Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Plan Administrator of
CIRCOR International, Inc. Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of CIRCOR International, Inc. Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the statements of accumulated plan benefits as of December 31, 2023 and 2022, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of CIRCOR International, Inc. Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of CIRCOR International, Inc. Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about CIRCOR International, Inc. Retirement Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CIRCOR International, Inc. Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about CIRCOR International, Inc. Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2023 and 2022

1. Description of Plan

The following description of the CIRCOR International, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit plan established effective October 18, 1999. Prior to the plan freeze, the Plan covered all employees, excluding collectively bargained employees, employees of affiliated employers unless such employers have adopted this plan, independent contractors and nonresident alien employees, of CIRCOR International, Inc. and its subsidiaries (collectively, the Company) who have completed one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The plan administrator is responsible for oversight of the Plan. The Plan's Retirement Plan Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the plan administrator.

As of July 1, 2006, in connection with an amendment to the Plan, the plan sponsor froze participation in the Plan and the pension benefits of the plan participants. Under the revised Plan, participants will not accrue any additional benefits under the defined benefit plan after June 30, 2006, and will instead receive enhanced benefits associated with the plan sponsor's defined contribution 401(k) plan. Effective June 30, 2006, the normal retirement benefit determined as of June 30, 2006 for any participant who earned an hour of service after June 30, 2006 was increased at an annual effective rate of 3.5% from June 30, 2006 to the first day of the month following the earlier of June 30, 2011 or the participant's termination from employment, death or retirement.

Funding Policy

The Plan's funding policy requires the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirements. The minimum funding requirements of ERISA were met in 2023. Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Pension Benefits

Plan participants are entitled to their plan benefits after terminating employment with vested rights.

Vesting

Participants become vested in the Plan upon completion of at least five years of service or attainment of the normal retirement age (65). If employees terminate before rendering the required years of service, they forfeit the right to receive the portion of their accumulated plan benefits attributable to the Company's contributions.

Normal Retirement Benefits

Upon becoming vested, participants are entitled to pension benefits beginning at age 65 equal to years and fractions of years of benefit service multiplied by the applicable benefit rate.

Notes to Financial Statements

December 31, 2023 and 2022

Early Retirement Benefits

Participants who elect to retire on an early retirement date may receive pension benefits upon the attainment of age 55 and completion of five or ten years of service, as defined. The early retirement benefit is computed by first calculating the normal retirement benefit based on the Participant's service as of the early retirement date, adjusted as necessary based on an early retirement formula, as defined.

Upon termination of employment, pension payments are normally paid in the form of a monthly annuity payable for their lifetime or, if married, in the form of a qualified joint or survivor annuity.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the Plan's contract with insurance entity, which is reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company, as applicable. See Note 4 for discussion of fair value measurements. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and administrative expenses charged by the contract issuer.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

Subsequent Events

Subsequent events were evaluated through October 14, 2024, the date the financial statements were available to be issued.

3. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances, such as retirement, death and termination of employment, are included, to the extent they are attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected date of payment.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024 and 2023. Had the valuations been performed as of December 31, 2023 and 2022, there would be no material differences. The significant actuarial assumptions used in the valuations were:

Assumption	December 31, 2023	December 31, 2022
Discount rate	5.50%	5.50%
Mortality	Pri-2012 Total Dataset Tables projected with Scale MP-2021	Pri-2012 Total Dataset Tables projected with Scale MP-2021
Retirement age	The average expected retirement age ranged from 55 to 65 for active participants, based upon plan provisions	The average expected retirement age ranged from 55 to 65 for active participants, based upon plan provisions
Asset Valuation Method	Fair Market Value	Fair Market Value
Actuarial Cost Method	Present Value of Total Accumulated Benefits	Present Value of Total Accumulated Benefits

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Interest-bearing cash: These investments are stated at cost, which approximates fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments measured at NAV: Consisting of collective trusts, valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

5. Guaranteed Investment Contract

The Plan entered into a guaranteed investment contract with Transamerica Life Insurance Company. Transamerica Life Insurance Company maintains the contributions in an unallocated fund to which it adds interest at a rate of 2.2% as of December 31, 2023. Amounts contributed to the contract are merged with the general assets of Transamerica Life Insurance Company and earn a guaranteed crediting rate, as defined, which is established on an annual basis by Transamerica Life Insurance Company. Application of the contract asset charge and any discontinuance charges or service fees, as defined, are deducted from the account and would reduce the Plan's return. Payment obligations and the fulfillment of any guarantees specified in the guaranteed investment contract are insurance claims supported by the assets in the investment. If such assets are not sufficient, payment is supported by the full faith and credit of Transamerica Life Insurance Company. In the event of termination of the contract, Transamerica Life Insurance Company may impose a hold for up to 270 days if the most recently announced upcoming credited rate has increased or has not changed. Additionally, under limited circumstances, Transamerica Life Insurance Company may impose up to a 12-month delay period on a withdrawal request from the plan sponsor.

6. Concentrations

As of December 31, 2023 and 2022, the Plan had investments of \$114,110,195 and \$118,514,874, respectively, that were concentrated in three funds.

7. Information Certified by Trustee and Custodian

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, Fidelity Management Trust Company and Transamerica Life Insurance Company, the Trustee and Custodian of the Plan, respectively, have certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022, and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2023, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2023.

8. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with Fidelity Management Trust Company and Transamerica Life Insurance Company, the Trustee and Custodian of the Plan, respectively. Contributions are held and managed by Fidelity Management Trust Company and Transamerica Life Insurance Company, who invest cash received, interest and dividend income and make distributions to participants. These transactions are party in interest transactions under ERISA.

As described in Note 2, the Plan paid certain expenses related to plan operations and investment activity to various service providers. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

9. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

Benefits to be provided via contracts under which the issuer of a guaranteed investment contract is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain survivors' pensions. However, the PBGC does not guarantee all benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

10. Tax Status

The IRS has determined and informed the Company by a letter dated February 14, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

SUMMARY OF ASSUMPTIONS

Funding Discount Rates IRS-Prescribed Three-Segment Rates, for the fourth month prior to the valuation date (September).

	Non-Stabilized	Limited to 25-Year Corridor
Segment 1:	1.41%	4.75%
Segment 2:	3.09%	5.00%
Segment 3:	3.58%	5.74%

The "Limited to 25 Year Corridor" rates are adjusted by the applicable maximum and applicable minimum percentages of the 25-year average segment rates, as set forth in the American Rescue Plan Act of 2021 ('ARPA') for use in Minimum Required Contribution calculations. The IRS Maximum Deductible Limit Calculations use the rates from the "Non-Stabilized" column above.

Effective Interest Rate The Effective Interest Rate (EIR) for the current Plan Year is 5.10%. For the prior Plan Year, the EIR was 5.26%.

The EIR is the single rate of interest which, if used to determine the Funding Target, would result in the same Funding Target determined using the Plan Sponsor's above-elected discount rates. The EIR is used to discount contributions for minimum funding requirements and to accumulate excess contributions to the end of the year.

Funding Expected Return on Assets The Expected Return on Assets (EROA) used in the calculation of the Actuarial Value of Assets is the lesser of (a) or (b), below:

(a) The Plan Sponsor's expected long-term rate of return on assets based on policy trust allocations; or

(b) The third segment rate in the IRS-prescribed three-segment rate assumption, based on the elections made by the Plan Sponsor for minimum funding purposes.

The results are as follows:

Plan Year	Assumption (a)	Seg. III (b)	EROA (smaller of (a) or (b))
2022	4.50%	5.92%	4.50%
2021	4.50%	6.11%	4.50%

Funding Administrative Expenses

Administrative expenses of \$1,900,000 were estimated to be paid from the trust in the current Plan Year and were included in the Normal Cost.

Changes in funding assumptions since the prior valuation

In accordance with federal law, the discount rates for funding were updated from the discount rates disclosed in the 2022 Actuarial Valuation Report to the discount rates shown above.

The funding mortality table was changed from the IRS 2022 Static Mortality Table to the IRS 2023 Static Mortality Table.

Administrative expenses paid from the trust were increased from \$1,300,000 to \$1,900,000, to reflect expenditures expected to be paid in this Plan Year.

SUMMARY OF METHODS

Actuarial Cost Method

The Pension Protection Act (PPA) requires the calculation of the Target Liability and Target Normal Cost. The Target Liability represents the present value of benefits accumulated as of the valuation date. The present value is calculated by projecting future payments of the accrued benefit, adjusting for probability of receipt according to demographic assumptions, and discounting the payments back to the valuation date using the segment interest rates. Payments expected within five years of the valuation date are discounted using the first segment rate, payments expected at least five but within 20 years of the valuation date are discounted using the second segment rate, and payments expected at least 20 years from the valuation date are discounted using the third segment rate. The calculation of the Target Normal Cost is identical, except that the future payment stream is based on the benefit expected to accrue during the plan year.

Funding Actuarial Value of Assets Method

The Actuarial Value of Assets is determined by averaging three market values: the market values as of the current year valuation date, and the two market values at each of the prior two years' valuation dates. The two prior year market values are adjusted for any benefit payments, expenses, contributions, and expected returns that occurred between their respective valuation dates and the current year valuation date. The Actuarial Value of Assets is adjusted to be no greater than 110% and no less than 90% of the market value of assets as of the current year valuation date.

Accrued contributions are discounted back to the valuation date at the prior year's effective interest rate.

Changes in methods since the prior valuation

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SUMMARY OF PRINCIPAL PLAN PROVISIONS

Salaried Employees

Freeze Date	June 30, 2006
Covered Employees	As of October 18, 1999, a spin-off of employees from the Watts Industries, Inc. Retirement Plan for Salaried Employees occurred. No new participants after June 30, 2006.
Eligibility	Age 21 and one year of service. Hired before February 1, 2006.
Benefit Service	1,000 Hours of Service.
Compensation	Calendar year W-2 earnings including 401(k) and Section 125 deferrals. Compensation in excess of IRC Section 401(a)(17) limitations as indexed shall not be considered.
Final Average Compensation	Average of highest 60 consecutive monthly salaries out of the last 120 months.
Maximum Offset Allowance	At Social Security Retirement Age (SSRA), (i), (ii) or (iii) below, whichever is applicable: <ul style="list-style-type: none">(i) if a Participant's SSRA is 65, .0075 of his or her Social Security Compensation;(ii) if a Participant's SSRA is 66, .0068 of his or her Social Security Compensation;(iii) if a Participant's SSRA is 67 or higher, .00625 of his or her Social Security Compensation, multiplied by his or her years of Benefit Service (up to a maximum of 25 years).

Monthly Pension Benefit A Participant's accrued monthly pension benefit shall be equal to the greater of (i), (ii), (iii), or (iv) below:

- (i) 1.67% times the Participant's Final Average Compensation less the Maximum Offset Allowance, the result of which is multiplied by his or her years of Benefit Service (maximum of 25 years);
- (ii) 1.00% times the Participant's Final Average Compensation multiplied by his or her years of Benefit Service (maximum of 25 years);
- (iii) the Participant's accrued benefit as of March 15, 1990 (or December 31, 1988 if the Participant is a highly compensated employee as defined in Section 414(q)(1)(A) or (B) of the Code);
- (iv) the Participant's accrued benefit under the Plan determined as of the December 31 preceding the date of determination.

For Participants who participated in the Spence Plan on December 31, 1991, the accrued monthly pension benefit shall be equal to the sum of (A) and (B) where:

(A) is equal to the sum of (1), (2), (3), and (4) below:

- (1) $\frac{5}{8}$ of 1% of the Participant's Final Average Compensation multiplied by his or her years of benefit service earned prior to June 1, 1975 under the Spence Plan;
- (2) $\frac{3}{4}$ of 1% of the Participant's Final Average Compensation multiplied by his or her years of benefit service earned on and after June 1, 1975 through May 31, 1980 under the Spence Plan;
- (3) $\frac{7}{8}$ of 1% of the Participant's Final Average Compensation multiplied by his or her years of benefit service earned on and after June 1, 1980 through May 31, 1985 under the Spence Plan;
- (4) 1% of the Participant's Final Average Compensation multiplied by his or her years of benefit service earned on and after June 1, 1985 through December 31, 1986 under the Spence Plan.

The amount of the benefit calculated above shall be actuarially increased to reflect the change in the normal form of benefit payment from a 5 year certain and continuous annuity to a single life annuity.

(B) is equal to the greater of (1) or (2) below:

- (1) 1.67% times the Participant's Final Average Compensation less the Maximum Offset

Allowance, the result of which is multiplied by his or her years of Benefit Service earned under the Spence Plan on or after January 1, 1987 but prior to January 1, 1992, and Benefit Service earned under the Plan on or after January 1, 1992 (maximum of 25 years).

- (2) 1.00% of the Participant's Final Average Compensation multiplied by his or her years of benefit service earned under the Spence Plan on and after January 1, 1987 but prior to January 1, 1992 and his or her years of Benefit Service earned on and after January 1, 1992 under the Plan (up to a maximum of 25 years).
