Part I	Asset and Liability Statement
---------------	--------------------------------------

1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees of
Clarkson University Pension Plan
Potsdam, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Clarkson University Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Clarkson University Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the financial statements of the Plan referred to in the first paragraph. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not a plan level; therefore, management has not maintained, and the trustee did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements. Accordingly, we were unable to apply auditing procedures

sufficient to determine the extent to which the financial statements have been affected by these conditions.

As further discussed in Note 9 to the financial statements, the Department of Labor's Field Assistance Bulletin No. 2009-02, Annual Reporting Requirements for 403(b) Plans, allows the Plan to exclude from these financial statements certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009, and the related income and distributions. Prior to 2009, annuity and custodial accounts of the Plan were maintained as individual accounts and were not combined for plan level reporting. As a result, the Plan's books and records may exclude certain accounts entered into prior to January 1, 2009. U.S. generally accepted accounting principles require that these accounts and the related income and distributions be included in the accompanying financial statements. The amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America (GAAS) and to issue an auditors' report. However, because of the matter described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matter – Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report it is inappropriate to, and we do not, express an opinion on the supplemental schedule referred to above.

December 31, 2023 and 2022

(1) Description of Plan

The following description of the Clarkson University Pension Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

- (a) General – The Plan generally covers all employees of Clarkson University (the “University”), as of the date of hire. The Plan is administered by the University, which acts as the Plan Sponsor. Participation in the Plan is a mandatory condition of employment for those who have two years of service. Employees who are University students, employees who normally work less than 20 hours per week, leased employees, and nonresident aliens are not eligible to participate in the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Board of Trustees oversees governance of the Plan. The Plan's Fiduciary Governance Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Board of Trustees.

- (b) Employer and Non-Elective Employee Contributions – Upon attaining two years of service, a participant's compensation will be reduced, on a pre-tax basis, by an amount equal to 4.8% of the participant's eligible compensation each payroll period. In addition to the mandatory participant contributions, the University contributes an amount equal to 9.6% of the participant's eligible compensation.

- (c) Elective Employee Contributions – Upon completion of the eligibility requirements defined above and at the discretion of the participant, a participant's eligible compensation may be reduced on a pre-tax basis by the percentage or amount elected upon completion of a salary reduction agreement. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans.

The maximum dollar amount that participants can contribute to the Plan each year is subject to Internal Revenue Service (“IRS”) limitations for elective deferrals under such plans.

If participants are eligible to make deferrals and they turn age 50 before the end of any calendar year, they may defer up to an additional catch-up amount as set by the IRS each year.

- (d) Participant Accounts – Each participant's account is credited with the participant's mandatory and elective contributions, the University's contribution, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs the investment of the contributions into various investment options offered by the Plan.

- (e) Vesting – All participant accounts are 100% vested in the Plan.

Description of Plan (continued)

- (f) Payments of Benefits – Participants may not request a distribution of their account balance until separation of employment with the University except as noted below. The individual agreements governing the participant elected investment options may contain additional restrictions on the timing of the distribution, the form of the distribution that may be available, as well as eligibility to transfer balances among approved investment options.

The options available for payout include: rollover to another plan or to an individual retirement account (“IRA”), lump sum, partial payment, installment payments, annuity contract (if assets are held in a custodial account), or conversion to an income option (if assets are invested in an annuity contract).

In the event a participant dies prior to commencement of retirement benefit payments, the participant’s designated beneficiary will receive benefits equal to 100% of the amount in the participant’s investment accounts. Benefits will be paid to the beneficiary in the form of a life annuity, unless an optional form of benefit payment offered by the Plan Trustee is elected.

Participants may be permitted under certain circumstances to make a hardship withdrawal of salary reduction contributions prior to separation of employment with the University. The decision by the Administrative Committee (or its delegate) to permit such a withdrawal will be made based on its determination that the withdrawal is necessary for the participant to meet an immediate and significant financial need in accordance with a uniform, nondiscriminatory policy.

Additionally, a participant who has both attained age 59.5 and elected to separate from service with the University pursuant to any group voluntary separation incentive program announced and implemented by the University in 2018 may elect to receive benefits to the extent those benefits are attributable to elective deferrals even if the participant continues (temporarily) in or returns to active employment with the University.

- (g) Plan Amendment and Termination – Although it has not expressed any intent to do so, the University reserves the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination and payment of all expenses, the assets of the Plan would be distributed to participants based upon amounts outstanding in their account as of the date of liquidation.

In addition, the University may amend the Plan at any time without the consent of any participant or beneficiary, provided that no amendment deprives any participant of their non-forfeitable accrued benefit.

- (h) Notes Receivable from Participants – Participants are permitted to have three outstanding loans at any time. Participants may borrow a minimum of \$1,000 up to a maximum, not to exceed 50% of their vested account balance or \$50,000, whichever is less. The loans are secured by the balance in the participant’s account and bear interest at a rate commensurate with local market rates for similar loans. Principal and interest are paid by the participant directly to the Trustee.

Description of Plan (continued)

- (i) Investments – The Plan provides for a variety of investment options which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
- (j) Plan Loans – Loans were available to participants through TIAA, subject to certain limitations. Plan loans were issued directly from the funds owned by TIAA and loan proceeds were not removed from a participant's account balance. During the period of time the loan is outstanding, 110% of the loan balance is reserved, or held in collateral in the participant's TIAA Traditional Annuity account. For active loans, the collateral is reflected in the statements of net assets available for benefits. Investments underlying defaulted loan balances are not significant.

Participants had outstanding plan loan balances with TIAA of \$33,675 and \$60,409 as of December 31, 2023 and 2022, respectively. Effective January 1, 2022, TIAA no longer allows plan loans.

(2) Summary of Significant Accounting Policies

- (a) Basis of Accounting – The financial statements of the Plan are prepared on the accrual basis of accounting.
- (b) Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to use estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- (c) Investment Valuation – The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- (d) Benefit Payments – Benefits are recorded when paid.

Summary of Significant Accounting Policies (continued)

- (e) Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Company and are therefore excluded from these financial statements. Investment-related expenses are included in net appreciation in fair value of investments. Fees for the administration of notes receivable from participants and distributions are included in administrative expenses and are charged directly to the participant's account. Additionally, the Plan receives revenue sharing credits from mutual funds and other investments in which the Plan's assets are invested. These credits are typically a portion of the fees charged by the investment provider that are returned to the Plan. The credits offset administrative expenses.
- (f) Notes Receivable – Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.
- (g) Subsequent Events – The Plan evaluated subsequent events through September 23, 2024, the date the Plan's financial statements were available to be used.

(3) Information Certified by Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"), the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022, the schedule of assets held for investment purposes as of December 31, 2023, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2023 and 2022.

(4) Fair Value Measurements

Generally accepted accounting principles in the United States of America establish a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;

Clarkson University Pension Plan

Notes to Financial Statements

December 31, 2023 and 2022

Fair Value Measurements (continued)

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

TIAA Traditional Annuity – valued at contract cost, which equals accumulated cash contributions and interest credits to the contracts less any withdrawals.

Variable Annuities, Pooled Separate Account (TIAA Real Estate Account), and Mutual Funds – valued at the closing price reported on the active market on which the individual securities are traded.

Transfers out of the TIAA Real Estate Account to a TIAA or CREF account or into another investment option can be executed at any time but are limited to once per calendar quarter. Transfers out of the TIAA Traditional Annuity contracts can only be effected over a period of time (up to ten years), and may be subject to other limitations.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023

(5) Investment Contracts

Participants may maintain an individual annuity contract with TIAA and CREF. As part of the contracts, TIAA and CREF may maintain a portion of the contributions in a “guaranteed account”, which is called the TIAA Traditional Annuity. This account is credited with earnings on the underlying investments and charged for withdrawals and administrative expenses charged by TIAA and CREF. The guaranteed minimum rate of interest is based on a formula established by TIAA and CREF. The TIAA Traditional Annuity does not permit TIAA and CREF to terminate the agreement prior to the scheduled maturity date.

Certain TIAA Traditional individual annuity contracts are considered to be non benefit-responsive. These contracts are included in the financial statements at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering credit worthiness of the issuer.

Certain TIAA Traditional individual annuity contracts meet the fully benefit-responsive criteria and therefore are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Upon termination of the investment contract, the lump sum liquidation value of the guaranteed account portion of the participant’s accumulation value shall be equal to the product of (a) the participant’s guaranteed account accumulation value on the liquidation date, reduced by the liquidation charge applicable on the liquidation date and (b) a market value adjustment percentage. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment option or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan’s investment guidelines, (b) a material amendment to the contract without the issuer’s consent, (c) a violation of a material obligation under the contract, (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan’s ability to transact at contract value with plan participants are probable of occurring.

The TIAA Traditional Annuity does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Clarkson University Pension Plan

Notes to Financial Statements

December 31, 2023 and 2022

(6) Tax Status

The Plan is based on a prototype plan that received a favorable determination letter from the IRS dated August 7, 2017, indicating that the prototype plan, then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”), and was, therefore, exempt from federal income taxes. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

FASB ASC 740, *Income Taxes*, require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2020.

(7) Related Party Transactions

The Plan has a number of service providers. Such parties are considered parties-in-interest under ERISA.

(8) Withdrawing Participants

There were no participant distributions requested in 2023 but not paid until 2024.

(9) Unavailability of Accounting Records and Supporting Documents Relating to Certain Annuity and Custodial Accounts

The Plan historically was viewed as a combination of individual annuity and custodial accounts. The Plan and its service providers did not maintain financial information at the Plan level. As of January 1, 2009, the Plan’s service providers began to provide the Plan administrator with annual certified statements summarizing the Plan’s activities and holdings. Because certain historical records were not maintained or are not available at the Plan level, the Plan may have excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodian accounts, and related activity, issued to current and former employees prior to January 1, 2009. This election is permitted by the Department of Labor’s Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* (FAB 2009-02), however, accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements. The amounts of these excluded annuity and custodial accounts and the related income and distributions are not determinable.
