Independent Auditor's Report

Plan Participants and Retirement Plan Advisory Committee
Pembroke Hill School Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pembroke Hill School Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 1. Plan Description

The following description of Pembroke Hill School Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Pembroke Hill School (the School). The Retirement Plan Advisory Committee is responsible for the oversight of the Plan and determines the appropriateness of the investment offerings and monitors investment performance. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and similar state tax laws. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: All nonexcluded employees of the School are eligible to participate in the Plan for employee deferrals on the first day of the month subsequent to their date of hire. Participants are eligible for employer discretionary matching and discretionary nonelective contributions after 30 days of service. Excluded employees are defined by the Plan as students, nonresident aliens, and employees participating in a collective bargaining contract.

Contributions: Eligible employees may elect to contribute a percentage of their eligible compensation, as defined in the Plan, up to the annual limit allowed by the IRC. Eligible employees are automatically enrolled in the Plan with a 6% deferral rate unless the employee specifically elects not to participate. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. During the year ended December 31, 2023, the School made a discretionary matching employer contribution on behalf of each participant equal to 7% of the employee's eligible compensation for an employee electing to contribute greater than 4%, but less than or equal to 5%, or 8% of the eligible compensation for employees electing to make contributions of greater than 5% and up to 8%.

The School may also elect to make a discretionary nonelective contribution to participants who are eligible to participate in employer discretionary contributions of the Plan. The School elected not to make a discretionary nonelective contribution during the year ended December 31, 2023.

Participants direct their contributions and the allocations of the employer matching and discretionary contributions to any of the funds managed by Teachers Insurance and Annuity Association (TIAA) and College Retirement Equities Fund (CREF). Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's salary deferral contribution, the employer discretionary matching contribution, the employer discretionary nonelective contribution, if any, and an allocation of Plan earnings and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Upon entry to the Plan, participants are fully vested in their voluntary contributions and employer contributions, plus actual earnings thereon.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Payment of benefits: Upon retirement, death, disability or termination of service, except for traditional annuity accounts with balances exceeding \$5,000, participants may receive a lump-sum amount equal to the value of the participant's account or choose to invest the account balance in an annuity contract. Traditional annuity accounts with balances exceeding \$5,000 must be distributed over a 10-year period. Participant balances under \$5,000 are automatically rolled over into an individual retirement account in the participant's name, unless another distribution method is selected by the participant. In-service withdrawals are not permitted unless the participant has attained age 59½ or certain hardship conditions are met.

Plan loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45% of their account balance. The loans are made directly by TIAA and secured by the balance in the participant's account. The loans bear interest at rates that range from 5.02% to 5.73%, which are commensurate with local prevailing rates as determined periodically by TIAA. Principal and interest are paid ratably by the participant to TIAA. These loans are not Plan assets. They are merely secured by Plan assets. It is the opinion of the Plan Administrator that such arrangements are exempt transactions. The balances as of December 31, 2023 and 2022, are \$48,826 and \$88,776, respectively, and have various maturity dates through June 2026.

In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. There are no loans in default as of December 31, 2023 and 2022.

Notes receivable from participants: Participants may borrow from their fund accounts at a minimum of \$1,000 and up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The notes receivable is secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates at the time funds are borrowed, as determined quarterly by the Plan Administrator. As of December 31, 2023, the outstanding notes receivable are maturing through October 2028 with an interest rate of 5.00% to 9.50%. Principal and interest are paid ratably through payroll deductions. Participants can have up to three notes receivable outstanding.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Contributions: Contributions from the Plan participants and the discretionary contributions from the employer are recorded in the year in which the employer contributions are withheld from compensation.

Allowance for credit losses: The Plan adopted Accounting Standards Codification (ASC) 326, Financial Instruments—Credit Losses, as of January 1, 2023, with the cumulative-effect transition method with the required prospective approach. The measurement of expected credit losses under the current expected credit loss (CECL) methodology is applicable to the financial assets measured at amortized cost, which include employer and participant contribution receivables. An allowance for credit losses under the CECL methodology is determined using the loss-rate approach and measured on a collective (pool) basis when similar risk characteristics exist. Where financial instruments do not share risk characteristics, they are evaluated on an individual basis. The CECL allowance is based on relevant available information, from internal and external sources, related to past events, current conditions and reasonable supportable forecasts. Management recorded no allowance for credit losses as of December 31, 2023, as all amounts were determined to be fully collectible.

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Prior to the adoption of ASC 326, the Plan maintained an allowance for doubtful accounts to reserve for potentially uncollectible receivables. Management recorded no allowance for doubtful accounts as of December 31, 2022, as all amounts were determined to be fully collectible.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Advisory Committee determines the Plan's valuation policies utilizing information provided by investment issuers and agents for the custodian and insurance companies. See Note 4 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the 2023 statement of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deemed the participant to be in default, the participant's note receivable is reduced, and a benefit payment is recorded based on the terms of the Plan.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Payments of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of the Plan are paid by the school and are not included in the statement of changes in net assets available for benefits. Administrative expenses include fees related to the administration of notes receivable from participants that are charged directly to the participant's account and certain record-keeping fees paid by the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Note 3. Information Certified by TIAA and CREF, as Custodians and Agents on Behalf of TIAA, FSB and TIAA Trust, N.A.

The following is a summary of the Plan's asset information as of December 31, 2023 and 2022, and for the year ended December 31, 2023, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified as complete and accurate by TIAA and CREF, as custodians and agents on behalf of TIAA, FSB and TIAA Trust, N.A., qualified institutions:

	December 31	
	2023	2022
Investments at fair value:		
Variable annuity contracts	\$ 14,321,075	\$ 12,391,305
Mutual funds	26,723,828	22,913,052
Fixed annuity contracts (nonfully benefit-responsive)	11,664,595	11,424,211
Pooled separate account	1,490,386	1,944,524
Investments at contract value:		
Fixed annuity contracts (fully benefit-responsive)	1,190,332	1,254,384
Stable value contract (fully benefit-responsive)	591,853	843,355
Notes receivable from participants	117,122	13,336

TIAA and CREF, as custodians and agents on behalf of TIAA, FSB and TIAA Trust, N.A., also certified to the completeness and accuracy of \$6,114,375 of net appreciation in fair value of investments and \$1,329,182 of interest and dividends related to the aforementioned assets and \$5,085 of interest income on notes receivable from participants for the year ended December 31, 2023.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Variable annuity contracts: Variable annuity contracts are valued using market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments, including matrix pricing.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fixed annuity contracts (nonfully benefit-responsive): Nonfully benefit-responsive fixed annuity contracts are reported at contract value, which approximates fair value. This determination is based on TIAA's credit rating and yield during 2023 and 2022 being comparable to similar alternative investments and the interest rate being comparable to a 10-year Treasury bond.

Pooled separate account: The pooled separate account is valued at the net asset value (NAV) of units held by the Plan in the pooled separate account at year-end. NAV is determined based on market values of underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023				
	Level 1	Level 2	Level 3	Total
Variable annuity contracts	\$ 14,321,075	\$ -	\$ -	\$ 14,321,075

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of observable market data is monitored. Changes in economic conditions or model-based valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investments and size of the transfer relative to total net assets available for benefits.

The following table presents changes in the assets classified in level 3 of the fair value hierarchy for the year ended December 31, 2023, attributed to the following:

	Level 3 Assets
Purchases	\$ 76,825
Transfers	614,799
Sales	(1,003,665)

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, the significant unobservable inputs, and the ranges of values for those inputs:

December 31, 2023				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity (nonfully benefit-responsive)	\$ 11,664,595	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA—4.00% to 6.75% SRA—3.25% to 6.00% GRA—4.00% to 6.75% GSRA—3.25% to 6.00% RC—4.25% to 7.00% RCP—3.50% to 6.25%
December 31, 2022				
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity (non-fully benefit-responsive)	\$ 11,424,211	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA—3.70%–6.25% SRA—3.00%–5.50% GRA—3.70%–6.25% GSRA—3.00%–5.50% RC—3.95%–6.50% RCP—3.20%–5.75%

In estimating fair value of the investments in Level 3, the Retirement Plan Advisory Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Retirement Plan Advisory Committee evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 5. Investment Contracts With TIAA

The Plan has investment contracts with TIAA. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because certain fixed annuity contracts and a stable value contract are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to certain fixed annuity contracts and the stable value contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable.

The fixed annuity contracts and stable value contract do not permit the insurance company to terminate the agreement prior to 30 days' written notice.

Participants are permitted to transfer funds between their CREF variable annuity and pooled separate accounts and into their TIAA annuity accounts at any time. However, transfers out of the TIAA annuity accounts into any CREF account held by an active participant can only be made through a transfer payout annuity, which provides for the transfer of funds in substantially equal installments over a period of 10 years.

Note 6. Administrative Expenses

Certain administrative functions are performed by officers or employees of the school. No such officer or employee receives compensation from the Plan. Certain other administrative expenses are paid directly by the school.

Note 7. Tax Status

The Plan has adopted a preapproved plan document that has received an opinion letter from the Internal Revenue Service (IRS) dated August 7, 2017, stating that the form of the preapproved plan document was in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plan Administrator believes the Plan is designed, and is being operated, in conformity with the applicable requirements of the IRC and therefore, believes that the Plan is qualified.

Pembroke Hill School Defined Contribution Retirement Plan

Notes to Financial Statements

Note 7. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken any significant uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the School has the right under the Plan document to discontinue its contributions at any time and terminate the Plan, subject to the provisions of ERISA.

Note 9. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by TIAA and CREF, as custodians and agents on behalf of TIAA, FSB and TIAA Trust, N.A., as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid to TIAA and CREF, as custodians and agents on behalf of TIAA, FSB and TIAA Trust, N.A. were \$52,216 for the year ended December 31, 2023.

Note 10. Subsequent Events

Management has evaluated and disclosed subsequent events up to and including October 3, 2024, which is the date the financial statements were available to be issued.
