Funko 401(k) Plan
Communication of Internal
Control Related Matters

Year Ended December 31, 2023

Plan Administrator and Plan Management Funko 401(k) Plan

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Funko 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2023, in accordance with auditing standards generally accepted in the United States of America, we considered the Plan's system of internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Voya Institutional Trust Company that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the preceding paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified deficiencies in internal control that we consider to be significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Plan's financial statements will not be prevented, or detected and corrected, on a timely basis. We did not identify any deficiencies in internal control that we consider to be material weaknesses.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A reportable finding is an indication of deficiencies in internal control identified during the audit that have not been communicated to management by other parties and that, in the auditor's professional judgment, are of sufficient importance to merit management's attention.

We consider the following deficiencies in the Plan's internal controls to be significant deficiencies and considered reportable findings:

Automatic Enrollment

During our 2022 audit procedures, we noted one employee (Delaney J. Norman) who was not enrolled in the Plan in a timely manner. There was no evidence that Norman's account had been corrected for the missed deferrals during 2023. We recommend that corrective contributions be contributed to this participant using one of the safe harbor correction methods allowed by the Internal Revenue Service (IRS). Failure to timely correct these errors could potentially result in the loss of the Plan's tax-exempt status. Automatic enrollment errors have been a recurring issue in recent years. Management performed an analysis to determine if any other employees were not properly auto enrolled during November 2023 as well as February 2024 noting no other auto-enrollment errors. We recommend that management implement additional controls to ensure that auto enrollment is appropriately monitored. We recommend implementing steps in the hiring process to serve as preventative controls, as well as monitoring procedures throughout the year to ensure that any errors that are not prevented are detected and corrected in a timely manner.

No Employer Match Received in Error

During the 2022 audit, we identified six participants who did not receive an employer safe harbor matching contribution in error. During 2023, we reviewed evidence that five of the six employees had been corrected. Two of these employees had corrections that exceeded the amount needed; Javier Bernal (\$125.84) and Emilie Gibson (\$273.32). We recommend these amounts to be considered for forfeiture. Additionally, Luis Salazar does not appear to have had his 2022 employer match correction funded and we suggest that it be corrected in the amount of \$98.93, plus lost earnings.

During our 2023 audit procedures, we identified Kyle Seymour whom had salary deferrals of \$8.93 and no associated safe harbor matching contribution. Kyle has since terminated. We recommend that management consider funding a corrective contribution, along with lost earnings. We also recommend that plan management implement additional controls to prevent similar errors from occurring in the future.

Employer Match in excess of IRS limits

During our 2022 procedures, we found that two participants (Jennifer Fall Jung and Joseph Sansone) received employer matching contributions in excess of the 2022 maximum limit of \$12,200 (4% of the eligible compensation limit of \$305,000 for 2022). We could not find evidence that these two employees had forfeitures withdrawn from their account during the year: Jung \$649.23 and Sansone \$92.31. We recommend that management correct this as soon as practicable. We also recommend that Plan management implement policies and procedures to ensure the employer matching contribution calculations are accurate before amounts are remitted to the Plan.

Involuntary Cash-Out Feature

As discussed at the conclusion of the 2022 audit, we identified terminated participant account balances that were below \$5,000, and should have been distributed out of the Plan in accordance with the Plan adoption agreement. We are aware that there was no change in procedures during 2023. We recommended that management, on a periodic basis, review the

accounts of inactive participants to ensure the balances under \$5,000 are being distributed in accordance with the Plan's involuntary cash-out rules.

Delinquent Contributions into the Plan

We were made aware by plan management that the August 4, 2023 payroll was considered delinquent as the associated contributions were not received into the Plan within the average number of days (2 days for regular cycle payroll and 14 days for off-cycle payroll). The delinquency was caught by the Company's finance department upon performing reconciliations during the following payroll run. Plan management has corrected for associated lost earnings during January 2024. Although controls in place did catch the delinquency, we recommend that review and reconciliation be performed after every pay date to ensure funds are properly funded more timely.

Forfeiture Error

During our 2023 audit procedures, we found that Eric Duffey had a forfeiture of his entire profit sharing balance. This employee accrued two years of service from January 2016 to May 2018 and therefore was 20% vested. We recommend that management correct this error and reinstate Eric's vested profit sharing balance in the amount \$249.77. Additionally, we recommend that management implement additional controls to review any forfeitures that occur for accuracy.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Plan personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations.

Independent Auditor's Report

Plan Administrator and Plan Management Funko 401(k) Plan

Scope and Nature of ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of Funko 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of ERISA Section 103(a)(3)(C) Audits section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, and the schedule of delinquent contributions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Funko 401(k) Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Funko 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all domestic eligible employees of Funko, LLC (the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Funko 401(k) Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Employer is the Plan's sponsor and administrator. The Plan's trustee is Voya Institutional Trust Company and the third party administrator is Voya Retirement Insurance and Annuity Company, collectively Voya.

Eligibility

Employees eligible to participate in the Plan include domestic nonunion employees. Eligible employees may begin participating in the Plan the first day of each calendar month.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may elect to categorize a portion or all of their contribution under the Plan's Roth deferral feature. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated fund until changed by the participant. Participant salary deferral contributions are funded to the Plan following each pay date. Participants may also contribute amounts representing distributions from other qualified defined contribution plans (rollovers).

In order to satisfy the safe harbor rules of the Internal Revenue Code (the Code), the Employer matches 100% up to 4% of the participant's eligible compensation for the Plan year. In addition, the Employer may elect, at its discretion, to make profit sharing contributions to the Plan. During 2023, the Employer elected not to fund any profit sharing contributions to the Plan. Effective for 2024, the Employer has notified its employees of its intent that each eligible employee will receive a safe harbor matching contribution, as defined above, from the Employer. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Funko 401(k) Plan
Notes to Financial Statements

1. Description of Plan, continued

Participant Accounts

Each participant's account is credited with the participant's contributions, as well as an allocation of the Employer's contributions and plan earnings. Participants direct the investment of their account balances into various investment options offered by the Plan. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions and/or statuses, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and Employer safe harbor matching contributions, plus actual earnings thereon. Vesting in the Employer's profit sharing contributions, if any, is based on years of continuous service. A year of service is defined as 1,000 hours worked during a Plan year. In the event a participant terminates employment due to death, disability, or after reaching the Plan's normal retirement age (65), a participant's account becomes fully vested.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. A participant can only have one loan outstanding at a time. The loan interest rate is set at 1% above the prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant or their beneficiary may receive the value of the vested interest in his or her account as a lump sum distribution. Distributions may also be made in installments to comply with minimum distribution rules required by the Code. The Plan permits in-service withdrawals to participants meeting certain requirements. Furthermore, a participant may withdraw the portion of their vested account resulting from rollover contributions at any time.

Forfeited Accounts

Forfeitures of the nonvested portions of terminated participants' accounts are maintained in a separate account and are used to reduce the Employer's safe harbor matching contribution or pay the Plan's administrative expenses. At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$3,134 and \$29,178, respectively. During 2023, forfeitures of \$28,740 were reinstated to affected participants' accounts.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 4 and 5 for discussion of fair value and contract value measurements, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as benefits paid to participants on the basis of the terms of the plan agreement.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payment fees are charged directly to the participant's account and are included in administrative expenses. Fees for custodial and trust services provided to the Plan are charged to participants in proportion to their account balances and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

2. Summary of Accounting Policies, continued

Subsequent Events

The Plan has evaluated subsequent events through October 3, 2024, the date the financial statements were available to be issued.

3. Certified Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule of assets (held at end of year), including investments held and notes receivable from participants at December 31, 2023 and 2022, and net appreciation in fair value of investments, dividends, interest, and interest income on notes receivable from participants for the year ended December 31, 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Voya Institutional Trust Company, the trustee.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy under the Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2: Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements, continued

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

- Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Collective trust funds: Valued at the fund's per unit NAV provided by the fund's trustee. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participants may initiate redemptions in the collective trust funds on a daily basis and there are currently no unfunded commitments. Were the Plan to initiate a full redemption of the collective trust funds, thirty to sixty days advance notice would be required.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 9,692,529	\$ -	\$ -	\$ 9,692,529
Investments measured at NAV				24,851,909
				<u>\$ 34,544,438</u>
Assets at Fair Value as of December 31, 2022				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 6,440,430	\$ -	\$ -	\$ 6,440,430
Investments measured at NAV				18,509,844
				<u>\$ 24,950,274</u>

5. *Group Annuity Contract with Voya Retirement Insurance and Annuity Company*

The Plan invests in a traditional fully benefit-responsive group annuity contract with Voya Retirement Insurance and Annuity Company (VRIAC) totaling \$616,599 and \$250,789 as of December 31, 2023 and 2022, respectively. The contract has no defined maturity date. VRIAC maintains the contributions in a general account. The account is credited with contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. VRIAC is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by VRIAC but may not be less than a guaranteed minimum interest rate (1.00%). The crediting rate may be reset by VRIAC at any time.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on VRIAC's ability to meet its financial obligations. VRIAC's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with VRIAC. Such events include the decision to terminate the group annuity contract. The group annuity contract may be terminated at any time by either the Employer or VRIAC. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with VRIAC and that also would limit the ability of the Plan to transact at contract value with the participants.

6. *Related-Party and Party-In-Interest Transactions*

Certain Plan investments are managed by Voya. Voya is the trustee and third party administrator for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants held by the Plan are party-in-interest transactions under ERISA. Furthermore, expenses paid by the Plan are to parties-in-interest as defined by ERISA. Furthermore, as described in Note 8, the Employer has adopted a pre-approved defined contribution plan sponsored by Voya.

Funko 401(k) Plan
Notes to Financial Statements

7. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in their Employer profit-sharing contributions.

8. Tax Status

The Plan has adopted a Voya pre-approved defined contribution plan document that received an opinion letter dated June 30, 2020, in which the IRS stated that the Plan, as designed, complied with the applicable requirements of the Code. The Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts as reported in the financial statements.

10. Employer Corrective Contributions

During 2023, plan management discovered various operational and compliance errors. As a result of these errors, plan management took action to evaluate the situation and to make appropriate corrections as warranted. As a result, employer corrective contributions, including lost earnings, in the amount of \$90,096 were funded during the year.

11. Delinquent Participant Contributions

As reported on Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, during the year ended December 31, 2023, participant contributions in the amount of \$200,438 were not remitted to the Plan within the time frame specified by the DOL's Regulation 29 CFR 2510.3-102, thus constituting a nonexempt party-in-interest transaction between the Plan and the Employer. Plan management self-corrected for lost earnings associated with the delinquent contributions during the year ended December 31, 2024.

12. Reconciliation to Form 5500

Participant loans that are considered in default (deemed distributed) as of the end of the Plan year are removed from participant loans and recorded as an expense on the Form 5500. For financial reporting purposes, deemed distributed loans are included within notes receivable from participants until the participant incurs a distributable event or repays the defaulted loan. The following is a reconciliation of net assets available for benefits per the financial statements as of December 31, 2023 and 2022, to Form 5500:

	<u>2023</u>	<u>2022</u>
Net assets available for benefits per the financial statements	\$ 35,406,686	\$ 25,409,038
Less deemed distributed loans	<u>(26,128)</u>	<u>(7,632)</u>
Net assets available for benefits per Form 5500	<u>\$ 35,380,558</u>	<u>\$ 25,401,406</u>

The following is a reconciliation of changes in net assets available for benefits per the financial statements for the year ended December 31, 2023, to Form 5500:

Net increase in net assets available for benefits per the financial statements	\$ 9,997,648
Plus deemed distributed loans at December 31, 2022	7,632
Less deemed distributed loans at December 31, 2023	<u>(26,128)</u>
Net increase in net assets available for benefits per Form 5500	<u>\$ 9,979,152</u>

In addition, participant contributions as reported within the Form 5500 vary from the statement of changes in net assets available for benefits per the financial statements for the year ended December 31, 2023 by \$45,123. The Form 5500 has classified certain corrective contributions related to participant accounts as participant contributions whereas these amounts are included as employer corrective contributions per the financial statements.
