisor maintains a dollar weighted average portfolio maturity of 60 days or less.

**NOTE F. RISKS AND UNCERTAINTIES**

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Additionally, certain registered investments invest in the securities of foreign companies which involve special risks and considerations not typically associated with U.S. companies. These risks include devaluation of currencies, less reliable information about issues, different securities transaction clearance and settlement practices and possible adverse economic developments. Moreover, securities of foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Cash did not exceed FDIC insurance limits as of July 24, 2023 and December 31, 2022. Substantially all non-cash investment assets are invested through a stock brokerage account, which is not federally insured.
