Report of Independent Auditor

To the Plan Administrator
Zapi Inc. DBA Inmotion 401(k) Plan
Raleigh, North Carolina

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Zapi Inc. DBA Inmotion 401(k) Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023, and 2022 and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2023, and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ZAPI INC. DBA INMOTION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 1—Description of the Plan

The following description of the Zapi Inc. DBA Inmotion (the “Company”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan covering all full-time employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan was established on July 1, 2016, and was last amended on May 7, 2018.

Contributions – Participants may elect to contribute pre-tax or after-tax Roth contributions up to 100% of compensation and dollar amounts permissible under the Internal Revenue Code (“IRC”) not to exceed certain limits. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. All contributions are participant directed and are subject to certain Internal Revenue Service (“IRS”) limitations. Participants are automatically enrolled into the Plan once they meet the eligibility requirements at a deferral rate of 1%, unless they opt out of participation.

The Company makes discretionary matching employer contributions where the Company matches 100% of the first 3% of employee deferrals. The Company contributed \$310,008 in total employer matching contributions for the year ended December 31, 2023.

Eligibility – Each employee must attain three months of service as defined in the Plan document and reach 21 years of age to participate in the Plan. Eligible participants may enter the Plan on the first day of the calendar month upon satisfying the eligibility requirements.

Participant Accounts – Each participant’s account is credited with the participant’s contributions, including any rollover amounts from qualified plans and allocations of: (a) discretionary employer matching and (b) Plan earnings (losses) and charged with benefit payments and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined.

Investment of Assets – Participants direct their contributions and the Company’s contributions to one or more investment options provided by the Plan. Participant accounts are segregated for the purpose of determining the gains or losses on investments. Participants may change their investment options at any time throughout the year via direct phone and internet access to the third party administrator. The Plan’s Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the investment offerings and monitors investment performance.

Vesting – Participants are vested immediately in their voluntary contributions, plus actual earnings thereon. Vesting in the employer contribution portion of participants’ accounts is based on years of continuous service. Employees are vest in employer contributions as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than three years	0%
Three years or more	100%

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant’s account and bear interest at a rate of 4.25% to 9.5%, which is determined based on the rates available for similar loans from commercial lending institutions. Principal and interest are paid ratably through semi-monthly payroll deductions. Participant loans must be repaid within a period of five years, unless such loan is for the purchase of the participant’s primary residence, in which case loan repayment can be in excess of five years. Loans mature through November 2028.

ZAPI INC. DBA INMOTION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 1—Description of the Plan (continued)

Payment of Benefits – Upon termination of service, retirement, death, disability, or a proven financial hardship, a participant may receive a lump-sum payment equal to the vested value of their account. Upon separation of service, a participant with a vested account balance over \$5,000 may receive the value of the vested interest in his or her account as a lump or partial-sum distribution. For participants who separate with account balances of more than \$1,000 but less than \$5,000, the Company may direct a participant's fund to an Individual Retirement Account established in the participant's name. Any participant vested account balances under \$1,000 will be paid out as a lump-sum distribution upon separation. Participants may also take distributions prior to termination of employment if the participant has attained age 59½. For amounts withdrawn under financial hardship prior to age 59½, certain income tax penalties may apply.

Forfeitures – When certain terminations of participation in the Plan occur, the nonvested portion of the participant's account, as defined by the Plan, represents a forfeiture. Forfeited nonvested accounts can be used to reduce administrative expenses for the Plan or to reduce employer matching contributions. During the year ended December 31, 2023, no forfeitures were used to reduce employer contributions. At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$13,434 and \$4,556, respectively.

Plan Administration – Zapi Inc. is the Plan administrator. John Hancock Trust Company LLC serves as the qualified institution of the Plan.

Note 2—Summary of significant accounting policies

Basis of Presentation – The accompanying financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) under the accrual method of accounting.

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are reported at fair value, except for the fully benefit-responsive investment, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 – *Fair Value Measurements*. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to the fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year ended December 31, 2023.

Payment of Benefits – Benefits are recorded when paid. As of December 31, 2023 and 2022, there were no benefit payments requested and not yet disbursed.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

ZAPI INC. DBA INMOTION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 2—Summary of significant accounting policies (continued)

Notes Receivable from Participants – Notes receivable from participants is measured at their principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowances for credit losses have been recorded as of December 31, 2023 and 2022. Loans are considered to be in default and uncollectible by the Plan if any scheduled loan repayments are not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due.

Administrative Expenses – As provided by the Plan agreement, administrative expenses related to Plan investments and administration are paid by the Plan, and other administrative expenses are paid by the Company.

Note 3—Information certified by the Qualified Institution (unaudited)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, John Hancock Trust Company LLC, the qualified institution, has certified that the following data, included in the accompanying financial statements and supplemental schedule, is complete and accurate:

- Investments, at fair value, fully benefit-responsive investment contract, at contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2023.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 4—Fair value measurements

Fair Value Measurements – The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

ZAPI INC. DBA INMOTION 401(k) PLAN
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 4—Fair value measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value:

Registered Investment Companies – These investments are public investment vehicles valued using the net asset value (“NAV”) provided by the administrator of the fund. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 5,195,471	\$ -	\$ -	\$ 5,195,471

	2022			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 4,021,064	\$ -	\$ -	\$ 4,021,064

Note 5—Fully benefit-responsive investment contract

The John Hancock Stable Value Guaranteed Income investment choice is a fully benefit-responsive investment contract with John Hancock Trust Company LLC and is reported at contract value. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The investment contract is a non-tradable obligation of John Hancock. The investment's contract or proceeds cannot be assigned or sold to another party without the consent of John Hancock.

The repayment of principal and interest credited to participants holding the investment is a financial obligation of John Hancock. However, if an event should ever occur such that realization of full contract value for a particular investment contract is no longer probable, for example, a significant decline in creditworthiness of John Hancock, the Stable Value Guaranteed Income investment choice may no longer be considered fully benefit-responsive. The terms of John Hancock's Group Annuity Contract require all permitted participant-initiated transactions involving the investment to occur at contract value with no conditions, limits, or restrictions.

Permitted participant-initiated transactions are those allowed by the underlying defined contribution plan such as withdrawals for benefits, loans, or transfers to other investment choices within the Plan. Since the investment is an obligation of John Hancock, the occurrence of an event that limits the ability of the investment to transact at contract value between John Hancock and a participant holding the investment is not probable.

ZAPI INC. DBA INMOTION 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 5—Fully benefit-responsive investment contract (continued)

There are no reserves against value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 0%. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6—Party-in-interest transactions

Fees paid by the Plan to the Trustees for recordkeeping services totaled approximately \$31,000 for the year ended December 31, 2023. These transactions qualify as party-in-interest transactions for which a statutory exemption exists. Notes receivable from participants qualify as party-in-interest transactions.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

Note 8—Tax status

The Plan uses a standardized prototype plan sponsored by John Hancock Trust Company LLC. The IRS has determined and informed John Hancock Trust Company LLC by letter dated June 30, 2020, that the prototype document satisfies the applicable sections of the IRC. The Plan itself has not received a determination letter from the IRS and the Plan has been amended since receiving the determination letter. Plan management believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
