INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees
Fidelity Profit Sharing Plan(An Employee Stock Ownership Plan)
Dubuque, Iowa

Opinion

We have audited the accompanying financial statements of Fidelity Profit Sharing Plan(An Employee Stock Ownership Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023, and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Fidelity Profit Sharing Plan (An Employee Stock Ownership Plan) as of December 31, 2023, and 2022, and the changes in its net assets available for benefits for the year ended December 31, 2023, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Fidelity Profit Sharing Plan(An Employee Stock Ownership Plan)and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that

raise substantial doubt about Fidelity Profit Sharing Plan's (An Employee Stock Ownership Plan) ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Fidelity Profit Sharing Plan's (an Employee Stock Ownership Plan) internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Fidelity Profit Sharing Plan's (an Employee Stock Ownership Plan) ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets (Held at End of Year) is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Fidelity Profit Sharing Plan (an Employee Stock Ownership Plan)

Notes to Financial Statements

NOTE 1: Plan Description and Summary of Significant Accounting Policies

The following description of the Fidelity Profit Sharing Plan (an Employee Stock Ownership Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution qualified profit-sharing plan with Fidelity Company employee stock ownership features commonly referred to as an Employee Stock Ownership Plan (ESOP). The plan covers the employees of Fidelity Company (a bank holding company), and the subsidiary of Fidelity Company that have elected to participate in the Plan. The subsidiary, Fidelity Bank & Trust, has branch offices in Iowa, Illinois, and Wisconsin. Farmers and Traders Savings Bank merged into Fidelity Bank and Trust after December 31, 2021.

All full-time employees who have one year of service and work at least 1000 hours during the plan year are eligible to participate in the Plan. The Plan has a minimum age requirement of 21 years old. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Some exceptions or modifications of standard policies have been adopted for new divisions entering the Plan.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Contributions

Each year, the Company contributes to the Plan the amount the employer from time to time deems advisable. The contribution may be in cash, property, or employer securities. Participants may not contribute to the plan except a participant may, with the written consent of the employer, make a rollover contribution from another qualified plan.

Fidelity Profit Sharing Plan (an Employee Stock Ownership Plan)

Notes to Financial Statements

NOTE 1: Plan Description and Summary of Significant Accounting Policies (Continued)

Participant Accounts

Each participant's account is credited with the Company contribution, reduced by forfeitures of terminated participant's non-vested accounts based on the participant's compensation. Plan earnings, reduced by administrative expenses, are allocated based on account balances at the beginning of the plan year. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested in the Company contributions plus actual earnings thereon and allocated forfeitures based on total years of service with the Company. Participants vest 20% per year starting with the second year of service and are 100% vested after six years of service. A year of service is based on the participant working 1000 hours of service in the plan year. Rollover contributions by participants are always 100% vested. Some exceptions or modifications have been made for new divisions entering the Plan.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote for any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote for any unallocated shares on behalf of the collective best interest of plan participants and beneficiaries.

Forfeited Accounts

Forfeited non-vested accounts are allocated to the plan participants in the ratio that each participant's compensation bears to total compensation for all participants for the plan year. For the year ended December 31, 2023, forfeitures of non-vested accounts of \$30,387 was allocated to participants.

Fidelity Profit Sharing Plan (an Employee Stock Ownership Plan)

Notes to Financial Statements

Note 1: Plan Description and Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The common shares of the Company held as plan assets are valued at fair value on December 31, 2023, and 2022. Fair value is determined by an annual independent appraisal.

Interest income on certificates of deposit and money market account are recorded on an accrual basis.

Withdrawals and Benefit Payments

Upon retirement, death, disability, or termination, participants, or, if applicable, their beneficiaries, are entitled to receive their unwithdrawn account balances in either a lump-sum distribution or on an installment basis as approved by the Plan committee. In the year that they reach age 73, (age 73 after December 31, 2022 to 2032), (age 70 1/2 before January 1, 2020) or (age 75 in 2033) they are required to take required minimum distributions (RMDs) based on life expectancy calculations. The SECURE Act 2.0 signed December 29, 2022, replaced age 73 with prior age 72 through December 31, 2032 and age 75 thereafter for RMDs.

Benefits are recorded when paid. As of December 31, 2023, vested benefits due to participants in 2023 whose employment terminated or who were required to take a required minimum distribution totaled \$2,038,471. Distributions are expected to continue indefinitely as required.

Participant Loans

The Plan does not contain any provisions permitting participants to borrow from their accounts.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

Fidelity Profit Sharing Plan (an Employee Stock Ownership Plan)

Notes to Financial Statements

Note 1: Plan Description and Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events through October 9, 2024, the date the financial statements were available to be issued

Note 2: Funding Policy

The Company's annual contribution to the Plan consists of a regular contribution of the amount deemed advisable based upon the employee's compensation. Company contributions are recorded as Plan assets when accrued by the Company.

Note 3: Priorities Upon Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the employer contributions to their accounts.

Note 4: Income Tax Status

The IRS has determined and informed the Plan sponsor by letter dated March 7, 2017, for the 2016 update that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan's legal counsel believes the plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and tax exempt.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note 5: Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets.
- quoted prices for identical or similar assets or liabilities in inactive markets.
- inputs other than quoted prices that are observable for the asset or liability.
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 5: Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies for valuations used on December 31, 2023, and 2022.

Common Stocks: Value at closing price reported on the active market on which the individual securities are traded.

Certificates
of Deposit: The fair value is based on original cost-plus interest compounded semi-annually.

Money Market
Accounts: The fair value is based on original cost-plus interest compounded monthly.

Fidelity
Company
Common Stock: The fair value of Fidelity Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of market and income valuation methods consistent with prior years.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: Fair Value Measurements (Continued)

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2023.

	Level 3 Assets Year Ended December 31, 2023
Balance, beginning of year	\$ 26,130,120
Total gains or losses (realized or unrealized) included in change in net assets available for benefits	(874,830)
Purchases, sales, issuances, and settlements (net)	<u>(424,880)</u>
Balance, end of year	<u>\$ 24,830,410</u>
All gains or losses (realized and unrealized) for the year included in changes in net assets available for benefits of the reporting period were	<u>\$ (1,299,710)</u>

Note 6: Plan Investments

The following table presents the fair values of Plan investments. The fair value of the common shares of the Company is determined by annual independent appraisals. Certificates of Deposit are valued based on original cost-plus accrued interest compounded semi-annually, if present. The Money Market accounts are valued based on original cost-plus accrued interest compounded monthly. During the year ended December 31, 2023, the Plan's investment in Fidelity Company common stock depreciated in value by \$874,830, QCR Holdings Inc. appreciated by \$39,375, US Bancorp depreciated by \$133, and Regions Financial Corporation depreciated by \$499. The following is a listing of assets purchased from a bank that is an owned subsidiary by Fidelity Company (a bank holding company). This bank whose employees are participants of the Plan are parties-in-interest to the plan.

Note 7: Concentration of Credit Risk

Substantially all of the Plan assets are held in a checking account, money market account, certificates of deposit, or common stock in related party banks. Cash accounts, money market accounts, and certificates of deposit at banks are ordinarily insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 at each bank holding deposits. Because of the large balances on deposit with each bank, plan legal counsel has made inquiry of the FDIC as to the amounts of insurance protection provided this plan. The FDIC has responded that for plans of this nature, where the bank account records expressly disclose that the funds are those of an employee benefit plan, under their regulations, each plan participant is protected with \$250,000 in the aggregate for all plans covering the participant with deposits in the banking institution. On December 31, 2023, and 2022 all Plan bank and certificate of deposit accounts are clearly identified as Plan accounts on the bank records and there are no uninsured participant balances in the Plan.

Note 8: Put Option

Under Federal income tax regulations, the employer stock held by the Plan and its participants that is not readily tradable on an established market, or is subject to trading limitations, is required to include a put option. When stock has been distributed to participants, the put option is a right to demand that the Company buy shares of its stock for which there is no market. The put price is representative of the fair market value of the stock based upon the most recently appraised value. The Company can pay for the purchase over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash. If a participant elects to receive employer stock as part or all of their distribution, and the participant decides to dispose of their employer stock, the stock must first be offered for sale to Fidelity Company.

Note 9: Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify either receive a cash distribution or can opt to roll funds into another retirement plan.

Note 10: Administration of Plan Assets

The Plan's assets, which consist principally of Company common stock, are held by a Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or its subsidiary. No such officer or employee receives compensation from the Plan.

Notes to Financial Statements

Note 11: Risks and Uncertainties

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, including interest rate, market, and credit risks, as well as valuation assumptions based on earnings and cash flows. Due to the level of risk associated with the investment in the common stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Note 12: Related-Party and Party-In-Interest Transactions

The Plan invests in Fidelity Company common stock, certificates of deposit and money market accounts of a bank that are wholly owned or subsidiary of Fidelity Company (a bank holding company). These are related parties and party-in-interest transactions. The Plan has several service providers. Such parties are parties-in-interest under ERISA. In addition, some individuals are considered parties of interest as they are trustee participants of the Plan and/or participants who are members of the Kennedy family who own/control Fidelity Bank & Trust.
