Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 504640.

Independent Auditor's Report

The Plan Administrator
The Gates Group Retirement Plan
Denver, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Gates Group Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the Auditor's Responsibilities for the Audit of the *Financial Statements* section of our report:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental Schedule H (Form 5500), Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H (Form 5500), Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedules agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

The Gates Group Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of The Gates Group Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document (and its underlying sub-documents) and Summary Plan Description for a more complete description of the Plan's provisions.

General

The Gates Corporation (the Company) maintains a non-contributory defined benefit retirement plan covering substantially all employees hired before January 1, 1990, in the domestic operations of the Company and certain subsidiaries. The Plan is an amalgamation of multiple plans within the Gates Automotive Group. The benefits, rights and features of each merged plan have been retained and are detailed in the individual sub-documents relating to specific employee groups covered.

Gates Industrial Corporation (Gates Industrial), which was formed in September 2017 and completed an initial public offering on January 25, 2018, indirectly owns all equity interests in the Company.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Trustee and Administration of the Plan

The Gates Industrial & Automotive Defined Benefit Master Retirement Trust (the Trust) Agreement governs the assets of the Plan from the Company. The Plan is the only participating plan in the Trust.

The Gates Retirement Board (the Plan Administrator or Retirement Board) is the administrator of the Plan. The Plan Administrator has full power, authority and responsibility to control and manage the operations and administration of the Plan. The Retirement Board determines the appropriateness of the Plan's investments and monitors investment performance. The Bank of New York Mellon (BNY Mellon or Trustee) is the trustee of the Plan.

Multiple Plan Provisions

The Plan is an amalgamation of several benefit formulas and merged plans, all of which are closed to new plan members and summarized below:

- Document 1 covered members of the Denver Machining Center of the Company and was closed to new members effective July 1, 2008. Additionally, benefits were frozen for current plan members effective August 13, 2008, in accordance with negotiations with the collective bargaining members.
- Document 2 covers salaried and non-union members of the Company and was closed to new members in 1990. Effective September 30, 2009, Appendix J and K of Document 2 ceased benefit accruals, freezing final average pay and credited service. However, the Core Balance (as defined by the Plan Document) in the Gates Matchmaker Plan will continue to be credited with investment income and the 3% Basic Contributions (as defined by the Plan Document) and, in accordance with the terms of the Plan, continue to be applied as an offset to the benefit payable by the Plan.

The Gates Group Retirement Plan

Notes to Financial Statements

- Document 3 provides benefits to certain collective bargaining unit members of the Company in accordance with good faith negotiations. Future service accruals for members of the Elizabethtown Polyflex location were frozen as of December 31, 2009, and all non-vested active members of this group were provided 100% vesting as of that date. Effective April 10, 2011, accruals for collectively bargained employees represented by Galesburg Local #685, United Steelworkers of America, under Document 3 are frozen pursuant to the collective bargaining agreement.
- Document 4 covers salaried and non-union members at certain locations of the Company and is closed to new members. Effective January 1, 1989, the provisions of Document 4 were merged into Document 2 (now referred to as Appendix K members).
- Document 5 is a closed and frozen benefit for the former employees of Camel Tire Care Products. The Pension Plan of Hourly Employees of Camel Tire Care Products was merged into the Plan on December 31, 2000.
- Document 6 is a closed and frozen benefit for the former employees of Schrader Automotive. The Schrader Inc. Employees' Pension Plan was merged into the Plan on December 31, 2000.
- Document 7, formerly known as the Stant Retirement Plan for Salaried Employees, was merged into the Plan effective January 1, 2002. Document 7 provides benefits to salaried and non-union hourly employees of Stant Corporation and Trico Corporation, companies, previously within the controlled group of businesses. Effective December 31, 2002, Document 7 was closed to new members. Effective September 30, 2009, Document 7 ceased benefit accruals, freezing final average pay and credited service. However, the Core Balance (as defined in the Plan Document) in the Gates Matchmaker Plan (formerly in the Tomkins Automotive 401(k) Plan (f/k/a the Stant 401(k) Plan)), will continue to be credited with investment income and the 3% Basic Contributions (as defined by the Plan Document) and, in accordance with the terms of the Plan, will continue to be applied as an offset to the benefit payable by the Plan.
- Document 8, formerly known as the Epicor Industries Inc. Hourly Employees Pension Plan (the Epicor Plan), was closed to new members effective March 1, 2003, and benefits were frozen effective February 28, 2003. The Epicor Plan was merged into the Plan on January 1, 2002.
- Document 9, formerly known as The Stant Cash Accumulation Retirement Plan (the Stant Plan), was established January 1, 2003. The Stant Plan covers salaried and non-union hourly employees at Stant Corporation and Trico Corporation. Effective September 30, 2009, Document 9 ceased benefit accruals with no further contribution credits. Interest credits will continue to be applied in accordance with the terms of Document 9.
- Document 10, formerly known as the Trico Hourly Pension Plan (the Trico Plan) effectively became frozen in 2004 following the closure of the facility in Buffalo, NY between June 2003 and March 2004 in which all plan members were employed. The Trico Plan was merged into the Plan on January 1, 2006.
- Document 11, formerly known as the FEDCO Automotive Components Company Bargaining Unit Pension Plan (the FEDCO Plan) was closed to new members effective December 28, 2002, and benefits were frozen after May 2003. There are no active employees within the FEDCO Plan and all plan members are either in pay status or have a deferred vested benefit. The FEDCO Plan was merged into the Plan on December 31, 2009.

The Gates Group Retirement Plan

Notes to Financial Statements

Effective September 30, 2009, the Plan was amended to incorporate the following: (1) all plan participants actively employed as of September 30, 2009, are considered fully vested, unless a collective bargaining agreement specifies another date, and (2) active Plan members will continue to earn continuous service under the Plan for purposes of determining early retirement eligibility.

The corporate entities associated with Documents 5 through 11 are no longer part of the Gates Controlled Group. Gates Corporation is the single legal entity in the Plan. The former entities have been sold prior to 2016 although the pension benefit obligations remain with Gates Corporation.

Effective January 1, 2012, the Plan Document was amended and restated for the following: (1) to incorporate amendments adopted since the last restatement and (2) to add a lump sum distribution option under each sub-document, effective April 1, 2012.

Effective, January 1, 2016, the Plan Document was amended and restated for the following: (1) to incorporate amendments adopted since the last restatement and (2) to reflect the legal requirements contained in the 2015 Cumulative List of Changes in Plan Qualification Requirements as issued by the Internal Revenue Service (the IRS) in Notice 2015-84.

Effective August 1, 2017, the Plan was amended to include an automatic distribution feature for terminated participants who have not elected a form of distribution, described as follows:

1. If the present value of the participant's pension determined as of his or her annuity starting date does not exceed \$1,000, such present value will be distributed to the participant as soon as reasonably possible following the participant's termination of employment, without consent of the participant or participant's spouse, in a lump sum payment of equivalent actuarial value.
2. If the present value of the participant's pension determined as of his or her annuity starting date exceeds \$1,000 but does not exceed \$5,000, the Plan Administrator will direct that such amount be paid, in the name of the participant, to an individual retirement account designed by the Plan Administrator.

Prior Group Annuity Purchase

During 2017, the Plan entered into a group annuity purchase contract with an insurance company. On September 28, 2017, the Plan paid the insurance company approximately \$152,000,000 for the purchase of annuities for 4,267 plan participants. Upon execution of the contract, the insurance company assumed the liability, and guarantees the future benefits for these former participants. The assets and accumulated plan benefit obligations related to this allocated contract are excluded from the Plan's net assets and accumulated plan benefit obligations.

Eligibility

Each employee, as described above, was eligible to enter the Plan upon meeting the eligibility requirements as specified in each of the individual underlying sub-documents noted above. All benefit formulas in the Plan are closed, therefore, there were no newly eligible plan members during the years ended December 31, 2023 or 2022.

The Gates Group Retirement Plan

Notes to Financial Statements

Pension Benefits and Vesting

Beginning in 1985, the Plan was amended into a “floor offset” arrangement so that, where applicable, the pension benefits otherwise payable under the terms of the Plan is offset by an amount of equivalent actuarial value of the member’s hypothetical account balance under the separate terms of The Gates Matchmaker Plan (a defined contribution plan sponsored by the Company). Some of the benefit formulas are a target benefit formula. Monthly benefits and forms of benefits available depend on the location of employment. Certain early retirement options and death benefits are also available.

Information about the Plan Document, the vesting and benefit provisions, and the Pension Benefit Guaranty Corporation’s (PBGC’s) benefit guarantee is contained in separate summary plan descriptions (SPDs) for each group of covered employees and former employees. Copies of these SPDs are available from the Company.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires plan management to make estimates and assumptions that affect the accompanying reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates and such differences could be material.

Investment Valuation and Income Recognition

The Retirement Board adheres to the Gates Industrial and Automotive Defined Benefit Trust Statement of Investment Policy (the Investment Policy), which is periodically reviewed and updated. Investments are managed under agreements by which the investment managers have been given the authority to make individual investment decisions within the guidelines stated in the Investment Policy.

The Plan’s investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Board determines the Plan’s valuation policies utilizing information provided by its investment advisors and Trustee. The Plan is the 100% beneficial owner of the Trust. See Note 6 for a discussion of fair value measurements.

Interest and dividend income (including capital gain distributions) is recorded when earned or on the ex-dividend date, respectively. Net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments. Purchases and sales are recorded on a trade-date basis.

Notes to Financial Statements

Administrative Expenses and Investment Management Fees

The Plan's operating, investment, and administrative expenses are generally paid as provided for in the Plan Document. Expenses for trustee, investment management, actuarial, auditing, and legal fees are charged to the Plan. Other administrative functions are performed by employees of the Company or its subsidiaries at no cost to the Plan. All other costs not paid by the Plan are paid by the Company and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. Funding Policy

The Company's policy is to make contributions to meet the minimum funding requirements under Internal Revenue Code (IRC) 412. The Company used certain funding surplus amounts to satisfy such minimum contributions for the 2023 plan year. There were no minimum contributions required or made for the 2022 plan year.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to service rendered by employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, death, disability, or termination. Benefits payable under all circumstances noted above are included in the computation of the actuarial present value of accumulated plan benefits to the extent they are deemed attributable to employee service rendered to the various freeze dates or the valuation date.

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The effect of any plan amendments on accumulated plan benefits is recognized during the year in which such amendments were adopted.

The Gates Group Retirement Plan

Notes to Financial Statements

The significant assumptions used in the actuarial valuation as of December 31, 2022 are as follows:

Retirement age	In general age 65, however, rates vary by age and groups.
Mortality	<i>Non-annuitants:</i> Pri-2012 “Employees” sex-distinct tables without collar adjustments, projected forward generationally with Scale MP-2021. <i>Annuitants:</i> Pri-2012 “Healthy Retirees” and “Contingent Survivors” sex-distinct tables without collar adjustments, projected forward generationally with Scale MP-2021.
Form of payment	50% of participants are assumed to elect the normal form of payment and 50% of participants are assumed to elect the lump sum option. For single lump sum or annuity, based on groups.
Lump sum interest rate	5.625%
Discount rate	7.000% per annum, compounded annually.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as determined by the actuary as of December 31, 2022 is as follows:

Vested benefits:	
Participants currently receiving benefits	\$ 134,714,574
Other vested benefits	10,676,740
Total Vested Benefits	145,391,314
Nonvested benefits	76,680
Total Actuarial Present Value of Accumulated Plan Benefits	\$ 145,467,994

The changes in the actuarial present value of the Plan’s accumulated plan benefits are as follows:

Actuarial Present Value of Accumulated Plan Benefits, December 31, 2021	\$ 169,857,473
Increase (decrease) during the year attributed to:	
Benefits accumulated	(283,991)
Actuarial losses	563,573
Decrease in discount period	9,170,186
Benefits paid	(20,183,969)
Assumption changes ^(a)	(13,655,278)
Net Decrease	(24,389,479)
Actuarial Present Value of Accumulated Plan Benefits, December 31, 2022	\$ 145,467,994

^(a) For the prior valuation, a discount rate of 5.750% and the lump-sum interest rate of 2.750% was used. These changes resulted in a decrease in the obligation.

5. Certified Investment Information

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA. Accordingly, BNY Mellon, a qualified institution, has certified the following information included in the accompanying financial statements and supplemental schedules as complete and accurate:

- Investments as shown in the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022 (except for certain investments)*.
- Net appreciation (depreciation) in fair value of investments and interest income from investments, as shown in the accompanying statements of changes in net assets available for benefits for the years ended December 31, 2023 and 2022 (except for net appreciation (depreciation) from certain investments)*.
- Investment amounts included in Notes to Financial Statements.
- Investment information included in the accompanying supplemental schedules as of and for the year ended December 31, 2023.

* Investments and investment income in limited partnerships and private equity were not covered by the certification.

At the request of the Plan Administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements and supplemental schedules, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP and whether the supplemental schedules are in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

6. Fair Value Measurements and Disclosures

Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There were no changes in the methodologies used at December 31, 2023 and 2022.

The Gates Group Retirement Plan

Notes to Financial Statements

Common/Collective Trusts (CCT) - The common collective trusts are valued based on the Plan's interest in the funds at net asset value (NAV) reported by the fund managers as of the financial statement date and recent transaction prices. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Fair values for the investments within these funds are based on quoted prices in active markets and securities valued using either observable inputs or quotations from inactive markets.

Limited Partnerships/Private Equity/ 103-12 Investment Fund (Liquid Alternatives) - The limited partnerships, private equity, and 103-12 investment fund are valued at NAV as determined by the general partner or investment manager of the respective investment. NAV is based on the fair value of the underlying investments. The fair value of the underlying investments is estimated using techniques that may rely heavily on the investment managers' assumptions, quantitative information and qualitative observations. The valuation inputs for the underlying investments are determined by various methods including observable inputs, estimated future cash flows, market rates for assets, market interest rates, interest spreads, credit risk, liquidity and other financial data. The Trustee uses the fair value from the investment managers and the Retirement Board reviews and monitors performance. The Trustee did not make any adjustments to the valuations. NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV.

This category includes eight and ten different funds as of December 31, 2023 and 2022, respectively. They are comprised of limited partnerships and private equity that invest primarily in private equity, both domestically and internationally and may consist of hedge funds, foreign asset management vehicles, segregated portfolio companies and other investments. These investments are intended to be liquid, however, there may be restrictions on when assets can be liquidated. Distributions may be contingent upon the liquidation of the underlying assets of the funds. Redemptions generally can occur monthly, however certain investments may be quarterly and up to four years.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments, at fair value:

	Level 1	Level 2	Level 3	Total
Total Assets, in the fair value hierarchy	\$ -	\$ -	\$ -	\$ -

Investments, measured at NAV ⁽¹⁾				148,326,490
Total Investments , at fair value				\$ 148,326,490

⁽¹⁾ In accordance with Subtopic 820-10, certain investments that were measured at NAV value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Fair Value of Investments that Calculate NAV as a Practical Expedient

The following tables summarize investments measured at fair value based on NAV per share held in the Trust:

Common/Collective Trusts ⁽¹⁾	\$ 117,363,875	None	Daily	1

Limited Partnerships/Private Equity (Liquid Alternatives) ⁽²⁾	\$ 19,304,099	None	Monthly, Quarterly, Every 48 Months	30 - 1,460

⁽¹⁾ The investment strategy for the BNY Mellon Temporary Investment Fund, which is a common collective trust, is to maintain a \$1 unit value. All other common/collective trusts held by the Plan are Direct Filing Entities with the Department of Labor.

⁽²⁾ The liquid alternative investments encompass a wide range of strategies, involving traditional asset classes including but not limited to equity, fixed income, commodities, emerging market currencies, reinsurance, and other strategies intended to capture various factor exposures that incorporate shorting, unconstrained mandates and less liquid opportunities. The 103-12 investment fund is a direct filing entity.

7. Plan Termination

Although it has not expressed any intention to do so, the Company has the right, under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the assets of the Plan will

The Gates Group Retirement Plan

Notes to Financial Statements

be allocated to plan participants and beneficiaries in accordance with applicable provisions of ERISA and the Plan Document. Should unfunded vested benefits exist, such benefits will be provided up to specified limitations as described in ERISA and by the PBGC.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Additional information regarding the priority of participants' claims to the assets of the Plan upon termination and benefits guaranteed by the PBGC is available from the Plan Administrator.

8. Income Tax Status

The Plan was amended and restated effective January 1, 2016, and the IRS has determined and informed the Company by a letter dated August 7, 2017, that the Plan is designed in accordance with applicable sections of the IRC. The Plan Administrator and the Company believe that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is qualified and the related trust is tax exempt, thus, no provision for income taxes is included in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. The Plan was under audit for the 2019 plan year by the IRS but the Company received a closing letter on March 18, 2024 with no findings.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are subject to various risks, such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in the economic conditions and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of such investment securities, it is possible that changes in the value of investment securities could occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and the funded status of the Plan.

Plan contributions are determined and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is possible that changes in these estimates and assumptions in the near

The Gates Group Retirement Plan

Notes to Financial Statements

term could impact the amounts reported in the financial statements and accompanying notes and could be material to the Plan's financial statements.

The value of the Plan's investments has a direct impact on its funded status. As a result of such changes in market value and possible changes to the actuarial assumptions used in determining the present value of accumulated plan benefits and future required contributions.

The Pension Protection Act of 2006, as amended by the Worker, Retiree and Employer Recovery Act of 2008, imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. Because the Plan's Adjusted Funding Target Attainment Percentage (AFTAP) equals or exceeds 80.00%, the Plan is not subject to any benefit restrictions.

10. Related Party and Exempt Party-In-Interest Transactions

A short-term investment fund, which is included in the investments within the Trust, is managed by BNY Mellon, the Trustee. Five of the Plan's funds are managed by Willis Towers Watson, the investment advisor. Certain expenses related to audit, custody, asset management and actuarial services are paid from assets of the Plan. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 11, 2024, which is the date the financial statements were available to be issued. No events or transactions discovered during this evaluation require recognition or disclosure in the financial statements.

• Effective interest rate	5.08%	2.99%

As permitted by law, rates reflecting stabilization are used to determine the funding target, and thus the minimum required contribution under IRC §430 for the plan. Because these assumptions are subject to a corridor based on average interest rates over a 25-year period, they may differ from current market interest rates, and may be inconsistent with other economic assumptions used in the valuation.

Rates not reflecting stabilization are used to determine PBGC variable rate premiums if the alternative method is used, and are used to determine the PBGC FTAP and the PBGC 4010 FS.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 65
- Deferred vested benefit Age 65 or current age if later. If participant is past age 65, 50% of participants between the ages of 65 and 70 are assumed to claim their benefit, and 25% of participants greater than the age of 70 are assumed to claim their benefit.
- Disability benefit Upon disablement
- Retirement benefit Active participants under Plan documents 1, 2 and 3 who have reached a minimum age of 55 years and a minimum service of 10 years or a minimum age of 50 years and a minimum service of 30 years are assumed to commence payment on the first of the month coincident or next following termination of employment. Otherwise they are assumed to commence payment on the first of the month coincident or next following the attainment of age 70.

Form of payment

For Document Numbers 1, 2, and 3, 50% of participants are assumed to elect the normal form of payment and 50% of participants are assumed to elect the lump sum option. For single participants, the normal form of payment is the life annuity with an immediate 5-year guaranteed period. For married participants, the normal form of payment is the 50% joint and survivor annuity.

For Document Numbers 5, 6, 8, 10, and 11, 50% of deferred vested participants are assumed to elect a straight-life annuity, while the other 50% are assumed to elect a lump sum.

For Document Number 7, 50% of deferred vested participants are assumed to elect a straight-life annuity with 5 years guaranteed, while the other 50% are assumed to elect a lump sum.

For Document Number 9, participants are assumed to elect a lump sum benefit rather than one of the monthly annuity payment options.

Terminated vested participants that are over the age of 65 are assumed to choose the actuarial increase from Normal Retirement Date to commencement option over the retroactive annuity starting date option.

Plan compensation

Plan compensation is eligible earnings provided by the employer for the prior year adjusted by the compensation increase rate (used for the Gates Matchmaker Plan Offset).

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Percent married

80% of participants. Used to value pre-retirement surviving spouse benefits and in determining the optional forms expected to be elected at commencement.

Spouse age

Male spouses are assumed to be three years older than female spouses.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Decrement timing	<p>The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.</p>
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and 12 and 24 months preceding the valuation date, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.750% in the prior year, and 5.250% in the second prior year (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and, based on that review, is not aware of any significant benefits required to be valued that were not.

The plan pays small benefits (with a present value up to \$5,000 in a single lump sum payment). Such lump sums are not explicitly valued; rather such participants' benefits are valued using the benefit choice assumptions described above.

Sources of Data and Other Information

Gates Corporation furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Gates Corporation, the following assumptions were made for missing or apparently inconsistent data elements:

- Beneficiaries are assumed to be the opposite gender of the participant where data is unavailable
- A three-year age difference is assumed where the male is older when the data is unavailable

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Gates matchmaker plan hypothetical account balance investment return

The plan credits interest to the Gates Matchmaker Plan Account Balance using actual investment return under the Gates Stable Value Fund of the Gates Matchmaker Plan. Our long term estimate of actual investment return under the Gates Stable Value Fund of the Gates Matchmaker Plan is 3.00%, based on a combination of current conditions, and future economic expectations.

**Gates matchmaker plan
hypothetical account balance
conversion basis**

For Document Number 3, the Gates Matchmaker Plan Offset is determined by converting the Gates Matchmaker Plan Hypothetical Account Balance to an annuity using the 1983 Group Annuity Mortality Table for males and the interest rate which shall be the greater of the PBGC deferred interest rate structure (5.00%, 4.25%, 4.00%) or the deferred interest rate structure published by the PBGC as of the last business day of the second month preceding the last day worked or the last day included in the member's Credited Service, whichever is later.

The assumed annuity conversion rate is a long term estimate of the plan's conversion basis; we believe that the selected assumption does not significantly conflict with what would be reasonable.

Lump sum conversion factor

As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Plan-related expenses

As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

**Assumed return for asset
smoothing**

The assumed return of 7.000% used for asset smoothing is the expected return on assets assumption chosen by the client for the 2023 plan year under U.S. GAAP. WTW evaluated this assumption and believes that it does not significantly conflict with what would be reasonable. We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions.

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were based on an experience study conducted in 2012, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were based on an experience study conducted in 2018 with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement for deferred benefits	<p>Deferred vested participants are assumed to begin benefits based on plan sponsor expectations for the future, with periodic monitoring of gains and losses caused by commencement patterns different than assumed.</p> <p>The percentage of terminated vested participants over the age of 65 that are assumed to claim their benefits is based on plan sponsor experience and expectations for the future.</p>
Form of payment	Assumed optional form elections are based on the best estimate of future experience.
Percent married	The percentage married assumption is based on expectations for the future.

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

Other than the prescribed changes in discount rate and mortality, no changes have occurred for IRC §430 and §436 purposes.

Schedule SB, Part V Summary of Plan Provisions

Applies to Document Numbers 1, 2 and 3

Plan Sponsor

Gates Corporation

Effective Date

Restated effective January 1, 2016 and there are no subsequent amendments that affect the plan provisions.

Participation

Each eligible employee becomes a member after completion of one year of Continuous Service and attainment of age 21. Effective January 1, 1990, any new employee who is not a member of a collective bargaining unit that is eligible for participation in the plan is excluded from the plan. Effective December 31, 2009, all future new members are excluded from the plan.

Retirement Dates

Normal: The first day of the month following the attainment of age 65.

Early: The first day of the month following the attainment of age 55 and the completion of 10 years of Continuous Service or the completion of 30 years of Continuous Service.

Late: The first day of any month subsequent to the Normal Retirement Date.

Continuous Service

For full-time employees, service is credited using the elapsed time method. For part-time employees, service is credited for each year in which the employee works at least 1,000 hours, but always at least equal to Credited Service.

Credited Service

For full-time employees, service is credited using the elapsed time method. For part-time employees, service is credited for each year in which the employee works at least 2,080 hours, and partial years of service are credited on a prorated basis based on a total of 2,080 hours, rounded to the nearest twelfth of a year.

Credited Service was frozen as of August 14, 2008 for members in Document Number 1. Credited Service was frozen as of September 30, 2009 for members in Document Number 2 Appendix J and Appendix K. Credited Service was frozen as of December 31, 2009 for members of the Elizabethtown Polyflex location and April 10, 2011 for members of the Galesburg location in Document Number 3.

Eligible Earnings

For Document Number 2, Eligible Earnings are defined as total cash remuneration paid for services rendered to the Company, including regular pay, task incentive pay, vacation pay, sick leave pay, holiday pay, instructor's pay, funeral leave pay, military reserve training pay, commissions and annual bonuses. No Eligible Earnings after September 30, 2009 will be considered for Target Benefit calculation purposes.

Gates Matchmaker Plan Hypothetical Account Balance

For Document Numbers 2 and 3, the Gates Matchmaker Plan Hypothetical Account Balance as of December 31, 1988 with actual investment return plus the member's Company basic contributions made on and after January 1, 1989 increased with actual investment return between January 1, 1989 and June 30, 1996. Effective July 1, 1996, investment return will be equal to that of the Gates Stable Value Fund of the Gates Matchmaker Plan. The Company basic contribution is currently 3% of applicable earnings.

Gates Matchmaker Plan Offset

For Document Number 2, the Gates Matchmaker Plan Offset is determined by a factor based on age and years of Continuous Service applied to the Gates Matchmaker Plan Hypothetical Account Balance as described in the Plan document.

For Document Number 3, the Gates Matchmaker Plan Offset is determined by converting the Gates Matchmaker Plan Hypothetical Account Balance to an annuity using the 1983 Group Annuity Mortality Table for males and the interest rate which shall be the greater of the PBGC deferred interest rate structure (5.00%, 4.25%, 4.00%) or the deferred interest rate structure published by the PBGC as of the last business day of the second month preceding the last day worked or the last day included in the member's Credited Service, whichever is later.

Target Benefit

For the applicable formulas in Document Numbers 2 and 3, if the Target Benefit is greater than the Gates Matchmaker Plan Offset, the excess of the Target Benefit over the Offset is payable from the Plan.

retirement, or an immediate benefit equal to such deferred benefit, unreduced for early commencement. For members at the Los Angeles Distribution Center, unreduced early retirement benefits require attainment of age 55 and at least 30 years of Continuous Service.

Supplemental Early

For those members retiring with at least 30 years of Continuous Service after age 55 and before age 62, a supplemental early retirement benefit is payable equal to the amount needed to bring the total benefit up to an amount specified by a combination of the member's age and service, varying by the applicable Document. This supplement is payable as a temporary life annuity to age 62 or death, if earlier. Note that members of Appendix K in Document Number 2 are not eligible for a supplement. Also note that this supplement is eliminated for all active members not eligible as of September 30, 2009 (eligibility is age 55 and 30 years of Continuous Service as of that date).

Late

A monthly pension equal to the normal retirement benefit determined as of the member's late retirement date.

Vesting

Eligibility: A member is 100% vested when he has completed at least 5 years of Continuous Service or attained age 65. All members of Document Number 2 who are actively employed as of September 30, 2009 are automatically 100% vested. All members of Document Number 3 (Elizabethtown Polyflex) who are actively employed as of December 31, 2009 are automatically 100% vested. All members of Document Number 3 (Galesburg) who are actively employed as of April 10, 2011 are automatically 100% vested.

Benefit: A monthly retirement income commencing at Normal Retirement Date equal to the accrued retirement income.

A former member of Document Number 1 who is entitled to a vested deferred retirement benefit may elect to receive an immediate retirement benefit as early as age at termination equal to the deferred benefit actuarially reduced for each complete calendar month that the annuity commencement date precedes Normal Retirement Date.

A former member of Document Numbers 2 and 3 who is entitled to a vested deferred retirement benefit and terminated service with at least 10 years of Continuous Service may, on or after his attainment of age 55, elect to receive an immediate retirement benefit equal to the deferred benefit actuarially reduced for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date.

Disability

Disability occurring on or before September 30, 2009 (for Document Number 2), on or before December 31, 2009 (for Elizabethtown Polyflex Document Number 3), and on or before April 10, 2011 (for Galesburg Document Number 3):

Eligibility: Total and permanent disability as determined by the Committee, and after the completion of 10 years of Continuous Service. The member must also qualify for Social Security disability benefits.

Benefit: The disability retirement benefit is equal to the accrued benefit determined using Credited Service and Eligible Earnings as of the date of disability payable immediately, with no reduction for early commencement.

Disability occurring after September 30, 2009 (for Document Number 2), after December 31, 2009 (for Elizabethtown Polyflex Document Number 3), and after April 10, 2011 (for Galesburg Document Number 3):

Active members are not eligible for disability benefits.

Preretirement Surviving Spouse Benefit

Eligibility: A member dies prior to his annuity commencement date, but after the attainment of Normal Retirement Age, completion of at least 5 years of Continuous Service or otherwise eligible for a deferred vested benefit with a surviving spouse.

Benefit: The retirement benefit payable to the spouse is equal to the retirement benefit which would have been payable to such spouse under the plan's joint and 50% survivor benefit if the member had terminated on his date of death, survived until his normal retirement age under the plan, begun receiving a benefit in the form of a qualified joint and survivor annuity and died the next day. The surviving spouse may elect an earlier commencement date, but no earlier than the member's earliest early retirement date.

If the member is covered under Document Number 2, Appendix J and dies while active after (1) the attainment of age 65, (2) the attainment of age 55 and 10 years of Continuous Service, (3) the attainment of age 50 and 20 years of Continuous Service, or (4) has at least 30 years of Continuous Service, no adjustment is made for the joint and survivor option, and the benefit will be paid as a single life annuity with a 5-year guaranteed period.

Single Sum Death Benefit

Eligibility: A member (other than a deferred vested member) covered under Document Number 1, Appendix J of Document Number 2 or Document Number 3 dies after his annuity commencement date, is currently receiving a benefit as of the date of death and is survived by a spouse to whom the member has been married for at least one year.

as indexed. No Earnings after September 30, 2009 will be considered for Target Benefit calculation purposes.

Covered Compensation

Average of Social Security wage bases for the 35-year period ending with the earlier of the year Social Security full retirement age is attained and 2009.

Tomkins Automotive 401(k) Plan Hypothetical Account Balance

The Tomkins Automotive 401(k) Plan Hypothetical Account Balance is the sum of Company basic contributions made on or after January 1, 2003 plus deemed investment return under the Stable Value Fund of the Tomkins Automotive 401(k) Plan. The Company basic contribution is currently 3% of applicable earnings.

Tomkins Automotive 401(k) Plan Offset

The Tomkins Automotive 401(k) Plan Offset is determined by a factor based on age and Years of Service applied to the Tomkins Automotive 401(k) Plan Hypothetical Account Balance as described in the Plan Document.

Target Benefit

If the Target Benefit is greater than the Tomkins Automotive 401(k) Plan Offset, the excess of the Target Benefit over the Offset is payable from the plan.

Retirement Income

Normal:

- 1 A Target Benefit equal to the sum of (a) and (b):
 - a 1.0% multiplied by Average Eligible Earnings multiplied by years of Benefit Accrual Service as of September 30, 2009.
 - b 0.5% multiplied by Average Eligible Earnings over 1/12th of Covered Compensation multiplied by years of Benefit Accrual Service as of September 30, 2009.

Average Eligible Earnings are determined to be the average of the highest 60 consecutive months of Earnings on or before September 30, 2009.

- 2 Former Trico Pension Plan members:

A Target Benefit equal to the greater of (a) or (b):

- a The sum of (i) and (ii):
 - i The member's accrued benefit under the TRICO plan as of December 31, 1995 (paid as a 5-year certain and life annuity).

- ii The member's accrued benefit under this plan, based on years of Benefit Accrual Service on or after January 1, 1996 and prior to September 30, 2009.
 - b The member's accrued benefit under the Trico plan as of December 31, 1996.
- 3 Former members under the Standard Thomson Retirement Plan for Salaried Employees

A Target Benefit equal to the greater of (a) or (b):

- a The excess of (i) over (ii):
 - i The member's accrued benefit under the Standard-Thomson plan as of December 31, 1994.
 - ii The benefit attributable to accumulated employee contributions made under the Standard-Thomson Plan that have been withdrawn on or after January 1, 1995.
- b The sum of (i) and (ii):
 - i The member's accrued benefit under this plan.
 - ii The benefit attributable to the accumulated employee contributions made under the Standard-Thomson plan that have not been withdrawn.

The monthly benefit payable is calculated as the excess of the Target Benefit over the Tomkins Automotive 401(k) Plan Offset with the excess, if any, subject to a minimum accrued benefit calculated as of February 28, 2003.

Early:

The early retirement benefit is, at the member's option, either a deferred benefit commencing at Normal Retirement Date equal to the normal retirement benefit based on Benefit Accrual Service at early retirement, or an immediate benefit equal to such deferred benefit, reduced by 1/3 of 1% for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date.

Former Trico Pension Plan members:

The early retirement benefit is, at the member's option, either a deferred benefit commencing at Normal Retirement Date equal to the normal retirement benefit based on Benefit Accrual Service at early retirement, or an immediate benefit equal to such deferred benefit reduced by 1/3 of 1% for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date, but not less than the member's accrued benefit as of December 31, 1996 under the Trico plan reduced by 1/2 of 1% for each complete calendar month by which the annuity commencement date precedes age 62.

Former members under the Standard-Thomson Retirement Plan for Salaried Employees:

The early retirement benefit is, at the member's option, either a deferred benefit commencing at Normal Retirement Date equal to the normal retirement benefit based on Benefit Accrual Service at early retirement, or an immediate benefit equal to such deferred benefit reduced by 1/3 of 1% for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date. For those members retiring at or after age 60 with 5 years of Benefit Accrual Service, but less than 10 Years of Service, such deferred benefit is reduced by 5/12 of 1% for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date.

Late:

A monthly pension equal to the normal retirement benefit determined as of the member's late retirement date.

Vesting

Eligibility: A member is 100% vested when he has completed at least 7 Years of Service. Partial vesting occurs according to the following schedule:

3 but less than 4 years	20%
4 but less than 5 years	40%
4 but less than 5 years	60%
6 but less than 7 years	80%

Effective June 29, 2007, employees who were active members and were part of the Trico divestiture are considered 100% vested.

Effective June 18, 2008, employees who were active members and were part of the Stant divestiture are considered 100% vested.

All other members who were actively employed as of September 30, 2009 are automatically 100% vested.

Benefit: A monthly retirement income commencing at Normal Retirement Date equal to accrued retirement income.

A former member who is entitled to a vested deferred retirement benefit and terminated service with 10 or more Years of Service may, on or after his attainment of age 55, elect to receive an immediate retirement benefit equal to the deferred benefit reduced by 3/4 of 1% for each complete calendar month by which the annuity commencement date precedes Normal Retirement Date up to 3 years and 5/12 of 1% for each complete calendar month that the annuity commencement date precedes age 62. Effective July 1, 2007, the 10 Years of Service requirement is eliminated from the preceding sentence.

Former members of the Standard-Thomson plan and Trico plan who are entitled to a vested deferred retirement benefit are also eligible for the early retirement benefits as described under the Early Retirement Income section above.
