To the Administrative Committee and Management of
Biolase, Inc. 401(k) Plan

We have audited the financial statements of the Biolase, Inc. 401(k) Plan (the Plan) an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit] for the year ended December 31, 2023, and we have issued our report thereon dated July 24, 2024. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Empower Annuity Insurance Company of America and Empower Trust Company, LLC (collectively, Empower), the custodians, which are banks or similar institutions or insurance carriers that are regulated, supervised, and subject to periodic examination by a state or federal agency, that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and supplementary information, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP. Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated February 26, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Biolase, Inc. 401(k) Plan are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2023. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements and are based on your knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the

financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of fair value measurement in Note 4 to the financial statements. The three levels of fair value hierarchy under ASC 820 were used to value the investments held by the Plan.

The financial statement disclosures are neutral, consistent, and clear.

Form 5500 Procedures

We are required to obtain and read a substantially complete draft of Form 5500 prior to dating our auditor's report. The purpose of this procedure is to identify any material inconsistencies between the draft Form 5500 and the Plan's financial statements. We identified no material inconsistencies in performing and completing our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no such misstatements noted

Reportable Findings

For purposes of this letter, a reportable finding is a matter that includes one or more of the following: (1) noncompliance or suspected noncompliance with laws and regulations, (2) a finding that in our professional judgment is significant and relevant to you regarding your responsibility to oversee the financial reporting process, and (3) an indication of internal control deficiencies identified during the audit that have not been previously communicated to management by other parties and that we determined are sufficiently important to merit management's attention. We identified the following reportable findings:

Observation: Census Inaccuracy and Late Plan Entry due to Hire Date Error

During our testing of employee data and eligibility, we noted that an employee's conversion from temporary to permanent status was improperly reflected as the

employee's hire date on the census. As temporary employees are not excluded from participation in the Plan, the correct hire date should have been their first date as temporary employee and their eligibility to participate should have begun upon meeting the eligibility requirements based on this hire date. The error in hire date resulted in census inaccuracy and late entry of the participant into the Plan.

Risk:

Without proper knowledge of plan provisions and proper review of census data, inaccuracies on the census may affect participant eligibility and distributions.

Recommendation:

We recommend that the plan sponsor develop and execute policies and procedures to monitor participant eligibility and thoroughly review census data prior to submission.

Disagreements with Management

For purposes of this letter, a disagreement with management is a disagreement on a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Other Matters

Our responsibility for the ERISA-required supplementary information accompanying the financial statements is to perform adequate procedures to evaluate whether the form and content of the ERISA-required supplementary information, other than that agreed to or derived from the certified investment information, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and whether the information in the supplementary information related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Internal Control Deficiency Matters

Except as discussed in the following paragraph, in planning and performing our audit of the financial statements of the Plan, an employee benefit plan subject to the Employee

Retirement Income Security Act of 1974 (ERISA), as of and for the year ended December 31, 2023, in accordance with auditing standards generally accepted in the United States of America, we considered Biolase, Inc. 401(k) Plan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of issuing our report on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we do not express an opinion on the effectiveness of the Plan's internal control.

We were engaged to perform an ERISA Section 103(a)(3)(C) audit of those financial statements as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. As permitted by ERISA Section 103(a)(3)(C), our audit did not extend to any statements or information related to assets held for investment of the Plan (investment information) by Empower that prepared and certified the statements or information regarding assets so held in accordance with 29 CFR 2520.103-5. Our audit also did not include a consideration of internal control relating to the investment information.

Our consideration of internal control was for the limited purpose described in the first two paragraphs and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

However, during our audit, we noted certain matters involving other operational matters that are presented for your consideration. This does not affect our audit report dated July 24, 2024 on the financial statements of the Plan. We will be pleased to discuss these comments in further detail at your convenience, perform any additional study of these matters, or assist you in implementing the recommendation. Our comments are summarized as follows:

Observation: Employee File Retention of Existing Participants

During our testing of distributions, we noted missing employee files for two existing participants that terminated in 2005 and 2015. Per discussion with the Plan Administrator, the employee files were shredded after several years in line with Plan Management's file retention policy.

Risk:

Vesting, retirement age, or other plan eligibility factors cannot be properly verified without the necessary documentation that is either signed or originated from the employees and may result in penalties if audited by the Department of Labor. Furthermore, missing employee files may hinder the Fiduciary's responsibility to locate missing participants.

To the Administrative Committee and Management of
Biolase, Inc. 401(k) Plan

Recommendation:

We recommend that Plan Management implement policies and procedures to retain and update as necessary the employee files of existing participants, either in hardcopy or electronic form, for the purpose of adequate participant record-keeping and comparison to participant information maintained by the recordkeeper.

Observation: Missing Employee Data for Calculation of Required Minimum Distributions

During our testing of distributions, we noted employee data was missing to substantiate the recordkeeper's calculation of the minimum required distributions of one plan participant. Specifically, the employee's spousal data was not obtained by the plan sponsor and thus such distributions can only be estimated.

Risk:

As the minimum required distributions are calculated based on the participant's age as well as their spouse's age (if married), failure to collect such data may result in incorrect distribution amounts and penalties if audited by the Department of Labor.

Recommendation:

We recommend that Plan Management implement policies and procedures to obtain and retain spousal data of existing plan participants for the purpose of substantiating minimum required distributions calculated by the recordkeeper.

This information is intended solely for the use of the Administrative Committee and, if appropriate, management of Biolase, Inc. 401(k) Plan and is not intended to be, and should not be, used by anyone other than these specified parties.

Very truly yours,

Winder, Inc.
