Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITORS' REPORT

Plan Administrator
The Ahlstrom Group Retirement Plan for U.S. Employees
Windsor Locks, Connecticut

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Ahlstrom Group Retirement Plan for U.S. Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated Plan benefits as of December 31, 2023 and 2022, and the related statements of changes in accumulated Plan benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of The Ahlstrom Group Retirement Plan for U.S. Employees' financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of The Ahlstrom Group Retirement Plan for U.S. Employees and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Ahlstrom Group Retirement Plan for U.S. Employees' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

Plan Administrator
The Ahlstrom Retirement Plan for U.S. Employees

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Ahlstrom Group Retirement Plan for U.S. Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Ahlstrom Group Retirement Plan for U.S. Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

Plan Administrator
The Ahlstrom Retirement Plan for U.S. Employees

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

THE AHLSTROM RETIREMENT PLAN FOR U.S. EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 1 DESCRIPTION OF PLAN

The following description of The Ahlstrom Group Retirement Plan for U.S. Employees (formerly The Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees) (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan covering certain salaried and certain hourly employees of the following participating companies at December 31, 2023 and 2022:

- Ahlstrom USA Inc.
- Ahlstrom Filtration LLC (Madisonville, Taylorville and Mount Holly Springs sites)
- Ahlstrom North America LLC

The Plan also provides benefits for certain participants of former participating employers. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Name Change

The Plan was amended effective April 1, 2023 to change the name of the Plan from The Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees to The Ahlstrom Group Retirement Plan for U.S. Employees following an ownership reorganization.

Eligibility

Prior to May 1, 2006, all eligible employees who were employed by a participating employer and who were not members of a collective bargaining agreement were eligible for Plan participation on the first day of the month following the attainment of age 21 and the completion of one year of service. Effective May 1, 2006, employees who first complete an hour of service on or after that date shall not be eligible to participate in the Plan.

Plan Freeze

The Plan was amended to provide that no additional benefit service will be credited after December 31, 2010, for calculating benefits under the Plan. Final average earnings used for calculating benefits include earnings only through December 31, 2017.

Benefits

Pension benefits provided under the terms of the Plan include those for normal retirement, early retirement, late retirement, disability retirement, and death.

Under normal retirement (age 65), the Plan provides for three benefit formulas depending upon which participating employer the participant was employed with. Employees of all the current participating companies are subject to the same benefit formula. Annual benefits calculated under these three formulas are a factor of final average earnings, years of benefit service and covered compensation for Social Security purposes. The benefit for early retirement is calculated the same as under normal retirement, except that it is reduced by 5/12% for each full month that the benefit commencement date precedes the normal retirement date.

THE AHLSTROM RETIREMENT PLAN FOR U.S. EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Late retirement benefits are calculated the same as under normal retirement, except that final average earnings and years of service include the period from the normal retirement date to the actual retirement date.

Death benefits are provided by the Plan before and after retirement. Monthly benefits provided to the surviving spouse are a factor of the participant's age at date of death, final average earnings, years of service, covered compensation for Social Security purposes and the age of the surviving spouse. Death benefits are not provided to participants with less than five years of vesting service.

Vesting

Eligible employees become fully vested under the Plan upon completion of five years of service. In connection with the Plan freeze, all active participants became fully vested effective December 31, 2010.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Amounts allocated to withdrawing participants that had been processed and approved for payment prior to December 31, 2023 and 2022, but not yet paid as of that date, totaled \$548,725 and \$539,900, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

THE AHLSTROM RETIREMENT PLAN FOR U.S. EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Plan Expenses

In accordance with the Plan trust document, expenses incident to the operation of the Plan, including premiums for termination insurance payable to the Pension Benefit Guaranty Corporation (PBGC), fees for professional services and the costs of such other technical or clerical assistance as may be required shall be paid out of the trust fund, to the extent not paid for by the employer.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated Plan benefits are determined based upon certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics, all of which are subject to change. Due to uncertainties inherent in the estimation process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through October 9, 2024, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION BY THE INVESTMENT TRUSTEE

Information presented in the accompanying statements of net assets available for benefits as of December 31, 2023 and 2022 and changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) and reportable transactions as of or for the year ended December 31, 2023, for investments and investment income was derived, without audit, from information certified to be complete and accurate by SEI Private Trust Company (SEI), the trustee, as permitted by the election made by the Plan administrator under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE 4 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered as of the Plan freeze. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included to the extent they are deemed attributable to employee service rendered to the Plan freeze.

THE AHLSTROM RETIREMENT PLAN FOR U.S. EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 4 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated Plan benefits as determined by the Plan's independent actuary is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2024 and 2023. Had the valuations been performed as of December 31, 2023 and 2022 there would be no material differences.

The significant actuarial assumptions used in the valuations as of December 31, 2023 and 2022, are as follows:

	<u>2023</u>	<u>2022</u>
Mortality Rates	Pri-2012 Mortality with Scale MP-2021	Pri-2012 Mortality with Scale MP-2021
Discount Rate	6.50% per Annum	6.50% per Annum
Retirement Age	Various Rates of Retirement from Ages 60 to 70	Various Rates of Retirement from Ages 60 to 70

In addition, benefits for some foreign nationals under this Plan are assumed to be zero.

The foregoing actuarial assumptions are based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 5 FUNDING POLICY

The Company has voluntarily agreed to make annual contributions to the Plan sufficient to provide the Plan with assets with which to pay pension benefits to Plan participants. The amounts contributed to the Plan are determined by the Company on the basis of: (a) annual actuarial valuations of the Plan by an independent consulting actuary, (b) the maximum amount permitted by law or regulation as a federal income tax deduction, and (c) the minimum amount certified by the actuary as necessary during any Plan year to avoid an accumulated funding deficiency as defined by ERISA. The Company did not make a contribution to the Plan in 2023 or 2022. The Plan has met the minimum funding requirements of ERISA for the years ended December 31, 2023 and 2022.

NOTES TO FINANCIAL STATEMENTS

NOTE 6 FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value:

Money Market and Mutual Funds – Money market and mutual funds are valued at the quoted price of shares held by the Plan at year-end.

U.S. Government Agency Issues - U.S. Government Agency Issues are valued at the closing price reported in the active market in which the individual securities are traded.

There have been no changes in the methodologies used at December 31, 2023 and 2022.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

THE AHLSTROM RETIREMENT PLAN FOR U.S. EMPLOYEES
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2023 AND 2022

NOTE 6 FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2023				
	Level 1	Level 2	Level 3	Total
Money Market and Mutual Funds	\$ 71,489,688	\$ -	\$ -	\$ 71,489,688
U.S. Government Agency Issues	12,379,300	-	-	12,379,300
Investments at Fair Value	<u>\$ 83,868,988</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 83,868,988</u>

2022				
	Level 1	Level 2	Level 3	Total
Money Market and Mutual Funds	\$ 67,939,237	\$ -	\$ -	\$ 67,939,237
U.S. Government Agency Issues	\$ 16,723,722	-	-	16,723,722
Investments at Fair Value	<u>\$ 84,662,959</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 84,662,959</u>

There were no transfers between levels of investments during the years ended December 31, 2023 and 2022.

NOTE 7 PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by SEI. SEI is the trustee and investment manager of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. Other parties-in-interest include recordkeepers and professional service firms who provide services to the Plan. Certain employees of the Company who participate in the Plan perform administrative services to the Plan at no cost to the Plan.

NOTE 8 INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 15, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the Code). The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTES TO FINANCIAL STATEMENTS

NOTE 9 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

In the event the Plan is terminated, the net assets of the Plan will be allocated to the participants and beneficiaries of the Plan in accordance with ERISA and its related regulations and the Plan document.

Generally, benefits are provided in the following order:

- A. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- B. Other vested benefits insured by the PBGC, a U.S. government agency, up to the applicable limitations discussed below.
- C. All other vested benefits (that is, vested benefits not insured by the PBGC).
- D. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2023, that ceiling is \$7,108 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Description of Actuarial Methods

Asset Valuation Method

The Actuarial Value of assets used in the development of plan contributions phases in recognition of the difference between the actual return on Market Value and the expected return on Market Value over a three-year period at 33.33% per year. The Actuarial Value is adjusted, if necessary, to comply with the IRC Sec. 430 requirement that the Actuarial Value of assets be within the range of 90% to 110% of the Market Value of assets. This method is equivalent to the smoothed market value method without phase-in described in Approval 3.16 of Revenue Procedure 2000-40.

Actuarial Cost Method

Funding Target Liability: Unit Credit Actuarial Cost Method.

Maximum Liability: Projected Unit Credit Actuarial Cost Method. The allocation of projected benefits between past years and future years is in proportion to the applicable rates of benefit accrual under the Plan.

Description of Actuarial Assumptions

Changes in Actuarial Assumptions as of January 1, 2023

The valuation reflects changes in the actuarial assumptions listed below. (The assumptions used before and after these changes are more fully described in the next section.)

- Mortality

With the exception of the valuation interest rate, the assumptions indicated were changed to represent the Enrolled Actuary's current best estimate of anticipated experience of the Plan.

Interest Rates

The American Rescue Plan Act of 2021 (ARPA) was signed into law on March 11, 2021. ARPA continues to use a 24-month bond averaging period methodology for determining the segmented interest rates used in the calculation of the Plan's target liability and a corridor based on a 25-year bond averaging period. However, now the corridor based on 25-year average segment rates and the applicable minimum and maximum percentages used for purposes of calculating the Plan's target liability to adjust the 24-month average segment rates has been extended. In addition, any 25-year average segment rate that is less than 5% is deemed to be 5%.

The Infrastructure Investment and Jobs Act was signed into law on November 15, 2021 that further extended funding stabilization. The corridors under the new laws are as follows:

<u>Corridor After ARPA</u>		<u>Corridor after Infrastructure Investment and Jobs Act</u>	
<u>Years</u>	<u>Corridor</u>	<u>Years</u>	<u>Corridor</u>
2020-2021	95% to 105% if not deferred	2020-2021	95% to 105% if not deferred
2022-2025	95%-105%	2022-2030	95%-105%
2026	90%-110%	2031	90%-110%
2027	85%-115%	2032	85%-115%
2028	80%-120%	2033	80%-120%
2029	75%-125%	2034	75%-125%
2030+	70%-130%	2035+	70%-130%

The corridor rates are used for purposes of the calculation of the Plan's minimum required contribution and the determination of the Plan's AFTAP certification, but cannot be reflected in the calculation of the Plan's maximum tax deductible contribution or the PBGC variable premium liability. This report reflects the rates under ARPA as allowed under current legislation.

Valuation: Segment rates for the month of the Valuation Date (i.e., January). The rates are shown below.

Segment	2023		2022	
	Before Adjustment	After Adjustment	Before Adjustment	After Adjustment
1st	2.13%	4.75%	0.88%	4.75%
2nd	3.62%	5.00%	2.61%	5.18%
3rd	3.93%	5.74%	3.27%	5.92%

Interest Rates (cont.)

The rates before adjustment are the standard 24-month segment rates determined under any prior interest rate relief laws. They are used in the determination of the Plan's maximum tax deductible contribution.

The rates after adjustment reflect the application of the applicable corridor around the 25-year average rates. They are used in the determination of the Plan's minimum required contribution and AFTAP for benefit restriction purposes.

PBGC premium: PBGC spot segment rates for the month preceding the premium payment year. This method was last elected for the 2014 plan year. The rates are shown below.

	2023	2022
1 st segment	4.84%	1.16%
2 nd segment	5.15%	2.72%
3 rd segment	4.85%	3.10%

Expected Return for Asset Smoothing

Year	Assumption	Not to Exceed
2023	6.50%	5.74%
2022	6.50%	5.92%
2021	6.50%	6.11%
2020	7.50%	5.94%

The expected long-term rate of return on assets is estimated using the Plan Sponsor's long-term target asset allocation and the long-term capital market assumption for each asset class in that allocation.

Mortality

RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2021. Separate tables for annuitants and non-annuitants.

(Prior: RP-2014 Adjusted to 2006 Total Dataset Mortality Table projected to valuation date with Scale MP-2020. Separate tables for annuitants and non-annuitants.)

Mortality Improvement

Projected to date of decrement using Scale MP-2021 (generational).

(Prior: Projected to date of decrement using Scale MP-2020 (generational).)

The mortality assumption was updated to the latest approved tables. The change in assumption increased liabilities by about 0.2%.

Inflation

2.40%.

This assumption is consistent with the Social Security Administration's current best estimate of the ultimate long-term (75-year horizon) annual percentage increase in CPI, as published in the 2023 OASDI Trustees Report.

Salary Scale (including inflation)

Current: None.

Increases in IRC Sec. 401(a)(17) compensation limit

As required by law, no increases are assumed.

Increases in IRC Sec. 415(b) limit on benefits

As required by law, no increases are assumed.

Social Security taxable wage base increases

2.40% per year.

Social Security cost of living increases

2.40% per year.

Retirement

Rates varying by age, average age 64.

Age	Rate
60	10%
61	5%
62	25%
63	20%
64	15%
65	75%
66	60%
67	20%
68	25%
69	67%
70+	100%

The actuarial assumption in regards to rates of retirement shown above is based on the plan's definition of Normal Retirement in accordance with the prior actuary's review of plan experience.

Termination prior to retirement

Representative Termination Rates

Sample Rates (Number leaving during the year (per 100 employees))	
Age	Rate
20	22.4
25	14.9
30	10.4
35	7.4
40	4.3
45	2.7
50	.9
55	0.0
60+	0.0

The actuarial assumption in regards to rates of termination shown above is based on the prior actuary's assumption based on his review of plan experience.

Disability

Disabled-worker experience under OASDI from 1973 to 1976, published in the Social Security Administration's Actuarial Study No. 75 (June, 1978). A unisex rate has been used based on a population mix of 80% male and 20% female. The rates of disablement have been multiplied by 50%. The following numbers of disablements illustrate the disability rates used.

Age	Number of Disablements Per Thousand
20	0.640
30	1.055
40	2.140
50	5.285
60	12.740
70	-
80	-

The actuarial assumption in regards to disability rates shown above is based on the prior actuary's assumption based on his review of plan experience.

Administrative expenses

As prescribed by the IRS, estimated administrative expenses have been added to the target normal cost.

Percent of active employees married

75% of males and 75% of females.

Spouse's age

Husbands are assumed to be 3 years older than wives.

Summary of Plan Provisions

Ahlstrom-Munksjo Group Retirement Plan for U.S. Employees (see Appendix A for former Madisonville and Taylorville Plan)

This exhibit summarizes the major provisions of the Plan. It is not intended to be, nor should it be interpreted as a complete statement of all plan provisions. To the extent that this summary does not accurately reflect the plan provisions, then the results of this valuation may not be accurate.

Effective date

January 1, 1985. Most recent: Third Amendment adopted December 28, 2017.

Plan Year

January 1 through December 31.

Eligibility for Participation

All employees who are employed by a participating employer and who are not members of a collective bargaining agreement are eligible for plan participation on the first day of the month following the attainment of age 21 and the completion of one Year of Service. Employees hired or rehired on or after May 1, 2006 are not eligible to participate in the plan. See Sec 3.1(b) for Transfers in after 5/1/2006.

Solely for purposes of becoming a Plan Participant, a "Year of Service" means a 12 month period during which an Employee has completed at least 1,000 Hours of Service, beginning on his Employment Date or Reemployment Date. If an Employee does not complete 1,000 Hours of Service during the 12 months beginning on his Employment Date or Reemployment Date, the 12 month period shall become the Plan Year, beginning with the first Plan Year beginning after such date.

Effective Dec 31, 2017, the Retirement Plan for Hourly Paid Employees of Ahlstrom-Munksjo Filtration LLC - Madisonville and Taylorville Locations (the "Madisonville and Taylorville Plan") was merged into this plan. See Appendix A for former Madisonville and Taylorville Plan plan provisions.

Entry Date

The valuation date coincident with or next following the date on which the employee becomes a participant. This is now a hard frozen plan with no new entrants.

Vesting Service

Vesting Service includes all periods of employment, with continuous and fractional periods of service aggregated and any fractional part of a year rounded to the nearest whole month. Plan participants as of December 31, 2010 are fully vested in their benefits as of December 31, 2010. Periods of absence of less than one year shall count as Vesting Service. Vesting Service shall include any period that the Participant is Disabled.

Benefit Service

Benefit Service includes all periods of employment, with discontinuous and fractional periods of service aggregated and any fractional part of a year counted as a full year, including any period while the employee is disabled. No additional Benefit Service is credited to any participant after December 31, 2010. Periods of absence less than one year shall count as Benefit Service.

Compensation

Compensation includes base salary, overtime pay, bonuses and incentive compensation, sales commissions and incentives, and any amounts deferred under salary reduction agreements.

Final Average Compensation

Final Average Earnings is the total amount of earnings for the 60 consecutive months producing the highest total, divided by five. No earnings after December 31, 2017 are taken into account for purposes of determining Final Average Earnings.

Covered Compensation

Average of Social Security taxable wage bases for the 35 calendar years ending with the year in which the Participant attains Social Security retirement age.

Accrued Benefit

The participant's accrued benefit at any given date is determined under the normal retirement formula, but is based on current Benefit Service, final average earnings, and covered compensation.

Normal Retirement

Eligibility: The first day of the month coinciding with or next following 65th birthday

Benefit (Income): Current: The annual retirement benefit is based on one of the formulas below depending on which Participating Employer the participant is employed with.

Formula A - 1.4% of Final Average Earnings times Benefit Service plus .65% of Final Average Earnings in excess of Covered Compensation times the lesser of Benefit Service and 35 years. An automatic cost-of-living adjustment (COLA) is applied on each January 1 to the benefit after the benefit commences for employees who commenced employment prior to November 29, 1994. See COLA definition below

Formula B - 1.4% of Final Average Earnings times Benefit Service plus .65% of Final Average Earnings in excess of Covered Compensation times the lesser of Benefit Service and 35 years.

Plan benefits at termination/retirement will be reduced for any benefits accrued under certain prior plans for benefits earned in foreign subsidiaries or Canadian affiliates, or for retirement systems outside the U.S. for non-U.S. citizens and for whom the company, or its parent, are required to contribute, which apply to the same years of service considered under the Plan.

Early Retirement

Eligibility: First day of the month coincident with or next following age 55 with 10 years of vesting service.

Benefit: The benefit determined under the normal retirement benefit formula based on service at early retirement date, and reduced by 5/12% for each full month by which the date of benefit commencement precedes Normal Retirement Date.

Late Retirement

Eligibility: First of any month after Normal Retirement Date.

Benefit: The benefit determined under the normal retirement benefit formula based on service and earnings to actual retirement date.

Deferred Vested Retirement Benefit

Eligibility: On termination of employment with at least 5 years of vesting service (graded vesting beginning at 3 years for Kamyr participants as of January 1, 1993).

Benefit: The participant's accrued benefit is payable as a deferred pension commencing at his normal retirement date or provided the participant had at least 10 years of vesting service, a reduced benefit payable on the first day of any month following attainment of age 55.

Pre-Retirement Death Benefit in Active Service

Eligibility: Death of a married active vested participant.

Benefit:

- a) Before 5 Years (3 years for Kamyr participants as of January 1, 1993) of Vesting Service - none.
- b) After 5 Years (3 years for Kamyr participants as of January 1, 1993) of Vesting Service but before Age 55 – Surviving spouse's benefit is payable monthly for life at the date the employee would have attained age 65 and is equal to the benefit the spouse would have received if the employee had separated from service on the date of death, survived to age 65, retired under a 50% joint and survivor annuity, and died immediately thereafter. Such benefit is to be reduced (increased) 1% for each full year in excess of 5 full years that the surviving spouse is younger (older) than the deceased participant).
- c) After 10 Years of Vesting Service and Age 55 –Surviving spouse's benefit is payable monthly for life and is equal to the unreduced benefit the spouse would have received if the employee had retired under a 50% joint and survivor benefit immediately before his death. Such benefit is to be reduced (increased) 1% for each full year in excess of 5 full years that the surviving spouse is younger (older) than the deceased participant).

Death Benefit after Annuity Starting Date

The beneficiary of a participant who retires on his/her Early, Normal or Late retirement date will receive a \$5,000 lump sum death benefit. This is payable only to the extent the beneficiary is not entitled to a death benefit under a Participating Employer's postretirement life insurance plan
