INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Transatlantic Holdings, Inc. Frozen Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Transatlantic Holdings, Inc. Frozen Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of and for the year then ended December 31, 2023, stating that the certified investment information, as described in Note 11 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2023 and reportable transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2022 Financial Statements

Predecessor auditors performed an audit of the 2022 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior-year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated October 9, 2023, indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2022 supplemental schedules, other than the information in the 2022 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2022 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF PLAN

The following brief description of the Transatlantic Holdings, Inc. Frozen Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the official Plan document for more complete information of the Plan's provisions.

Definition of Terms—Terms below appearing with initial capitalization are defined below or in the Plan's documents.

General—The Plan is a defined benefit plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants in the Plan are comprised predominantly of salaried U.S. employees of Transatlantic Holdings, Inc. ("THI") and its subsidiaries (collectively, "TransRe"), who, prior to January 1, 2010, had completed at least one year of Continuous Service with TransRe (or American International Group, Inc. ("AIG") and its subsidiaries prior to January 1, 2010) and attained age 21. The Plan is sponsored by THI and the trustee of the Plan is Vanguard Fiduciary Trust Company (the "Trustee"). Berkshire Hathaway, Inc. is the ultimate parent of THI.

Participants of the Plan were generally participants in the defined benefit plan sponsored by American International Group, Inc. prior to January 1, 2010. The Plan was established and made effective on January 1, 2010. It was established as a frozen plan. Accordingly, Participants will generally not accrue any future benefits under the Plan for any period beginning on or after January 1, 2010 and no new employees of TransRe hired after the effective date of the Plan will be considered Participants of the Plan. To fund the Plan initially, assets were transferred from the AIG Retirement Plan to the Plan.

Plan Benefits—Each vested Participant of the Plan is entitled to a frozen accrued benefit based on Credited Service and Average Final Compensation (subject to the IRS annual limitation on pensionable compensation) earned before January 1, 2010.

Early Retirement Benefits—Participants terminating employment with TransRe on or after their 55th birthday and the completion of at least ten years of Credited Service shall be entitled to an early retirement allowance on the first day of the calendar month next following receipt by the Employee Benefits Committee of written application therefor made by the Participant. Commencement of an early retirement allowance is optional on the part of Participants, provided that benefits must commence no later than age 65.

The annual early retirement allowance shall be computed using early retirement reduction factors applied to the normal retirement allowance.

Death and Disability Benefits—If a Participant should die while an active employee prior to his/her annuity commencement date after having completed five years of continuous service, his or her surviving spouse will receive a death benefit. A surviving spouse benefit is payable whenever a vested Participant dies after termination of employment but prior to commencing benefit payments. The surviving spouse benefit is generally equal to the survivor benefit the spouse would have received if the Participant had

commenced payments in the form of 50% qualified joint and survivor benefit the day before his or her death and then died thereafter.

If a Participant dies while actively employed the death benefit is calculated as per the Plan document. To be eligible for the above surviving spouse death benefit where the Participant dies during active employment, the Participant must have been married to the surviving spouse for a minimum of six months.

The death benefit shall generally be payable in monthly installments commencing with the first day of the month following the month in which the Participant dies, with some limitations and exceptions as detailed in the Plan document. The death benefit payable hereunder shall cease as of the first day of the month following the month in which the surviving spouse dies.

A disability retirement allowance as calculated per the Plan document is payable to a Participant who has completed ten years of Credited Service and who is totally incapacitated, mentally or physically, from the further performance of duty and that such incapacity is likely to be permanent.

Forms of Payment—The standard form in which Plan benefits are paid is a 50% joint and survivor annuity for married Participants and a single life annuity for unmarried Participants. At the Participant's election and subject to spousal consent in the case of married Participants, Plan benefits may be paid in the form of a 25%, 75% or 100% joint and survivor annuity, a 10-Year Period Certain Annuity, single life annuity or Social Security Leveling Option. Lump sum payments are available where the present value of such benefit is less than $10,000.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation—The accompanying statements of net assets available for benefits and statement of changes in net assets available for benefits have been prepared under the accrual method of accounting in accordance with generally accepted accounting principles in the U.S. ("GAAP").

Use of Estimates—The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts and related disclosures as of the date of the financial statements and for the period covered by the financial statements. Actual results may differ materially from these estimates.

Investment Valuation and Income Recognition—The Plan's investments are stated at fair value at the reporting date. Shares of registered investment companies are valued at quoted prices in active markets which represent the net asset value of shares held by the Plan at year-end.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year as well as held at year end.

Actuarial Present Value of Accumulated Plan Benefits—Accumulated Plan benefits represent the actuarial present value of those estimated future periodic payments to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) present employees or

their beneficiaries and are presented as the present value of future benefits attributable, under the Plan's provisions, to service rendered to the date of the actuarial valuation.

Payment of Benefits—Benefits are recorded when paid.

Administrative Expenses—Expenses for maintaining the Plan are principally paid by TransRe or the Plan.

Subsequent Events—On March 15, 2024, Mercer acquired the Vanguard Institutional Advisory Services business. On May 15, 2024, the Vanguard Group, Inc. and the Trustee have notified the Plan that they will cease providing trustee and pension payroll services on December 31, 2024. The Plan is in the process of engaging a new trustee and has engaged US Bank to provide record keeping services effective December 1, 2024.

The Plan has evaluated subsequent events through October 9, 2024, the date the financial statements were available to be issued. There were no events that required recording or disclosure.

3. FAIR VALUE MEASUREMENTS

Fair Value Measurements on a Recurring Basis—The Plan measures the financial instruments included in its investment portfolio at fair value on a recurring basis. The fair value of a financial instrument is the amount that would be received to sell an asset in an orderly transaction between willing, able and knowledgeable market participants at the measurement date.

The degree of judgment used in measuring the fair value of financial instruments generally correlates with the level of pricing observability. Financial instruments with quoted prices in active markets generally have more pricing observability and less judgment is used in measuring fair value. Conversely, financial instruments traded in other-than-active markets or that do not have quoted prices have less observability and are measured at fair value using valuation models or other pricing techniques that require more judgment. An active market is one in which transactions for the asset being valued occurs with sufficient frequency and volume to provide pricing information on an ongoing basis. An other-than-active market is one in which there are few transactions, the prices are not current, price quotations vary substantially either over time or among market makers, or in which little information is released publicly for the asset being valued. Pricing observability is affected by a number of factors, including the type of financial instrument, whether the financial instrument is new to the market and not yet established, the characteristics specific to the instrument and general market conditions.

Fair Value Hierarchy—Assets recorded at fair value in the statement of net assets available for benefits are measured and classified in a hierarchy for disclosure purposes consisting of three levels based on the observability of inputs available in the marketplace used to measure the fair values as discussed below:

Level 1—Fair value measurements that are quoted prices (unadjusted) in active markets that the Plan has the ability to access for identical assets. Market price data generally is obtained from exchange or dealer markets. Assets measured at fair value on a recurring basis and classified as Level 1 consist of investments in registered investment companies.

Level 2—Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets in active markets and inputs other than quoted prices that are observable for the asset, such as

interest rates and yield curves that are observable at commonly quoted intervals. No assets were measured at fair value on a recurring basis and classified as Level 2.

Level 3—Fair value measurements based on valuation techniques that use significant inputs that are unobservable. These measurements may be made under circumstances in which there is little, if any, market activity for the asset. The assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment. In making the assessment, factors specific to the asset are considered. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety. No assets were measured at fair value on a recurring basis and classified as Level 3.

The following tables presents information about assets measured at fair value on a recurring basis at December 31, 2023 and 2022 and indicates the level of the fair value measurement based on the levels of the inputs used:

As of December 31, 2023

	Level 1	Level 2	Level 3	Total
Assets:				
Registered investment companies	$ 44,938,302	$ -	$ -	$ 44,938,302
Total of level 1, 2 and 3	$ 44,938,302	$ -	$ -	$ 44,938,302

As of December 31, 2022

	Level 1	Level 2	Level 3	Total
Assets:				
Registered investment companies	$ 43,502,846	$ -	$ -	$ 43,502,846
Total of level 1, 2 and 3	$ 43,502,846	$ -	$ -	$ 43,502,846

4. INVESTMENT CONCENTRATION

Investments at fair value that represent 10% or more of the Plan's net assets as of December 31, 2023 are identified below:

As of December 31, 2023

Vanguard Long-Term Index Fund Institutional Shares	$ 16,299,129
Vanguard Long-Term Investment-Grade Fund Admiral Shares	17,811,984
Vanguard Intermediate-Term Investment-Grade Fund Admiral Shares	10,827,189
	$ 44,938,302

A significant change in the market value of these investments could significantly affect the net assets available for benefits.

5. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions and accumulated plan benefits are based upon actuarial estimates and are prepared on the basis of certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

6. TAX STATUS

The Plan has received a determination letter from the Internal Revenue Service dated January 4, 2018, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "IRC") and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and therefore, believes the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or assets) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are expected future periodic payments, including lump-sum distributions, which are attributable under the Plan's provisions for the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are based on the formulas described in Note 1. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2023 and 2022 are as follows:

Valuation Discount Rate

Accounting Standards Codification Topic 960 Discount Rate for 2023 was 4.12% and 2022 was 5.09%.

Valuation Mortality

The December 31, 2023 present value of accumulated plan benefits uses the PRI-2012 White Collar Mortality, Male and Female, projected generationally using the MP-2021 mortality improvement scale. The Employee and Retiree mortality tables were used for the active, terminated vested and retired participants. The Contingent Survivor mortality table was used for beneficiaries currently receiving payment. The December 31, 2022 present value of accumulated plan benefits uses the PRI-2012 White Collar Mortality, Male and Female, projected generationally using the MP-2021 Projection Scale.

Pre-Retirement Termination

Number of Terminations per 1,000 Employees broken down by employee age and years of service:

	Years of Employment					
Age	**1 to 2**	**3 to 4**	**5 to 6**	**7 to 8**	**9 to 10**	**10 and over**

55	250.0	200.0	180.0	150.0	100.0	-

Retirement

Number of Retirements per 1,000 Employees (Male; Female):

Age	**Number of Retirements**
55–57	10.0
58–61	20.0
62	150.0
63	50.0
64	100.0
65	900.0
66–69	400.0
70	1,000.0

Benefit Commencement Age for Deferred Vested Participants

The benefit commencement age for deferred vested participants is 65.

Disability

Number of Disabilities per 1,000 Employees (Male; Female)

Age	Number of Disabilities
21	0.3
25	0.4
30	0.6
35	1.0
40	1.6
45	2.6
50	4.5
55	8.5
60	12.0
65	15.4

Spouse Assumptions

Male participants: 80% are assumed to be married with the spouse assumed to be 3 years younger.

Female Participants: 80% are assumed to be married with the spouse assumed to be 3 years older.

Form of Payment

Life Annuity for unmarried participants; 50% Joint and Survivor Annuity for married participants.

Actuarial Cost Method

Unit Credit actuarial cost method which reflects benefits attributable to service as of the valuation date.

Assumption and Method Changes from Prior Year

Mortality for funding was changed from the 2023 Optional Combined for small plans male and female tables to the 2024 Static Mortality male and female tables. Funding discount rates were updated to the IRS prescribed 2024 segment rates. The ASC 960 discount rate decreased from 5.09% to 4.12%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. It is the Plan's policy to have actuarial information prepared as of the end of the plan year.

The actuarial present value of accumulated plan benefits for the Plan is computed at December 31, 2023 and December 31, 2022 as follows:

	December 31, 2023	December 31, 2022
Vested benefits		
Active participants	$16,718,280	$16,326,684
Inactive participants with deferred benefits	13,315,398	11,309,709
Inactive participants receiving benefits	26,548,839	22,145,264
Total vested benefits	56,582,517	49,781,657
Nonvested benefits	-	-
Total actuarial present value of accumulated plan benefits	$56,582,517	$49,781,657

The change in present value of accumulated plan benefits for the twelve months ended December 31, 2023 is as follows:

Actuarial present value of accumulated plan benefits at beginning of period	$49,781,657
Increase (decrease) during year attributable to:	
Benefits accumulated and actuarial (gains) losses	231,880
Increase for interest due to the decrease in discount period	2,481,598
Benefits paid	(2,054,552)
Change in actuarial assumptions	6,141,934
Change in Plan Provisions	-
Other changes	-
Net increase (decrease)	6,800,860
Actuarial present value of accumulated plan benefits at end of period	$56,582,517

8. FUNDING POLICY

Notwithstanding any provision of the Plan to the contrary, effective as of January 1, 2010, the minimum funding requirements for the Plan shall be determined under the applicable provisions of IRC Sections 412 and 430. It is the intention of TransRe to maintain at least the minimum level of funding as required by the applicable regulations. No contributions by Participants are permitted or required.

All company contributions are conditioned upon their deductibility under IRC Section 404, or any successor provision thereto. If any such contribution is determined not to be deductible, then such contribution (to the extent disallowed) shall be returned to TransRe within one year after such disallowance of the deduction. However, except as may be required by ERISA, TransRe is not under any

obligation to make any contributions under the Plan after the Plan is terminated, whether or not benefits accrued prior to such date of termination have been fully funded.

Notwithstanding any provision to the contrary in the Plan documents, the Plan was frozen as of January 1, 2010. TransRe shall from time to time make such contributions as are necessary or desirable to fund the Plan's frozen accrued benefits. The Plan has met the minimum funding requirements for the year ended December 31, 2023.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, THI reserves the right under the Plan to terminate the Plan subject to the provisions set forth under ERISA and the Plan's documents.

THI may amend, modify or terminate the Plan for any reason at any time provided that no modification or amendment shall make it possible for any part of the funds of the Plan to be used for, or diverted to, purposes other than for the exclusive benefit of Participants or their beneficiaries or contingent annuitants under the Plan, prior to satisfaction of all liabilities with respect to them.

In the event the Plan is terminated pursuant to a standard termination and no successor plan is established, the net assets of the Plan will be allocated among the participants and beneficiaries of the Plan in the order provided for under ERISA. In distributing such assets, the Plan Administrator will either (i) purchase irrevocable commitments from an insurer to provide all benefit liabilities under the Plan, or (ii) in accordance with provisions of the Plan and any applicable regulations otherwise fully provide benefit liabilities under the Plan (generally, this could include providing an election to receive a lump sum, or an annuity).

To the extent unfunded vested benefits remain, the Pension Benefit Guaranty Corporation ("PBGC") will take over the Plan and pay certain benefits under the Plan to participants, up to specified limitations, as described under ERISA. For the 2023 Plan year, the maximum guaranteed monthly and annual benefits for a 65-year old retiree are $6,750 and $81,000, respectively. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees as described above.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

10. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of registered investment companies managed by affiliates of the Trustee. The Trustee acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from prohibited transaction rules.

11. CERTIFIED INVESTMENT INFORMATION

Certain information related to investments of the Plan disclosed in the accompany financial statements and supplemental schedules including investments held at December 31, 2023 and 2022, and interest, dividends and net appreciation (depreciation) in fair value of investments, for the year ended December 31, 2023, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

January 1, 2023 Actuarial Valuation Report

Summary of Assumptions and Methods

Valuation Interest Rates

The non-stabilized segmented yield curve for October 2022 is as follows:

Segment 1 (0 to 5 years) - 1.57%
Segment 2 (6 to 20 years) - 3.21%
Segment 3 (over 20 Years) - 3.66%
Effective Interest Rate - 3.34%

The stabilized segmented yield curve for October 2022 is as follows:

Segment 1 (0 to 5 years) - 4.75%
Segment 2 (6 to 20 years) - 5.00%
Segment 3 (over 20 Years) - 5.74%
Effective Interest Rate - 5.26%

ASC 960 Interest Rate - 5.09%

Valuation Mortality

Funding under IRC 430 - 2023 Optional Combined for Small Plans, male and female.

FASB ASC 960 - PRI-2012 White Collar Mortality, male and female, projected generationally using the MP-2021 mortality improvement scale. The Employee and Retiree mortality tables were used for the active, terminated vested and retired participants. The Contingent Survivor mortality table was used for beneficiaries currently receiving payment.

Retirement Rates - See table of sample rates in Table A.

Termination Rates - See table of sample rates in Table B.

Disability Rates - See table of sample rates in Table C.

Marriage Assumption - Male participants: 80% are assumed to be married with the spouse assumed to be 3 years younger. Female Participants: 80% are assumed to be married with the spouse assumed to be 3 years older.

Benefit Commencement Age for Deferred Vested Participants - Age 65.

Expenses paid by the Trust - $110,000 included in Target Normal Cost. Expected expenses are assumed to be equal to the actual expenses for the prior year rounded to the nearest thousand.

Form of Payment - Life Annuity for unmarried participants; 50% Joint and Survivor Annuity for married participants.

Actuarial Cost Method - Unit Credit actuarial cost method which reflects benefits attributable to service as of the valuation date.

Asset Valuation Method - The Actuarial Value of Assets (AVA) is equal to the Market Value of Assets (MVA) as of the valuation date, including contributions for the prior year which are still receivable discounted back to the valuation date.

Assumption and Method Changes - Mortality for funding was changed from the 2022 Optional Combined male and female tables to the 2023 Optional Combined male and female tables. Funding discount rates were updated to the IRS prescribed 2023 segment rates. The ASC 960 discount rate was increased from 4.11% to 5.09%.

Summary of Assumptions and Methods (continued)

Benefits not valued - All benefits described in the Plan Provisions section of this report were valued. Benassist Retirement Consulting has reviewed the plan provisions with Transatlantic Holdings, Inc. and based on that review, is not aware of any significant benefits that were not valued.

Rationale for significant economic assumptions

Discount rates - Rates required by the Internal Revenue Code. As required by ASC 960, the discount rate was chosen by the plan sponsor based on market information on the measurement date.

Expected return on plan assets – It is our understanding that the expected return on assets assumption reflects the plan sponsor's estimate of future returns based on: (a) the plan's current asset allocation and any upcoming changes; and (b) current and expected market conditions. We have relied on capital market projections provided by Vanguard, the Plan's investment consultant, to evaluate the investment return assumption.

Rationale for significant demographic assumptions

Mortality - Tables required by the Internal Revenue Code. As required by the ASC 960, this assumption was selected by the plan sponsor and represents a best estimate of future experience.

Termination rates - Professional judgement along with (a) employer-specific or job-related factors such as occupation, employment policies, work environment and location of employment; (b) plan provisions, such as early retirement benefits, vesting schedule, or payout options; and (c) plan experience. Analysis of the experience (gain)/loss is conducted on an annual basis to identify any unusual trends in demographic assumptions.

Retirement rates - Professional judgement along with (a) employer-specific or job-related factors such as occupation, employment policies, work environment and location of employment; (b) the plan design, where specific incentives may influence when participants retire; (c) the design of, and date of anticipated payment from Social Security and Medicare; (d) the availability of other employer-sponsored postretirement benefit programs; and (e) plan experience. Analysis of the experience (gain)/loss is conducted on an annual basis to identify any unusual trends in demographic assumptions.

ASOP 56 - Model disclosure

Benassist Retirement Consulting uses a proprietary actuarial valuation system to perform actuarial valuations of defined benefit and OPEB plans. The system processes census data, calculates benefit amounts and develops associated actuarial liabilities. The system has the flexibility to accommodate various populations, plan designs, demographic, economic and benefit related assumptions. Actuarial liabilities are calculated using standard actuarial techniques. The actuarial liabilities generated by the system rely on the assumptions selected and entered by the user. The system does not evaluate any assumptions for reasonableness, consistency or probability of occurrence. The system is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuary signing this report has performed a limited review of results to ensure that system has been set up appropriately and the plan provisions have been coded correctly.

Certain demographic tables described above are standard published tables.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

January 1, 2023 Actuarial Valuation Report

Summary of Plan Provisions

Effective Date and Plan Year – January 1, 2010. The plan year is the calendar year.

Participating Employees - Each employee shall become a member on the first of the month following attainment of age 21 and completion of 1 year of continuous service.

Eligibility – TRH employees who were participating in the AIG Retirement Plan as of December 31, 2009. No new Participants will enter the plan after December 31, 2009.

Employer Contributions - The Company contributes the entire cost of the Plan.

Credited Service - Sum of AIG plan membership service after April 1, 1985 (for employees who became Participants after January 1, 1994 AIG service will be increased by 6 months), AIG plan membership service after January 1, 1971 and prior to April 1, 1985 during which the member contributes to the Plan, and Predecessor Plan service before January 1, 1971. Notwithstanding the foregoing, Credited Service is frozen as of December 31, 2009 for all participants.

Vesting Service - Continuous service from date of hire (with AIG) rendered after age 18.

Compensation - Base pay and sales commissions. Notwithstanding the foregoing, Compensation subsequent to December 31, 2009 is not considered in determining accrued benefits.

Average Final Compensation - Average of the Compensation in the three consecutive years in the last 10 years that produce the highest average. For all Participants, Average Final Compensation was determined as of December 31, 2009 for all active Participants and is fixed as of that date.

Covered Compensation - 150% of the average of the Social Security Taxable Wage Bases in effect for each calendar year during the 35 year period ending with the last day of the calendar year in which the Participant attains or will attain Social Security Retirement Age. Covered Compensation is limited to the Social Security Taxable Wage Base in the year of termination. For all Participants, Covered Compensation was determined as of December 31, 2009 for all active Participants and is fixed as of that date.

Normal Retirement Date - First of the month next following the later of a Participant's 65th birthday and the fifth anniversary of the date of participation.

Early Retirement Date - First of any month coinciding with or following attainment of age 55 and completion of 10 years of Credited Service.

Accrued Benefit - A life annuity equal to [(A) + (B)] x (C) - (D):

(A) 1.25% x Average Final Compensation up to Covered Compensation plus 1.75% of Average Final Compensation in excess of Covered Compensation x Credited Service to March 31, 1985 (limited to 35 years) plus 1.75% x Average Final Compensation x Credited Service to March 31, 1985 in excess of 35 years but limited to 40 years.

(B) .925% x Average Final Compensation up to Covered Compensation plus 1.425% of Average Final Compensation in excess of Covered Compensation x projected Credited Service from April 1, 1985 through age 65 (limited to 35 years minus the years of pre-4/1/1985 Credited Service) plus 1.425% x Average Final Compensation x projected Credited Service from April 1, 1985 through age 65 in excess of 35 years (including pre-4/1/1985 Credited Service) but limited to 44 years (including pre-4/1/1985 Credited Service).

(C) The ratio of Credited Service at termination to projected Credited Service through age 65.

Maximum annual allowance - larger of: (i) allowance calculated on basis of Predecessor Plan using total Credit Service; or (ii) allowance calculated on basis of AIG Plan using total Credited Service limited to 44 years.

Minimum annual allowance - larger of: (i) allowance calculated on basis of AIG Plan using total Credited Service limited to 44 years; or (ii) $1,200 reduced proportionally if member has less than 10 years of credited service.

(D) The benefit, if any, accrued under the Prior Plan (which terminated effective March 31, 1985).

Notwithstanding the foregoing, Accrued Benefits were frozen as of December 31, 2009 for all Participants.

Summary of Plan Provisions (continued)

Normal Retirement Pension - A Life Annuity starting at Normal Retirement Date equal to the Accrued Benefit.

Early Retirement Pension – For each year prior to the Normal Retirement Date, the Accrued Benefit is reduced as follows:

3.0% for retirements on or after age 60 with 30 or more years of service
4.0% for retirements on or after age 60 with 25 years of service
5.0% for all other Participants who retire after attainment of age 55 with 10 or more years of service.

Vested Retirement Pension - Accrued Benefit deferred to Normal Retirement Date or a reduced allowance payable at age 55 or later, if the Participant terminated with 10 years Credited Service. The reduction is equal to 1/15 for each of the first five years and 1/30 for each additional year that benefits commence prior to Normal Retirement Date.

Disability Pension - A Participant who has not reached his Normal Retirement Date but who has completed ten years of Credited Service shall be retired on a disability retirement allowance, provided that such Participant is totally incapacitated, mentally or physically, from the further performance of duty and that such incapacity is likely to be permanent. However, a Participant may not retire on a disability allowance while in receipt of disability salary continuance, weekly disability income benefits or long-term disability benefits under a program administered by the Company. The disability retirement allowance shall be equal to the Accrued Benefit as of December 31, 2009.

Pre-retirement Spouse's Survivorship Pension - Eligibility occurs on death in active service after 5 years of continuous service. If the participant's Compensation for the 12 calendar months prior to the month in which death occurs is equal to $65,787 or less, the death benefit is the greater of (a) or (b) below.

> 40% of the Participant's Accrued Benefit as of December 31, 2009, reduced 2% for each year that the surviving spouse is more than 5 years younger than the Participant.
>
> The amount which would have been payable to the spouse had the Participant terminated immediately prior to death and elected to receive payment at the first eligible age with a 50% Joint and Survivor Annuity option (100% Joint and Survivor Annuity option if death occurs at or after the Normal Retirement Date) in effect.

If the Participant's Compensation for the 12 calendar months prior to the month in which death occurs is in excess of the $65,787 threshold, the death benefit is equal to the amount described in (b) above.

Forms of Payment –

> Normal: (a) Participant with no spouse - Life annuity, (b) Participant with spouse - Reduced 50% Joint and Survivor annuity.
>
> Optional: (a) Joint and Survivor annuity (100%, 75%, 50%, and 25%), (b) 120 months certain and life, (c) Lump sum if value of benefit is less than $10,000, (d) Social Security leveling.

Actuarial Equivalence for Alternative Forms of Payment - Amount of an alternative form of benefit (other than a lump sum and social security leveling option) which has a value equivalent to the benefit or benefits otherwise payable under the plan, computed on the basis of a 7.5% compound annual interest rate and the mortality table described in IRS Revenue Ruling 2001-62.

Actuarial Equivalence for Lump Sum and Social Security Level Income – PPA mortality and interest rates equal to the 3-tiered minimum present value segment rate for the three months preceding the benefit commencement date and reflecting the appropriate phase-ins.

Maximum Compensation - Compensation for any 12-month period used to determine Accrued Benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins.

Maximum Benefits - Annual benefits may not exceed the limits in IRC Section 415.
