Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		5000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)	☒		
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)	☒		
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

Plan Administrator
Pension Plan for The Washington Post and Companies

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Pension Plan for The Washington Post and Companies (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 8 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of (1) Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 and (2) Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pension Plan for The Washington Post and Companies

Notes to Financial Statements

Years ended December 31, 2023 and 2022

Note 1 - Description of Plan

The following brief description of the Pension Plan for The Washington Post and Companies (the Plan) is provided for general information purposes only. Participants should refer to the Plan's documents governing their respective retirement programs for more complete information.

General

The Plan is a defined benefit pension plan sponsored by Nash Holdings LLC (the Plan Sponsor or the Company) which provides certain retirement, disability and death benefits on a noncontributory basis to eligible employees of the following subsidiaries of the Company: WP Company LLC, Express Publications Company, LLC (closed in 2019), Post Community Media LLC, Greater Washington Publishing, LLC (closed in 2018), and Robinson Terminal Warehouse LLC (collectively, the Publishing Subsidiaries or The Washington Post and Companies). Plan participation begins after an employee completes an Eligibility Year of Service (as defined by the Plan). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

An Administrative Committee (Plan Administrator) whose members are appointed by the Company has overall authority to administer the Plan. Contributions, if any, are made to the Trust of the Pension Plan for The Washington Post and Companies (the Trust), of which The Bank of New York Mellon/BNY Mellon, N.A. is Trustee.

Traditional Pension Benefits

Eligible employees of WP Company LLC and Robinson Terminal Warehouse LLC hired prior to September 1, 2009 are entitled to traditional pension benefits. A participant becomes vested either by attaining age 65 while employed or by completing five or more years of vesting service. In general, terminated, vested participants may receive normal retirement benefits (unreduced) in annuity form, beginning at age 65. Participants may receive reduced benefits as early as age 55. The amount of such benefits is primarily based on the participant's average earnings and years of credited service. If participants terminate either before attaining age 65 or completing five or more years of vesting service (three or more years of vesting service for participants with an accrued benefit under the Cash Balance Schedule), they forfeit the right to receive their accrued plan benefits.

If a vested participant dies, the surviving spouse is entitled to receive a survivor benefit. If a participant becomes disabled as defined by Social Security regulations, or in the case of participants in the Newsweek Schedules, under the Company's insured disability program, the participant may be credited with additional years of service from the time the participant became totally and permanently disabled to the time of early or normal retirement.

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 1 - Description of Plan (Continued)

Traditional Pension Benefits (continued)

Effective December 31, 2014, the Plan was amended so that all Plan participants not represented by the Guild or a Craft Union no longer accrue traditional pension benefits. Any participant who was represented by the Guild or a Craft Union but ceased to be so represented after December 31, 2014 no longer accrue traditional pension benefits effective the date the employee ceased to be represented.

Effective February 28, 2015, the traditional benefits of certain Craft Union employees were frozen effective as of that date or March 31, 2015.

In April 2015, the Plan was amended to freeze the traditional benefits of certain Craft Union employees effective July 31, 2015. Various other changes to the Plan were made by this amendment retrospective to October 1, 2013, pursuant to an agreement with the IRS to obtain a favorable determination letter.

Effective August 31, 2015, the Plan was amended to freeze the traditional benefits of participants represented by the Guild.

Effective March 31, 2016, or June 30, 2016, as applicable, the Plan was amended to freeze the traditional benefits of certain Craft Union employees.

Cash Balance Retirement Program

The Plan also provides employer-paid pension benefits as part of a Cash Balance Retirement Program (Program). The Program is provided to eligible employees of The Washington Post and Companies. Benefits under the Program are equal to the sum of a participant's pay-based credits and interest credits. Pay-based credits are equal to a percentage, which is dependent upon years of service, of the participants' eligible compensation during each calendar quarter of participation in the Program.

Generally, the applicable percentages are as follows:

<u>Years of Service as of January 1</u>	<u>Pay-Based Pension Credit for the Plan Year</u>
Less than 5 years	2.25% of eligible compensation
At least 5 years but less than 10	2.75% of eligible compensation
At least 10 years but less than 20	3.25% of eligible compensation
20 years or more	3.75% of eligible compensation

Note 1 - Description of Plan (Continued)

Cash Balance Retirement Program (continued)

Interest credits typically are added to the participants' accounts at the end of each calendar quarter based on the accumulated account balance as of the first day of the quarter. The interest credit is equal to the product of the interest percentage and a participant's account balance. The annual interest percentage for any period equals the greater of (1) 1.41%, or (2) 1% plus the average interest rate for one-year U.S. Treasury securities during the month of August of the preceding Plan year; not to exceed a maximum interest percentage of 10%.

Participants are 100% vested in the benefits accumulated after either attaining age 65 while employed or after completion of three years of vesting service. Benefits for vested retired or terminated participants under the Program are based on the participant's account balance as of a date shortly before the date on which benefit payments commence. The participant may elect to receive a single, lump-sum distribution equal to the amount of the participant's account balance at any time after the termination of the participant's employment, otherwise benefits are paid in the form of an annuity with an actuarial value equal to the participant's account balance prior to the starting date of the annuity payments.

Account balances of \$5,000 or less may not be deferred and are paid out of the Plan in a single, lump-sum amount. If the value of a participant's account is more than \$1,000 but less than or equal to \$5,000, and after receiving all required notices, the participant does not affirmatively elect a distribution, the account balance will be automatically rolled over by the Plan to an Individual Retirement Account (IRA). If the participant's balance is \$1,000 or less, the account balance will be automatically paid as a lump sum distribution.

In the event of a participant's death, 100% of the participant's account will be paid to the designated beneficiary. If a participant becomes totally and permanently disabled, the benefit payment rights and options are the same as that of a terminated, vested individual.

Effective October 1, 2014, the Cash Balance Schedule of the Plan was amended to exclude non-bargaining employees hired or rehired on or after that date from participation in that schedule, except for the Secure Retirement Account component.

Effective January 1, 2015, employees of WP Company LLC and Robinson Terminal Warehouse LLC who had previously accrued traditional benefits became eligible to participate in the Cash Balance Schedule of the Plan.

Effective March 1, 2015 or April 1, 2015, as applicable, certain Craft Union employees who had previously accrued traditional benefits became eligible to participate in the Cash Balance Schedule of the Plan. However, certain Craft Union employees hired or rehired on or after March 1, 2015 or April 1, 2015, respectively, are excluded from participating in the Cash Balance Schedule of the Plan.

Cash Balance Retirement Program (continued)

Effective August 1, 2015, certain Craft Union employees who had previously accrued traditional benefits became eligible to participate in the Cash Balance Schedule of the Plan, including the Secure Retirement Account component. However, certain Craft Union employees hired or rehired on or after August 1, 2015 are excluded from participating in the Cash Balance Schedule of the Plan, except for the Secure Retirement Account component.

Effective September 1, 2015, Guild employees who had previously accrued traditional benefits became eligible to participate in the Cash Balance Schedule of the Plan, including the Secure Retirement Account component. However, certain Guild employees hired or rehired on or after July 1, 2015 are excluded from participating in the Cash Balance Schedule, except for the Secure Retirement Account component.

Effective April 1, 2016 or July 1, 2016, as applicable, certain Craft Union employees who had previously accrued traditional benefits became eligible to participate in the Cash Balance Schedule of the Plan. However, certain Craft Union employees hired or rehired on or after March 31, 2016 or June 30, 2016, respectively, are excluded from participating in the Cash Balance Schedule of the Plan.

Effective December 31, 2023, the Plan was amended to offer a 2023 Voluntary Separation Program (VSP). A VSP participant shall have credited to their Secure Retirement Account in the Cash Balance Schedule an additional pay credit as defined in the VSP. VSP participants become fully vested in their Cash Balance and Secure Retirement accounts as of December 31, 2023. The Plan paid out \$46,890,893 in special separation payments and health insurance benefits through October 2024.

Secure Retirement Account

The Secure Retirement Account (SRA) benefit is a component of the Cash Balance Retirement Program Schedule.

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 1 - Description of Plan (Continued)

Secure Retirement Account (continued)

Similar to the Cash Balance Retirement Program, benefits under the SRA are equal to the sum of a participant's pay-based credits and interest credits. Pay-based credits are equal to a percentage of the participants' eligible compensation during each calendar quarter of participation in the Program times a multiplier. The percentage is dependent upon years of service as defined in the Plan document, and the multiplier is determined by the company the participant works for and the participant's most recent date of hire or transfer. Generally, the applicable percentages are as follows:

<u>Years of Service as of January 1</u>	<u>Pay-Based Pension Credit for the Plan Year</u>
Less than 5 years	1.10% x Multiplier
At least 5 years but less than 10	1.35% x Multiplier
At least 10 years but less than 20	1.55% x Multiplier
20 years or more	1.75% x Multiplier

Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated January 12, 2021, that the Plan is designed as a tax-qualified plan in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has since been amended, but the Plan Sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC. Therefore, the Plan Sponsor has concluded that as of December 31, 2023 and 2022, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits of any tax periods in progress.

Note 2 - Summary of Accounting Policies

The following accounting policies, which conform with accounting principles generally accepted in the United States of America (GAAP), have been used consistently in the preparation of the Plan's financial statements:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements, in conformity with GAAP, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of Plan assets and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 2 - Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan invests in various investment securities. All investments held by the Plan are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Gains or losses realized on the sale of investments are determined based on weighted average cost, except for debt securities, which are determined based on specific identification. Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

The accompanying statements of changes in net assets available for benefits present the Plan's net change in fair value of investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Risks and Uncertainties

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflationary factors, and demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, financial market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Administrative Expenses

Trustee fees, actuarial fees, investment management fees, Pension Benefit Guaranty Corporation premium payments and other administrative expenses are charged to the Plan. The Company provides certain administrative services for which no fees are charged.

Benefit Payments

Benefit payments to participants are recorded upon distribution.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 2 - Summary of Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits (continued)

The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2023, the date of the actuarial valuation for the Plan year ended December 31, 2023, were: (a) life expectancy of participants (the PRI-2012 Employee Tables with the Retiree and Contingent Survivor Tables for annuitants, projected generationally with Scale MP-2021 was used); (b) various rates of termination and retirement up to age 70; and (c) an interest rate of 6.5%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Subsequent Events

The Plan has performed an evaluation of subsequent events through October 10, 2024, which is the date the financial statements were available to be issued and has considered any relevant matters in the preparation of the financial statements and notes.

Note 3 - Funding Policy

Contributions made by the Company and other participating companies to the Plan for any year are determined after considering the following factors: (a) the actuarially computed pension expense; (b) the minimum funding requirements of ERISA; (c) the maximum tax deductible contribution for the year; and (d) the funded status of the Plan. No contributions were necessary under the minimum funding requirements of ERISA with respect to the 2023 and 2022 actuarial valuations.

Note 4 - Actuarial Information

As of January 1, 2023, the date of the actuarial valuation for the Plan year ended December 31, 2023, the actuarial present value of accumulated plan benefits are as follows:

Vested benefits:	
Active employees	\$ 147,511,670
Participants with deferred benefits	45,604,140
Participants currently receiving benefits	<u>40,350,033</u>
	233,465,843
Non vested benefits	<u>1,862,536</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 235,328,379</u></u>

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 4 - Actuarial Information (Continued)

A summary of significant changes in the actuarial present value of accumulated plan benefits as of January 1, 2023, are as follows:

Actuarial present value of accumulated plan benefits, January 1, 2022	\$ 228,692,109
Increase (decrease) during the period attributable to:	
Interest accumulated	14,266,120
Benefits paid	(18,721,403)
Benefits accrued and actuarial experience	13,551,663
Assumption changes	<u>(2,460,110)</u>
Net increase	<u>6,636,270</u>
Actuarial present value of accumulated plan benefits, January 1, 2023	<u>\$ 235,328,379</u>

Note 5 - Plan Termination

The Company has the right under the Plan to amend or terminate it subject to the provisions of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination;
- (b) Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations;
- (c) All other vested benefits (that is, vested benefits not insured by the PBGC); and
- (d) All non-vested benefits.

Once all the benefit obligations described above have been satisfied, any remaining assets of the Plan would revert to the Company.

Pension Plan for The Washington Post and Companies

Notes to Financial Statements (Continued)

Note 5 - Plan Termination (Continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Note 6 - Parties-in-interest Transactions

Plan investments include short term investments and a common/collective trust administered by The Bank of New York Mellon/BNY Mellon, N.A. The Bank of New York Mellon/BNY Mellon, N.A. serves as Trustee of the Plan and, therefore, these transactions qualify as party-in-interest. The Plan paid The Bank of New York Mellon/BNY Mellon, N.A. \$95,382 and \$96,093 for expenses incurred for the years ended December 31, 2023 and 2022, respectively.

Note 7 - Fair Value Measurements

Investments measured at fair value on a recurring basis consist of the following:

Investments, at fair value	<u>\$ 568,851,396</u>	<u>\$ 498,379,566</u>

*In accordance with GAAP, the investments, which are measured at fair value using the net asset value per share (or equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in the above tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

For assets that are measured using quoted prices in active markets, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs. Assets and liabilities that are measured using significant other observable inputs are primarily valued by reference to quoted prices of similar assets or liabilities in active markets, adjusted for any terms specific to that asset or liability.

Common/Collective Trust

The Plan's investment in a common/collective trust consists entirely of the Collective Trust Government Short Term Investment Fund (the Fund) as of December 31, 2023 and 2022. As permitted by GAAP, the Plan uses the net asset value (NAV) per unit of the Fund as a practical expedient to determine the fair value of its investment. The NAV per unit is calculated by taking the underlying assets owned by the Fund, minus its liabilities, and then dividing by the number of units outstanding.

The investment objective of the Fund is to obtain a reasonable rate of return while investing principally or entirely in securities or other obligations issued by or guaranteed by the United States government or its agencies and repurchase agreements collateralized by securities or other obligations issued by or guaranteed by the United States government or its agencies. The Fund intends to maintain a net asset value of approximately \$1 per share. There are no restrictions on redemptions of the Plan's investment in the Fund and no unfunded commitments as of December 31, 2023 and 2022.

Pension Plan for The Washington Post and Companies

Note 7 - Fair Value Measurements (Continued)

Alternative Investment - Private Equity Fund

The private equity fund is a renewable energy fund that invests primarily in U.S. or Canadian projects. The fair value of the investment in this private equity fund has been estimated using the net asset value of the Plan's ownership interest in members' capital. Members' capital is not available for capital withdrawal. However, from time to time, the fund manager may make capital distributions to its members. Distributions will be received once every quarter based on the amount of cash available.

The investment objective of the private equity fund is to acquire, own, develop, operate, and/or sell electricity and/or renewable energy credits produced by various solar and wind facilities located in North America. There are no unfunded commitments as of December 31, 2023 and 2022.

Alternative Investment - Fixed Income Security

The issuer of this security will pay the Plan the principal amount in May 2041, with interest on the unpaid balance on an annual basis of 6.85%. There are no unfunded commitments as of December 31, 2023 and 2022. The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31:

	2023	2022
Balance, beginning of year	\$ 12,760,339	\$ 12,726,103
Interest capitalized	645,831	289,730
Interest accrued	904,424	863,474

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

Participants with valid lump sum elections for benefits payable, but not yet removed from trust assets are valued based on their benefit due.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return over the actual return on the market value (including employer contributions receivable for any given year. However, the expected return on assets may be limited by certain statutory interest rates.

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

TWP / Exempt Schedule

Freeze Date

December 31, 2014.

Eligibility

Only spin-off participants that were eligible for benefits in this Schedule at the time of the spin-off participate in this Schedule.

Benefit Service

Same as accrual of Vesting Service for years from 1973 through 2014. No accruals after the Freeze Date.

Vesting Service

One year accrual for each calendar year credited with 1,000 or more hours. Partial year accrual equal to Hours / 1,000 for calendar year of hire or termination if worked at an annualized rate of 1,000 or more hours. If a participant in the Washington Post Company Retirement Plan on 12/31/1995, Vesting Service accrued through 12/31/1995 under the rules of that plan.

Normal Retirement Benefit

$[(1.75\%) * (\text{Years of Benefit Service}) * (\text{Highest Average Annual Compensation})] - \text{Social Security Offset}$. Payable as a Single Life Annuity.

Social Security Offset = (Applicable Percentage) * (Years of Benefit Service) * minimum (Social Security Final Average Annual Compensation, Social Security Covered Compensation), but no greater than $(.00875) * (\text{Years of Benefit Service}) * (\text{Highest Average Annual Compensation})$.

Social Security Final Average Annual Compensation is average compensation (limited to the Social Security wage base) over last 36 months of employment.

Social Security Covered Compensation is the 35 year average of the Social Security wage base ending with the year the participant attains Social Security retirement age.

Applicable Percentage = for terminations after 5/31/2003, 0.60% if born before 1938, 0.57% if year of birth is 1938 through 1954, and 0.54% if born in 1955 or later. For terminations before 6/1/2003, 0.75% if born before 1938, 0.70% if year of birth is 1938 through 1954, and 0.65% if born in 1955 or later.

Resulting benefit is payable as a Single Life Annuity.

If meet Rule of 90 (age + Vesting Service > 90 at termination), the Accrued Benefit prior to the Social Security Offset is unreduced; the Social Security Offset is reduced by the above table; the Cash Pension Supplement is unreduced.

Pre-Retirement Death Benefit

The death benefit will be equal to 50% of the benefit the participant would have received (including the Cash Pension Supplement) had he retired and elected a 50% joint and survivor benefit immediately prior to death. The surviving spouse annuity will commence as early as the employee's 55th birthday.

Benefit available only to married participants and non-spouse beneficiaries are not allowed.

Vesting

100% vesting upon completion of either:

- 5 years of Vesting Service (3 Years of Vesting Service if the participant has an accrued benefit in the Cash Balance Schedule and has an hour of Service after 12/31/2007).
- Attainment of Age 65 as an active employee.

Normal Form of Payment

Unless otherwise elected, any benefit will be paid:

- (a) As a single life annuity for a single participant;
or
- (b) As a 50% joint and survivor annuity, if the employee has an eligible spouse.

Pre-Retirement Death Benefit

For married participants:

- The benefit is the greater of:
 - The present value of the participant's accrued benefit (including the Cash Pension Supplement), reduced to the benefit commencement date and adjusted for the spouse's age at the benefit commencement date using the actuarial equivalence basis of 6% and 1971 GAM male mortality. The present value is offset by any life insurance arrangement maintained by Robinson as well as the present value of any distributions previously made to the participant from this Schedule.
 - The survivor portion of the 50% J&S annuity (including the Cash Pension Supplement) that would be payable to the participant, reflecting reduction for early / late commencement and an adjustment for the 50% J&S form of payment.
- Non-spouse beneficiaries allowed with spousal waiver.
- Payable as early as the 1st of the month following the date of death.

For unmarried participants:

- Benefit is the present value of the participant's accrued benefit (including the Cash Pension Supplement), reduced to the benefit commencement date and adjusted for the spouse's age at the benefit commencement date using the actuarial equivalence basis of 6% and 1971 GAM male mortality. The present value is offset by the any life insurance arrangement maintained by Robinson as well as the present value of any distributions previously made to the participant from this Schedule.
- Payable as early as the 1st of the month following the date of death.
