INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
the NAES Corporation Retirement and 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of NAES Corporation Retirement and 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of NAES Corporation Retirement and 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NAES Corporation Retirement and 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NAES Corporation Retirement and 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NAES Corporation Retirement and 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NAES Corporation Retirement and 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

1. Description of the Plan

The following description of the NAES Corporation (“NAES” or the “Company”) Retirement and 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan’s provisions.

General

The Plan was established in 1980 to comply with the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan, also referred to as the “Plant Plan”, is a defined contribution plan covering all employees of NAES (with noted exceptions), PurEnergy Management Services (“PEMS”) and NAES Staffing Services (“NSS”), NAES’ in-house contract services group. Any employees eligible to participate in NAES’ Corporate Plan are excluded from participating in this plan as well as any union employee whose collective bargaining agreement (“CBA”) does not provide coverage.

Covered employees are eligible for participation in the Plan and for the Company matching contributions (as applicable) immediately upon hire. Employee deferrals are effective as soon as administratively possible following the employee’s successful online enrollment. Transfers from an ineligible group (e.g., employee eligible for the Corporate Plan, other control groups/subsidiaries, non-participating unions) to a covered group become eligible to participate immediately upon transfer and their prior service is included for eligibility and vesting purposes.

Plan participants’ accounts are administered and managed by Fidelity Management Trust Company (“Fidelity”). As the trustee, Fidelity receives contributions and executes transactions under the direction of NAES Corporation, the Plan Sponsor. The Board of Trustees is responsible for the oversight of the Plan. The NAES Investment Committee, with support from an external investment advisor firm, determines the appropriateness of the Plan’s investment offerings, monitors fund performance and when deemed prudent, makes decisions to change fund options within the Plan. Fund changes are executed by Fidelity.

Investment Options

Participants may direct contributions, including Company matching and retirement account contributions, in whole percentage increments to any of the investment options offered by the Plan.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

1. Description of the Plan (continued)

Contributions

All contributions are subject to limitations under Internal Revenue Code Sections 402(g), 415(c), and 401(a)(17). Each year, participants in the Plan are allowed to make salary deferral contributions, not to exceed 75 percent of eligible compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. For the majority of participants, employee contributions qualify for Company matching contributions at the rate of 50 percent of each participant's contribution, up to a maximum amount of 6 percent of the participant's eligible compensation. If a participant is covered by certain CBAs, the participant will receive match contributions to the extent so indicated within each such agreement. Additionally, a few non-collectively bargained locations have different match structures based on the contract agreement when NAES assumed operations (e.g., Dighton, Milford and Red Oak) or no match for PurEnergy and NSS employees.

The Plan also allows for nonelective employer contributions (aka "retirement" contributions). Employees must complete one year of service before they become eligible for the nonelective employer contribution, as applicable. Eligible employees begin receiving the retirement contribution on the first check of the month coincident with or following the first anniversary, or immediately for transfers or rehires who already have a year of service. For the majority of employees this retirement contribution is 5 percent of eligible compensation and is credited to the participant on a pay period basis. The Plan does consider each participant his own allocation group to allow for variances in this contribution for collectively bargained employees where the CBA provides otherwise, locations where the contract agreement stated otherwise when NAES took over operations or NSS employees who are not eligible for any employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of (a) the Company's contributions and (b) account earnings or losses, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions, and earnings thereon, is based on years of continuous service beginning on the participant's hire date. Participants vest in the Company's contributions based on the following schedule:

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

1. Description of the Plan (continued)

Vesting (continued)

Years of Service	Vesting Percentage
Less than 1	0%
1	33%
2	66%
3 or more	100%

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to the maximum amount of the lesser of 50 percent of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance in his or her account balance during the prior 12-month period. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence.

The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. In 2023 and 2022, interest rates were established at 1 percent above prime. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

The Plan is designed to provide benefits at the time of retirement. However, if employment is terminated because of death, disability, retirement, or for any other reason, the participant may request distribution of his or her vested account balance.

Forfeiture Accounts

Termination of participation in the Plan without a fully vested interest in the employer's contributions and associated earnings results in a forfeiture of all unvested amounts. Forfeitures from the participants' accounts are used to reduce the future Company matching contributions under the Plan. Such forfeiture amounts available to reduce future Company matching contributions totaled \$52,935 at December 31, 2023 and \$121,939 at December 31, 2022. In 2023 and 2022, employer contributions were reduced by \$294,260 and \$334,679 from forfeited nonvested accounts, respectively.

A participant is entitled to reinstatement of forfeited contributions upon re-employment by NAES Corporation within five years of the date of termination or withdrawal of Plan assets and repayment to the Plan of vested amounts received within five years of re-employment.

Benefit Obligations

As of December 31, 2023 and 2022, no benefit obligations existed for individuals who withdrew from the Plan.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America. Investment contracts held by the Plan are required to be reported at fair value. Participant loans are valued at amortized cost, which represents fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred by the Plan, not including those expenses covered by the participants, are paid by the Plan Sponsor or through the forfeiture accounts. For the years ended December 31, 2023 and 2022, \$0 and \$32,938 were paid out of the Plan's forfeiture accounts, respectively.

Investment Valuation and Income Recognition.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the plan at year end. The Retirement committee determines the Plan's valuation policies. See Note 3 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

2. Significant Accounting Policies (continued)

Subsequent Events

The plan has evaluated subsequent events through October 10, 2024, the date the financial statements were available to be issued.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Self-directed Brokerage Accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Mutual Funds: Valued at the daily closing price as reported on the active market on which the individual securities are traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Target Date Fund: Valued at the NAV of units of a collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Common Collective Trusts: Valued and reported at fair value using the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

3. Fair Value Measurements (continued)

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2023 and 2022, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Fidelity Managed Income Portfolio Fund II	\$ 9,280,210	None	Immediate	None
T. Rowe Price Stable Value Common Trust Fund P	\$ 20,886,561	None	Immediate	None

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Fidelity Managed Income Portfolio Fund II	\$ 15,956,081	None	Immediate	None

At December 31, 2023 and 2022, the Plan's common collective trust funds include an investment in the Fidelity Managed Income Portfolio II Class 3 ("MIP II Class 3"). The investment objective of the MIP II Class 3 is to preserve the principal investment while earning a level of interest income that is consistent with principal preservation. The MIP II Class 3 seeks to maintain a stable net asset value of \$1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate. To achieve its investment objective, the MIP II Class 3 fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

3. Fair Value Measurements (continued)

The fund may also invest in futures contracts, option contracts and swap agreements. The MIP II Class 3 seeks to minimize exposure to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The MIP II Class 3's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations. Withdrawals from the MIP II Class 3 directed by the Plan Administrator will be made within the twelve-month period following the trustee's receipt of the Plan's written withdrawal request. Participant-directed redemptions have no restrictions.

At December 31, 2023 the Plan's common collective trust funds also include a stable value investment trust fund managed by T. Rowe Price (the "Stable Value Fund"), which primarily invests in synthetic investment contracts issued by insurance companies, banks, and other financial institutions and other short-term investments. The objectives of the Stable Value Fund are to maximize current income consistent with the maintenance of principal and to provide benefit-responsive participant withdrawals at contract value. Participants may redeem trust units on a daily basis for withdrawal or transfer of all or a portion of their investment at contract value without restriction.

Events outside the normal operation of the Stable Value Fund that cause a withdrawal from an investment contract may result in a negative market value adjustment, which can limit the ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, partial or complete legal termination of the Stable Value Fund or a unit holder, tax disqualification of the Stable Value Fund or a unit holder, and certain Stable Value Fund amendments if issuers' consents are not obtained. According to the Stable Value Fund's annual report, as of December 31, 2023, the occurrence of such an event is not considered to be probable.

4. Tax Status

The IRS has determined and informed the company by a letter dated June 30, 2020, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator and legal counsel are of the opinion that the Plan continues to fulfill the requirements of a qualified plan under Section 401(a) of the Internal Revenue Code and that the Plan is not subject to tax. Accordingly, no provision for federal or state income taxes has been provided.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in their account balances.

6. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Fidelity, which holds the assets of the Plan.

	<u>2023</u>	<u>2022</u>
Investments, at fair value	\$ 548,499,029	\$ 463,981,507
Notes receivable from participants	\$ 9,031,374	\$ 7,799,620
Net appreciation (depreciation) in fair value of investments	\$ 84,181,681	\$ (121,277,737)
Interest and dividends	\$ 7,730,401	\$ 10,653,127

7. Related-Party Transactions

Certain Plan investments are shares of mutual funds and common collective trusts managed by Fidelity. Fidelity is the Plan trustee, as well as the record keeper and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing rather than a direct payment. Other expenses incurred by the Plan were \$413,259 and \$461,771 for the years ended December 31, 2023 and 2022, respectively.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
the NAES Corporation Retirement and 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of NAES Corporation Retirement and 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of NAES Corporation Retirement and 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of NAES Corporation Retirement and 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about NAES Corporation Retirement and 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of NAES Corporation Retirement and 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about NAES Corporation Retirement and 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of Schedule H, line 4i – Schedule of Assets (Held at End of Year), is presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

1. Description of the Plan

The following description of the NAES Corporation (“NAES” or the “Company”) Retirement and 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan’s provisions.

General

The Plan was established in 1980 to comply with the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Plan, also referred to as the “Plant Plan”, is a defined contribution plan covering all employees of NAES (with noted exceptions), PurEnergy Management Services (“PEMS”) and NAES Staffing Services (“NSS”), NAES’ in-house contract services group. Any employees eligible to participate in NAES’ Corporate Plan are excluded from participating in this plan as well as any union employee whose collective bargaining agreement (“CBA”) does not provide coverage.

Covered employees are eligible for participation in the Plan and for the Company matching contributions (as applicable) immediately upon hire. Employee deferrals are effective as soon as administratively possible following the employee’s successful online enrollment. Transfers from an ineligible group (e.g., employee eligible for the Corporate Plan, other control groups/subsidiaries, non-participating unions) to a covered group become eligible to participate immediately upon transfer and their prior service is included for eligibility and vesting purposes.

Plan participants’ accounts are administered and managed by Fidelity Management Trust Company (“Fidelity”). As the trustee, Fidelity receives contributions and executes transactions under the direction of NAES Corporation, the Plan Sponsor. The Board of Trustees is responsible for the oversight of the Plan. The NAES Investment Committee, with support from an external investment advisor firm, determines the appropriateness of the Plan’s investment offerings, monitors fund performance and when deemed prudent, makes decisions to change fund options within the Plan. Fund changes are executed by Fidelity.

Investment Options

Participants may direct contributions, including Company matching and retirement account contributions, in whole percentage increments to any of the investment options offered by the Plan.

NAES CORPORATION RETIREMENT AND 401(K) PLAN
Notes to the Financial Statements
December 31, 2023 and 2022

1. Description of the Plan (continued)

Contributions

All contributions are subject to limitations under Internal Revenue Code Sections 402(g), 415(c), and 401(a)(17). Each year, participants in the Plan are allowed to make salary deferral contributions, not to exceed 75 percent of eligible compensation. Participants direct the investment of their contributions into various investment options offered by the Plan. For the majority of participants, employee contributions qualify for Company matching contributions at the rate of 50 percent of each participant's contribution, up to a maximum amount of 6 percent of the participant's eligible compensation. If a participant is covered by certain CBAs, the participant will receive match contributions to the extent so indicated within each such agreement. Additionally, a few non-collectively bargained locations have different match structures based on the contract agreement when NAES assumed operations (e.g., Dighton, Milford and Red Oak) or no match for PurEnergy and NSS employees.

The Plan also allows for nonelective employer contributions (aka "retirement" contributions). Employees must complete one year of service before they become eligible for the nonelective employer contribution, as applicable. Eligible employees begin receiving the retirement contribution on the first check of the month coincident with or following the first anniversary, or immediately for transfers or rehires who already have a year of service. For the majority of employees this retirement contribution is 5 percent of eligible compensation and is credited to the participant on a pay period basis. The Plan does consider each participant his own allocation group to allow for variances in this contribution for collectively bargained employees where the CBA provides otherwise, locations where the contract agreement stated otherwise when NAES took over operations or NSS employees who are not eligible for any employer contributions.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of (a) the Company's contributions and (b) account earnings or losses, and charged with an allocation of certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions, and earnings thereon, is based on years of continuous service beginning on the participant's hire date. Participants vest in the Company's contributions based on the following schedule:

Notes Receivable from Participants

Participants may borrow from their vested accounts a minimum of \$1,000 up to the maximum amount of the lesser of 50 percent of the participant's vested account balance or \$50,000, reduced by the highest outstanding loan balance in his or her account balance during the prior 12-month period. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence.

The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. In 2023 and 2022, interest rates were established at 1 percent above prime. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

The Plan is designed to provide benefits at the time of retirement. However, if employment is terminated because of death, disability, retirement, or for any other reason, the participant may request distribution of his or her vested account balance.

Forfeiture Accounts

Termination of participation in the Plan without a fully vested interest in the employer's contributions and associated earnings results in a forfeiture of all unvested amounts. Forfeitures from the participants' accounts are used to reduce the future Company matching contributions under the Plan. Such forfeiture amounts available to reduce future Company matching contributions totaled \$52,935 at December 31, 2023 and \$121,939 at December 31, 2022. In 2023 and 2022, employer contributions were reduced by \$294,260 and \$334,679 from forfeited nonvested accounts, respectively.

A participant is entitled to reinstatement of forfeited contributions upon re-employment by NAES Corporation within five years of the date of termination or withdrawal of Plan assets and repayment to the Plan of vested amounts received within five years of re-employment.

Benefit Obligations

As of December 31, 2023 and 2022, no benefit obligations existed for individuals who withdrew from the Plan.

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America. Investment contracts held by the Plan are required to be reported at fair value. Participant loans are valued at amortized cost, which represents fair value.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses incurred by the Plan, not including those expenses covered by the participants, are paid by the Plan Sponsor or through the forfeiture accounts. For the years ended December 31, 2023 and 2022, \$0 and \$32,938 were paid out of the Plan's forfeiture accounts, respectively.

Investment Valuation and Income Recognition.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the plan at year end. The Retirement committee determines the Plan's valuation policies. See Note 3 for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The plan has evaluated subsequent events through October 10, 2024, the date the financial statements were available to be issued.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Self-directed Brokerage Accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

Mutual Funds: Valued at the daily closing price as reported on the active market on which the individual securities are traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Target Date Fund: Valued at the NAV of units of a collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily.

Common Collective Trusts: Valued and reported at fair value using the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

The following tables sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Total
Mutual funds	\$ 309,274,116	\$ -	\$ 309,274,116
Target date funds	-	188,489,721	188,489,721
Self-directed brokerage accounts	20,568,421	-	20,568,421

Investments measured at net asset value - Collective trust fund (a)	-	-	30,166,771
Investments at Fair Value	\$ 329,842,537	\$ 188,489,721	\$ 548,499,029

Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Total
Mutual funds	\$ 279,800,484	\$ -	\$ 279,800,484
Target date funds	-	153,996,286	153,996,286
Self-directed brokerage accounts	14,228,656	-	14,228,656
Total assets in the fair value hierarchy	294,029,140	153,996,286	448,025,426
Investments measured at net asset value - Collective trust fund (a)	-	-	15,956,081
Investments at Fair Value	\$ 294,029,140	\$ 153,996,286	\$ 463,981,507

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2023 and 2022, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Fidelity Managed Income Portfolio Fund II	\$ 9,280,210	None	Immediate	None
T. Rowe Price Stable Value Common Trust Fund P	\$ 20,886,561	None	Immediate	None

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Fidelity Managed Income Portfolio Fund II	\$ 15,956,081	None	Immediate	None

At December 31, 2023 and 2022, the Plan's common collective trust funds include an investment in the Fidelity Managed Income Portfolio II Class 3 ("MIP II Class 3"). The investment objective of the MIP II Class 3 is to preserve the principal investment while earning a level of interest income that is consistent with principal preservation. The MIP II Class 3 seeks to maintain a stable net asset value of \$1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate. To achieve its investment objective, the MIP II Class 3 fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds.

3. Fair Value Measurements (continued)

The fund may also invest in futures contracts, option contracts and swap agreements. The MIP II Class 3 seeks to minimize exposure to wrap credit risk through, among other means, diversification of the wrap contracts across an approved group of issuers. The MIP II Class 3's ability to receive amounts due pursuant to these contracts is dependent upon the issuers' ability to meet their financial obligations. Withdrawals from the MIP II Class 3 directed by the Plan Administrator will be made within the twelve-month period following the trustee's receipt of the Plan's written withdrawal request. Participant-directed redemptions have no restrictions.

At December 31, 2023 the Plan's common collective trust funds also include a stable value investment trust fund managed by T. Rowe Price (the "Stable Value Fund"), which primarily invests in synthetic investment contracts issued by insurance companies, banks, and other financial institutions and other short-term investments. The objectives of the Stable Value Fund are to maximize current income consistent with the maintenance of principal and to provide benefit-responsive participant withdrawals at contract value. Participants may redeem trust units on a daily basis for withdrawal or transfer of all or a portion of their investment at contract value without restriction.

Events outside the normal operation of the Stable Value Fund that cause a withdrawal from an investment contract may result in a negative market value adjustment, which can limit the ability to transact at contract value with the issuers of its investment contracts. Examples of such events include, but are not limited to, partial or complete legal termination of the Stable Value Fund or a unit holder, tax disqualification of the Stable Value Fund or a unit holder, and certain Stable Value Fund amendments if issuers' consents are not obtained. According to the Stable Value Fund's annual report, as of December 31, 2023, the occurrence of such an event is not considered to be probable.

4. Tax Status

The IRS has determined and informed the company by a letter dated June 30, 2020, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the letter, the Plan administrator and legal counsel are of the opinion that the Plan continues to fulfill the requirements of a qualified plan under Section 401(a) of the Internal Revenue Code and that the Plan is not subject to tax. Accordingly, no provision for federal or state income taxes has been provided.

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Employee Retirement Income Security Act of 1974. In the event of Plan termination, participants become fully vested in their account balances.

6. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplementary schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee, Fidelity, which holds the assets of the Plan.

	<u>2023</u>	<u>2022</u>
Investments, at fair value	\$ 548,499,029	\$ 463,981,507
Notes receivable from participants	\$ 9,031,374	\$ 7,799,620
Net appreciation (depreciation) in fair value of investments	\$ 84,181,681	\$ (121,277,737)
Interest and dividends	\$ 7,730,401	\$ 10,653,127

7. Related-Party Transactions

Certain Plan investments are shares of mutual funds and common collective trusts managed by Fidelity. Fidelity is the Plan trustee, as well as the record keeper and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing rather than a direct payment. Other expenses incurred by the Plan were \$413,259 and \$461,771 for the years ended December 31, 2023 and 2022, respectively.

8. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
