Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☒ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☐ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BAKER TILLY US, LLP**

(2) EIN: **30-1413443**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Independent Auditors' Report

To the Plan Administrator of
Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2023 Financial Statements

We have performed an audit of the financial statements of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2022, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 6 to the financial statements, is complete and accurate.

Opinion on the 2023 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the 2023 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2023 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2023 Financial Statements section of our report. We are required to be independent of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements of the 2023 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2023 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of the 2023 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2023 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter— Auditors' Report on the 2022 Financial Statement

Predecessor auditors performed an audit of the 2022 financial statements of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the DOL Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report dated October 16, 2023 indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2023 and 2022

1. Description of Plan

The following description of the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective January 1, 1996, as restated September 15, 2014. The Plan's sponsor is Schneider Electric Holdings, Inc. (the Company or Employer). The Plan covers employees of Schneider Electric USA, Inc. under certain collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Schneider Electric Benefits Committee controls and manages the operation and administration of the Plan. The Schneider Electric Investment Committee monitors investment performance.

Effective September 15, 2014, the Plan was amended such that no participant will accrue additional benefit service after December 31, 2015 (the Freeze Date).

Master Trust

The Plan's investments are held in the Schneider Electric Holdings, Inc. DB Master Trust (the Master Trust), which was established for the investment of assets of the Plan, the Schneider Electric Pension Plan (Pension Plan), and the Invensys Pension Plan (Invensys Plan). Each participating retirement plan has a divided interest in the Master Trust. The assets of the Master Trust are held by The Bank of New York Mellon (Trustee).

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. The minimum funding requirements of ERISA were met in 2023.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights. Participants become vested in the Plan upon completion of at least five years or attainment of the normal retirement age (65), although the Plan does allow for early retirement at the age of 55 with 10 or more years of vested service. If employees terminate before rendering the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

The amount of benefits to be provided at the time of retirement depends upon an employee's years of benefit service and the pension rate in effect on the date of termination. The Plan provides for normal retirement, early retirement, disability retirement, family death benefits, deferred retirement and spouse's death benefits. Pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements

December 31, 2023 and 2022

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments held in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan interest in Master Trust investment income (loss), in the accompanying Statement of Changes in Net Assets Available for Benefits includes the Plan's allocation of interest, dividends, realized gains or losses from the sale of investments, and unrealized appreciation or depreciation in the fair value of investments held by the Master Trust, and fees charged to the Master Trust, which are netted against or included with net appreciation (depreciation) in fair value of investments. These fees represent charges by the Trustee for services provided in connection with recordkeeping and investment management. Net unrealized appreciation (depreciation) in fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investment if purchased during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statements of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) in fair value of investments in the statements of changes in net assets available for benefits.

Recent Accounting Standards

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2023, and continues to evaluate the impact of the adoption and implementation of this legislation on the Plan. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements.

Subsequent Events

Subsequent events were evaluated through October 11, 2024, the date the financial statements were available to be issued.

Notes to Financial Statements

December 31, 2023 and 2022

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death, disability, and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023. Had the valuation been performed as of December 31, 2022, there would be no material differences. The significant actuarial assumptions used in the valuation were:

Assumption	January 1, 2023
Interest rate	5.40% in 2023 and 4.25% in 2022
Retirement age	From 5% at age 55 to 100% at age 65
Mortality	Pri-2021 mortality tables projected with MP-2021 improvement scale

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements

December 31, 2023 and 2022

- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Cash equivalents and short-term investment funds: These investments are stated at cost, which approximates fair value.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate debt securities and U.S. government and agencies securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Common collective trusts: Consisting of common-collective trusts, valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Private equity investment funds: Valued at the NAV provided by the investment fund managers. The NAV is calculated using valuation models developed by the investment fund managers and independent third-party appraisals, and is used as the practical expedient to estimate fair value.

Buy-in Investment Contract: Valued at the present value of future obligations under the contract fully prescribed by an interest discount rate and mortality basis, which are unobservable inputs (Level 3 inputs). The weighted average discount rate used at December 31, 2022 was 5.44% based on a range of inputs between 5.02% and 6.15%, further reduced by 0.50% for administrative costs. The mortality table utilized was the RP-2006 Table for Healthy Annuitants with MP-2020 projected generationally at 89.1 % and 98. 7% for Males and Females, respectively. The buy-in investment contract totaled \$0 as of December 31, 2023.

Notes to Financial Statements

December 31, 2023 and 2022

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line item presented in the Interest in Master Trust table.

(b) Includes a common collective trust that is designed to provide an investment return that approximates as closely as practicable, before expenses, the performance of the S&P 500 Index over the long term while providing participants the ability to purchase and redeem units on an "as of" basis.

(c) Includes a common collective trust that is designed to approximate as closely as practicable, before expenses, the performance of the Bloomberg Barclays Capital U.S. Long Government Bond Index over the long term. The fund may attempt to invest in the securities comprising the index, in the same proportions as they are represented in the index. However, due to the diverse composition of securities in the index and the fact that many of the securities comprising the index may be unavailable for purchase, it may not be possible for the fund to purchase some of the securities comprising the index. In such a case, the investment manager of the fund will select securities for the fund comprising a portfolio that the investment manager expects will provide a return comparable to that of the index. The per unit net asset value of the fund is determined each business day. Issuances and redemptions of the fund units may be made on such days, based upon the closing market value on the valuation date of the investments bought or sold and the transaction price per unit of the fund as of the fund's valuation date last preceding the date on which such order to contribute or withdraw assets is received.

(d) Includes limited liability corporation investments, which offer portfolio diversification, along with higher expected long-term market returns. The private equity investments generally cannot be liquidated until the funds are fully terminated and distributed.

Changes in Fair Value of Level 3 Assets

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2023, there were no transfers into or out of Levels 1, 2 or 3.

5. Interest in Master Trust

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and each plan's divided share of investment income less actual distributions and administrative expenses. Total investment income (including net appreciation (depreciation) in the fair value of investments) and administrative expenses of the Master Trust are divided to the individual plans based upon the plan's share of assets that were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust as of December 31, 2023 and 2022:

	Master Trust Balances 2023	Plan's Interest in Master Trust Balances 2023	Master Trust Balances 2022	Plan's Interest in Master Trust Balances 2022

6. Information Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, Bank of New York Mellon/BNY Mellon, N.A., the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2023.

7. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with Bank of New York Mellon/BNY Mellon, N.A., the Trustee of the Plan. Contributions are held and managed by Bank of New York Mellon/BNY Mellon, N.A., who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

8. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

9. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 1, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, concentration, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

As of December 31, 2023 and 2022, the Plan had investments in their divided interest in the Master Trust of \$34,585,184 and \$33,557,404, respectively, that were concentrated in one investment.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Rationale for Economic Assumptions

- The expense assumption is based on prior year actual expenses, adjusted for expected changes in the coming year

Rationale for Demographic Assumptions

- Withdrawal, retirement age and form of payment assumptions were based on an experience study undertaken in late 2016. The plan sponsor believes that these rates are representative of anticipated future experience.
- Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement age are based on the actuary's experience with many plans and discussions with employer representatives.

Actuarial methods for funding**Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts under which benefits are paid to plan participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** Disabled participants are included in the active employee count since they continue to earn vesting service for early retirement eligibility.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Rationale for Economic Assumptions

- The expense assumption is based on prior year actual expenses, adjusted for expected changes in the coming year

Rationale for Demographic Assumptions

- Withdrawal, retirement age and form of payment assumptions were based on an experience study undertaken in late 2016. The plan sponsor believes that these rates are representative of anticipated future experience.
- Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married/spouse age difference at benefit commencement age are based on the actuary's experience with many plans and discussions with employer representatives.

Actuarial methods for funding**Asset methods**

The asset valuation method is the fair market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts under which benefits are paid to plan participants.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.
- **Disabled participants:** Disabled participants are included in the active employee count since they continue to earn vesting service for early retirement eligibility.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Minimum funding methods**

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: February 11, 1958 Restated plan: September 15, 2014 Plan year: January 1 through December 31
Status of the plan	Benefit accruals were frozen as of December 31, 2015 for all participants.
Significant events that occurred during the year	None
Definitions	
• Covered employees	
• Participation	Oxford employees hired on or after October 31, 2004 are not eligible. All other employees hired on or after October 3, 2011 are not eligible. Participation date is same as hire date.
• Vesting service	Completion of at least 1,000 hours of service in a calendar year.
• Accrued benefit	Effective December 31, 2015, accrued benefits (and benefit service) are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
Normal retirement	
• Eligibility	Age 65 with 5 years of vesting service.
• Benefit	Effective October 1, 2008, \$44 multiplied by years of benefit service for Non-Oxford employees hired before September 12, 2005; the rate increased to \$46 effective November 1, 2011. Oxford employees and employees hired on or after September 12, 2005 are eligible for pension plan multipliers of \$41 and \$35, respectively; the rates increased to \$43 and \$37, respectively, effective November 1, 2011. For participants in the Middletown and Milwaukee 68 Plans, the benefit is offset by the purchased annuity. Effective December 31, 2015, accrued benefits are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
Early retirement	
• Eligibility	Age 55 with 10 years of vesting service.
• Benefit	Accrued benefit payable at normal retirement age. If payment commences prior to normal retirement age, amount is reduced ½% for each month prior to normal retirement age. If age plus benefit service is at least 90, the benefit is the greater of the reduced early retirement benefit or the accrued benefit based on benefit service limited to 30 years unreduced for early commencement.
Deferred vested	
• Eligibility	5 years of vesting service.
• Benefit	Accrued benefit payable at normal retirement age. If the participant has 10 years of service, a reduced benefit may commence as early as age 55. The reduction is ½% for each month prior to normal retirement age.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	10 years of vesting service and totally and permanently disabled.
• Benefit	Accrued benefit payable immediately. If the participant is not eligible for Social Security benefits, an additional amount equal to the accrued benefit is payable until normal retirement date.
Surviving family term benefit	
• Eligibility	Death in active employment after completion of 10 years of benefit service.
• Benefit	50% of the accrued benefit unreduced for early retirement and payable for 5 years.
Pre-retirement death	
• Eligibility	5 years of vesting service.
• Benefit	Spouses of married participants who are vested and die prior to earliest retirement age will receive a monthly benefit as if the employee had terminated on date of death and elected the Joint and 50% Survivor Option Annuity at the date of death with the benefit commencing at the participant's earliest possible retirement age. The benefit is offset by any surviving family term benefit.
Form of benefits	
• Automatic form for unmarried participants	Benefits are payable for life, except for Cedar Rapids 20, Cedar Rapids 22, and Middletown unions, where benefits are payable for 5 years certain and life.
• Automatic form for married participants	An actuarially reduced benefit is payable, which provides 50% of the benefit payable to the spouse if the participant predeceases the spouse.
• Optional forms	For terminations on or after October 1, 2002, joint & survivor benefits provide a pop-up feature that is fully subsidized by the employer. In the event the retiree's beneficiary died in first 5 years of retirement, the retiree's benefit will increase, or pop up, to the life only benefit amount.
• Optional form conversion factors	7.00% interest with the 76 PET 96.45 Mortality Table, a table based on experience underlying the 1971 Group Annuity Mortality Table, without margins, with a projection of mortality improvements to 1976.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine frozen accrued benefits as of December 31, 2015 may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. The limit is indexed annually. For 2023, this limit is \$265,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2016 included in this valuation.

- **Most recent plan amendments included:** Effective December 31, 2015, accrued benefits are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* All plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code Limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(1)(17) have been incorporated into our calculations.
- **IRS Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefit for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit Restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- Interest discounts and mortality rates were updated from 2022 to 2023 in accordance with PPA.
- Expense normal cost increased from \$1,620,000 to \$2,910,000 to reflect our expectations for the current year.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Effective date and plan year	Original plan: February 11, 1958 Restated plan: September 15, 2014 Plan year: January 1 through December 31
Status of the plan	Benefit accruals were frozen as of December 31, 2015 for all participants.
Significant events that occurred during the year	None
Definitions	
• Covered employees	
• Participation	Oxford employees hired on or after October 31, 2004 are not eligible. All other employees hired on or after October 3, 2011 are not eligible. Participation date is same as hire date.
• Vesting service	Completion of at least 1,000 hours of service in a calendar year.
• Accrued benefit	Effective December 31, 2015, accrued benefits (and benefit service) are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
Normal retirement	
• Eligibility	Age 65 with 5 years of vesting service.
• Benefit	Effective October 1, 2008, \$44 multiplied by years of benefit service for Non-Oxford employees hired before September 12, 2005; the rate increased to \$46 effective November 1, 2011. Oxford employees and employees hired on or after September 12, 2005 are eligible for pension plan multipliers of \$41 and \$35, respectively; the rates increased to \$43 and \$37, respectively, effective November 1, 2011. For participants in the Middletown and Milwaukee 68 Plans, the benefit is offset by the purchased annuity. Effective December 31, 2015, accrued benefits are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
Early retirement	
• Eligibility	Age 55 with 10 years of vesting service.
• Benefit	Accrued benefit payable at normal retirement age. If payment commences prior to normal retirement age, amount is reduced ½% for each month prior to normal retirement age. If age plus benefit service is at least 90, the benefit is the greater of the reduced early retirement benefit or the accrued benefit based on benefit service limited to 30 years unreduced for early commencement.
Deferred vested	
• Eligibility	5 years of vesting service.
• Benefit	Accrued benefit payable at normal retirement age. If the participant has 10 years of service, a reduced benefit may commence as early as age 55. The reduction is ½% for each month prior to normal retirement age.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	10 years of vesting service and totally and permanently disabled.
• Benefit	Accrued benefit payable immediately. If the participant is not eligible for Social Security benefits, an additional amount equal to the accrued benefit is payable until normal retirement date.
Surviving family term benefit	
• Eligibility	Death in active employment after completion of 10 years of benefit service.
• Benefit	50% of the accrued benefit unreduced for early retirement and payable for 5 years.
Pre-retirement death	
• Eligibility	5 years of vesting service.
• Benefit	Spouses of married participants who are vested and die prior to earliest retirement age will receive a monthly benefit as if the employee had terminated on date of death and elected the Joint and 50% Survivor Option Annuity at the date of death with the benefit commencing at the participant's earliest possible retirement age. The benefit is offset by any surviving family term benefit.
Form of benefits	
• Automatic form for unmarried participants	Benefits are payable for life, except for Cedar Rapids 20, Cedar Rapids 22, and Middletown unions, where benefits are payable for 5 years certain and life.
• Automatic form for married participants	An actuarially reduced benefit is payable, which provides 50% of the benefit payable to the spouse if the participant predeceases the spouse.
• Optional forms	For terminations on or after October 1, 2002, joint & survivor benefits provide a pop-up feature that is fully subsidized by the employer. In the event the retiree's beneficiary died in first 5 years of retirement, the retiree's benefit will increase, or pop up, to the life only benefit amount.
• Optional form conversion factors	7.00% interest with the 76 PET 96.45 Mortality Table, a table based on experience underlying the 1971 Group Annuity Mortality Table, without margins, with a projection of mortality improvements to 1976.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine frozen accrued benefits as of December 31, 2015 may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. The limit is indexed annually. For 2023, this limit is \$265,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2016 included in this valuation.

- **Most recent plan amendments included:** Effective December 31, 2015, accrued benefits are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - *Active participants:* All plans provide benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code Limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(1)(17) have been incorporated into our calculations.
- **IRS Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefit for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit Restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, line 32 — Schedule of Amortization Bases

The total shortfall amortization charge is the sum of the individual shortfall amortization installment for each plan year since the IRC Section 430 changes made by the Pension Protection Act of 2006 (PPA) took effective for the plan. Although an individual shortfall amortization installment can be negative, the combined shortfall amortization charge cannot be less than \$0.
