INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
Nurses and Local 813 IBT Retirement Plan

Opinion

We have audited the accompanying financial statements of Nurses and Local 813 IBT Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2023 and 2022, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2023, and reportable transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the 2023 audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NURSES AND LOCAL 813 IBT RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2023 AND 2022

NOTE 1. DESCRIPTION OF PLAN

The following brief description of Nurses and Local 813 IBT Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit multiemployer pension plan that was originally established under the provisions of an Agreement and Declaration of Trust effective September 18, 1962, between Private Sanitation Union Local 813 (the Union) affiliated with the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America and various employers in the private sanitation and funeral parlor industries who are parties to collective bargaining agreements (CBAs) with the Union requiring contributions to the Plan. The Union and the employers agreed to participate in the operation of a Trust Fund for the purpose of providing severance and retirement benefits to employees of contributing employers who are members of the Union. On December 15, 2015 (the effective date), Local 813 and Local 1034 Severance and Retirement Fund (Local 813 Fund) was amended and restated to provide for participation in the Plan by registered nurses and other health care professionals employed by employers that have entered into CBAs with the Massachusetts Nurses Association (MNA) and to include the merger of four frozen benefit plans previously maintained by Steward Health Care System, LLC (Steward), the Steward Caritas Christi Retirement Plan, the Steward Norwood Hospital, Inc. Retirement Plan, the Steward Good Samaritan Medical Center Employee Retirement Partnership Plan (Defined Benefit Component), and the Morton Hospital Employees' Pension Plan (collectively, the Legacy Plans). The name of the Plan was changed to the "Nurses and Local 813 IBT Retirement Plan" effective December 15, 2015. The Plan is administered by a Board of Trustees consisting of Union (Local 813 and MNA) and Employer (Steward and those under contract with Local 813) representatives and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits - The Plan provides various forms of retirement pension benefits to eligible participants and beneficiaries as defined in the Plan Document. Different benefit formulas apply to participants depending on whether they were originally in the Local 813 Fund, are covered under MNA CBAs, or have frozen benefits in the Legacy Plans. Benefits are payable in the form of life annuities, joint and survivor annuities, and lump sum benefits for certain participants. The Plan requires (unless waived) participant and spousal benefits providing for actuarially reduced pensions to participants during their lifetime, after which the surviving spouse receives 50% or 75% of the calculated benefits for life.

NOTE 1. DESCRIPTION OF PLAN (CONTINUED)

Funding Policy - Funding to provide the benefits is made through monthly contributions by participating Local 813 employers on behalf of each covered employee as provided for in the applicable prevailing CBAs with the Local 813 Union. Funding is also provided through the collection of withdrawal liability obligations from former Local 813 contributing employers. Funding for the MNA represented participants is made through bi-weekly contributions to the Plan based on a percentage of specified wages also as required under the applicable CBAs with the MNA. Annual funding for the Legacy Plans is actuarially determined in accordance with the Participation Agreement between Steward and the Plan. Contributions by participants are not permitted under the Plan. The Plan's actuary has certified that the minimum funding requirements of ERISA have been met as of January 1, 2023 and 2022.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements have been prepared on the accrual basis of accounting. Under this basis, additions are recorded when earned and deductions are recorded as incurred, regardless of when cash is exchanged.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, if any, and the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the investment managers and custodians.

Purchases and sales of securities are recognized on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

Employer Contributions Receivable - Contributions due from employers are accrued at year end only as to those amounts applicable to contribution periods which ended on or before the financial statement date and are based on subsequent period cash collections, except for the annual Legacy Plan contribution which is accrued at year end in full as calculated by the Plan's actuary. Based on a review of historical losses, current economic conditions and supportable and reasonable forecast assumptions, the Plan has concluded that any expected credit losses on balances outstanding at year end will be immaterial.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Withdrawal Liability Receivable - Withdrawal liability amounts due from former contributing employers are accrued as Plan assets and additions to Plan assets as to those amounts applicable to employer withdrawals from the Plan before the financial statement date and are based on subsequent period cash collections. Based on a review of historical losses, current economic conditions and supportable and reasonable forecast assumptions, the Plan has concluded that any expected credit losses on balances outstanding at year end will be immaterial.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - Expenses incurred in connection with the general administration of the Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. The Plan shares certain administrative expenses with related benefit plans that are allocated based on various factors including the time spent, space used, and costs incurred.

Operating Lease - The Plan has elected, for all underlying classes of assets, to not recognize right of use assets and lease liabilities for leases obligations that are not material to the financial statements and therefore related disclosures under Topic 842 for these leases are not included in the financial statements. The Plan recognizes lease expenses associated with immaterial leases as incurred over the lease term.

New Accounting Pronouncement Adopted - During the year ended December 31, 2023, the Plan adopted the provisions of Accounting Standards Update (ASU) 2016-13, *Financial Instruments - Credit Losses* (Topic 326). This ASU replaced the incurred loss methodology with an expected loss methodology that is referred as the current expected credit loss (CECL) methodology. The ASU requires employee benefit plans to immediately recognize the estimated expected credit losses over the life of a financial instrument, including contributions receivable. The estimate of expected credit losses considers not only historical information, but also current and future economic conditions and events. The Plan adopted the ASU effective January 1, 2023. The impact of the adoption was not considered material to the financial statements and primarily resulted in additional disclosures.

NOTE 3. ACTUARIAL INFORMATION

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered to contributing employers. Accumulated plan benefits include benefits expected to be paid to (a) pensioners or their beneficiaries (b) inactive participants with rights to immediate or deferred pensions or their beneficiaries and (c) active participants or their beneficiaries. Benefits under the Plan vary in amount, depending on the pension for which the participant qualifies, based on the number of pension credits or years of vesting service attained, the participant's age at retirement and the pension option selected.

NOTE 3. ACTUARIAL INFORMATION (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, First Actuarial Consulting, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the present value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2022 are as follows:

Mortality Rates: Pri-2012 Blue Collar Mortality Table for healthy participants and the Pri-2012 Disabled Mortality Table for disabled participants, with fully generational projection using the MP-2021 improvement scale.

Retirement Rates:

813 Benefits

Age	Rate	Age	Rate
55-59	8%	65-69	50%
60-61	20%	70+	100%
62-64	30%		

MNA Benefits

Age	Rate	Age	Rate
55-59	5%	63-64	15%
60-61	10%	65+	100%
62	20%		

Other Benefits - Participants are assumed to retire at normal retirement age.

Net Investment Return: 7.00% per annum, includes an allowance for administrative expenses of .50%.

Termination Rates:

813 Benefits: Sample rates are as follows:

Age	Rate	Age	Rate
20	17.46%	45	6.21%
25	18.51%	50	5.63%
30	12.19%	55	2.92%
35	8.78%	60	2.20%
40	7.00%		

NOTE 3. ACTUARIAL INFORMATION (CONTINUED)

Termination Rates: Other Benefits: Sample rates are as follows:

<u>Age</u>	<u>Rate</u>	<u>Age</u>	<u>Rate</u>
20	10.00%	45	5.00%
25	9.00%	50	4.00%
30	8.00%	55	0.00%
35	7.00%	60	0.00%
40	6.00%		

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. In the event the Plan was to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2023. Had the valuation been performed as of December 31, 2022, there would be no material differences.

The actuarial present value of accumulated plan benefits as of December 31, 2022 is shown below:

Actuarial present value of vested accumulated plan benefits	
Participants currently receiving benefits	\$ 368,305,795
Participants entitled to deferred benefits	244,271,650
Other participants	<u>79,282,907</u>
Total vested benefits	691,860,352
Actuarial present value of non-vested benefits	<u>3,365,487</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 695,225,839</u>

The factors which affected the change in the actuarial present value of accumulated plan benefits from the preceding to the current benefit information date are as follows:

Actuarial present value of accumulated plan benefits - January 1, 2022	<u>\$ 680,630,147</u>
Changes during year due to:	
Decrease in discount period at 7.00%	45,952,194
Benefits paid	(49,172,105)
Additional benefits earned, including experience gains and losses	<u>17,815,603</u>
Total change	<u>14,595,692</u>
Actuarial present value of accumulated plan benefits - December 31, 2022	<u>\$ 695,225,839</u>

Since information on the accumulated plan benefits at December 31, 2023, and changes therein for the year then ended are not included above, the financial statements do not purport to present the complete presentation of the financial status of the Plan as of December 31, 2023, and changes in its financial status for the year then ended. As permitted under accounting standards, the financial statements present the complete financial status of the Plan as of December 31, 2022.

NOTE 3. ACTUARIAL INFORMATION (CONTINUED)

Pension Protection Act Filings

For each of the years ended December 31, 2023 and 2022, based on actuarial assumptions, participant and financial data, and plan provisions, the Plan's actuary certified that the Plan was in neither Endangered nor Critical Status (Green Zone) as defined in the Pension Protection Act of 2006 (PPA), as amended.

NOTE 4. FAIR VALUE MEASUREMENTS

Accounting standards provide the framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability; and
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The Plan uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Accounting standards permit the Plan, as a practical expedient, to estimate the fair value of their investment in certain entities that calculate net asset value (NAV) per share by using the NAV as reported by the management of the entity.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Cash equivalents - Cash equivalents consist of money market funds that are valued at cost, which approximates fair value.

U.S. Government securities - Valued at the closing price reported in the active market in which the individual securities are traded. Other securities are valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate bonds - Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available with comparable securities of issuers with similar credit ratings.

Common stock - Valued at quoted market prices reported on the national securities exchange in which the individual securities are traded.

Exchange traded fund - Valued at quoted market prices reported on the national securities exchange in which the fund is traded.

Hedge funds of funds - Valued at the amount equal to the NAV per share at year end based on the fund's investment in a master fund in a master/feeder arrangement. The NAV, as provided by the fund, is used as a practical expedient to estimate fair value. The feeder fund is designed to invest "feed" its assets into one underlying master fund. The master fund is carried at fair value based on the financial information provided by a diversified portfolio of private investment entities and separately managed accounts, as determined by the respective managers of those entities, subject to the judgment of the master fund.

Limited partnership - Valued at the NAV per share at year end as reported by the partnership. The NAV, as provided by the partnership, is used as a practical expedient to estimate fair value. Share values are based on the current appraised value of the underlying real estate properties.

Pooled separate accounts - Valued at the NAV per share at year end as reported by the insurance company. The NAV, as provided by the fund, is used as a practical expedient to estimate fair value. Share values are based on the current market value of the underlying securities.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. In addition, the inputs and methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Description	Assets at Fair Value as of December 31, 2023			
	Total	Level 1	Level 2	Level 3

Total assets at fair value	<u>\$ 579,784,773</u>			

*In accordance with accounting standards, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

Fair Value of Investments that Calculate NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2023 and 2022. Each investment entity, with the exception of the hedge funds of funds and limited partnership, is measured at fair value by using the NAV practical expedient and also files U.S. Department of Labor Form 5500 as a direct filing entity (DFE). Accordingly, disclosure of the significant investment strategies for these entities are not required. There were no unfunded commitments towards the investment entities that file as a DFE at December 31, 2023 and 2022.

(a) The Plan has liquidated its interest in the EnTrust Capital Diversified Fund (Fund) except for the Fund's interest in Peruvian sovereign bonds. The Plan will receive its pro-rata share of the proceeds of the bond's monetization, however the period over which the monetization will occur is not determined.

(b) This investment entity invests in a select group of funds and investment vehicles that are generally expected to be illiquid. Investments include, but not limited to, global distressed corporate securities, activist equities, value equities, reorganization equities, municipal bonds, high yield bonds, leveraged loans, unsecured debt, collateralized debt obligations, mortgage-backed securities, direct lending and sovereign debt, real estate, venture capital, and private equity-type structures. The Plan is currently liquidating its position in this investment entity.

NOTE 4. FAIR VALUE MEASUREMENTS (CONTINUED)

(c) This investment entity invests in a pool of collective investment vehicles and individually managed accounts that invest in equity and debt securities of U.S. and non-U.S. corporations, U.S. government securities, non-U.S. government securities, futures contracts, options, options on futures, other derivatives including swaps, forward contracts, currencies and physical commodities, partnership interests, money market instruments, and derivatives on securities. At December 31, 2023 and 2022, the Plan had no unfunded commitments towards this investment entity.

(d) This investment entity invests in diversified commercial property primarily leased to the United States federal government either through the General Services Administration (GSA) or other federal government agencies. At December 31, 2023 and 2022, the Plan had no unfunded commitments towards this investment entity.

NOTE 5. TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan by letter dated September 10, 2015, that the Plan as restated and amended January 1, 2014, meets the requirements of Internal Revenue Code (IRC) Section 401(a) and is exempt from federal income taxes under IRC Section 501(a). The Plan has been amended since receiving the determination letter. However, the Trustees believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if it has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6. PLAN TERMINATION

Although they have not expressed any intention to do so, the Trustees reserve the right to terminate the Plan. The Pension Benefit Guaranty Corporation (PBGC) provides financial assistance to plans that become insolvent and guarantees certain benefits provided by insolvent plans. However, the benefits guaranteed are generally only a portion of the normal retirement benefits. In addition, the PBGC does not guarantee benefit increases created by plan amendments in effect for less than five years.

NOTE 7. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

The Plan shares office space and administration with other related benefit funds and Local Union 813. As part of a cost sharing arrangement, the Plan's related Pension Plan Private Sanitation Union Local 813 I. B. of T. (813 Pension Fund) acts as paying agent for certain common administrative expenses. The Plan reimburses 813 Pension Fund for its estimated allocable share of these common administrative expenses paid on its behalf, as determined by the Board of Trustees under a cost sharing agreement. Allocable administrative expenses include payroll and payroll related costs, occupancy costs, as well as other administrative expenses. Shared administrative expenses for the years ended December 31, 2023 and 2022, totaled \$1,100,944 and \$996,259, respectively. Amounts due the 813 Pension Fund at December 31, 2023 and 2022, totaled \$124,313 and \$186,997, respectively, which were subsequently reimbursed.

The Plan pays certain administrative, investment, and professional fees to various service providers. These transactions are considered exempt party-in-interest transactions under ERISA.

NOTE 8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and to uncertainties in estimates and assumptions, it is at least reasonably possible that changes in the values of such investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9. SIGNIFICANT CONTRIBUTING EMPLOYER

Contributions from one contributing employer accounted for approximately 93% and 91% of total employer contributions received by the Plan for the years ended December 31, 2023 and 2022, respectively.

NOTE 10. OPERATING LEASE AS LESSEE

The Plan leases premises at 340 Turnpike Street, Canton, MA, 02021, from the Plan's related MNA. The lease's original commencement date was November 1, 2017, and extended through October 31, 2022. The lease was renewed for an additional 5-year term beginning November 1, 2022, and expiring October 31, 2027. The Plan also incurs rent expense as part of the cost sharing arrangement with 813 Pension Fund but is not a party to the lease. These transactions are considered exempt party-in-interest transactions under ERISA. Total rent expense was \$68,752 and \$69,339 for the years ended December 31, 2023 and 2022, respectively.

The Plan's future lease payments under the lease as of December 31, 2023 are as follows:

<u>Year Ended December 31,</u>	<u>Amount</u>
2024	\$ 10,488
2025	10,488
2026	10,488
2027	8,740
	<u>\$ 40,204</u>

NOTE 11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of additions per the financial statements to income per the Form 5500 for the years ended December 31, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Total additions per the financial statements	\$ 83,903,429	\$ (109,736,015)
Add: investment expenses	<u>2,409,835</u>	<u>2,557,297</u>
Total income per the Form 5500	<u>\$ 86,313,264</u>	<u>\$ (107,178,718)</u>

The following is a reconciliation of deductions per the financial statements to expenses per the Form 5500 for the years ended December 31, 2023 and 2022:

	<u>2023</u>	<u>2022</u>
Total deductions per the financial statements	\$ 52,949,004	\$ 51,644,189
Add: investment expenses	<u>2,409,835</u>	<u>2,557,297</u>
Total expenses per the Form 5500	<u>\$ 55,358,839</u>	<u>\$ 54,201,486</u>

NOTE 12. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 11, 2024, which is the date the financial statements were available to be issued. This review and evaluation revealed, with the exception of the following, no other material event or transaction which would require an adjustment to or disclosure in the accompanying financial statements.

On May 6, 2024, Steward Health Care, the largest contributing employer to the Plan, filed for Chapter 11 bankruptcy protection. Steward has sold a number of its hospitals in Massachusetts although two hospitals were forced to close. No adjustments have been made to the financial statements due to this uncertainty.

Schedule MB, line 6 – Statement of Actuarial Assumptions/Methods

Actuarial Assumptions

Interest Rate	Valuation	7.50% per annum
	RPA Current Liability	2.55% per annum
	Withdrawal Liability	7.00% per annum as of December 31, 2022

The assumed long-term rate of return on assets is developed based on the allocation of the Plan's assets by investment class and the capital market outlook for each investment class. This information is provided by the Plan's investment advisor.

The assumed long-term rate of return on assets used for withdrawal liability includes an allowance for administrative expenses of 0.50%.

The RPA '94 current liability interest rate complies with Code section 431(c).

Mortality

Valuation

The Pri-2012 Blue Collar Mortality Table for healthy participants and the Pri-2012 Disabled Mortality Table for disabled participants, with fully generational projection using the MP-2021 improvement scale.

The Pri-2012 mortality tables along with accompanying "MP" projection scales, published by the Society of Actuaries, represent the most current and complete benchmarks of U.S. private pension plan mortality experience. The mortality tables, with the fully generational projection, reasonably reflect the projected mortality experience as of the measurement date and provide an allowance for future mortality improvement.

Withdrawal Liability

The RP-2000 Mortality Table with Blue Collar adjustment for healthy lives and the RP-2000 Disabled Retiree Mortality Table for disabled participants, with fully generational projection using Scale AA.

For RPA'94 Current Liability, the tables specified in IRC Section 431(c)(6)(D)(iv)&(v) were used.

Actuarial Methods

Cost Method The Traditional Unit Credit Cost Method is employed in this valuation. Under this method, an “accrued benefit” is calculated as of the beginning of the year and is projected as of the end of the year for each benefit that may be payable in the future. The “accrued benefit” is based on the plan’s accrual formula and upon service as of the beginning or end of the year. The actuarial accrued liability is the present value of the “accrued benefit” as of the beginning of the year for active participants and is the present value of all benefits for other participants. The normal cost is the present value of the difference between the “accrued benefit” as of the beginning and the “accrued benefit” projected to the end of the year. The normal cost and actuarial accrued liability for the plan are the sums of the individually computed normal costs and actuarial accrued liabilities for all plan participants.

Asset Method A Five-Year Weighted Average of Asset Gains/Losses Method is used in this valuation. The actuarial value of assets is determined by adjusting the market value of assets to reflect the asset gains and losses (the difference between expected investment return on market value of assets and actual market investment return) during each of the previous five years at the rate of 20% per year. The actuarial value is subject to a restriction that it not be less than 80% or more than 120% of market value.

Changes in Actuarial Assumptions and Methods since the Last Valuation

The interest rate used for Withdrawal Liability was changed from 7.50% to 7.00%.

The interest rate and mortality table used to determine the RPA '94 Current Liability were changed to comply with the requirements of IRC Code Section 431(c).

There were no other changes in the actuarial assumptions or methods since the last valuation.
