INDEPENDENT AUDITORS' REPORT

To the Participants in and Plan Administrator of
Mohawk Industries Retirement Plan 1:

Opinion

We have audited the accompanying financial statements of Mohawk Industries Retirement Plan 1 (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MOHAWK INDUSTRIES RETIREMENT PLAN 1

Notes to Financial Statements

Years Ended December 31, 2023 and 2022

(1) Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Mohawk Industries Retirement Savings Plan 1 (the Plan) in preparing its financial statements.

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and changes in those net assets.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(b) Investments

The Mohawk Industries Retirement Plan 1 Master Trust and Mohawk Industries Retirement Plan 2 Master Trust (Master Trust) was established on January 1, 2007. As of December 31, 2023 and 2022, the Plan's investments consist of its interest in the net assets of the Master Trust. The Master Trust is an arrangement by which investments of the Plan and one other Mohawk Carpet, LLC defined-contribution plan share a trust (see note 5). The Plan's investment in the Master Trust is based on its equity share of the Master Trust's net assets.

The Master Trust's investments are stated at fair value. Fair value of registered investment companies and common stocks is based on the quoted market or redemption values on the last business day of the Plan year. Securities traded on a national securities exchange are valued at the closing market price on the last business day of the Plan year. The Plan's interest in a common collective fund is valued at net asset value ("NAV") provided by the fund's trustee as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments held by the respective fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan presents in the statement of changes in net assets available for plan benefits the Plan's interest in income (loss) of the Master Trust, which consists primarily of the realized net gains (losses) on the fair value of the Master Trust investments and the unrealized net appreciation (depreciation) on those investments.

The Plan provides for investing in numerous funds, which invest in various types of investment securities and in various companies in various markets. Investment securities, generally, are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with the funds, it is reasonably possible that changes in the values of the funds will occur in the near term and such changes could materially affect the amounts reported in the financial statements and supplemental schedule of assets (held at end of year).

MOHAWK INDUSTRIES RETIREMENT PLAN 1

Notes to Financial Statements

Years Ended December 31, 2023 and 2022

(2) Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan and covers all hourly employees, except employees in the Karastan Bigelow Group and the Lauren Park Mill Group, of Mohawk Carpet, LLC (the Company) and its affiliates located in the U.S. and Puerto Rico. The Company is a wholly owned subsidiary of Mohawk Industries, Inc. The Plan provides for retirement savings to qualified active participants through both participant and employer contributions and is subject to certain provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA). Effective November 1, 2019, full-time employees, as defined, are eligible to participate in the Plan at the beginning of the calendar month after the completion of 60 days of service. Prior to November 1, 2019, full-time employees, as defined, were eligible to participate in the Plan after the completion of 90 days of service. Part-time employees, as defined, are eligible to participate in the Plan after one year of service. Effective November 1, 2019, only full-time regular employees, as defined, will be automatically enrolled in the Plan as of his/her entry date at a contribution rate of 3% of pay unless the participant elects otherwise. Prior to November 1, 2019, all newly eligible employees were automatically enrolled at a contribution rate of 3%. Employees may opt out or discontinue contributing to the Plan at any time.

The Plan is administered by an Administrative Committee (Committee) appointed by the Company. The Committee is responsible for the control, management, and administration of the Plan and the assets. Fidelity Management Trust Company (Fidelity) is the Trustee of the Plan.

(b) Contributions

Contributions to the Plan are made by both participants and the Company. Participants may contribute a maximum of 50% of their eligible compensation, subject to certain limitations. Participants may allocate their contributions in multiples of 1% to various investment funds of the Plan. Participants who are considered a Highly Compensated Employee by the Internal Revenue Service (IRS) definition are limited to a 6% annual deferred maximum, subject to certain limitations. Effective April 8, 2019, participants are eligible to make after-tax contributions to the Plan. Prior to April 8, 2019, after-tax contributions were not permitted under the Plan. For all participants, the Plan has a discretionary company match provision which provided 50% matching contributions up to the first 6% of each participant's gross compensation contributed to the Plan in 2023.

The terms of the Plan also provide for discretionary employer profit sharing contributions to plan participants employed on the last day of the plan year or terminated during the plan year on account of death, disability, or retirement. There were no discretionary employer profit sharing contributions relating to the plan year ending December 31, 2023.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions for the period as well as the employer's matching contribution and an allocation of any discretionary employer profit sharing contribution. Investment income, realized gains/losses, and the change in unrealized appreciation or depreciation on plan investments are credited to participants' accounts daily based on the proportion of each participant's account balance to the total account balance within each investment fund at the beginning of the month.

Participant accounts may be invested in one or more of the investment funds available under the Plan at the direction of the participant. The Plan provides for daily valuation of accounts.

Years Ended December 31, 2023 and 2022

(d) Distributions to Participants

A participant's account shall be distributed in a lump sum payment in cash. If any portion of the account is invested in Company stock, the participant may elect to receive the Company stock in whole shares with cash paid for fractional shares. Unless another election is made by the participant, an account balance less than \$1,000 will be paid out in cash. Unless another election is made by the participant, an account balance between \$1,000 and \$5,000 will be rolled into a Fidelity IRA established for the participant's benefit and the account balance will be invested in the Fidelity Cash Reserves Fund, an investment product designed to preserve principal and provide a reasonable rate of return.

Under the terms of the Plan, participants may make hardship withdrawals from their accounts upon furnishing proof of hardship as specified in the plan agreement. Participants may also borrow the lesser of \$50,000 or 50% of the value of their accounts subject to limitations provided by the Plan. Loans must be paid back to the Plan generally within four years of the loan date, with the exception of home equity loans.

Benefits are recorded when paid.

(e) Vesting

Participants are immediately vested in their contributions and any income earned on such contributions. Participants are vested in the Company's matching and discretionary contributions after one year of service.

Amounts forfeited by participants who terminate from the Plan prior to being 100% vested are applied to reduce subsequent Company contributions to the Plan and/or administrative expenses. In 2023, no forfeited funds were used for employer contributions. In 2023, \$0.0 million of forfeited funds were used to pay administrative expenses. As of December 31, 2023 and 2022, forfeited balances were \$0.3 million and \$0.1 million, respectively.

(f) Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. These costs include legal, accounting, and certain administrative fees. All other Plan related expenses are paid by the Plan.

(g) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans from participants are reclassified as distributions based upon the terms of the Plan document in compliance with IRS guidelines. Loan payments are made through payroll deductions with interest based on the prime interest rate as listed in the Wall Street Journal on the first day of the calendar quarter in which the loan is made plus 1.0%. Generally, loans must be repaid over a period not to exceed four years.

(3) Transactions with Parties in Interest

As of December 31, 2023 and 2022, the Master Trust held investments in Mohawk Industries, Inc. common stock, registered investment companies and a common collective fund that are sponsored by the Trustee. In addition, administrative fees were paid for recordkeeping functions of the Plan, which qualify as exempt parties in interest transactions.

Fidelity receives revenue from the Plan's money market investment for services Fidelity provides to the fund. This revenue is used to offset certain amounts owed to Fidelity for its administrative services provided to the Plan. If the revenue received by Fidelity were to exceed the amount owed under the trust agreement, Fidelity would remit the excess to the Plan's trust and such amounts could be applied to pay plan administrative expenses or allocated to the accounts of participants. Revenue received during 2023 was zero.

(4) Fair Value Measurement

Fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private debt and equity instruments and alternative investments.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial asset, including estimates of timing, amount of expected future cash flows and the credit standing of the issuer. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial asset. In addition, the disclosed fair values do not reflect any premium or discount that could result from offering for sale at one time an entire holding of a particular financial asset. Potential taxes and other expenses that would be incurred in an actual sale or settlement are not reflected in amounts disclosed.

(6) Income Tax Status

The IRS has determined and informed the Company by a letter dated February 12, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended subsequent to receiving the determination letter; however, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S generally accepted accounting principles requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Plan Termination

While it is the Company's intention to continue the Plan indefinitely, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Plan agreement. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) Net Transfers Between Affiliated Plans

Along with this Plan, the Company also sponsors the Mohawk Industries Retirement Plan 2. During 2023, due to changes in employment status, net transfers between the plans were \$0.3 million.

INDEPENDENT AUDITORS' REPORT

To the Participants in and Plan Administrator of
Mohawk Industries Retirement Plan 1:

Opinion

We have audited the accompanying financial statements of Mohawk Industries Retirement Plan 1 (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MOHAWK INDUSTRIES RETIREMENT PLAN 1

Notes to Financial Statements

Years Ended December 31, 2023 and 2022

(1) Summary of Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Mohawk Industries Retirement Savings Plan 1 (the Plan) in preparing its financial statements.

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and changes in those net assets.

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(b) Investments

The Mohawk Industries Retirement Plan 1 Master Trust and Mohawk Industries Retirement Plan 2 Master Trust (Master Trust) was established on January 1, 2007. As of December 31, 2023 and 2022, the Plan's investments consist of its interest in the net assets of the Master Trust. The Master Trust is an arrangement by which investments of the Plan and one other Mohawk Carpet, LLC defined-contribution plan share a trust (see note 5). The Plan's investment in the Master Trust is based on its equity share of the Master Trust's net assets.

The Master Trust's investments are stated at fair value. Fair value of registered investment companies and common stocks is based on the quoted market or redemption values on the last business day of the Plan year. Securities traded on a national securities exchange are valued at the closing market price on the last business day of the Plan year. The Plan's interest in a common collective fund is valued at net asset value ("NAV") provided by the fund's trustee as a practical expedient to estimate fair value. The NAV is based upon the fair value of the underlying investments held by the respective fund less its liabilities. This practical expedient would not be used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The Plan presents in the statement of changes in net assets available for plan benefits the Plan's interest in income (loss) of the Master Trust, which consists primarily of the realized net gains (losses) on the fair value of the Master Trust investments and the unrealized net appreciation (depreciation) on those investments.

The Plan provides for investing in numerous funds, which invest in various types of investment securities and in various companies in various markets. Investment securities, generally, are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with the funds, it is reasonably possible that changes in the values of the funds will occur in the near term and such changes could materially affect the amounts reported in the financial statements and supplemental schedule of assets (held at end of year).

Years Ended December 31, 2023 and 2022

(2) Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan and covers all hourly employees, except employees in the Karastan Bigelow Group and the Lauren Park Mill Group, of Mohawk Carpet, LLC (the Company) and its affiliates located in the U.S. and Puerto Rico. The Company is a wholly owned subsidiary of Mohawk Industries, Inc. The Plan provides for retirement savings to qualified active participants through both participant and employer contributions and is subject to certain provisions of the Employee Retirement Income Security Act of 1974 as amended (ERISA). Effective November 1, 2019, full-time employees, as defined, are eligible to participate in the Plan at the beginning of the calendar month after the completion of 60 days of service. Prior to November 1, 2019, full-time employees, as defined, were eligible to participate in the Plan after the completion of 90 days of service. Part-time employees, as defined, are eligible to participate in the Plan after one year of service. Effective November 1, 2019, only full-time regular employees, as defined, will be automatically enrolled in the Plan as of his/her entry date at a contribution rate of 3% of pay unless the participant elects otherwise. Prior to November 1, 2019, all newly eligible employees were automatically enrolled at a contribution rate of 3%. Employees may opt out or discontinue contributing to the Plan at any time.

The Plan is administered by an Administrative Committee (Committee) appointed by the Company. The Committee is responsible for the control, management, and administration of the Plan and the assets. Fidelity Management Trust Company (Fidelity) is the Trustee of the Plan.

(b) Contributions

Contributions to the Plan are made by both participants and the Company. Participants may contribute a maximum of 50% of their eligible compensation, subject to certain limitations. Participants may allocate their contributions in multiples of 1% to various investment funds of the Plan. Participants who are considered a Highly Compensated Employee by the Internal Revenue Service (IRS) definition are limited to a 6% annual deferred maximum, subject to certain limitations. Effective April 8, 2019, participants are eligible to make after-tax contributions to the Plan. Prior to April 8, 2019, after-tax contributions were not permitted under the Plan. For all participants, the Plan has a discretionary company match provision which provided 50% matching contributions up to the first 6% of each participant's gross compensation contributed to the Plan in 2023.

The terms of the Plan also provide for discretionary employer profit sharing contributions to plan participants employed on the last day of the plan year or terminated during the plan year on account of death, disability, or retirement. There were no discretionary employer profit sharing contributions relating to the plan year ending December 31, 2023.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions for the period as well as the employer's matching contribution and an allocation of any discretionary employer profit sharing contribution. Investment income, realized gains/losses, and the change in unrealized appreciation or depreciation on plan investments are credited to participants' accounts daily based on the proportion of each participant's account balance to the total account balance within each investment fund at the beginning of the month.

Participant accounts may be invested in one or more of the investment funds available under the Plan at the direction of the participant. The Plan provides for daily valuation of accounts.

MOHAWK INDUSTRIES RETIREMENT PLAN 1

Notes to Financial Statements

Years Ended December 31, 2023 and 2022

(d) Distributions to Participants

A participant's account shall be distributed in a lump sum payment in cash. If any portion of the account is invested in Company stock, the participant may elect to receive the Company stock in whole shares with cash paid for fractional shares. Unless another election is made by the participant, an account balance less than \$1,000 will be paid out in cash. Unless another election is made by the participant, an account balance between \$1,000 and \$5,000 will be rolled into a Fidelity IRA established for the participant's benefit and the account balance will be invested in the Fidelity Cash Reserves Fund, an investment product designed to preserve principal and provide a reasonable rate of return.

Under the terms of the Plan, participants may make hardship withdrawals from their accounts upon furnishing proof of hardship as specified in the plan agreement. Participants may also borrow the lesser of \$50,000 or 50% of the value of their accounts subject to limitations provided by the Plan. Loans must be paid back to the Plan generally within four years of the loan date, with the exception of home equity loans.

Benefits are recorded when paid.

(e) Vesting

Participants are immediately vested in their contributions and any income earned on such contributions. Participants are vested in the Company's matching and discretionary contributions after one year of service.

Amounts forfeited by participants who terminate from the Plan prior to being 100% vested are applied to reduce subsequent Company contributions to the Plan and/or administrative expenses. In 2023, no forfeited funds were used for employer contributions. In 2023, \$0.0 million of forfeited funds were used to pay administrative expenses. As of December 31, 2023 and 2022, forfeited balances were \$0.3 million and \$0.1 million, respectively.

(f) Administrative Expenses

Certain administrative expenses of the Plan are paid by the Company. These costs include legal, accounting, and certain administrative fees. All other Plan related expenses are paid by the Plan.

(g) Notes Receivable from Participants

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans from participants are reclassified as distributions based upon the terms of the Plan document in compliance with IRS guidelines. Loan payments are made through payroll deductions with interest based on the prime interest rate as listed in the Wall Street Journal on the first day of the calendar quarter in which the loan is made plus 1.0%. Generally, loans must be repaid over a period not to exceed four years.

(3) Transactions with Parties in Interest

As of December 31, 2023 and 2022, the Master Trust held investments in Mohawk Industries, Inc. common stock, registered investment companies and a common collective fund that are sponsored by the Trustee. In addition, administrative fees were paid for recordkeeping functions of the Plan, which qualify as exempt parties in interest transactions.

Fidelity receives revenue from the Plan's money market investment for services Fidelity provides to the fund. This revenue is used to offset certain amounts owed to Fidelity for its administrative services provided to the Plan. If the revenue received by Fidelity were to exceed the amount owed under the trust agreement, Fidelity would remit the excess to the Plan's trust and such amounts could be applied to pay plan administrative expenses or allocated to the accounts of participants. Revenue received during 2023 was zero.

(4) Fair Value Measurement

Fair value is defined as the price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, also establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices in active markets for identical assets or liabilities.

Level 2: Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the asset or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. This category generally includes certain private debt and equity instruments and alternative investments.

An asset or liability's classification within the fair value hierarchy is based on the lowest level of significant input to its valuation.

Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial asset, including estimates of timing, amount of expected future cash flows and the credit standing of the issuer. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial asset. In addition, the disclosed fair values do not reflect any premium or discount that could result from offering for sale at one time an entire holding of a particular financial asset. Potential taxes and other expenses that would be incurred in an actual sale or settlement are not reflected in amounts disclosed.

(6) Income Tax Status

The IRS has determined and informed the Company by a letter dated February 12, 2016, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended subsequent to receiving the determination letter; however, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

U.S generally accepted accounting principles requires plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Plan Termination

While it is the Company's intention to continue the Plan indefinitely, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the Plan agreement. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) Net Transfers Between Affiliated Plans

Along with this Plan, the Company also sponsors the Mohawk Industries Retirement Plan 2. During 2023, due to changes in employment status, net transfers between the plans were \$0.3 million.
