Independent Auditor's Report

Retirement Plan Committee and Participants
UWMF Faculty Physicians VEBA and Trust

Opinion

We have audited the financial statements of UWMF Faculty Physicians VEBA and Trust (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of fiduciary net position as of December 31, 2023 and 2022, the related statements of changes in fiduciary net position for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the fiduciary net position of the Plan as of December 31, 2023 and 2022, and the changes in its fiduciary net position for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the plan financial statements. Such missing information, although not a part of the plan financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the plan financial statements in an appropriate operational, economic or historical context. Our opinion on the plan financial statements is not affected by this missing information.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, Line 4i—Schedule of assets (held at end of year) as of December 31, 2023, and Schedule H, Line 4j—Schedule of reportable transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Description of the Plan

The following description of UWMF Faculty Physicians VEBA and Trust (the Plan) provides only general information. Participants should refer to the Plan and agreements for a more complete description of the Plan's provisions.

General: The Plan was formed effective January 1, 1997, to fund the cost of life insurance policies for certain eligible employees of the University of Wisconsin Medical Foundation, Inc. (the Organization or Plan Sponsor). All benefits are provided from insurance contracts purchased with the assets of the Plan. The Retirement Plan Committee is responsible for the oversight of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility and benefits: Certain employees of the Organization are eligible to participate in the Plan. Employees are eligible the first day of employment and must elect in writing to be a member of the voluntary employee benefit association (VEBA). The Plan provides for up to \$450,000 of group term life insurance for all eligible employees who elect to participate in the Plan.

Contributions: Prior to January 1, 2018, the Organization was not permitted to make any contributions to the Plan other than the salary reduction contributions of the participants. The Organization shall forward the salary reduction contributions to the trustees of the Plan promptly as required by the trustees, but in no case later than required by law. The Plan was amended January 1, 2018, to allow the Organization to make discretionary contributions to the Plan to supplement the salary reduction contributions of the participants.

Each participant shall make salary reduction contributions to the Plan in the amounts determined by the trustees to be necessary to offset the costs of all of the benefits provided by the Plan, including premiums for policies, and reasonable expenses incurred by the trustees in connection with the administration of the Plan.

Termination: Although it has not expressed any intention to do so, the Organization has the right under the Plan to modify the benefits provided to active employees and other participants, to discontinue its contributions at any time, and to terminate the Plan, subject to the provisions set forth in ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financing reporting principles. The financial statements of the Plan are prepared on an accrual basis of accounting in accordance with the standards of GASB and GAAP. These financial statements present only the Plan and are not intended to present the financial statements of the Plan Sponsor.

Use of estimates: The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets, and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis.

Life insurance premiums: Life insurance premiums are deducted from net position in the period when paid.

Administrative expenses: Certain administrative expenses of the Plan are paid by the Organization and are excluded from these financial statements.

Subsequent events: Management has evaluated subsequent events for the Plan through October 11, 2024, the date the financial statements were available to be issued.

Note 3. Fair Value Measurements

To the extent available, the Plan's investments are recorded at fair value as of December 31, 2023 and 2022. GASB Statement No. 72, *Fair Value Measurements and Application*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. This statement establishes a hierarchy of valuation inputs based on the extent to which the inputs are observable in the marketplace. Inputs are used in applying the various valuation techniques and take into account the assumptions that market participants use to make valuation decisions. Inputs may include price information, credit data, interest and yield curve data, and other factors specific to the financial instrument. Observable inputs reflect market data obtained from independent sources. In contrast, unobservable inputs reflect the entity's assumptions about how market participants would value the financial instrument. Valuation techniques should maximize the use of observable inputs to the extent available.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following describes the hierarchy of inputs used to measure fair value and the primary valuation methodologies used for financial instruments measured at fair value on a recurring basis:

Level 1: Investments have values based on quoted prices (unadjusted) for identical assets in active markets that a government can access at the measurement date.

Level 2: Investments have inputs, other than quoted prices included within Level 1, that are observable for an asset, either directly or indirectly.

Level 3: Investments have unobservable inputs for an asset and may require a degree of professional judgment.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2023 and 2022.

Money market account: The money market account represents units of participation rather than ownership of specific assets. The fair value of a unit of participation is the total value of the fund divided by the number of units outstanding and approximates cost, which is \$1 per unit.

UWMF Faculty Physicians VEBA and Trust

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following tables summarize the Plan's investments within the fair value hierarchy at December 31, 2023 and 2022:

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Money market account	\$ 67,269	\$ -	\$ -	\$ 67,269

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Money market account	\$ 57,427	\$ -	\$ -	\$ 57,427

Note 4. Tax Status

The VEBA established under the Plan to hold the Plan's assets applied for tax-exempt status pursuant to section 501(c)(9) of the Internal Revenue Code (IRC). The Internal Revenue Service has determined and informed the Organization by a letter dated May 16, 1997, that the Plan, as then designed, was in accordance with applicable sections of the IRC. However, as a result of the Plan's funding policy, from time to time, the Trust may be subject to income taxes on unrelated business income. No federal or state income taxes have been recorded in 2023 and 2022 for unrelated business taxable income.

Note 5. Related-Party and Party-in-interest Transactions

As of December 31, 2023 and 2022, certain Plan investments were shares of funds managed by JP Morgan Chase. JP Morgan Chase is the custodian of the Plan's assets as defined by the Plan and, therefore, qualifies as a party-in-interest.
