Report of Independent Auditors

UC Health Audit & Compliance Committee
UC Health Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the UC Health Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the years then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a

material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2023, and reportable transactions for the year then ended (referred to as the “supplemental schedules”), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

UC Health Retirement Plan

Notes to Financial Statements

December 31, 2023

1. Description of Plan

The following description of the UC Health Retirement Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General

The Plan is a defined benefit plan that was effective January 1, 1999 from a consolidation of several predecessor plans. UC Health, LLC (UC Health) is the plan sponsor. UC Health is responsible for the general administration of the Plan. State Street Bank & Trust Company (State Street) serves as the trustee for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Pension Benefits

The normal retirement age is 65. For retiring participants under the Plan, the normal annual pension benefit equals 1% of the final average earnings (highest five calendar years of earnings out of ten years of participation in the plan) plus 0.35% of the final average earnings over the Social Security covered compensation multiplied by the years of credited service up to 30 years. Effective January 1, 2018, the Plan was amended to permit in-service distributions for participants that have reached age 65 but remain employed by UC Health.

Participants are fully vested after completing five years of credited service, with no partial vesting prior to five years of credited service. Retirement benefits are paid to pensioners or beneficiaries in various forms of joint and survivor annuities, including a limited lump-sum payment option.

As of December 31, 2016, all benefits for UC Health employees were frozen and no new entrants are permitted to enter the Plan. Employees continue to earn vesting service after this date; however, there is no change to the accrued benefit.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

UC Health Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment securities, including cash equivalents, mutual funds, and alternative investments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for a description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year. Capital gain distributions are included in dividend and interest income.

UC Health Retirement Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

Certain administrative expenses are paid by the Plan, either directly or by UC Health, which are subsequently reimbursed by the Plan. UC Health provides certain administrative services to the Plan for which no fees are charged.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

3. Funding Policy

Contributions to provide benefits under the Plan are made solely by UC Health. UC Health's funding policy is to make cash contributions to the Plan on a quarterly or annual basis as necessary in amounts as determined by the Plan's independent actuary and to maintain a funding level equal to or greater than 80% of the target liability. UC Health met the minimum funding requirements of ERISA for the years ended December 31, 2023 and 2022.

4. Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the employees' contributions, compensation, and services that employees have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, and (2) present employees or their beneficiaries. Benefits payable as a result of retirement, death, disability, or termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by independent actuaries. The amount results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

UC Health Retirement Plan

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuations are as follows:

- *Mortality rate* – Pri-2012 Mortality tables with sex-distinct rates for employees and annuitants with fully generational mortality improvement projection from base year 2012 using Scale MP-2021 as of January 1, 2023.
- *Discount rate* – 5.50% as of January 1, 2023.
- *Lump-sum rate* – 5.00% as of January 1, 2023.
- *Retirement age* – Average assumed retirement age of approximately age 64 and a range of ages from 55 to 70 years old as of January 1, 2023.
- The effect of plan amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. Effective December 31, 2022, for 2023, the qualified plan compensation limit was increased to \$330,000 and the qualified plan benefit limit was increased to \$265,000.

The actuarial present value of accumulated plan benefits at December 31, 2022 is as follows:

Vested benefits:	
Participants and/or beneficiaries currently receiving benefits	\$ 134,653,108
Other participants	<u>128,513,027</u>
Total vested benefits	263,166,135
Non-vested benefits	
	<u>4,388,059</u>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 267,554,194</u></u>

UC Health Retirement Plan

Notes to Financial Statements (continued)

4. Accumulated Plan Benefits (continued)

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2022 are as follows:

Actuarial present value of accumulated plan benefits, January 1, 2022	\$ 283,304,853
Increase (decrease) during the year attributed to:	
Interest due to decrease in the discount period	13,732,915
Benefits paid	(17,293,095)
Assumption changes	(14,422,223)
Actuarial losses	<u>2,231,744</u>
Actuarial present value of accumulated plan benefits, December 31, 2022	<u>\$ 267,554,194</u>

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of January 1, 2023. There were no significant changes to the valuations had they been performed as of December 31, 2022.

5. Information Certified by the Trustee

Certain information related to investments for the Plan disclosed in the accompanying financial statements and supplemental schedules at December 31, 2023 and 2022 and for the years then ended was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by State Street, the trustee of the Plan, including \$84,464,204 and \$66,767,739 of investments at December 31, 2023 and 2022, respectively.

State Street also certified to the completeness and accuracy of \$23,809,668 and (\$5,437,340) of net appreciation (depreciation) in fair value of investments and \$3,127,478 and \$2,932,578 of interest and dividends for the years ended December 31, 2023 and 2022, respectively.

UC Health Retirement Plan

Notes to Financial Statements (continued)

6. Termination of the Plan

Although it has not expressed any intention to do so, UC Health has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan Document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive the benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

7. Related-Party and Party-in-Interest Transactions

Certain plan investments are shares and units of funds managed by State Street. State Street is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management, custody, and other services amounted to \$72,595 and \$73,312 for the years ended December 31, 2023 and 2022, respectively; however, they are exempt from the prohibited transaction rules under ERISA.

8. Federal Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated March 10, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code) and therefore, the related trust is exempt from taxation. Subsequent to receiving the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

UC Health Retirement Plan

Notes to Financial Statements (continued)

8. Federal Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Inputs utilize quoted market prices from active markets for identical assets or liabilities that the entity has the ability to access.

Level 2 – Inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset and liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.

Level 3 – Inputs are unobservable for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity.

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level of input that is significant to the fair value measurement in its entirety.

Asset Valuation Techniques

Valuation technologies maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 or 2022.

UC Health Retirement Plan

Notes to Financial Statements (continued)

9. Fair Value Measurements (continued)

Cash Equivalents

Cash equivalents are held primarily in short-term money market commingled funds, which are valued at cost plus accrued interest, which approximate fair value.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Alternative Investments

Alternative investments are not necessarily readily marketable and may include marketable debt and equity securities, commodities, trading in futures contracts, options, foreign currency contracts, other derivative instruments, and private equity investments. Management has determined that the net asset value is an appropriate estimate of the fair value of these instruments at December 31, 2023 and 2022, based on the fact that the alternative investments are accounted for at fair value by the administrators of the respective alternative investments. Alternative investments can be divested only at specified times in accordance with the terms of the partnership or fund agreements. Certain alternative investment redemptions typically contain restrictions that allow for a portion of the withdrawal proceeds to be held back from distribution while the underlying investments are liquidated and pending completion of the annual audit of the fund. The redemption frequency varies by fund and could be daily, weekly, semimonthly, monthly, quarterly, semiannually, annually or triennially.

Notes to Financial Statements (continued)

9. Fair Value Measurements (continued)

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2023 and 2022, there were no transfers between levels.

10. Subsequent Events

Subsequent events were evaluated through October 14, 2024, the date the financial statements were available to be issued.

Plan Name	UC Health Retirement Plan
Valuation Date	January 1, 2023
Enrolled Actuary	Blake A. Baietto
Enrollment Number	23-06524

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Benefit commencement date:

- Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55
- Deferred vested benefit The later of age 55 or termination of employment
- Disability benefit Upon disablement
- Retirement benefit Upon termination of employment

Form of payment

For valuation purposes, deferred vested participants are assumed to elect the straight life annuity if single. For those assumed to be married, 50% are assumed to elect the straight life annuity. The remaining 50% elect a Joint & Survivor annuity.

For active participants, 75% of participants who are eligible for a lump sum are assumed to elect lump sum benefits. The remaining 25% elect an annuity similar to the deferred vested assumption.

Percent married

75% of male and 65% of female participants are assumed to be married.

Spouse age

Wives are assumed to be three years younger than their husbands.

Plan compensation

Decrement timing

The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 5.00% during 2021 and 6.50% during 2022 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets rate.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the UC Health regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the UC Health and, based on that review, is not aware of any significant benefits required to be valued that were not.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor. Data and other information were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Expected return on plan assets	The EROA represents an estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and current and expected future market conditions. This rate is net of expenses paid from the trust.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Assumptions Rationale - Significant Demographic Assumptions

Healthy mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are based on plan sponsor expectations for plan participants with periodic monitoring of observed gains and losses caused by termination patterns different than assumed. The termination rates were updated based on an experience study performed in 2019.

Plan Name:	UC Health Retirement Plan

SCHEDULE SB ATTACHMENTS

Retirement

Retirement rates are based on plan sponsor expectations for plan participants with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. The retirement rates were updated based on an experience study performed in 2019.

Form of payment

The percentage of retiring participants assumed to take lump sums is based on plan sponsor expectations for plan participants. The form of payment assumptions were updated based on an experience study performed in 2019.

Benefit commencement date for deferred benefits:

- Deferred vested benefit
Deferred vested participants are assumed to begin benefits at age 65 (or current age if later), confirmed by an experience study performed in 2019. Also, deferred vested early commencement factors are not heavily subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions and methods since prior valuation

- The segment interest rates used to calculate the funding target were updated to the current valuation date as required by IRC §430.
- The mortality table used to calculate the funding target and target normal cost was updated to reflect the latest mortality improvement scale, as required by guidance issued by IRS under IRC §430 and IRC §417, as applicable.
- The expected return on assets for asset smoothing purposes was updated from 5.00% to 6.50% for 2022 and from 6.50% to 7.00% for 2023 to align with UC Health's expected return on asset assumption for ASC 715-30 purposes adjusted to account for administrative expenses.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The Plan was originally effective January 1, 1999. The last provision change reflected herein was to allow in-service distributions for active employees over age 65 effective January 1, 2018.

Plan year The Plan Year commences on January 1 and ends on December 31.

Coverage and participation An employee who was a member of one of the prior plans on the effective date becomes a participant of this Plan on that date. All other associates of UC Health who complete one year of service and attain age 21 shall be eligible for entry on the Participation Date following completion of the age and service requirements with the exception of interns, residents, fellows, student nurses, associates covered by the IUOE multiemployer plan, PERS or City of Cincinnati retirement plan and associates of for-profit subsidiaries. Effective June 30, 2003, Alliance Primary Care associates are no longer eligible to participate in the Plan. Effective March 22, 2008, current and former associates of Christ Hospital were spun-off into a Christ Hospital sponsored retirement plan. Effective December 13, 2008, current and former associates of St. Luke Hospitals were spun-off into a St. Luke Hospitals sponsored retirement plan. Effective March 1, 2010, current and former associates of The Jewish Hospital were spun-off into the JHSI, Inc. Retirement Plan.

Definitions

Credited service One year of service is credited for each calendar year in which an associate has completed at least 1,800 hours of service. Service is pro-rated for years in which at least 1,000 hours are completed. In an associate's year of hire, termination or retirement, credited service is pro-rated for less than 1,000 hours.

Accrued normal retirement benefit	The accrued benefit for all associates is the sum of 1% of Final Average Compensation and 0.35% of Final Average Compensation in excess of Covered Compensation multiplied by years of Credited Service up to 30 years. Effective June 30, 2003, the benefit accruals for APC physicians and office staff were frozen. Non-union and ONA benefit accruals were frozen December 31, 2014. AFSCME benefit accruals were frozen December 31, 2015. Public Safety Officer II accruals were frozen December 31, 2016.
Vesting service	One year of vesting service is earned for each calendar year in which an associate completes 1,000 hours of service.
Final average compensation	Monthly average of the highest five calendar years of compensation during the ten-year period ending on the earliest of termination, early retirement or normal retirement dates.
Normal retirement date (NRD)	The attainment of age 65.

Eligibility for Benefits

Normal retirement	The attainment of age 65.
Early retirement	First day of any month after the attainment of age 55 and the completion of five Years of Vesting Service.
Late retirement	First day of any month after the Normal Retirement Date.
Vesting termination	A participant becomes vested upon completion of five Years of Vesting Service, or upon attainment of age 65.
Disability	For the Fort Hamilton participants who are eligible for Social Security Disability Benefits. No waiting period.
Death benefits for participants in active service	Spouses of active participants who have completed five Years of Vesting Service.
Death of disabled participant prior to normal retirement	For any participant who dies with a surviving spouse, the surviving spouse will be entitled to a retirement survivor annuity.

Benefits Paid Upon the Following Events

Normal retirement	The benefit payable at normal retirement is equal to the accrued benefit at the earlier of the participants' date of termination or retirement.
Early retirement	The monthly benefit payable is the accrued Normal Retirement Benefit based on Credited Service and Final Average Compensation at early retirement, reduced to allow for early commencement. The amount of reduction is 5/9 of 1% per month between ages 60 and 65, plus 5/18 of 1% per month between ages 55 and 60.
Late retirement	The monthly benefit is equal to the greater of the Normal Retirement Benefit based on Credited Service and Final Average Compensation at actual retirement date or the actuarial equivalent of the benefit that would have been paid on Normal Retirement Date increased to the actual retirement date.
Vested termination	Normal retirement benefit based on Credited Service and Final Average Compensation as of the date of termination.
In-service distribution	Upon reaching age 65, active employees are permitted to begin receiving their Normal retirement or Late retirement benefit.
Disablement	
• Benefit before normal retirement	Participants eligible for disability continue to accrue benefits assuming compensation prior to disability had continued and 416 hours per calendar year are earned.
• Benefit after normal retirement	Participants are assumed to commence benefits upon reaching normal retirement age.
Death benefits for participants in active service	The benefit payable to the surviving spouse, commencing on the earliest date the associate could have retired, is equal to 50% of the accrued normal retirement benefit which would have been payable to the participant had he terminated on the day of his death and elected a 50% Joint and Survivor annuity.

After commencement of benefit payments

Benefits to the beneficiary or spouse are governed by the form of payment applicable or elected at the date payments actually commenced.

Other Plan Provisions

Forms of payment

The normal form of payment for single participants is a Life Only annuity. The normal form of payment for married participants is an actuarially reduced 50% Joint and Survivor Annuity. A participant entitled to receive a retirement benefit may also elect an optional form of payment of equivalent actuarial value. Optional forms are 50%, 66 2/3%, 75% or 100% Joint & Contingent Annuity, a five, ten, fifteen or twenty year certain and continuous annuity, (for married participants) a life annuity or a ten, fifteen or twenty year certain-only annuity.

Participants may elect a lump sum payment if the value is less than or equal to \$100,000.

Actuarial equivalence

For all annuity forms of payment, an interest rate of 8.00% and the UP84 Mortality Table, set back four years for participants and four years for spouses.

For forms of payment subject to IRC 417(e), the Applicable Mortality Table for the plan year of distribution and the Applicable Interest Rate published in September prior to the plan year of distribution.

Plan participants' contributions

Not applicable.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Predecessor Plan Participants

Plan provisions are the same as those for the UC Health plan unless noted below:

- Christ Hospital
All participants in The Elizabeth Gamble Deaconess Home Association Pension Plan as of December 31, 1998 were grandfathered in the provisions of that plan.
Those provisions are essentially the same as the provisions of the UC Health plan except full-time and part-time associates (those expected to work at least 1,000 hours) participated on their dates of hire.
- Fort Hamilton Hospital
All participants in The Fort Hamilton-Hughes Healthcare Corporation Retirement Plan as of December 31, 1998 were grandfathered in the provisions of that plan.
Compensation is defined as W-2 earnings plus pre-tax deferrals.
Final average compensation is the average of the highest five calendar years during the 10-year period preceding termination of employment disregarding the final year of employment unless it is a full 12-month period.
Vesting service is completed years of employment.
Credited service is full calendar years during which a participant is credited with at least 416 hours. Pro-rata service is granted during year of participation or year of termination.
Normal retirement benefit is equal to 1% of Final Average Compensation times years of Credited Service offset for benefits annuitized under prior plans.
Optional forms of payment – The normal form of payment for married participants is a 66 2/3% joint and survivor with 10-year certain annuity. In addition to the optional forms of payment in the UC Health plan, grandfathered Fort Hamilton participants can also elect a full cash refund form of payment.
Pre-retirement Death Benefit – For married participants, based on the normal form of benefit.
Disability Benefit – Participants who are eligible for Social Security disability benefits continue to accrue benefits assuming compensation prior to disability had continued and 416 hours per calendar year are earned.

- Jewish Hospital

All participants in The Jewish Hospital of Cincinnati, Inc. Retirement Plan as of December 31, 1998 were grandfathered in the provisions of that plan.

Compensation is defined as W-2 earnings plus pre-tax deferrals.

Final average compensation is the average of the highest five calendar years of employment disregarding the final year of employment unless 1,000 hours were completed.

Covered Compensation is the average of the Social Security Taxable Wage Bases for the 35-year period ending in the year in which the associate turns age 64.

Credited service is calendar years during which 1,000 hours of service were completed.

Normal retirement benefit is equal to 0.8% of Final Average Compensation plus 0.7% of Final Average Compensation in excess of Covered Compensation, the sum times years of Credited Service. There is a minimum monthly benefit of \$50 times years of Credited Service to a maximum of 10 years.

- St. Luke Hospitals

All participants in The Retirement Plan for Employees of St. Luke Hospitals, Inc. as of December 31, 1998 were grandfathered in the provisions of that plan.

Compensation is defined as monthly rate of pay on the first day of the calendar year.

Final average compensation is the average of the highest five calendar years during the 10-year period preceding termination of employment disregarding the final year of employment unless 1,000 hours were completed or the associate has reached normal retirement age.

Credited service is calendar years during which 1,000 hours of service were completed.

Normal retirement benefit is equal to 0.9% of Final Average Compensation times Credited Service plus 0.6% of Final Average Compensation in excess of Covered Compensation, times years of Credited Service up to a maximum of 35 years.
