Independent Auditor's Report

The Executive Committee
Scheels Employee Stock Ownership Plan
Fargo, North Dakota

Opinion

We have audited the financial statements of Scheels Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i – schedule of assets held at end of year and schedule H, line 4j – schedule of reportable transactions as of or for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA.

Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 - Description of Plan

The following brief description of Scheels Employee Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan, is designed as a stock bonus plan for participating employees of Scheels All Sports, Inc. (the Company). The Plan invests primarily in the Company's common stock. The Plan operates as an employee stock ownership plan and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The administrator and trustee of the Plan is the Company's Executive Committee.

Eligibility

An employee is eligible to participate in the Plan after they have completed one year of service and have reached the age of 21, provided they work at least 1,000 hours during such Plan year. An employee will have completed one year of service if they have worked 1,000 hours during their first 12 months of employment or worked 1,000 hours during any Plan year following their first 12 months of employment. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Entry Date

An employee will become a participant the first day of the Plan year if the eligibility requirements are met in the first six months of the Plan year or the first day of the following Plan year if the eligibility requirements are met in the last six months of the Plan year.

Contributions

The Executive Committee of the Company determines the Plan contribution amount annually. Contributions can be made in cash, Company stock, or in such other property as is acceptable to the trustee. The contributions are allocated according to the pro rata share of each participant's compensation to total eligible compensation.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is permitted to vote any allocated share for which instructions have not been given by a participant. The trustee is also required to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to a participant for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the trustee from the unallocated account and forfeitures of terminated participants' non-vested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation. Plan earnings and losses are allocated to each participant's account based on the ratio of the participant's account balance.

Vesting

Upon retirement, disability, or termination of employment with the Company or termination of the Plan, participants will be entitled to a distribution of their vested interest. The vested interest is earned according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage of Individual Account</u>
Less than 3	0%
3 or more	100%

A year of service is any fiscal year during which the employee has 1,000 or more hours of service. Participants are 100% vested in their account balances upon attainment of age 55 and completion of ten years of service, normal retirement, death, or permanent disability.

Forfeitures

At December 31, 2023 and 2022, there was no balance in the forfeited non-vested account as all forfeitures are used in the same year they are forfeited. Forfeited accounts are re-allocated to eligible participants. During the year ended December 31, 2023, forfeited non-vested accounts totaling \$262,257 were re-allocated to eligible participants. Allocations are based on a participant's eligible compensation, relative to the total eligible compensation.

Payment of Benefits

Participants may elect to receive a lump-sum amount equal to the value of their vested interest. If the value of the participant's vested interest exceeds \$1,000, they can elect to receive the distribution in the form of an annuity. Otherwise, the distribution will be made in a single lump-sum. Any terminated participants with a balance of less than \$1,000 shall be distributed in the form of an involuntary cash-out. Distributions may be made at the participant's election prior to termination upon attainment of age 61 and at least ten years of service or hardship as defined in the Plan document.

Distributions to a Participant attributable to Company Stock shall be substantially equal monthly, quarterly, semiannual, or annual installments over a period not longer than five years. If the vested balances credited to a Participant's Company Stock are in excess of \$1,330,000, the five-year period shall be extended one additional year for each \$265,000 for up to five years.

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 and with at least ten years of service with 1,000 hours may elect to diversify a portion of the account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify either receive a cash distribution or a rollover into an Individual Retirement Account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

The classification of investment earnings reported in the statement of changes in net assets available for benefits may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Subsequent Events

The Plan sponsor has evaluated subsequent events through October 9, 2024, the date which the financial statements were available to be issued.

Note 3 - Investments

The Plan had no unallocated shares as of December 31, 2023 and 2022. The Plan's investments in Company common stock at December 31, 2023 and 2022, are as follows:

	2023	2022
Company Common Stock		
Number of shares	266,090.951	299,554.756
Cost	\$ 516,791	\$ 581,783
Fair value	832,960,469	757,885,516

During 2023, the Plan distributed 36,874.375 shares to participants for a total of \$93,293,643, and the Company contributed 3,410.570 shares of common stock back into the Plan with a fair value of \$8,628,878. As of December 31, 2023, a receivable of 94.304 shares for a total of \$295,206 was due from the Company.

Note 4 - Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Common Stock – The fair value of the Company common stock held in the Plan is valued at estimated fair value based upon an independent appraisal. The appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, discount rates, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities, including certain discounts.

The valuation process involves the Trustee's selection of an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report, which Plan management reviews in detail, discusses, and approves.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Scheels Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2023 and 2022

Common Collective Fund – Valued at fair value based on the NAV of units held of the collective fund. The NAV is based on the observable market prices of the underlying investments within the fund, less liabilities. The NAV for the underlying assets of the fund is a readily determinable measure of their fair value and is the basis used by the fund for current transactions.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

	2023			Total
	(Level 1)	(Level 2)	(Level 3)	
Common stock	\$ -	\$ -	\$ 832,960,469	\$ 832,960,469

Changes in Fair Value of Level 3 Assets

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2023:

Transfer in	\$ -
Transfers out	-
Contributions of 3,410.570 shares	8,628,878
Distribution of 36,874.375 shares	93,293,643

Note 5 - Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of common stock of the Plan sponsor. Additionally, the Plan sponsor made stock and cash contributions for the year ended December 31, 2023. As of December 31, 2023, the Plan has a receivable from the Company for additional shares to be contributed. These transactions are related party and exempt party-in-interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to Plan operations and investment activity to various service providers. These transactions are exempt party-in-interest transactions under ERISA.

Note 6 - Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 1, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC.

Subsequent to this issuance of the determination letter, the Plan was amended; however, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and, therefore, believe the Plan is qualified and the related trust continues to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 - Risks and Uncertainties

The Plan invests in various investment securities, which consist primarily of the Company's common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Market risks include global events which could impact the value of investments, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 8 - Right of First Refusal

Company stock that has been distributed to a participant, and not immediately repurchased by the Company or trust, may be subject to a right of first refusal if so determined by the Company. Prior to any subsequent transfer, the shares must first be offered by written offer to the Company, and then, if refused by the Company, to the trust at fair market value as determined by an independent appraiser appointed by the ESOP Committee.

Note 9 - Administration of Plan Assets

The Plan's assets, which consist principally of Company common shares, are held by the custodian and administered by the Trustee of the Plan.

Company contributions are held and managed by the custodian and Trustee, which invests cash received and interest, and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Administrative expenses for the trustee fees are paid directly by the Company.
