Report of Independent Auditors

To the Administrator of DuPont Retirement Savings Plan

Opinion

We have audited the accompanying financial statements of DuPont Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report

that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule of Delinquent Participant Contributions as of and for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

DUPONT RETIREMENT SAVINGS PLAN

NOTES TO THE FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2023 AND 2022 AND FOR THE YEAR ENDED DECEMBER 31, 2023

NOTE 1 — DESCRIPTION OF THE PLAN

The following description of the DuPont Retirement Savings Plan (the “Plan”) is provided for general purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended, and the Internal Revenue Code (“IRC”) established by the Board of Directors of DuPont de Nemours, Inc. (“DuPont”, the “Company” or the “Plan Sponsor”) on June 1, 2019. The Plan is a tax-qualified, contributory profit sharing plan.

Delrin® Divestiture

On November 1, 2023, the Company closed the sale of the Delrin® business to TJC LP (“TJC”), (the “Delrin® Divestiture”). At the time of the transaction close, any employees that were included in the Delrin® Divestiture had their vesting accelerated to 100% and ceased to be employed by the Company and its subsidiaries and were no longer eligible to participate in the Plan. No assets were transferred as part of this transaction, but participants were treated as being separated from the Plan and could leave the balance in the Plan or roll it over to another plan.

Administration

The Plan Administrator is the DuPont Benefit Plans Administrative Committee, whose members are appointed by the Company. The DuPont Savings Plan Investment Committee, whose members are also appointed by the Company, has responsibility for selecting and overseeing the Plan investments and determining the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance companies. The Company holds authority to appoint trustees and has designated Bank of America, N.A. (“Bank of America”) and Northern Trust Corporation (“Northern Trust”) as trustees for the Plan. Bank of America is the trustee for the balances in Company common stock and the participant-directed brokerage account which holds mutual funds. Merrill Lynch, Pierce, Fenner & Smith Incorporated, a wholly-owned subsidiary of Bank of America, provides recordkeeping and participant services. The Plan entered into a Master Trust Agreement with Northern Trust to establish the DuPont Specialty Products and Related Co Savings Plan Master Trust (the “Master Trust”). See Note 3 for further information.

Participation

All employees of the Company or the Company’s subsidiaries and general partnerships that have adopted the Plan are eligible to participate in this Plan, except represented employees in a bargaining unit that has not accepted the terms of this Plan and individuals who are classified by the Company as leased employees and independent contractors. Individuals who are receiving severance pay, retainer, or other fees under contract are not eligible to elect or receive contributions in the Plan with respect to such compensation. No temporary employees are eligible for participation in the Plan. Temporary employees are defined as individuals hired to complete a special project of limited duration or to fill the vacancy of an employee who is on a leave of absence.

Contributions

Eligible employees may participate in the Plan by authorizing the Company to make payroll deductions. Participants may elect to make before-tax, Roth 401(k) or after-tax contributions of 1% to 90% of eligible compensation, as defined. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

Participants are automatically enrolled in the Plan at a 6% before-tax savings rate and increased 1% annually, up to a maximum of 15% of pay, if no action is taken by the employee within 60 days from the date of hire.

Under automatic enrollment the participant assets are invested in accordance with a managed account feature offered by Bank of America. The participant may elect not to participate in the Plan at any time. All of the above participant’s savings and elections are subject to regulatory and Plan limitations.

The Company makes a matching contribution equal to 100% of a participant's contribution, up to 6% of eligible compensation. In addition, the Company makes a contribution ("Retirement Savings Contribution") to each eligible employee account, currently equal to 3% of eligible pay, regardless of the employee's contribution election. Contributions to the Plan are subject to certain limits imposed by the Internal Revenue Service ("IRS") and the Plan terms.

Participant Accounts

The Plan's record keeper maintains an account in the name of each participant to which each participant's contributions, Company's matching contributions, Retirement Savings Contributions and allocations of Plan net earnings and losses, if any, are recorded. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers through the Master Trust, passively managed index funds, actively managed custom-designed funds, target retirement funds, and a stable value fund. Additionally, the Plan currently offers DuPont common stock and the self-directed brokerage account where participants can choose funds from various mutual fund families. The Plan also contains an Employee Stock Ownership Plan where participants can elect to have dividends from DuPont common stock distributed to them in cash instead of being reinvested in their Plan account. For the year ended December 31, 2023, \$49,799 in dividends were distributed to participants in cash.

Vesting

Participant contributions and the Company's matching contributions are fully and immediately vested. Retirement Savings Contributions are fully vested after any of the following circumstances:

- The participant has completed at least three years of service with the Company, including years of service under predecessor plans;
- The participant reaches age 65 while working for the Company;
- The participant terminates employment with the Company due to becoming totally disabled while working for the Company;
- The participant's job with the Company is eliminated;
- The participant's spouse is transferred by the Company to an employment location outside the immediate geographic area while the participant is working for the Company, and the participant terminates employment with the Company;
- The participant dies while actively employed by the Company.

Participant balances related to prior plan company contributions or prior plan benefits, that were not vested at the time the balances were merged into the Plan, will continue to vest according to the previous plans' vesting schedules.

Notes Receivable from Participants

Participants may borrow up to one-half of their non-forfeitable account balances, excluding the Retirement Savings Contribution account, subject to a \$1,000 minimum and up to a maximum equal to the lesser of \$50,000 (less the participants highest outstanding loan balance during the previous 12 months) or 50% of their account balance. The loans are executed by promissory notes and have a minimum term of 1 year and a maximum term of 5 years, except for qualified residential loans, which have a maximum term of 10 years. Loans from former plans maintained by subsidiaries before they were acquired by the Company, which were transferred to the Plan, could have a maximum original term of 15 years. The rate of interest on loans are commensurate with the prevailing interest rate charged on similar loans made within the same locale and time period and remain fixed for the life of the loan. The loans are repaid over the term in installments of principal and interest by deduction from pay or through ACH account debit. A participant also has the right to repay the loan in full, at any time, without penalty. At December 31, 2023 and 2022, loan interest rates ranged from 4.25% to 12.00% for both periods.

Payment of Benefits

Participants may request a full distribution of their accounts when they terminate employment with the Company and all affiliates. However, the Retirement Savings Contributions will be paid only to the extent that they are vested in the employee's account. On separation from service, a participant also may elect to receive the value of their account balance in installment payments. As a result of the Setting Every Community Up for Retirement Enhancement ("SECURE") 2.0 Act, the required minimum distribution age was increased to age 73 effective January 1, 2023 and as a result, terminated participants must begin taking minimum distributions in April of the year following the year they turn age 73.

Forfeited Accounts

At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$52 and \$11,964, respectively. Forfeitures can be used, as defined by the Plan, to pay administrative expenses, reinstate participant accounts and to reduce the amount of future employer contributions. A participant's account may be reinstated if the participant becomes a covered employee by the Plan prior to incurring five consecutive one-year breaks in service. The participant account will be reinstated as soon as practical after the date the participant becomes a covered employee. Forfeited accounts of \$1,094,149 were used to reduce employer contributions for the year ended December 31, 2023. In addition, forfeited accounts were used to reinstate participant's accounts and pay for administrative expenses in the amounts of \$125,141 and \$55,022, respectively.

Administrative Expenses

Administrative expenses, including but not limited to, recordkeeping expenses, trustee fees and transactional costs may be paid by the Plan, at the election of the Plan Administrator. Expenses paid by the Plan for the year ended December 31, 2023 were \$867,437, which excludes expenses paid by the Master Trust. Brokerage fees, transfer taxes, investment fees and other expenses incidental to the purchase and sale of securities and investments shall be included in the cost of such securities or investments, or deducted from the sales proceeds.

NOTE 2 — SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment options, which include investments in the Master Trust, in any combination of equities, fixed income securities, mutual funds, common collective trusts, synthetic guaranteed investment contracts ("GICs"), currency and commodities, futures, forwards, options and swaps. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts held in the Master Trust, which are reported at contract value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Common stocks are valued at the year-end market price of the common stocks. The mutual funds, included in the participant-directed brokerage account investments, consist of shares of registered investment companies comprised of equity and fixed income funds and are valued at the net asset value of shares held by the Plan at year-end. Units held in common collective trusts ("CCTs") are valued at the net asset value as reported by the CCTs' trustee as a practical expedient to estimate fair value.

This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Purchases and sales of investments are recorded on a trade-date basis. Realized gains and losses on the sale of common stocks are based on average cost of the securities sold. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Contributions

Contributions from Plan participants and the related matching contribution and Retirement Savings Contributions are recorded in the year when the contributions from plan participants are withheld from compensation.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan, but have not yet been paid, were \$1,900,855 and \$3,628,776 at December 31, 2023 and 2022, respectively.

NOTE 3 — INTEREST IN MASTER TRUST

The objective of the Master Trust is to allow participants from affiliated plans to invest in several custom designed investment choices through separately managed accounts. The Master Trust contains several actively managed investment pools and commingled index funds offered to participants as “core investment options” and “age-targeted options.” The investment pools are administered by different investment managers through separately managed accounts at Northern Trust. NEPC LLC, (“NEPC”), a registered investment adviser, has the oversight responsibility for the investments’ managers and evaluates the funds’ performances under the Master Trust. The Master Trust also includes the DuPont SpecCo. Stable Value Fund (the “Stable Value Fund”). NEPC appointed Invesco Ltd. (“Invesco”), a registered investment management company, as the sub-advisor of the Stable Value Fund. Invesco actively manages the investments of the Stable Value Fund under the terms of an investment management agreement between Invesco and NEPC.

At December 31, 2023 and 2022, the Master Trust included only the assets of the Plan.

To participate in the Master Trust, affiliates who sponsor qualified savings plans and who have adopted the Master Trust Agreement are required to make payments to Northern Trust of designated portions of employees’ savings and other contributions by the affiliate. Investment income relating to the Master Trust is allocated based on the individual Plan’s specific interest within the Master Trust.

Master Trust Investments

The investments of the Master Trust are reported at fair value, except fully benefit-responsive investment contracts, which are reported at contract value. Purchases and sales of the investments within the Master Trust are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Cash and short-term investments include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at cost, plus accrued interest, which approximate fair value.

Mutual funds are valued at the net asset value of shares held by the Master Trust at year-end.

Units held in common collective trusts (“CCTs”) are valued at the net asset value as reported by the CCTs’ trustee as a practical expedient to estimate fair value.

Common stock, preferred stock, options and futures traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of the period presented.

Exchange Traded Funds (ETFs) traded in active markets on national and international securities exchanges are valued at closing prices on the last business day of the period presented.

Fixed income securities are valued using either the reported bid price at the close of business, the reported mid price at the close of business or pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Forward foreign currency contracts are valued at fair value, as determined by Northern Trust (or independent third parties on behalf of the Master Trust), using quoted forward foreign currency exchange rates. At the end of the period presented, open contracts are valued at the current forward foreign currency exchange rates, and the change in market value is recorded as an unrealized gain or loss. When the contract is closed or delivery taken, the Master Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Swap contracts are valued at fair value, as determined by Northern Trust (or independent third parties on behalf of the Master Trust) utilizing pricing models and taking into consideration exchange quotations on underlying instruments, dealer quotations and other market information.

Investments denominated in currencies other than the United States dollar are converted using exchange rates prevailing at the end of the period presented. Purchases and sales of such investments are translated at the rate of exchange on the respective dates of such transactions.

Description of the Master Trust's Investment Contracts

As of December 31, 2023 and December 31, 2022 the Master Trust holds one type of investment contracts that is fully benefit-responsive: synthetic GICs. These investment contracts are measured at contract value. Contract value is the relevant measurement attributable for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

The Master Trust invests in synthetic GICs in which the Master Trust owns the underlying investments and are backed by fixed income assets. As of December 31, 2023 and December 31, 2022, the underlying investments held are high-quality bonds, including government securities, corporate bonds, mortgage-backed and asset-backed securities and cash equivalents. The fund may invest in such securities directly or indirectly through commingled investment vehicles. Invesco further diversifies by adding external subadvisors for style diversification. The non-cash portfolio holdings are generally wrapped by investment contracts that are issued by high-quality insurance companies and banks.

Synthetic GICs, backed by underlying assets, are designed to provide principal protection and accrued interest over a specified period of time (i.e., period of time before the crediting rate reset) through benefit-responsive wrapper contracts issued by a third party assuming that the underlying assets meet the requirements of the GIC. These investment contracts are wrapped by the financially responsible insurance company or bank.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value for plan permitted benefit payments. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan sponsor or other Plan sponsor events (i.e. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the Master Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value, is probable.

Based on certain events specified in fully benefit-responsive investment contracts, both the Plan/Master Trust and issuers of such investment contracts are permitted to terminate the investment contracts. If applicable, such terminations can occur prior to the scheduled maturity date.

Examples of termination events that permit issuers to terminate investment contracts include the following:

- The Plan Sponsor's receipt of a final determination notice from the IRS that the Plan does not qualify under Section 401(a) of the IRC.
- The Master Trust ceases to be exempt from federal income taxation under Section 501(a) of the IRC.
- The Plan/Master Trust or its representative breaches material obligations under the investment contract such as a failure to satisfy its fee payment obligations.
- The Plan/Master Trust or its representative makes a material misrepresentation.
- The Plan/Master Trust makes a material amendment to the Plan/Master Trust and/or the amendment adversely impacts the issuer.
- The Plan/Master Trust, without the issuer's consent, attempts to assign its interest in the investment contract.
- The balance of the contract value is zero or immaterial.
- Mutual consent.
- The termination event is not cured within a reasonable time period, i.e., 30 days.
- The investment manager of the underlying securities is replaced without the prior written consent by the issuer.
- The underlying securities are managed in a way that does not comply with the investment guidelines.

At termination, the contract value is adjusted to reflect a discounted value based on surrender charges or other penalties for GICs.

If the issuer of a synthetic GIC chooses to terminate the contract, assuming no breach of contract by the contract holder, the issuer is contractually obligated to deliver to the contract holder either book value or market value, whichever is greater at the time of termination, less any unpaid fees or charges. If the contract holder chooses to terminate the contract, they can choose to receive a cash value payout equal to the market value of the assets, or, if the market value is less than the book value, they can choose to enter into a wind-down phase designed to immunize the difference between market and book values over a time period agreed upon by both parties. The contract holder can choose to replace the contract issuer with a new issuer at any time, provided that all involved parties agree to the terms of transition.

Financial Instruments with Off-Balance-Sheet Risk in the Master Trust

In accordance with the investment strategy of the managed accounts, the Master Trust's investment managers execute transactions in various financial instruments that may give rise to varying degrees of off-balance-sheet market and credit risk. These instruments can be executed on an exchange or negotiated in the over-the-counter market. These financial instruments include futures, forward settlement contracts, swap and option contracts.

Swap contracts included interest rate swap contracts which involved an agreement to exchange periodic interest payment streams (typically fixed vs. variable) calculated on an agreed upon periodic interest rate multiplied by a predetermined notional principal amount.

The Master Trust invests in financial futures contracts solely for the purpose of hedging its existing portfolio securities, or securities that the Master Trust intends to purchase, against fluctuations in fair value caused by changes in prevailing market interest rates. Upon entering into a financial futures contract, the Master Trust is required to pledge to the broker an amount of cash, U.S. government securities, or other assets equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as variation margin, are made or received by the Master Trust each day, depending on the daily fluctuations in the fair value of the underlying security. The Master Trust recognizes a gain or loss equal to the daily variation margin. If market conditions move unexpectedly, the Master Trust may not achieve the anticipated benefits of the financial futures contracts and may realize a loss. The use of futures transactions involves the risk of imperfect correlation in movements in the price of futures contracts, interest rates, and the underlying hedged assets.

Market risk arises from the potential for changes in value of financial instruments resulting from fluctuations in interest and foreign exchange rates and in prices of debt and equity securities. The gross notional (or contractual) amounts used to express the volume of these transactions do not necessarily represent the amounts potentially subject to market risk. In many cases, these financial instruments serve to decrease, rather than increase, the Master Trust's exposure to losses from market or other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The Master Trust's investment managers generally limit the Master Trust's market risk by holding or purchasing offsetting positions.

As a writer of option contracts, the Master Trust receives a premium to become obligated to buy or sell financial instruments for a period of time at the holder's option. During this period, the Master Trust bears the risk of an unfavorable change in the market value of the financial instrument underlying the option, but has no credit risk, as the counterparty has no performance obligation to the Master Trust once it has paid its cash premium.

The Master Trust is subject to credit risk of counterparty nonperformance on derivative contracts in a gain position, except for written options, which obligate the Master Trust to perform and do not give rise to any counterparty credit risk.

The following presents the Master Trust's net assets at December 31, 2023 and 2022:

NOTE 4 — FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Fair value calculations may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's and the Master Trust's assets and liabilities at fair value as of December 31, 2023:

1. In accordance with "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share or its Equivalent," certain investments reported at fair value using the net asset value practical expedient have been excluded from the fair value hierarchy. 1. Other financial instruments includes forwards, futures, options, and swaps.

2. In accordance with "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share or its Equivalent," certain investments reported at fair value using the net asset value practical expedient have been excluded from the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total master trust investments at fair value.

The following summarizes CCTs solely held by the Master Trust as of December 31, 2023 and by the Plan and the Master Trust as of December 31, 2022. CCTs are measured at fair value based on net asset value per share as of December 31, 2023 and 2022. Redemption for common collective trusts is permitted daily and there are no unfunded commitments.

NOTE 5 — RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain plan investments at December 31, 2022 are units of CCTs managed by Northern Trust, trustee of the Master Trust. Bank of America is the trustee for the balances in Company common stock and the participant-directed brokerage account which holds mutual funds. Merrill Lynch, Pierce, Fenner & Smith Incorporated, a wholly-owned subsidiary of Bank of America, provides recordkeeping and participant services. In addition, the Plan offers DuPont Common Stock as an investment option.

At December 31, 2023, the Plan held 524,096 shares of DuPont Common Stock valued at \$40,318,730. At December 31, 2022, the Plan held 636,590 shares of DuPont Common Stock valued at \$43,689,157. During the year ended December 31, 2023, the Plan purchased and sold \$23,398,797 and \$30,780,924, respectively, of DuPont Common Stock. Dividends received for the year ended December 31, 2023, were \$842,040 from DuPont Common Stock. During the year ended December 31, 2023, DuPont Common Stock had a realized loss of \$1,089,217. Transactions in this investment, including related fees, and notes receivables from participants, qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

NOTE 6 — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Retirement Savings Contributions.

NOTE 7 — TAX STATUS

The Plan is considered a qualified plan pursuant to Section 401(a) of the IRC and the related trust is accounted for as if it were exempt from federal taxation under Section 501(a) of the IRC. A favorable tax determination letter from the IRS dated January 19, 2022, covering the Plan and amendments through April 3, 2021, has been received by the Plan. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently operated in accordance with the applicable requirements of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements.

The Plan is subject to routine audits by taxing jurisdictions for all open periods since 2020.

NOTE 8 — RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

NOTE 9 — SUBSEQUENT EVENTS

Effective January 1, 2024, temporary employees are eligible for participation in the Plan. Temporary employees are defined as individuals hired to complete a special project of limited duration or to fill the vacancy of an employee who is on a leave of absence.

Effective January 1, 2024, Mercer Investments LLC, ("Mercer") replaced NEPC LLC, as the registered investment advisor that has oversight for the Master Trust investments' managers and evaluation of the fund's performances under the Master Trust. Mercer also replaced NEPC as a party to the Invesco Stable Value Fund investment management agreement.

The Plan has evaluated subsequent events through June 13, 2024, the date the financial statements were available to be issued, and has determined that no additional material events occurred which require recognition or disclosure in the financial statements.
