**Statement by Enrolled Actuary**  
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

|---------------|--------------------------------------|

**1** Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

## Independent Auditor's Report

To the Plan Administrator  
GCP Applied Technologies Inc. Retirement  
Plan for Salaried Employees

### **Scope and Nature of the ERISA Section 103(a)(3)(C) Audit**

We have performed an audit of the financial statements of GCP Applied Technologies Inc. Retirement Plan for Salaried Employees (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits and accumulated plan benefits as of December 31, 2023 and the related statements of changes in net assets available for benefits and changes in accumulated plan benefits for the year then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and for the year then ended stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

### **Opinion**

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator  
GCP Applied Technologies Inc. Retirement  
Plan for Salaried Employees

### ***Emphasis of Matter***

As explained in Note 7 to the financial statements, the Plan was merged into the Saint-Gobain Retirement Income Plan effective December 31, 2023. Our opinion has not been modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of the ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

To the Plan Administrator  
GCP Applied Technologies Inc. Retirement  
Plan for Salaried Employees

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### **Report on Prior Year Financial Statements**

Predecessor auditors performed an audit of the 2022 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified to by a qualified institution. Their report dated October 8, 2024 indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2022 supplemental schedules, other than the information in the 2022 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, and the information in the 2022 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

### Note 1 - Description of Plan

The following description of GCP Applied Technologies Inc. Retirement Plan for Salaried Employees (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

#### **General**

The Plan is a noncontributory defined benefit retirement for certain employees of GCP Applied Technologies Inc. (GCP or the "Company"). The Plan allows for participation within units designated by the board of directors of the Company as participating units in the Plan for any salaried employee or any salesperson paid on a commission basis who has completed one year of service. Participants enter the Plan on the first day of the month following the date on which the eligibility requirements are met.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). For investment purposes, the assets of the Plan were commingled with the assets of certain other retirement plans of GCP in the Trust Fund of the GCP Applied Technologies Inc. Retirement Plans (the "Master Trust").

Effective December 31, 2023, the Plan was merged into the Saint-Gobain Retirement Income Plan (see Note 7).

#### **Contributions**

The Company contributes to the Plan at such times and in such amounts as considered necessary so that contributions are sufficient to provide benefits as actuarially calculated under the terms of the Plan. Contributions to the Plan are designed to fund at least the minimum required by ERISA. The Plan met the minimum funding requirements of ERISA for 2023 and 2022.

#### **Vesting**

Employees are fully vested in benefits accrued after five years of vesting service, as defined by the Plan, or at age 55 regardless of years of service.

#### **Pension Benefits**

Participants are eligible for a distribution upon retirement at 65 and are eligible for reduced early retirement benefits at age 55. Benefits may also be paid out to a beneficiary upon the death of the participant. The normal retirement benefit is equal to 1.5 percent of final average compensation, as defined by the Plan, less 1.25 percent of the primary Social Security benefit, multiplied by the participant's years and months of credited service. A participant with greater than a \$5,000 vested benefit may elect to have their benefit paid in the following forms:

- Monthly single life annuity
- Reduced monthly single life annuity with 10-year payment guaranteed
- Reduced monthly joint and 50 percent, 66 2/3 percent, 75 percent, or 100 percent survivor annuity
- Single equivalent lump-sum payment
- Rollover of the single equivalent lump-sum amount to an IRA or qualified retirement plan
- Single-level income for participants who retire prior to age 62

If a participant terminates for any reason other than retirement at or after the normal retirement date, early retirement date, disability retirement, or death, he or she shall be a terminated participant and shall be entitled to his or her accrued benefit beginning on his or her normal retirement date if the participant completed five years of credited service for vesting purposes.

**Note 2 - Summary of Significant Accounting Policies**

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

***Investment Valuation***

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. The Master Trust's investments are stated at fair value.

The U.S. equity group trust funds and non-U.S. equity group trust funds are common/collective trust funds valued at net asset value per share (NAV) (or its equivalent) of the funds, which is determined by dividing the funds' net assets by its units outstanding at the valuation date. The Plan elected to use the readily determinable fair value measurement option of ASU No. 2018-09 for common/collective trust funds in prior years. The corporate bond group trust funds are corporate debt securities and other fixed-income group trust funds are U.S. government securities that are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve, as well as other relevant economic measures. All other investments are valued based on quoted market prices reported in active markets. See Note 4 for additional information.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

***Benefit Payments***

Benefits are recorded when paid.

***Administrative Expenses***

Various administrative costs are paid by the Plan.

***Risks and Uncertainties***

Investment securities, in general, are exposed to various risks, including interest rate, market, and credit. Due to the level of the risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

The actuarial present value of accumulated plan benefits is determined based on certain economic and demographic assumptions, all of which is subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in estimates and assumptions in the near term would be material to the financial statements.

**Note 2 - Summary of Significant Accounting Policies (Continued)**

***Actuarial Present Value of Accumulated Plan Benefits***

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Benefits are calculated based on active employees' credited years of service multiplied by a specified percentage of their average monthly compensation plus a specified percentage of their average monthly compensation in excess of the Social Security integration level.

Benefits provided via annuity contracts are deducted from plan assets and from accumulated plan benefits.

***Actuarial Assumptions***

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2023 and 2022 are summarized as follows:

|                       |  |
|-----------------------|--|
| Actuarial cost method | Projected unit credit cost method                                |
| Discount rate         | 5.00 percent for 2023 and 2022                                   |
| Mortality basis       | Pri-2012 tables with generational projection using scale MP-2021 |

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The decrease of \$4.1 million of actuarial assumption changes within the statement of changes in accumulated plan benefits primarily relates to demographic assumption changes on withdrawal, retirement, and disability incidence rates to better align recent plan sponsor experience.

***Subsequent Events***

The financial statements and related disclosures include evaluation of events up through and including October 8, 2024, which is the date the financial statements were available to be issued.

**Note 3 - Certified Information**

Principal Bank (the "Trustee") holds the Master Trust's investments and executes all investment transactions. The investment balances and related investment results included in the accompanying financial statements, including master trust information included in Note 4, are based solely on information certified by the Trustee.

**Note 4 - Fair Value Measurements and Master Trust Investments**

The Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other company-sponsored benefit plans. Each participating benefit plan has an undivided interest in the Master Trust. At December 31, 2023 and 2022, the Plan's interest in the net assets of the Master Trust was approximately 0 percent and 84.98 percent, respectively. The assets of the Master Trust are held by Principal Life Insurance Company. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon average monthly balances invested by each plan.

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritized the valuation techniques and inputs used to measure fair value.

**Level 1**

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

**Level 2**

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

**Level 3**

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following tables present information about the net assets of the Master Trust and the Plan's interest in Master Trust balances at December 31, 2022. There were no remaining assets in the Plan as of December 31, 2023 (see Note 7).

There were no unfunded commitments or redemption restrictions on the investments described above.

**Notes to Financial Statements**

**December 31, 2023 and 2022**

**Note 4 - Fair Value Measurements and Master Trust Investments (Continued)**

The investment income (loss) for the Master Trust for the years ended December 31, 2023 and 2022 is as follows:

|   | <u>2023</u>         | <u>2022</u>            |
|---|---------------------|------------------------|
| Net realized and unrealized gains and losses on investments | \$ 4,575,630        | \$ (15,440,078)        |
| Interest and dividends                                      | <u>1,750,796</u>    | <u>3,718,313</u>       |
| Total investment income (loss)                              | <u>\$ 6,326,426</u> | <u>\$ (11,721,765)</u> |

**Note 5 - Tax Status**

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Accordingly, no provision for income taxes has been made in the accompanying financial statements.

**Note 6 - Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their accumulated retirement benefits.

**Note 7 - Transfers**

Effective December 31, 2023, the Plan merged into the Saint-Gobain Retirement Income Plan. As a result of the merger, the Plan transferred approximately \$52.4 million of interest in the Master Trust and \$67.5 million of accumulated plan benefits.

The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link. |
| Expected expense | The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses.  |

Retirement

Active participants are assumed to retire at the following rates. For 2023 year, retirement rates are 1.5 times greater:

| Age   | Probability of retirement |
|-------|---------------------------|
| 55-59 | 5%                        |
| 60-61 | 25%                       |
| 62    | 30%                       |
| 63-64 | 15%                       |
| 65    | 25%                       |
| 66    | 30%                       |
| 67    | remaining participants    |

Inactive participants are assumed to retire at the following rates:

| Age   | Probability of retirement |
|-------|---------------------------|
| 55-59 | 2%                        |
| 60-61 | 25%                       |
| 62    | 40%                       |
| 63-64 | 30%                       |
| 65    | remaining participants    |

This assumption is based on the results of recent experience analysis and anticipated future experience.

Disability

1987 Commissioner's Group Disability Table, six month elimination period, male and female.

We rely on a publicly published table due to the limited size of the plan. The 1987 CGDT was recommended by the Society of Actuaries for pension valuation purposes.

**Marriage** 75% married; husbands are 3 years older than wives.  
 This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce.

**Withdrawal** 2003 Society of Actuaries Small Plan Age Table, multiplied by 1.50. For 2023 year, withdrawal rates are 1.5 times greater. Selected rates of withdrawal are shown below:

| Age | Rate of withdrawal | Age | Rate of withdrawal |
|-----|--------------------|-----|--------------------|
| 20  | 36.45%             | 40  | 14.10%             |
| 25  | 29.25%             | 45  | 10.95%             |
| 30  | 23.25%             | 50  | 8.40%              |
| 35  | 18.15%             | 55  | 6.30%              |

We rely on a publicly published table due to the limited size of the plan. The SOA Small Plan Age Table is the most recent withdrawal experience table published by the Society of Actuaries. A multiplier of 1.50 is applied to this table to reflect the results of the most recent experience analysis and anticipated future experience.

**Methods prescribed by law**

**Liability measure** Funding target is the present value of the benefits accrued on the valuation date.  
 Target normal cost includes an estimate of plan expenses for the year.

**Lump sum payments** Lump sum payments are valued using the plan’s funding target interest rates as required, per IRS guidance. These rates are currently higher than the actual rates used to determine lump sum distributions. Therefore, plan liabilities do not currently recognize this additional cost and this may result in the plan not accumulating adequate assets. You may wish to consider additional contributions.

The third amendment extends the use of the lump sum interest rates in effect for the plan year ending December 31, 2022 for certain payouts in 2023 if it provides a greater amount payable to the participant. We valued this subsidized lump sum amendment separately with an estimated funding target increase of \$2.1 million.

#### Methods selected by plan sponsor

##### Asset method

The asset valuation method is prescribed by law for plans that elect to use a value other than market value.

For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.

The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.

When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value.

##### Segment rates

24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average.

##### PBGC premium basis

Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made.

#### Methods elected by actuary

##### Retirees

Assets and liabilities for current and future retirees are included.

##### Vested benefits

A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.

The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions.

### Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality** Based on Pri-2012 White collar base rate mortality table projected generationally using MP-2021.

**Mortality base rates**

**Before benefit payment period**  
Employee amount-weighted, male and female

**During benefit payment period**  
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Total dataset Blue collar White collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement** MP-2021 is the most recent improvement scale published by the SOA in October 2021.

In selecting this assumption, we considered the other parameters available in the MIM-2021-v3 application tool issued by the SOA in October 2022 and consider the selections in MP-2021 reasonable. Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.

**Interest rate used to value liabilities** 5.00%

The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link.

#### Treatment of administrative expenses

No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.

Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.

Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets.

#### Basis for lump sums

##### Interest rate

Based on the three segment yield curve: 3.55%/3.95%/4.95%

The plan document defines the lump sum interest rate based on IRC §417(e) rates which closely tie to the high quality corporate bond yields. According to our most recent study, the long-term expected yields for short/intermediate/long corporate bonds are 3.55%/3.95%/4.95%. For details, see Corporate AA yield in Table 3 of Long-Term Capital Market Assumptions link.

##### Mortality

We have selected the same [mortality](#) assumption for lump sum payments, but with a 50/50 blend of male and female total dataset base rates and mortality improvement scales. This reflects the IRS practice of defining lump sum mortality on a unisex basis.

IRS Prescribed lump sum mortality for 2021, 2022 and 2023. Future years are projected to decrement date with SOA mortality improvement scale MP-2021.

This assumption reflects current law as provided by the IRS.

The third amendment elected to use the interest/discount rate that was in effect for the plan year ending December 31, 2022 for certain payouts, if it provides a greater amount payable to the participant. We valued this subsidized lump sum amendment separately with an estimated funding target increase of \$2.1 million.

**Statement by Enrolled Actuary**

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Line 2a - Explanation of Assets  
GCP Applied Technologies Inc. Retirement Plan for Salaried Employees  
EIN 47-3936076 Plan No. 001

The market value of assets on line 2a does not equal assets shown on Schedule H, Schedule I or Form 5500-SF. Line 2a includes accrued income in the amount of \$26,384.

Schedule SB, Line 22 - Description Of Weighted Average Retirement Age  
 GCP Applied Technologies Inc. Retirement Plan for Salaried Employees  
 EIN 47-3936076 Plan No. 001

The weighted average retirement age is weighted by the expected percentage of active participants retiring at each age. The retirement rate reflects only those participants who meet retirement eligibility. An active participant working past assumed retirement age is expected to retire at current age.

## Definitions

### Average compensation

Highest paid 60 consecutive months of the last 180 months of continuous employment.

### Optional forms of benefit payments

The optional forms of benefit payments are:

- Monthly annuity payable for life, or 10 years certain and life.
- Monthly annuity payable as a survivorship life annuity with survivorship percentages of 50, 66 2/3, 75, or 100.
- Level income.
- Single sum payment.

The optional form conversion basis is 6.5% interest and the UP-84 Mortality table for payments other than lump sums, joint and survivor options, and level income option.

The optional form conversion basis uses the applicable interest rate and applicable mortality table as set forth in Code Section 417 for lump sum payments. The applicable interest rate uses the first calendar month preceding the first day of the calendar quarter in which the distribution begins.

Per the third amendment, for those who terminate employment October 1, 2022 through December 31, 2023 and who notifies Company no later than June 30, 2023 that they intend to elect to receive a single lump sum with an annuity starting date during the period from January 1, 2023 through January 1, 2024, the optional form conversion basis will use the interest rate that is in effect for the plan year ending December 31, 2022, if it provides a greater amount payable to the participant.

The optional form conversion for the joint and survivor options are:

| J&S Option | Age 65 | Adjustment for retirement age | Adjustment for age difference (1-10 years) | Adjustment for age difference (11 years and over) |
|------------|--------|-------------------------------|--|---|
| 50%        | .88    | .004                          | .005                                       | .003  |
| 66 2/3%    | .85    | .005                          | .006                                       | .003  |
| 75%        | .82    | .006                          | .007                                       | .005  |
| 100%       | .78    | .007                          | .008                                       | .005  |
