Independent Auditor's Report

To the Plan Administrator
Alpine Lumber Company Employee
Stock Ownership Plan

Opinion

We have audited the financial statements of Alpine Lumber Company Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of December 31, 2023 and 2022 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022 and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As explained in Note 3, the financial statements include investments valued at \$338,040,000 and \$266,040,000 (90 percent and 99 percent of net assets) at December 31, 2023 and 2022, respectively, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by an independent appraisal. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Alpine Lumber Company Employee
Stock Ownership Plan

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held at end of year as of December 31, 2023 and reportable transactions for the year ended December 31, 2023 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

To the Plan Administrator
Alpine Lumber Company Employee
Stock Ownership Plan

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Alpine Lumber Company Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2023 and 2022

Note 1 - Plan Description

The following description of Alpine Lumber Company Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

Alpine Lumber Company (the "Company") modified its profit-sharing plan originally adopted on November 1, 1983 and became the sponsor of an employee stock ownership plan (ESOP) effective June 8, 1989. The Plan, most recently amended and restated effective January 1, 2021, is designed to comply with Section 4795(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the "Code" or IRC), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended. The Plan is administered by the Alpine Lumber Company ESOP Administrative Committee (the "Administrative Committee"), consisting of one or more individuals appointed by the Company's board of directors.

The Plan originally purchased Alpine Lumber Company common stock (Common Stock) shares using the proceeds of bank borrowings and holds the Common Stock in a trust established under the Plan. The borrowings were repaid by fully deductible company contributions to the trust fund. As the Plan made each payment of principal, an appropriate percentage of Common Stock was allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

In December 2021, the Plan purchased 5,449 shares of the Company's common stock for \$28,661,740 by using the proceeds of borrowings from the Company. The Common Stock is held in a trust established under the Plan. The borrowings are to be repaid over a period of 20 years via company contributions to the Plan. The balance of the note is to be repaid in annual installments of at least \$1,738,856, including interest at 1.90 percent, and matures in December 2034. As the Plan makes each payment of principal and interest, an appropriate percentage of stock will be allocated to eligible participant accounts in accordance with applicable regulations under the Code. During the years ended December 31, 2023 and 2022, the Plan paid down \$4,677,673 and \$3,929,525, respectively, of principal on this note, along with interest of \$305,822 and \$367,927, respectively, causing the release of approximately 917 shares and 737 shares, respectively, of company stock. Contributions and dividends in future years will be at least enough to cover the minimum required debt service payments.

The borrowings are collateralized by the unallocated shares of stock. The Company has no rights against shares once they are allocated to participants. Accordingly, within the statement of net assets available for benefits, the assets and liabilities pertaining to the accounts of employees with vested rights in allocated stock (Allocated) and stock not yet allocated to participants (Unallocated) are shown separately. The statement of changes in net assets available for benefits also shows Allocated and Unallocated values.

Eligibility

Employees of the Company are generally eligible to participate in the Plan as of the first January 1 or July 1 coincident with or following the first day the employee performs one hour of service, as defined in the plan document. Participants who work 1,000 hours or more during the plan year and are employed on the last day of the plan year are eligible for company contributions in that plan year. Contributions are allocated based on the proportion of each participant's eligible compensation to total eligible compensation.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. Participants vest 10 percent per year of service for the first two years and 20 percent per year of service for the next four years, becoming 100 percent vested after six years of service. A year of service is any plan year in which a participant has worked at least 1,000 hours.

December 31, 2023 and 2022

Note 1 - Plan Description (Continued)

Forfeitures

A participant's unvested interest in his or her account is forfeited at the end of the earlier of the plan year in which the participant receives a distribution of his or her vested interest in his or her account or the plan year in which the participant incurs a five-year break in service. Forfeitures occurring during a plan year that are not used to restore the accounts of rehired participants or missing individuals are either used to reduce company contributions or reallocated to remaining active participants based upon proportions of eligible payroll. For the years ended December 31, 2023 and 2022, total plan benefits forfeited and reallocated to existing participants totaled \$750,355 and \$370,342, respectively. There were zero unallocated forfeitures at both December 31, 2023 and 2022.

Benefit Payments

Eligible participants receive benefits equal to the vested amount of their account balances. Distributions are made in accordance with plan provisions and are recorded when paid. Generally, no distributions from the Plan are made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representative), becomes disabled, or otherwise terminates employment with the Company. Distributions are also allowed for certain participants age 55 or over for diversification subject to certain limitations prescribed by the Plan, Department of Labor regulations, and the Code. Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. During 2023 and 2022, the Plan distributed \$18,992,277 and \$36,087,324, respectively, to participants to settle their account values in accordance with plan distribution stipulations.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Allocations are based on participants' eligible compensation or account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are exercised. The trustee is not permitted to vote any allocated shares for which a participant has not given instructions, but the trustee does vote the unallocated shares, if any.

Termination

The Company reserves the right to terminate the Plan at any time subject to plan provisions. Upon such termination of the Plan, the plan trustee shall direct the Plan to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan, if applicable. In addition, the interest of each participant in the trust fund will vest 100 percent and will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the Code.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

December 31, 2023 and 2022

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The shares of Common Stock of the Company are stated at fair value. Fair value is determined based on an independent appraisal of value, as approved by the plan trustee, the Administrative Committee, the board of directors, and the shareholders through individual vote or by proxy. The 2023 and 2022 appraisals were based upon income valuation techniques. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, and estimated fair value of company assets and liabilities. The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The collective investment trusts are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. The mutual fund and money market fund are valued based on quoted prices in active markets. The interest-bearing cash is based on the carrying amount, which approximates fair value. See Note 3 for additional information.

Net realized and unrealized appreciation or depreciation in fair value of investments is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Operating Expenses

Various administrative costs are paid by the Company and the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. The most significant assumptions and estimates relate to the valuation of company common stock. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 4, 2024, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on an independent appraisal of value approved by the plan trustee, the Administrative Committee, the board of directors, and the shareholders through individual vote or by proxy.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2023 and 2022:

There were no unfunded commitments or redemption restrictions on the collective investment trusts.

Note 4 - Investments in Common Stock

The Plan's investments in company stock at December 31, 2023 and 2022 are presented in the following table:

	2023		2022	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	37,736	2,264	36,799	3,201
Cost	\$ 52,877,326	\$ 11,908,640	\$ 47,948,706	\$ 16,837,260
Fair value	\$ 318,904,078	\$ 19,135,922	\$ 244,751,355	\$ 21,288,645

Note 5 - Employer Contributions

Contributions to the Plan are determined annually by the board of directors of the Company, and contributions will partially be utilized to repay principal and interest on the note payable - employer disclosed in Note 9.

Note 6 - Tax Status

The Plan obtained its latest determination letter from the IRS dated October 10, 2017 stating that the Plan was in compliance with applicable requirements of the Internal Revenue Code. The Plan has been amended since the date of this letter; however, the Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Note 7 - Administration of Plan Assets

The Plan's assets, which consist principally of company common shares, are held by the trustee of the Plan. Contributions are held and managed by the trustee. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 8 - Related Party and Party-in-interest Transactions

The Plan's holdings consist of plan sponsor common stock, along with certain plan investments that are a collective investment trust and a mutual fund managed by Principal Trust Company (Principal). Principal is the asset custodian, as defined by the Plan. These transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.

Note 9 - Note Payable - Employer

The Plan has a note payable to the Company to be paid in annual installments of principal and interest at 1.90 percent until December 2034. The note payable is collateralized by Unallocated shares of the Company's common stock. The balance of the note was \$11,418,218 and \$16,095,891 as of December 31, 2023 and 2022, respectively.
