Val-Matic Valve and Manufacturing Corporation
Employee Stock Ownership Plan

Opinion

We have audited the financial statements of Val-Matic Valve and Manufacturing Corporation Employee Stock Ownership Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets in liquidation as of December 20, 2023 and December 31, 2022 and the related statement of changes in net assets in liquidation for the period ended December 20, 2023, and the related notes to the in liquidation financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the net assets of the Plan as of December 20, 2023 and December 31, 2022 and the changes in net assets for the period ended December 20, 2023 on the liquidation basis of accounting described in Note 2.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Liquidation Basis Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1 to the in liquidation financial statements, the plan sponsor of Val-Matic Valve and Manufacturing Corporation Employee Stock Ownership Plan terminated the Plan effective December 31, 2020. The financial statements and supplemental schedule are prepared on the liquidation basis of accounting. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Liquidation Basis Financial Statements

Management is responsible for the preparation and fair presentation of the liquidation basis financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of liquidation basis financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the liquidation basis financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the liquidation basis financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

To the Plan Administrator
Val-Matic Valve and Manufacturing Corporation
Employee Stock Ownership Plan

Auditor's Responsibilities for the Audits of the Liquidation Basis Financial Statements

Our objectives are to obtain reasonable assurance about whether the liquidation basis financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that audits conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the liquidation basis financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the liquidation basis financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the liquidation basis financial statements as a whole. The supplemental schedule of reportable transactions in liquidation for the period ended December 31, 2023 is presented for the purpose of additional analysis and is not a required part of the liquidation basis financial statements but is supplemental information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the liquidation basis financial statements. The information has been subjected to the auditing procedures applied in the audit of the liquidation basis financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the liquidation basis financial statements or to the liquidation basis financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the liquidation basis financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Val-Matic Valve and Manufacturing Corporation Employee Stock Ownership Plan

Notes to in Liquidation Financial Statements

December 20, 2023 and December 31, 2022

Note 1 - Plan Description

The following description of Val-Matic Valve and Manufacturing Corporation Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

As of December 31, 2020, Val-Matic Valve and Manufacturing Corporation (the "Company") was sold to an unrelated third party, and the Plan sought formal termination from the Internal Revenue Service. In connection with the sale of the Company, the 62,500 allocated shares of stock held were purchased in the acquisition. The Plan received proceeds of \$21,604,699 from the sale in 2020, plus \$978,033 in escrow proceeds receivable subsequent to December 31, 2020, which were allocated to the participants based on ending share balance immediately preceding the sale. In 2022, the interest of the majority of participants in the Plan was distributed to them or a beneficiary. In 2023, final escrow proceeds of \$112,708 were received by the Plan and allocated to the participants based on ending share balance preceding the sale. Following receipt of the final escrow proceeds, the remaining interest of each participant in the Plan was distributed to them or a beneficiary per the plan document.

Accordingly, the descriptions below are provisions of the Plan prior to termination.

General

The Plan was established by Val-Matic Valve and Manufacturing Corporation on January 1, 2004. The Plan is designed to invest primarily in stock of the Company and is intended to satisfy the applicable requirements of Sections 401(a), 409, and 4975(e)(7) of the Internal Revenue Code, as amended (the "Code"). The Plan is also subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan initially purchased 45,000 shares of the Company's common shares using loan proceeds. The shares are held in a trust established under the Plan. The original loan was repaid over a period of seven years by fully deductible company contributions to the trust fund.

On November 10, 2011, the Company entered into an additional stock purchase agreement with the Plan. Per the terms of this agreement, the Plan purchased 14,500 shares of the Company's common stock from the majority stockholder for \$1,131,000. To fund the purchase, the Company made a loan of \$1,131,000 to the Plan. This loan was paid off during the 2017 plan year.

All employees who were employed by the Company as of December 31, 2004 and had attained the age of 21 became eligible effective January 1, 2004. All other employees who are over the age of 21 are eligible for the Plan after working 1,000 hours during the plan year and being employed on the last day of the plan year, unless deceased, retired, or disabled.

Administration of Plan Assets

The Plan's assets, which consist principally of money market funds, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, which invests cash received, interest, and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Other administrative expenses are paid directly by the Plan.

Note 1 - Plan Description (Continued)

Participant Accounts

The proceeds from the sale of the Company were allocated to each participant's account based on ending share balance immediately preceding the sale. Each participant's account was credited with an allocation of money market funds based on account balance. Allocations of contributions are based on participants' eligible compensation and number of years employed at the Company. Allocations of dividends are based on the number of shares of company stock held in the participants' account balances in the respective funds. Plan earnings and losses are allocated based on participants' account balances in the respective funds. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Contributions

Subject to the conditions and limitations of the Plan, the Company may make discretionary contributions to the Plan. Employer discretionary contributions may be made in the form of cash or shares of company stock, as determined by the Company. In no event will the contributions exceed the lesser of (a) the maximum amount deductible by the employer as an expense for federal income tax purposes or (b) the maximum amount of the employer contributions to another employer-sponsored, defined contribution, tax-qualified retirement plan and the amount of the employer's ESOP contributions that is to be credited to the participants' accounts from a 415 suspense account within a plan year. The cash portion of the employer contribution shall be in an amount no less than the amount required to satisfy any indebtedness for that plan year (net of any S corporation distributions used). All employer contributions shall be allocated pro rata on the basis of the participants' earnings and years of service, as defined in the plan document.

As defined in the plan document, additional contributions will be made by the Company in any plan year that the Plan is deemed to be top heavy. There were no contributions made by the Company in 2023.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or substantially equal periodic payments, made no less than annually and not to exceed six such payments, over a period no longer than the greater of (a) five years or, (b) in the case of a participant with vested amounts that exceed \$800,000, five years plus one additional year for each \$160,000 or fraction thereof by which such balance exceeds \$800,000. Distributions will commence or be paid in accordance with the plan document.

Termination

The Company has terminated the Plan as of December 31, 2020 with the sale of the Company. In 2022, the interest of the majority of participants in the Plan was distributed to them or their beneficiaries. In 2023, the remaining interest of each participant in the Plan was distributed to him or her or a beneficiary per the plan document. As a result of the sale of the Company and plan termination, all participants became 100 percent vested as of December 31, 2020.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account but only to the extent required by Internal Revenue Code Sections 401(a)(22) and 409(e)(3) and the regulations thereunder. The trustee is required to vote shares of common stock that have been allocated to participants but for which the trustee received no voting instructions in the same manner and in the same proportion as the shares for which the trustee received timely voting instructions.

Note 1 - Plan Description (Continued)

Put Options

Under federal income tax regulations, the employer stock that is held by a plan and its participants and is not readily tradable on an established market includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for whom there is no market. The fair value of such shares shall be determined by an independent appraiser. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Preretirement Diversification Rights

In each of the first 5 years after a participant attains age 55 and has participated in the Plan for 10 years, the participant may elect a transfer in cash to the Val-Matic 401(k) Retirement Plan up to 25 percent of the number of shares of stock credited to his or her stock account, less the number of shares of stock previously diversified. In the sixth year after attaining age 55, the participant may elect to diversify 50 percent of the number of shares of stock credited to his or her stock account less the number of shares of stock previously diversified. As of December 20, 2023 and December 31, 2022, there were no longer shares eligible for the diversification option resulting from the sale of company stock held and the termination of the Plan.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 1, the plan sponsor terminated the Plan effective December 31, 2020. As a result, the financial statements and supplemental schedule were prepared on the liquidation basis of accounting.

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Benefit Payments

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Application of these assumptions requires the exercise of judgment as to future uncertainties, and, as a result, actual results could differ from those estimates.

Notes to in Liquidation Financial Statements

December 20, 2023 and December 31, 2022

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 14, 2024, which is the date the financial statements were available to be issued.

Note 3 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Money Market Fund

Money market funds are valued at quoted prices reported in active markets.

Note 3 - Fair Value Measurements (Continued)

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2022:

	Assets Measured at Fair Value on a Recurring Basis at December 31, 2022	
	Investments (at Fair Value)	Level 1
Money market fund	\$ 177,088	\$ 177,088

Note 4 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.
