(1) Name: **ALAN ROSS & COMPANY PC**

(2) EIN: **20-5367494**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		500000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of the
Tekni-Plex, Inc. Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have audited the financial statements of Tekni-Plex, Inc. Pension Plan (the Plan), an employee benefit plan subject to Employee Retirement Income Security Act of 1974 (ERISA Section 103(a)(3)(C) audit), which comprise the Statements of Net Assets Available for Benefits as of December 31, 2023, and the related Statements of Changes in Net Assets Available for Benefits for the year then ended, and the Statement of Accumulated Plan Benefits as of December 31, 2022, and the related Statement of Changes in Accumulated Plan Benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from Principal Trust Company, a qualified institution, as of December 31, 2023 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by an certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with the auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Tekni-Plex, Inc. Pension Plan and meet our other ethical responsibilities, in accordance with the relevant requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Tekni-Plex, Inc. Pension Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Tekni-Plex, Inc. Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about Tekni-Plex, Inc. Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material aspects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental Schedules of Assets (held at the end of the year) and Reportable Transactions as of or for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplement schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2022 Financial Statements

The 2022 financial statements of Tekni-Plex, Inc. Pension Plan were audited by predecessor auditors. As permitted by 29 CFR 2520.103.8 of the Department of Labor's Rules and Regulations for the Reporting and Disclosure under ERISA, the plan administrator instructed the predecessor auditor not to perform, and they did not perform, any auditing procedures with respect to the information certified by Principal Trust Company. Their report dated December 15, 2023, indicated that the amounts and disclosures in the financial statements, other than those derived from the certified investment information, are presented fairly in accordance with the accounting principles generally accepted in the United States of America.

The following description of the Tekni-Plex, Inc. Pension Plan (the Plan) is provided for general information only. Participants should refer to the Plan Document and Summary Plan Description for more complete information.

General:

The Plan is a non-contributory defined benefit pension plan subject to the Employee Retirement Income Security Act of 1974 (ERISA). Effective January 1, 2007, Tekni-Plex, Inc. (the Company) approved the merger of The Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey, the Plastic Specialties & Technologies and Affiliates Pension Plan and the Dolco Packaging Corporation Retirement Income Plan (collectively, the Predecessor Plans), into one pension plan, the Tekni-Plex, Inc. Pension Plan. This merger did not impact the participant pension benefits as the benefit provisions of these plans are incorporated into the merged pension plan. The Plan is administered by the Tekni-Plex, Inc. Pension Plan Committee (the Plan Administrator).

The Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey

Eligibility:

Pursuant to an interim collective bargaining agreement, participants in and benefit accruals were frozen effective December 31, 2008, for all participants of the former Burlington Plan for Hourly Employees of Burlington Resins, Inc. at Burlington, New Jersey.

An hourly employee employed at the Company's Burlington, New Jersey plant who was in the collective bargaining unit represented by Local Union No. 8-890 of the Oil, Chemical and Atomic Workers International Union, excluding leased employees as defined under Section 414(n) of the Internal Revenue Code of 1986 (the Code), and who had completed one year of service (1,000 hours during a service computation period), as defined in the Plan Document, was eligible to participate in the Plan.

Participants became fully vested in their Plan benefit upon the earlier of (i) attainment of age 65 or (ii) five years of service.

Note 1. Description of the Plan (Continued)

Deferred vested benefit: A participant who completes at least five years of service shall be entitled to a deferred vested benefit, as defined in the Plan Document.

Plastic Specialties & Technologies and Affiliates Pension Plan

Eligibility: Effective September 30, 1998, participation in and benefit accruals under the Plan were frozen.

Normal Retirement Benefit:

Eligibility: The first day of the month following a severance from service, provided one has attained the normal retirement age (age 65) while employed with Plastic Specialties & Technologies, Inc. (PS&T).

Monthly benefit: For participants in the PS&T Plan, the monthly amount payable to a participant receiving normal retirement benefits is the greater of:

- a) $1/2$ of 1% of compensation during any period in which credited service is received through September 30, 1998; or
- b) If the number of years credited service is at least 15 years, \$4.00 multiplied by the number of years of credited service through September 30, 1998.

Late Retirement Benefit:

Eligibility: The first day of the month following a severance from service after one has attained the normal retirement age (age 65) while employed with PS&T.

Monthly benefit: The amount determined for normal retirement, calculated as of the actual retirement date.

Early retirement benefit:

Eligibility: The first day of the month coincident with or next following a severance from service, provided that one has attained age 55 while employed with PS&T.

Monthly benefit: The participant's vested amount at the time of termination of employment, reduced by $2/10$ of 1% for each month over 36 months and $4/10$ of 1% for each additional month, up to 84 months by which the benefit commencement date precedes age 65.

See Independent Auditors' Report.

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan (Continued)

Disability Benefit:

Disability retirement date: The first day of the month following the date a participant incurs a total and permanent disability before normal retirement age.

Monthly benefit: The participant's vested amount as of termination, reduced by 2/10 of 1% for each of the first 36 months, 4/10 of 1% for each additional month up to 84 months by which his or her benefit commencement date precedes age 65.

Deferred vested benefit: If a participant terminates service, and is vested, he or she will be entitled to a deferred retirement benefit. If the benefit commences prior to age 65, it shall be reduced by 4/10 of 1% for each month, up to 120 months by which the benefit date precedes age

Dolco Packaging Corporation Retirement Income Plan

Eligibility: Participation in the Plan was frozen effective July 1, 1987. Employees of Dolco Packaging Corporation who were not participants in the Plan as of June 30, 1987, shall not become participants in the Plan.

Vesting and benefits: All participants in the Plan are vested. The Normal Retirement Date is the first day of the month coinciding with or next following a participant's 65th birthday. However, for purposes of benefit eligibility, Normal Retirement Date means the participant's 65th birthday. The basic monthly pension payable for life (based on annual computation) is as follows:

- 1) For 1987, 1.25% of earnings through June 30, 1986, up to 1/4 of 1987 Taxable Wage Base, plus 2% of earnings through June 30, 1986, in excess of 1/4 of the 1987 Taxable Wage Base.
- 2) For the period January 1, 1974, through December 31, 1982, 1% of earnings up to \$13,200, plus 2% of earnings in excess of \$13,200.
- 3) For the period of January 1, 1983, through December 31, 1986, 1.25% of earnings up to 1/2 of the Taxable Wage Base, plus 2% of earnings in excess of the Taxable Wage Base.
- 4) For participants covered under the Plan as of January 1, 1974, 1% of Past Service Earnings.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 1. Description of the Plan (Continued)

The participant's normal retirement benefit as of December 31, 1983, shall not be less than the minimum benefit - 1% of earnings of the calendar year ended December 31, 1983, times years of credited service.

A participant who attains age 60 and completes at least 10 years of credited service is eligible for an early retirement benefit. The participant's benefits will be actuarially reduced for early payment.

The monthly amount payable is the greater of:

- 1) The participant's accrued benefit as the date of his or her benefit is being determined; or
- b) The participant's accrued benefit as of his or her normal retirement date determined using the formula used for normal retirement but based on the participant's earnings and years or credited service as of the earlier of the participant's normal retirement date of July 1, 1987, multiplied by deferred retirement adjustment factor as determined in the Plan Document.

Tekni-Plex, Inc. Pension Plan

Eligibility: Any individual who was a participant in a Predecessor Plan on December 31, 2006, became a participant in the Plan on January 1, 2007. The Plan was amended on January 1, 2011 to cease all accruals for pension benefits retroactive to January 1, 2009. Service earned after December 31, 2008, shall not be taken into account in the calculation of pension benefits under the provisions of the Plan.

Normal Retirement Benefit:

Eligibility: Except to the extent of the Predecessor Plans, the first day of the month coincident with or next following a severance from service, provided that one has attained age 55.

Monthly benefit: The monthly amount shall be a percentage, as indicated in the table below, of the participant's normal retirement benefit based on years of credited service up to his or her retirement date.

See Independent Auditors' Report.

Note 2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the actuarial present value of accumulated plan benefits as disclosed in these financial statements. Actual results may differ from those estimates. The Plan uses an actuary to determine the actuarial present value of accumulated plan benefits. A change in the actuarial assumptions used could significantly change the amount of the actuarial present value of accumulated plan benefits reported in the accompanying financial statements.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investments committee determines the Plan's valuation policies utilizing information provided by its investment advisors and trustees.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) included the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investment securities will occur in the near-term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits are those future periodic payment, including lump-sum distributions that are attributable under the Plan's provisions to the service which employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees and their beneficiaries. Benefits payable under all circumstances, retirement, death and termination of employment, are included to the extent they are deemed attributable to employee service rendered as of the valuation date.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023. Had the valuations been performed as of December, there would be no material differences.

- a) Life expectancy of participants using the Principal Mortality Improvement Scale which is based upon the Society of Actuaries Pri-2012 Blue Collar Mortality Tables with Mortality Improvement Scale MP-2022.
- b) Participants are assumed to retire between the ages of 55-70.
- c) Assumed rate of return on investments: 5.25%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. For the valuation as of January 1, 2023, changes in actuarial assumptions related to long-term capital markets resulted in an increase in the actuarial present value of accumulated plan benefits of \$567,905.

Payments of Benefits:

Benefits are recorded when paid.

Administrative Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events (events occurring after December 31, 2023) through October 11, 2024, the date the financial statements were available to be issued.

Note 3. Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The Company did not make a contribution for the years ended December 31, 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA.

Note 4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated.

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding the Plan
- b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- d) All non-vested benefits.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 4. Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 5. Information Certified and Provided by Principal Trust Company (Trustee)

The following is a summary of the investment information as of December 31, 2023 and 2022, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedules, obtained by management and agreed to or derived from information certified by Principal Trust Company, the trustee of the Plan. The Plan Administrator has obtained certifications from the Trustee that the information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and ERISA-required supplemental schedules related to the following investments:

	2023	2022
Investments at fair value:		
Mutual funds	\$ 2,450,522	\$ 7,157,785
Fixed income	13,952,169	8,170,254
Pooled separate accounts	1,048,531	3,061,552
	<u>\$ 17,451,222</u>	<u>\$ 18,389,591</u>
Cash	<u>\$ 375,548</u>	<u>\$ 252,059</u>

Principal Trust Company also certified to the completeness and accuracy of \$1,228,223 and (\$5,085,117) of net (depreciation) appreciation in fair value of investments and \$291,065 and \$333,908 of interest and dividends related to the aforementioned investments for the years ended December 31, 2023 and 2022, respectively.

See Independent Auditors' Report.

NOTES TO FINANCIAL STATEMENTS

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to the total net assets available for benefits. For the years ended December 31, 2023 and 2022, there were no significant transfers in or out of Levels 1, 2 or 3.

The following is a description of the valuation methodologies used for assets measured at fair value. There has been no changes in the methodologies used at December 31, 2023 and 2022.

Registered Investment Companies (Mutual Funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 6. Fair Value Measurements (Continued)

Fixed Income: Valuations inputs utilized by the independent pricing service for U.S. Treasury and federal agency securities under Level 2 included benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, and reference data including market research publications. Valuations for corporate bonds are based upon quoted market prices for similar or identical assets or other observable inputs.

Pooled Separate Accounts: Valued on a net unit value basis based on the net assets of the underlying pool of securities. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value.

The following tables set forth, by level within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2023 and 2022. As required, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

<i>Assets at Fair Value as of December 31, 2023</i>				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,450,522	-	-	\$ 2,450,522
Fixed income	-	13,952,169	-	13,952,169

				<u>\$ 17,451,222</u>

<i>Assets at Fair Value as of December 31, 2022</i>				
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,157,785	-	-	\$ 7,157,785
Fixed income	-	8,170,254	-	8,170,254
Total	<u>\$ 7,157,785</u>	<u>\$ 8,170,254</u>	<u>\$ -</u>	15,328,039
Total investments measured at NAV*				<u>3,061,552</u>
				<u>\$ 18,389,591</u>

*In accordance with Accounting Standards Codification, investments that were measured at net asset value (NAV) per share (or its equivalent) have not been classified in the fair hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for pension benefits.

To assess the appropriate classification of investments within the fair value hierarchy, the ability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits.

See Independent Auditors' Report.

TEKNI-PLEX, INC. PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

Note 7. Information Certified and Provided by Principal Trust Company (Trustee)

Principal Trust Company is the trustee of the Plan and Principal Trust Company utilized Bankers Trust as a sub-custodian; therefore, transactions with the trustee and the sub-custodian qualify as party-in-interest transactions. For the year ended December 31, 2023, the administrative expenses were paid by the Plan.

Note 8. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated February 3, 2014, stating that the Plan is qualified under Section 401(k) of the Code, and therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

U.S. GAAP requires the Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

See Independent Auditors' Report.

Assumptions prescribed by law

Mortality	Before benefit payment period
	IRS Prescribed Mortality - Generational Non-annuitant, male and female.
	During benefit payment period
	IRS Prescribed Mortality - Generational Annuitant, male and female.

Assumptions selected by actuary

Inflation	2.40% increase per year. Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link.
Asset return	5.25% for the current plan year. The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link.
Expected expense	The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.

Disability

1987 Commissioner's Group Disability Table, six month elimination period, male and female.

We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

Marriage

80% married; husbands are 3 years older than wives.

This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

25	19.50%	45	7.30%
30	15.50%	50	5.60%
35	12.10%	55	4.20%

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries, a leading actuarial organization. A multiplier for each group is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience

Wage base increase	<p>3.50% per year.</p> <p>Our Wage Base increase assumption are based on inflation and the real wage differential forecast from Social Security Trustee Report. Based on average annual real wage growth forecast from the Social Security Trustee report and historical averages, our best estimate places this assumption at 3.50%.</p>
Form of benefit	<p>100% of active participants who are former Dolco participants are assumed to receive benefits as a single lump sum payable immediately for retirement benefits and as a single sum payable at retirement for death, disability, and withdrawal benefits.</p> <p>The remaining active participants and all inactive participants are assumed to receive a stream of payments at retirement.</p> <p>This assumption is based on the results of recent experience analysis and anticipated future experience.</p>
Methods prescribed by law	
Liability measure	<p>Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.00%.</p> <p>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year.</p>
Lump sum payments	<p>Lump sum payments are valued using the plan's funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.</p>

Methods selected by plan sponsor

Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

Segment rates

24-month average with no weighting to prior law basis. Use rates where December is the last month included in the average.

PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2010 plan year and this method must be used for five years before a change can be made.

Methods elected by actuary

Retirees

Assets and liabilities for current and future retirees are included.

Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

Mortality Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2022).

Mortality base rates

[Before benefit payment period](#)
Employee amount-weighted, male and female

[During benefit payment period](#)
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

Mortality improvement Principal 2022 MI scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the following parameters:

Parameter	Principal 2022
Historical dataset	SSA
Whittaker-Henderson Graduation	Order 3
Interpolation Structure	Basic
Graduated MI data last year ("jumping off" point)	2017
H/D transition ultimate year by age/cohort	2028/2028
Weight placed on interpolation by cohort	50%
Initial Slope periods (constraint)	2016-2017 (0.000)
LTR	SSA LTR 2022
COVID-19 or Excess load	None ¹

¹Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments. See [Mortality documentation](#) for rationale and additional information.

Interest rate used to value liabilities	<p>5.25%</p> <p>The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.</p>
Treatment of administrative expenses	<p>No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.</p> <p>Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.</p> <p>Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.</p>
Basis for lump sums	<p>Interest rate</p> <p>Based on the three segment yield curve: 3.55%/3.95%/4.95%</p> <p>The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.</p> <p>Mortality</p> <p>We have selected the same mortality assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.</p>

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Tekni-Plex, Inc. Pension Plan
EIN 22-3286312 Plan No. 006

Certain non-prescribed assumptions have been changed since last year. These assumptions were changed to better reflect the anticipated experience of your plan. See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.00% to 5.25%. This rate is used in the calculation of the actuarial value of plan assets.
