To the Plan Participants and Trustees
Sinai Health System
Consolidated 403(b) Plan
Chicago, Illinois

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Sinai Health System Consolidated 403(b) Plan (the “Plan”), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (“ERISA”), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan’s financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s (“DOL”) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (“investment information”) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of DOL’s Rules and Regulations for Reporting and Disclosure under ERISA (“qualified institution”).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in *the Auditor’s Responsibilities for the Audit of the Financial Statements* section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule of Delinquent Participant Contributions – Form 5500, Schedule H, Part IV, Line 4a, for the year ended December 31, 2023, and Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

NOTES TO THE FINANCIAL STATEMENTS**

DECEMBER 31, 2023 AND 2022

Note 1—Description of Plan

The following description of the Sinai Health System Consolidated 403(b) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Under the Plan, any affiliate of Sinai Health System can also adopt the Plan. The following are adopting employers: Holy Cross Hospital; Mount Sinai Hospital; Schwab Rehabilitation Hospital and Care Network; Sinai Community Foundation/Sinai Medical Group; and Sinai Community Institute. All adopting employers will be referred to collectively as “Organization”.

General – The Organization established the Plan to provide employees with a systematic means of savings and investing for the future. All employees as defined in accordance with the universal availability standards, are eligible to enroll on the January 1 or July 1 following their date of hire.

The Plan is a defined contribution plan under Section 403(b) of the Internal Revenue Code (“IRC”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Administration – The Organization has designated certain employees, who serve without additional compensation, to administer the Plan. The Plan administrator has the overall responsibility and authority as the named fiduciary to manage and control the operations and administration of the Plan and may designate one or more individuals to perform those responsibilities.

Contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 1% of eligible compensation and their contributions invested in a designated Qualified Default Investment Target Date Fund (based on an expected age of retirement) until changed by the participant. Contributions are subject to certain IRC limitations.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant’s account is credited with the participant’s contributions and an allocation of Plan investment results. Participant accounts are charged with their withdrawals and an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings, specific participant transactions or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon.

Investment Options – Upon enrollment in the Plan, participants may direct the investment of their accounts into various investment options offered by the Plan. They may change their investment options among those investments provided at any time during the Plan year.

Notes Receivable from Participants – Participant loans are not permitted under the Plan.

Payment of Benefits – Upon termination of service or attaining normal retirement age, a participant may elect to receive a lump sum amount equal to the value of the participant’s vested interest in his or her account, or periodic payments not exceeding the participant’s life expectancy. In-service and hardship withdrawals are also allowed as defined in the Plan agreement.

Note 2—Summary of significant accounting policies

Basis of Presentation – The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan’s investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. U.S. GAAP defines fair value as the exchange price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Investment Management Fees and Operating Expenses – Investment management fees and operating expenses charged to the Plan for certain investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits – Benefits are recorded when paid. There were no benefit payments requested and not yet disbursed at December 31, 2023 and 2022.

Administrative Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Organization. Expenses that are paid by the Organization are excluded from these financial statements.

Due to Plan Trust – During the year ended December 31, 2022, the Organization over-contributed deferral amounts related to certain payroll periods near year-end. These amounts were due to be refunded to the Organization at December 31, 2022.

Transfer Out of Plan – During the year ended December 31, 2023, the Organization determined that an individual had been erroneously included in the Plan as a participant. This individual’s balance was transferred to The Mount Sinai Medical Center 403(b) Retirement Plan.

Note 3—Information certified by the qualified institutions (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Accordingly, MetLife Insurance Company ("MetLife"), American United Life Insurance Company ("AUL"), and Teachers Insurance and Annuity Association and College Retirement Equities Fund ("TIAA-CREF"), qualified institutions, have certified that the following information included in the financial statements and ERISA-required supplemental schedules is complete and accurate:

- Investments at fair value and investments at contract value as shown in the statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation in fair value of investments and interest and dividends as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2023.
- Schedule of Assets (Held at End of Year) – Form 5500, Schedule H, Part IV, Line 4i as of December 31, 2023.

At the request of the Plan administrator, the Plan's independent auditor did not perform auditing procedures with respect to the certified investment information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 4—Fair value measurements

U.S. GAAP provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

SINAI HEALTH SYSTEM
CONSOLIDATED 403(b) PLAN
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 4—Fair value measurements (continued)

The following are descriptions of the valuation methodologies used for investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2023 or 2022:

Money Market and Mutual Funds – Valued at the daily closing price as reported by the fund. The money market and mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their net asset value (“NAV”) and to transact at that price. The money market and mutual funds held by the Plan are deemed to be actively traded and are, therefore, classified within Level 1 of the valuation hierarchy.

Guaranteed Annuity Contract – The TIAA Traditional Non Benefit Responsive investment is a guaranteed annuity contract that is reported at contract value which approximates fair value. This determination is based on TIAA’s credit rating and yield during 2023 and 2022 being comparable to similar alternative investments and the interest rate which resets annually being comparable to a ten-year Treasury bond.

Pooled Separate Account – Primarily valued at NAV as a practical expedient per share based on quoted market prices of underlying investments.

Self-Directed Investments – Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices and, therefore, classified within Level 1 of the fair value hierarchy.

Variable Annuity Contracts (AUL) – Valued at NAV of shares held at year end which is based on the fair value of the underlying investments. The Plan’s interest in the variable annuity contract is valued based on the information reported by the contract holder.

Variable Annuity Contracts (CREF) – Valued at the daily unit value which is based on the fair value of the underlying investments. The value of the unitholder’s investment rises and falls with the returns on the underlying assets. These investments are categorized as Level 1 because they are actively traded and the prices of the underlying assets are publicly reported to NASDAQ daily.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

CONSOLIDATED 403(b) PLAN
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 4—Fair value measurements (continued)

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements – The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of the values for those inputs.

Instrument	Fair Value	Valuation Technique	Unobservable Inputs
December 31, 2023:			
Guaranteed annuity contract	\$ 4,755,520	Contract value adjusted to reflect current market interest rates	Private market bonds Commercial mortgages Mortgage-backed securities
December 31, 2022:			
Guaranteed annuity contract	\$ 5,282,826	Contract value adjusted to reflect current market interest rates	Private market bonds Commercial mortgages Mortgage-backed securities

Investments Measured using the Net Asset Value per Share Practical Expedient – The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31:

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)
Pooled separate account ^(a)	\$ 1,224,572	N/A	Daily
Variable annuity contracts (AUL) ^(b)	3,907,912	N/A	Daily
December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)
Pooled separate account ^(a)	\$ 1,705,939	N/A	Daily
Variable annuity contracts (AUL) ^(b)	3,633,574	N/A	Daily

a) The pooled separate account is a real estate fund that seeks to generate favorable total returns primarily through rental income and appreciation of a diversified portfolio of directly held, private real estate investments, and real estate related investments while offering investors guaranteed daily liquidity.

b) Variable annuity contracts (AUL) are comprised of various investment types and objectives, including the following:

- Large blend portfolio investment seeks to replicate as closely as possible, before expenses, the performance of the Standard & Poor's 500 Index.
- Large growth portfolios investing primarily in larger U.S. companies that are projected to grow faster than other large-cap stocks.
- Large value portfolio investment seeks a high level of dividend income and long-term capital growth primarily through investments in stocks.
- Mid cap blend portfolio investment seeks to provide long-term capital appreciation by investing primarily in a portfolio of the equity securities of mid-sized companies that are undervalued but demonstrate a potential for growth.

**SINAI HEALTH SYSTEM
CONSOLIDATED 403(b) PLAN
NOTES TO THE FINANCIAL STATEMENTS**

DECEMBER 31, 2023 AND 2022

Note 4—Fair value measurements (continued)

- v. Money market portfolio that comprises U.S. and foreign short-term debt obligations seeking to maximize current income to the extent consistent with the preservation of capital and the maintenance of liquidity by investing exclusively in high quality money market instruments.
- vi. Target-date portfolios provide diversified exposure to stocks, bonds, and cash for those investors who have a specific date for retirement.

Note 5—Fully benefit-responsive investment contracts

The Plan entered into traditional fully benefit-responsive guaranteed investment contracts with AUL and TIAA-CREF. AUL and TIAA-CREF maintain the contributions in their general accounts. Specific securities within the general accounts are not attributed to the investment contracts with the Plan. The general accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contracts are included in the financial statements at contract value as reported to the Plan by AUL and TIAA-CREF. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets, and the amortization of any capital gains and/or losses realized on the sale of invested assets. A market value adjustment may apply to amounts withdrawn at the request of the contract holder. The guaranteed investment contracts do not permit the insurance companies to terminate the agreements prior to a breach of the contract terms by the investor.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; or (iii) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event which would limit the Plan's ability to transact at contract value with participants is probable.

Note 6—Related party and party-in-interest transactions

Certain administrative services are provided by the Organization at no cost to the Plan and certain administrative costs incurred by the Plan are paid by the Organization. Additionally, the Plan has entered into various service agreements with parties-in-interest. The Plan invests in certain investments managed by AUL and TIAA-CREF. Fees are paid by the Plan to MetLife for investment management, recordkeeping, and transaction processing services. In addition, UBS Financial Services, Inc. provides investment advisory services to the Plan.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 7—Plan termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

SINAI HEALTH SYSTEM
CONSOLIDATED 403(b) PLAN
NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2023 AND 2022

Note 8—Income tax status

The Internal Revenue Service (“IRS”) ruled on March 31, 2017, that the volume submitter 403(b) plan of MetLife, upon which the Plan is based, is designed in accordance with applicable sections of the IRC. The Plan has been amended since receipt of the determination letter. However, the Plan administrator believes the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2023 and 2022, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9—Risks and uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participant account balances and the amounts reported in the financial statements.

Note 10—Subsequent events

The Plan has evaluated all subsequent events through October 11, 2024 which is the date these financial statements were available to be issued and has determined there are no subsequent events that require disclosure.

Note 11—Prohibited transactions

During the Plan year December 31, 2023, employee withholdings totaling \$330,638 were not remitted to the Plan within the appropriate time period by the Organization. These transactions constitute prohibited transactions as defined by ERISA. The Organization remitted the withholdings in 2023.

During the Plan year December 31, 2022, employee withholdings totaling \$208,686 were not remitted to the Plan within the appropriate time period by the Organization. These transactions constitute prohibited transactions as defined by ERISA. The Organization remitted the withholdings in 2022.

During the Plan year December 31, 2021, employee withholdings totaling \$475,843 were not remitted to the Plan within the appropriate time period by the Organization. These transactions constitute prohibited transactions as defined by ERISA. The Organization remitted the withholdings in 2021.

The Organization is in the process of calculating contributions needed to compensate participants for potential lost income due to these delays.
