Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **LUTZ AND COMPANY P.C.**

(2) EIN: **47-0625816**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITORS' REPORT

Retirement Plan Committee
FBL Financial Group Retirement Plan
West Des Moines, Iowa

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2023 Financial Statements

We have performed an audit of the financial statements of FBL Financial Group Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2023 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2023 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 6 to the 2023 financial statements, is complete and accurate.

Opinion on the 2023 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2023 Financial Statements section:

- The amounts and disclosures in the accompanying 2023 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2023 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2023 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2023 Financial Statements

Management is responsible for the preparation and fair presentation of the 2023 financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the 2023 financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the 2023 financial statements.

In preparing the 2023 financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the 2023 financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the 2023 financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2023 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2023 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the 2023 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the 2023 financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2023 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2023 financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplementary Information Required by ERISA

The supplementary information as of and for the year ended December 31, 2023, is presented for purposes of additional analysis and is not a required part of the 2023 financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2023 financial statements. The information included in the supplementary information, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2023 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2023 financial statements or to the 2023 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplementary information that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplementary information, other than the information in the supplementary information that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplementary information related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2022 Financial Statements

Predecessor auditors performed an audit of the financial statements as of and for the year ended December 31, 2022 (the 2022 financial statements) of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the 2022 audit did not extend to any statements or information related to assets held for investment of the plan that were certified by qualified institutions. Their report dated September 19, 2023 indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2022 supplementary information, other than the information in the 2022 supplementary information that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2022 supplementary information related to assets held by and certified by qualified institutions agree to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

FBL Financial Group Retirement Plan

Notes to Financial Statements

December 31, 2023 and 2022

1. Description of the Plan

The following description of the FBL Financial Group Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's Provisions.

General

The Plan is a defined benefit pension plan formed in 2002 and covers employees of the FBL Financial Group, Inc. and a participating affiliated company, New Mexico Farm & Livestock Bureau (the Companies). Beginning in 2013, the Plan was closed to new entrants and those participants who had not attained age 40 and 10 years of service as of December 31, 2012, will no longer accrue additional years of service in the Plan.

Pension Benefits

For eligible employees, the retirement benefit under the Plan is equal to (a) for years of credited service prior to January 1, 1998, a participant's average compensation multiplied by the sum of (i) 2.0% times the years of credited service not in excess of 10 plus (ii) 2.5% times the years of credited service in excess of 10, but not in excess of 20, plus (b) for years of credited service after December 31, 1997 and before January 1, 2008, (i) the participant's average compensation times 1.675% times years of credited service, plus (ii) the participant's average compensation in excess of covered compensation times 0.325% times the years of credited service, plus (c) for years of credited service after December 31, 2007 (through December 31, 2012 for those participants who had not attained age 40 and 10 years of service as of December 31, 2012), (i) the participant's average compensation times 1.275% times years of credited service, plus (ii) the participant's average compensation in excess of covered compensation times 0.225% times the years of credited service. The retirement benefit may not exceed 70% of average compensation.

Normal retirement is available at age 65 and 5 years of service, with early retirement available at age 55 with 10 years of service. For benefits earned prior to January 1, 2008, the benefit is reduced 3% for each year retirement precedes normal retirement. For benefits earned after December 31, 2007, the benefit is reduced 6.67% per year from age 60 to 65 and 3.33% for each year from age 55 through ages 59.

For certain participants in the Plan as of December 31, 2001, the Plan has additional benefits for retirement once age plus service total 85 (Rule of 85). At Rule of 85, there is no reduction for early retirement plus a temporary supplement payable to age 65 is provided. The supplement equals 0.325% times years of credited service times the lesser of average compensation and covered compensation (based on average compensation and credited service as of December 31, 2001). Rule of 85 retirement only applies to the accrued benefit earned as of December 31, 2001 (based on average compensation and credited service as of December 31, 2001). An automatic cost of living adjustment (COLA) applies on all benefits up to a maximum of 4% based on changes in the Consumer Price Index. The COLA applies to the benefit earned as of December 31, 2001 (based on average compensation and credited service as of December 31, 2001).

FBL Financial Group Retirement Plan

Notes to Financial Statements

December 31, 2023 and 2022

Funding Policy

The Companies' funding policy is to make periodic contributions to the Plan in amounts necessary to meet the minimum funding requirements of ERISA as determined by the Plan's actuary, but not in excess of the maximum amounts allowed as a tax deduction by the Internal Revenue Service (IRS). The Plan has met the ERISA minimum funding requirements based on the January 1, 2023 actuarial valuation report.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting and in conformity with the accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of plan assets available for benefits and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

FBL Financial Group Retirement Plan

Notes to Financial Statements

December 31, 2023 and 2022

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Benefits

Benefits are recorded when paid.

Subsequent Events

Subsequent events are events or transactions that occur after the statement of net assets available for benefits date, but before the financial statements are available to be issued and may require potential recognition or disclosure in the financial statements. The Companies and the Plan have considered such events or transactions through October 8, 2024, noting no items requiring disclosure.

3. Tax Status

The Plan has received a determination letter from the IRS dated September 27, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. Subsequent to this determination by the IRS, the Plan was amended and restated, and the IRS ceased issuing determination letters for plan restatements for individually designed plans. In lieu of receiving determination letters from the IRS, the Plan received opinion letters from legal counsel with each plan restatement stating that the Plan complies in form with ERISA's requirements and satisfied in form the tax qualification requirements of Section 401(a) of the Code. The most recent opinion letter from legal counsel is dated August 30, 2021. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and believes that the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authority. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

4. Termination of the Plan

Although it has not expressed any intention to do so, the Companies have the right to terminate the Plan subject to the provisions set forth in ERISA. Should the Plan terminate, its net assets will generally not be available on a pro-rata basis to provide participant's benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits at that time and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023. There were no significant differences between December 31, 2022, and January 1, 2023, that would cause the actuarial valuation not to be representative as of December 31, 2022.

The actuarial present value of accumulated plan benefits based on projections by the Plan's actuary as of January 1, 2023, are as follows:

Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits of Active Participants	\$ 120,245,048
Vested Benefits of Participants Currently Receiving Benefits	64,785,861
Other Vested Benefits	56,901,608
Nonvested Benefits	<u>3,240,064</u>
Actuarial Present Value of Accumulated Plan Benefits, End of Year	<u>\$ 245,172,581</u>

FBL Financial Group Retirement Plan

Notes to Financial Statements

December 31, 2023 and 2022

The changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2023, are as follows:

Actuarial Present Value of Accumulated Plan Benefits, Beginning of Year	<u>\$ 297,335,857</u>
Increase (Decrease) During the Year Attributable to:	
Interest	11,610,717
Changes in Actuarial Assumptions	(18,054,634)
Benefits Accumulated and Other	21,920,612
Benefits Paid	<u>(67,639,971)</u>
Net Decrease	<u>(52,163,276)</u>
Actuarial Present Value of Accumulated Plan Benefits, End of Year	<u>\$ 245,172,581</u>

The more significant assumptions underlying the actuarial computations as of January 1, 2023, are as follows:

Actuarial Funding Method:	Unit Credit
Inflation Rate:	2.40%
Interest Rate:	5.20%
Mortality:	PRI - 2012 White Collar Mortality Tables with Principal Mortality Improvement Scale (Principal 2022)
Retirement:	Retirement rates of 5% per year from early retirement age to age 59, then 10% per year from age 60 to 64, then 100% at age 65. Those eligible for Rule of 85 are assumed to retire at a rate of 30% in the first year they meet Rule of 85.
Spousal Benefits	It is assumed that 100% of the male and female employees are married, with males assumed to be three years older than females.

Certain actuarial assumptions were changed for the calculation of actuarial present value of accumulated plan benefits as of January 1, 2023. The actuarial assumption changes in 2023 primarily related to changes to inflation rates and interest rates. There were no significant Plan provision changes during the 2023 valuation period.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated benefits.

6. Information Certified or Provided by Principal Bank and Farm Bureau Life Insurance Company

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Principal Bank, on behalf of Principal Trust Company, the trustee of the Plan, and Farm Bureau Life Insurance Company (Farm Bureau Life), the custodian of the group annuity contract, except for comparing such information certified by custodians to information included in the Plan's financial statements and supplementary information.

The following table presents the fair value of investments in the Plan that was certified by Principal Bank as of December 31, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Investments at Fair Value	<u>\$ 264,745,092</u>	<u>\$ 255,667,048</u>

Principal Bank and Farm Bureau Life also certified to the completeness and accuracy of the following for the years ended December 31, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Net Appreciation (Depreciation) in		
Fair Value of Investments	\$ 11,783,227	\$ (101,153,008)

Net Investment Income (Loss)	<u>\$ 22,673,239</u>	<u>\$ (88,777,043)</u>

7. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1:** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2:** Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in inactive markets

FBL Financial Group Retirement Plan

Notes to Financial Statements

December 31, 2023 and 2022

- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual Funds: Valued at quoted prices in an active market which represent net asset value (NAV) of shares held by the Plan.

Fixed Maturities: The fair value of U.S. Treasuries is estimated using quoted market prices available in active markets. The fair value of corporate securities is obtained from third party pricing vendors. The Companies have regular interaction with these vendors to understand their pricing methodologies and confirm they are utilizing observable market information. The pricing methodologies include observable inputs such as estimated cash flows, benchmark yields, reported trades, credit quality, industry events and economic events.

Cash and Cash Equivalents: Due to the short-term nature, the carrying amounts approximate fair value.

Alternative Investments: Alternative investments include investments in limited partnerships with varying investment strategies. The value of the limited partnership interest reflects the Plan's proportionate share of the NAV of those partnerships which is derived from the fair value of the underlying holdings.

Group Annuity Contract: This contract's contract value approximated its fair value, as the interest-crediting rate was declared annually and was subject to change when the rate no longer approximated the market rate. This investment was liquidated in the year ended December 31, 2022.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV as a practical expedient as of December 31, 2023 and 2022:

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Alternative Investments	\$ 22,984,252	\$ 11,007,118	(a)	(a)

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Alternative Investments	\$ 22,986,424	\$ 11,864,708	(a)	(a)

- (a) This category includes several investments that are considered long-term investments with varying redemption availability and fund terms. Certain investments may include possible extensions to the fund term. Certain investments have imposed redemption gates which may further restrict or limit the redemption of invested funds therein.

8. Contract with Farm Bureau Life

At the Inception of the Plan, the Plan entered into a Group Annuity Contract with Farm Bureau Life, supported by the general assets of Farm Bureau Life, the primary purpose of which was to provide funds to pay the benefits earned under the Plan. The Group Annuity Contract accumulated interest at a rate of 3% during 2022. As of December 31, 2022, all assets were transferred out of the Group Annuity Contract into other Plan investments.

9. Related-Party Transactions

Certain Plan Investments are shares of a mutual fund or alternative investment managed by Principal Investors and Principal Real Estate Investments, affiliated entities of Principal Bank and Principal Trust Company. Principal Trust Company is the Trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transactions rules under ERISA.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Assumptions prescribed by law

Mortality	During benefit payment period IRS Prescribed Mortality - Static Annuitant, male and female. Before benefit payment period IRS Prescribed Mortality - Static Non-annuitant, male and female.
-----------	---

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	5.20% for the current plan year. The asset return is equal to the ASC 960 interest rate.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.
Retirement	Active participants are assumed to retire at the following rates: 5% per year from early retirement age to age 59, except as noted below 10% from age 60 to 64, except as noted below 100% at age 65. Those who are eligible for enhanced benefits when age plus service total 85 are assumed to retire at a rate of 30% in the first year they meet rule of 85 enhancements. All other years' rates are based on the rates above. All inactive participants are assumed to retire at normal retirement age as defined in the Plan Provisions. This assumption is based on the results of recent experience analysis and anticipated future experience.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Upcoming year salary increase

Base pay is assumed to increase annually at the rates in the table below. Bonus pay is assumed to be equal to the target bonus percentage for each participant's paygrade multiplied by prior year base pay.

Age group	Annual increase
20-29	9.00%
30-39	6.00%
40-54	4.00%
55-65	3.00%

Expected salary increase is composed of salary inflation, a real wage growth and a merit increase. This reflects company salary increase philosophies along with more recent experience of the plan participants.

Disability

None. This plan does not offer a subsidized disability benefit therefore the disability assumption is built into the withdrawal assumption.

Marriage

100% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

Withdrawal

2003 Society of Actuaries Basic Age Table, multiplied by 1.00.

We rely on a publicly published table due to the limited size of the plan. The SOA Basic Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.00 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

Wage base increase

3.50% per year.

Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption to 1.10% above inflation of 2.40%.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Compensation limit increase	2.40% increase per year used in the calculation of the IRC 404 maximum deduction cushion. See Calculated deduction in Rules and regulations. Compensation limit increase is consistent with the inflation assumption.
Form of benefit and basis	75% of active participants will elect a benefit paid in single sum from the plan at the assumed retirement ages. The remaining active participants will elect a monthly annuity on the normal form at the assumed retirement age. 75% of participants who are already terminated on the valuation date are assumed to elect a single sum at normal retirement age. The remaining terminated participants will elect a monthly annuity on the normal form at normal retirement age. This assumption is based on the results of recent experience analysis and anticipated future experience. The single sum benefit is based on the greater of the Plan Factors and the minimum lump sum required by law.
Retirement cost of living adjustment	2.40% per year Retirement Cost of Living Adjustment should be consistent with the inflation assumption, not to exceed 4.00% as defined by the plan.
Methods prescribed by law	
Liability measure	Funding target is the present value of the benefits accrued on the valuation date. Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.
Benefit accrual	All benefits paid at decrement are considered in total and then split to determine how much is included in funding target. The following pieces are included in the funding target. The portion based on the plan's definition of accrued benefit. The benefit portion in excess of the accrued benefit based on the ratio of the participant's years of service on the valuation date to the years of service the participant will have at the time of decrement. The benefits included in target normal cost are calculated similarly, by splitting the benefits. The target normal cost is based on the difference between the amount included in Funding Target and an amount calculated assuming the participant accrues service through the end of the plan year.

Lump sum payments	Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.
Assets by employer	Assets for each employer are the amount available by Employer under §4044 of ERISA as of the valuation date. Since the New Mexico Federation would be de minimis if spun-off on that date, their assets are the full present value of accrued benefits regardless of priority category.

Total plan assets (01/01/2023)	\$258,239,494
New Mexico Federation ERISA §4044	1,176,929
Plan assets remaining for FBL Financial before late contributions	\$257,062,565

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and the one-month average of corporate bond rates in effect on the valuation date. We assumed you will elect this Standard interest method for the 01/01/2023 plan year and the method must be used for five years before a change can be made.

Segment 1 years 0-5	Segment 2 years 5-20	Segment 3 years 20+
4.84%	5.15%	4.85%

Methods elected by actuary

Retirees	Assets and liabilities for current and future retirees are included.
Vested benefits	A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date. The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality	Based on Pri-2012 White collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2022).
Mortality base rates	Before benefit payment period Employee amount-weighted, male and female During benefit payment period Retirees and disabled retirees - Retiree amount-weighted, male and female Contingent survivors - Contingent survivor amount-weighted, male and female after the original participant's death. Participants in pay status who cannot be identified as survivors use the same table as retirees The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The White collar base rate table was selected based on information provided by the plan sponsor. Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 2" is reasonable for this plan.

Mortality improvement

Principal 2022 MI scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the following parameters:

Parameter	Principal 2022
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2028/2028
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2022
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities

5.20%

We are using the discount rate used for the company's financial statements as a proxy for the rate at which the obligations can effectively be settled.

Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Basis for lump sums

Interest rate

Greater of (a) and (b):

(a) Based on the three segment yield curve: 3.05%/3.45%/3.35% with cost of living of 0.20% and IRS applicable 417(e) mortality projected to decrement age

(b) 7.00% interest rate and 1983 GAM male mortality, setback 3 years and defined by the plan.

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.05%/3.45%/4.35%. For details, see Corporate AA yield in Figure 4 of Long-Term Capital Market Assumptions link.

Mortality

IRS Prescribed lump sum mortality for 2022 and 2023. Future years are projected to decrement date with SOA mortality improvement scale MP-2021.

This assumption reflects current law as provided by the IRS.

Schedule SB, Line 2a - Explanation of Assets
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Schedule H, Schedule I and Form 5500-SF use the full value of contributions received after plan year end. Line 2a includes the value of \$3,471,618 contributions received after the plan year end with a discounted value of \$3,419,062.

In addition, the market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF due to a small change in the final reported value of assets. This resulted in a difference of \$118,377.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Schedule SB, Part V - Summary of Plan Provisions
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

This report reflects the maximum benefit limits under Internal Revenue Code (IRC) Section 415 and maximum compensation limits under IRC Section 401 in effect on the first day of each plan year.

The following is a summary of plan provisions and does not alter the intent or meanings of the provisions contained in the contract or plan document. This report reflects the provisions of the plan signed December 30, 2017, including the amendment signed May 21, 2021.

Plan eligibility

Age Attained age 21.

Service 1 year of eligibility service in which an employee is credited with 1,000 hours of service.

Entry date The first day of each month of the plan year coinciding with or following the date on which an employee meets the eligibility requirements.

Non-key employees of Crop One are eligible effective January 1, 2008. Accrual and vesting service will begin upon participation in the plan.

No employee should become a plan participant as of January 1, 2013.

Normal retirement benefit

Age	Attained age 65 and 5 years since plan participation.
Form	A monthly annuity payable for ten years certain and life thereafter. (Optional methods may be elected up to retirement).
Amount (accrued benefit)	The sum of (a), (b), and (c): (a) 2.0% of average compensation multiplied by credit service prior to January 1, 1998 (maximum of 10 years) plus 2.5% of average compensation times credit service prior to January 1, 1998 in excess of 10 years (maximum of 20 additional years.) (b) 1.675% of average compensation plus 0.325% of average compensation in excess of the integration level multiplied by years of service between January 1, 1998 and December 31, 2007. (c) 1.275% of average compensation plus 0.225% of average compensation in excess of the integration level multiplied by years of service after January 1, 2008. Total credit service cannot exceed 35 years in the sum of (a) and (b) any additional years of credited service are applied in (c). Employees that participated in the Western Farm Bureau Pension Plan, New Mexico Federation, and certain employees of FBL group who became participants in this plan on January 1, 1998 or participants in the Kansas Farm Bureau Life plan who became participants in this plan on January 1, 2001 get credit for past service but have their service based on part (b) of the above formula only. No additional credited service will be used to determine a participant's accrued benefit for those Participants who have not reached 40 years of age or does not have at least 10 years of credited service as of December 31, 2012.

Maximum benefit

70% of participant's average compensation. This includes Rule of 85 early retirement benefit.

Early retirement benefit

Age	Attained age 55.
Service	Ten years of credited service.
Form	Same as normal retirement benefit.
Amount prior to December 31, 2001	Accrued benefit on early retirement date (based on average compensation and credited service at 12/31/01) reduced by 3% each year to reflect the fact that early retirement date precedes normal retirement date. There is no reduction if age + service is 85.

Schedule SB, Part V - Summary of Plan Provisions
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Amount between January 1, 2002 and December 31, 2007	Accrued benefit on early retirement date (based on average compensation at retirement and service between 1/1/2002 and 12/31/07) reduced by 3% each year to reflect the fact that early retirement date precedes normal retirement date.
Amount after January 1, 2008	Accrued benefit on early retirement date reduced by 6.67% each year for the first 5 years and 3.33% for the next 5 years to reflect the fact that early retirement date precedes normal retirement date.

Rule of 85 early retirement benefit

Age & service	Attained age 55 while actively employed and whose combined age and years of credited service equals 85.
Form	Same as normal retirement benefit.
Amount prior to December 31, 2001	Unreduced monthly retirement equal to normal retirement benefit as of December 31, 2001 plus an additional temporary life benefit to increase the retirement benefit by .325% times years of credited service after January 1, 1998 and before December 31, 2001 times the lesser of average compensation or covered compensation. This temporary benefit is payable until age 65 or death, if earlier and shall be subject to any cost of living increase. The total accrued benefit plus temporary benefit may not exceed 70% of participant's average compensation.
Amount between January 1, 2002 and December 31, 2007	Accrued benefit on early retirement date (based on average compensation at retirement and service between 1/1/2002 and 12/31/07) reduced by 3% each year to reflect the fact that early retirement date precedes normal retirement date.
Amount after January 1, 2008	Accrued benefit on early retirement date reduced by 6.67% each year for the first 5 years and 3.33% for the next 5 years to reflect the fact that early retirement date precedes normal retirement date.

Late retirement benefit

Age	No maximum age.
Form	Same as normal retirement benefit.
Amount	Greater of accrued benefit on normal retirement date actuarially increased to late retirement date or accrued benefit on late retirement date.

Schedule SB, Part V - Summary of Plan Provisions
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Termination benefit

Vesting percentage (if accrued benefit is greater than \$0 prior to January 1, 2008)	20% after three years of vesting service. 40% after four years of vesting service. 100% after five years of vesting service.
Vesting percentage (\$0 accrued benefit on January 1, 2008)	100% after five years of vesting service.
Form	Same as normal retirement benefit with income deferred until normal retirement date.
Amount	Accrued benefit on date of termination multiplied by the vesting percentage.

Disability benefit

Disabled prior to January 1, 2012	Accrued disability benefit as of January 1, 2012. No further accruals will be earned.
Disabled after January 1, 2012	Same as termination benefit.

Survivor annuity death benefit

Eligibility	Qualified married participant fully or partially vested in an accrued benefit and a terminated vested employee at the time of death.
Form	Monthly annuity payable to spouse, deferred to participant's earliest retirement date if later than the date of death.
Amount	If death occurs, the amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated employment on the date of death and survived to his/her earliest retirement age, retired with a qualified joint and 50% survivor annuity in effect, then died the next day.
Eligibility	Qualified married participant fully or partially vested in an accrued benefit and an active employee at the time of death.
Form	Lump sum payable to spouse or designated beneficiary.
Amount	Actuarial equivalence of the participant's accrued benefit, including any early retirement subsidies the participant is eligible for at date of death.

Cost of living adjustment

Amount	Adjustment to the retirement benefit related to the consumer price index (up to 4% in such year) based on all benefits as of December 31, 2001, except as noted above.
--------	--

Definitions

Average compensation	The monthly average of total pay received for the 36 consecutive full months of pay which gives the highest average.
Credited service eligibility	Participants who have not reached 40 years of age or do not have at least 10 years of credited service as of December 31, 2012 are not eligible for credited service after December 31, 2012.
Integration level	The monthly average of the Social Security Taxable Wage Bases (in effect under Section 230 of the Social Security Act) for each year in the 35-year period ending with the year the employee attains Social Security Retirement Age.
Optional forms of benefit payments	The optional forms of benefit payments are: Monthly annuity payable for life, 10, or 15 years certain and life. Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, & 100. Single sum payment equal to the present value of the retirement benefit at the greater of the plan actuarial equivalence or 417(e) minimum lump sum basis. The optional form conversion basis is 7% interest and 1983 GAM mortality Male (setback 3 years) and 4% COLA (where applicable) for payments other than lump sums. The optional form conversion basis for lump sum payments uses the following factors (whichever produces the greater lump sum value): 7% interest and 1983 mortality Male (setback 3 years) and 4% COLA (where applicable). The applicable interest rate/mortality table as set forth in IRC §417(e) and a COLA (where applicable). The applicable interest rate is from the November preceding the plan year. FBL administratively uses the average of the 6-20 spot rates minus 3.25% for the COLA (where applicable).

Changes in Principal Eligibility or Benefit Provisions

There have been no changes in principal eligibility or benefit provisions since the last valuation.

Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
FBL Financial Group Retirement Plan
EIN 42-1411715 Plan No. 001

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The wage base increase has increased from 3.00% to 3.50%.

The compensation limit increase has increased from 2.25% to 2.40%.

Turnover has been updated from 2003 Society of Actuaries Basic Age Table, multiplied by 1.25 to 2003 Society of Actuaries Basic Age Table, multiplied by 1.00.

The inflation assumption has increased from 2.25% to 2.40%.

The assumed asset return for the current year has increased from 4.40% to 5.20%. This rate is used in the calculation of the actuarial value of plan assets.
