Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Participants and Plan Administrator of the
Trane Pension Plan
Davidson, NC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Trane Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022, the related statement of changes in accumulated plan benefits for the year ended December 31, 2022 and the related notes to the financial statements (financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from the trustee as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at the end of the year) as of December 31, 2023 and schedule of reportable transactions for the year ended December 31, 2023 listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Percent married	Actual data is used for retired participants. For all other participants 70% of males and 55% of females are assumed to be married at death.
Spouse age	Females are assumed to be 2 years younger than their husbands.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 3.00% for 2022 and 2.00% for 2021 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and based on that review, is not aware of any significant benefits required to be valued that were not.

Tax policy

The actuarial valuation performed for the plan year ending December 31, 2023 is used to determine the maximum deductible contribution for the tax year ending December 31, 2023.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor.

Data and other information were reviewed for reasonableness and consistency, but no audit was performed. The following assumptions were made for missing or apparently inconsistent data elements:

- In cases where a cash balance amount was not provided for an active or terminated vested participant, we have estimated the cash balance using salary and/or prior year cash balance amount.
- In cases where the participant status is not certain, we have assumed their status is the same as the prior year.
- Deferred beneficiaries are assumed to be paid the value of their cash balance as of the valuation date.
- Beneficiary date of birth is assumed to be two years away from participants' (assume male is older than female by two years).
- If there are duplicate records between the various sources of data that we receive and the prior year's valuation database, we use a system tool that allows us to Merge two or more records together and pick and choose the information in each field we desire to keep (i.e. merge two active records and add pay only, merge Beneficiary/Deceased participant records and keep the New information provided by the client on the beneficiary record).
- If form of payment is not provided, we assume the plan's normal form of payment in the absence of information to the contrary (prior year's data, lump sum payment information provided, QA file)

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the 12-month average of the annual yields on the 5-year U.S treasury securities for the period September through August. Trane U.S. Inc. has selected a long-term assumption of 3.50% for future years.

Lump sum conversion rate	Lump sums calculated under IRC Section 417(e) are calculated using an interest rate which is the same as the discount rate since both are derived from current yields on long-term corporate bonds. The mortality rates used to value future lump sums are based on the plan sponsor's best estimate of the rates that will be prescribed by the IRS for future lump sum calculations under Section 417(e).
Annuity conversion rate for hybrid plans	The assumed annuity conversion rate is a long term estimate of the plan's conversion basis (417(e)); we believe that the selected assumption does not significantly conflict with what would be reasonable.
Rates of increase in compensation:	Assumed compensation increases are based on plan sponsor expectations for pay increases over the long-term.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect workforce conditions like reductions in force or other changes in conditions that are expected to produce different results in the future.

Retirement

Retirement rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect changes in conditions that are expected to produce different results in the future.

Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Form of payment

The assumed form and timing of payments were selected based on recent experience and best estimate of future behavior.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions & methods since prior valuation

- The segment interest rates used to calculate the funding target were updated from an applicable month of September 2021 to September 2022.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2020 to Scale MP-2021, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$326,000 for 2022 to \$581,000 for 2023.
- The interest crediting rate assumption was changed from 2.53% in 2022 to 3.50% in 2023.
- The retirement rates and withdrawal rates were updated based on the 2022 experience study.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

The original plan was effective September 1, 2003. The plan was most recently restated effective January 1, 2015. The latest amendment, effective January 1, 2019, changed the lookback period for determining the interest crediting rate.

Coverage and participation

Each salaried or non-union hourly employee who is actively employed on a full-time or part-time basis before September 1, 2003 and who elects to participate in the Plan shall become a member as of September 1, 2003.

Each salaried or non-union hourly employee who is actively employed on a full-time or part-time basis after September 1, 2003 and before January 1, 2010 and who elects to participate in the Plan shall become a member on the later of the date he completes an hour of service and the date he enrolls in the plan.

The following Hourly union employees now benefit under the Plan:

- Rushville employees hired on or after 5/6/2006 and before 5/11/2014
- UPG Tyler employees hired on or after 6/17/2006 and before 5/14/2016
- Lexington employees hired on or after 9/1/2008 and before 7/10/2016
- LaCrosse employees hired on or after 8/8/2010 and before 8/10/2014

Definitions

Vesting service

A participant who terminates employment before normal retirement age and after completion of 3 years of service or whose date of hire was prior to September 1, 2003 shall be 100% vested in his Account Balance. Active members become 100% vested upon attainment of age 65 or if termination is due to death, permanent shutdown, or disability.

Percent married	Actual data is used for retired participants. For all other participants 70% of males and 55% of females are assumed to be married at death.
Spouse age	Females are assumed to be 2 years younger than their husbands.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Decrement timing	The approach used is called rounded middle of year (rounded MOY) decrement timing. Most events are assumed to occur at the middle of year during which the eligibility condition will be met or the start/end date will occur. For death and disability decrements, the rate applied is based on the participant's rounded age (nearest integer age) at the beginning of the year, to align with the methodology generally used to create those rate tables. For retirement and withdrawal decrements: the age is generally the participant's rounded age at the middle of the year.

Actuarial value of assets for determining minimum required contributions

Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings of 3.00% for 2022 and 2.00% for 2021 (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued based on discussions with the plan sponsor regarding the likelihood that these benefits will be paid. WTW has reviewed the plan provisions with the plan sponsor and based on that review, is not aware of any significant benefits required to be valued that were not.

Tax policy

The actuarial valuation performed for the plan year ending December 31, 2023 is used to determine the maximum deductible contribution for the tax year ending December 31, 2023.

Sources of Data and Other Information

The plan sponsor furnished participant data as of January 1, 2023. Information on assets, contributions and plan provisions was supplied by the plan sponsor.

Data and other information were reviewed for reasonableness and consistency, but no audit was performed. The following assumptions were made for missing or apparently inconsistent data elements:

- In cases where a cash balance amount was not provided for an active or terminated vested participant, we have estimated the cash balance using salary and/or prior year cash balance amount.
- In cases where the participant status is not certain, we have assumed their status is the same as the prior year.
- Deferred beneficiaries are assumed to be paid the value of their cash balance as of the valuation date.
- Beneficiary date of birth is assumed to be two years away from participants' (assume male is older than female by two years).
- If there are duplicate records between the various sources of data that we receive and the prior year's valuation database, we use a system tool that allows us to Merge two or more records together and pick and choose the information in each field we desire to keep (i.e. merge two active records and add pay only, merge Beneficiary/Deceased participant records and keep the New information provided by the client on the beneficiary record).
- If form of payment is not provided, we assume the plan's normal form of payment in the absence of information to the contrary (prior year's data, lump sum payment information provided, QA file)

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Cash Balance Interest crediting rate	The plan credits interest to cash balance accounts using the 12-month average of the annual yields on the 5-year U.S treasury securities for the period September through August. Trane U.S. Inc. has selected a long-term assumption of 3.50% for future years.

Lump sum conversion rate	Lump sums calculated under IRC Section 417(e) are calculated using an interest rate which is the same as the discount rate since both are derived from current yields on long-term corporate bonds. The mortality rates used to value future lump sums are based on the plan sponsor's best estimate of the rates that will be prescribed by the IRS for future lump sum calculations under Section 417(e).
Annuity conversion rate for hybrid plans	The assumed annuity conversion rate is a long term estimate of the plan's conversion basis (417(e)); we believe that the selected assumption does not significantly conflict with what would be reasonable.
Rates of increase in compensation:	Assumed compensation increases are based on plan sponsor expectations for pay increases over the long-term.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect workforce conditions like reductions in force or other changes in conditions that are expected to produce different results in the future.

Retirement rates were based on an experience study conducted in 2022, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect changes in conditions that are expected to produce different results in the future.

Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.

Form of payment

The assumed form and timing of payments were selected based on recent experience and best estimate of future behavior.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described herein, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions & methods since prior valuation

- The segment interest rates used to calculate the funding target were updated from an applicable month of September 2021 to September 2022.
- The mortality projection scale used to calculate the funding target and target normal cost was updated from Scale MP-2020 to Scale MP-2021, as required by IRC §430.
- The assumed plan-related expenses added to the target normal cost were changed from \$326,000 for 2022 to \$581,000 for 2023.
- The interest crediting rate assumption was changed from 2.53% in 2022 to 3.50% in 2023.
- The retirement rates and withdrawal rates were updated based on the 2022 experience study.

Plan Provisions

The original plan was effective September 1, 2003. The plan was most recently restated effective January 1, 2015. The latest amendment, effective January 1, 2019, changed the lookback period for determining the interest crediting rate.

Coverage and participation

Each salaried or non-union hourly employee who is actively employed on a full-time or part-time basis before September 1, 2003 and who elects to participate in the Plan shall become a member as of September 1, 2003.

Each salaried or non-union hourly employee who is actively employed on a full-time or part-time basis after September 1, 2003 and before January 1, 2010 and who elects to participate in the Plan shall become a member on the later of the date he completes an hour of service and the date he enrolls in the plan.

The following Hourly union employees now benefit under the Plan:

- Rushville employees hired on or after 5/6/2006 and before 5/11/2014
- UPG Tyler employees hired on or after 6/17/2006 and before 5/14/2016
- Lexington employees hired on or after 9/1/2008 and before 7/10/2016
- LaCrosse employees hired on or after 8/8/2010 and before 8/10/2014

Definitions

Vesting service

A participant who terminates employment before normal retirement age and after completion of 3 years of service or whose date of hire was prior to September 1, 2003 shall be 100% vested in his Account Balance. Active members become 100% vested upon attainment of age 65 or if termination is due to death, permanent shutdown, or disability.

Independent Auditor's Report

To the Participants and Plan Administrator of the
Trane Pension Plan
Davidson, NC

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Trane Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022, the related statement of changes in accumulated plan benefits for the year ended December 31, 2022 and the related notes to the financial statements (financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from the trustee as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at the end of the year) as of December 31, 2023 and schedule of reportable transactions for the year ended December 31, 2023 listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following brief description of the Trane Pension Plan (the Plan) is provided for general information purposes. Participants should refer to the plan document or summary plan description for further information.

General

The Plan is a hybrid defined benefit plan (cash balance plan) designed to allow participants some of the flexibility typically associated with a defined contribution plan, such as taking the benefit when they sever employment or receiving the benefit in a lump sum. At the same time, the Plan maintains the security associated with a traditional defined benefit pension plan. The Plan covers certain nonunion employees and collectively bargained United States employees of Trane U.S. Inc. (the Company) as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA) and the Internal Revenue Code of 1986, as amended (IRC). The Company is a wholly owned subsidiary of Trane Technologies plc.

History

Effective January 1, 2010, all current and future salaried and non-collectively bargained hourly employees of Trane U.S. Inc. were no longer eligible to receive additional benefits related to service performed after such date and such employees became participants of the Trane Technologies Pension Plan Number One. Additionally, pursuant to the collective bargaining agreements, the Company and the respective unions at the Company's Lexington, Tyler, Rushville, LaCrosse and Clarksville facilities, employees who commenced or recommenced employment after such dates specified in the applicable collective bargaining agreement are not eligible and current collective bargained employees will no longer be eligible to receive additional benefits related to service performed after the dates set forth in the respective collective bargaining agreements. Moreover, pursuant to the labor agreement between the Company and the union at the Company's Fort Smith facility, employees ceased to receive eligible benefits after the dates set forth in the agreement related to the permanent plant shutdown. The determination of service for vesting purposes will be made in accordance with the Plan. Plan participants accrued pay credits based on a percentage of compensation, as defined by the Plan. Plan participants continue to receive interest credits at the rate specified by the Plan.

Pension Benefits

Upon retirement or termination, participants may elect to receive distribution of their vested benefit in a lump sum or as an annuity, as defined by the Plan. Retirement benefits generally become 100% vested upon completion of three years of service as defined by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in accordance with U.S. Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the dates of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Trane Pension Plan
Notes to Financial Statements
December 31, 2023 and 2022

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments represents the Plan's gains and losses on the investments bought and sold as well as held during the year.

Funding Policy

The Company's funding policy is to make annual minimum contributions as required by law as determined by the Plan's actuary, and other contributions in its discretion as allowed by law. As determined by the Plan's actuary, no contributions were required during 2023 and 2022. The Company made discretionary contributions of \$2,000,000 during 2022.

Expenses

The Plan pays many expenses incurred with administrating the Plan. The Plan's actuarial cost method includes a factor to fund such expenses through employer contributions. Fees paid by the Plan include various professional fees, investment fees, Pension Benefit Guaranty Corporation (PBGC) premiums and other costs reasonably necessary to administer the Plan. The PBGC requires the Plan to pay an annual flat rate premium based on the number of participants in the Plan. The Plan may also be subject to an additional variable rate premium based on the amount of unfunded vested benefits as calculated by an actuary.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 14, 2024, in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued. No material events were noted.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the credited service that employees have rendered. Accumulated plan benefits include vested benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries or alternate payees under a qualified domestic relations order (QDRO). Benefits payable under all circumstances are included to the extent they are deemed attributable to employee credited service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2023 was determined by the Plan's actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Trane Pension Plan
Notes to Financial Statements
December 31, 2023 and 2022

The significant actuarial assumptions used in the valuation at January 1, 2023 and 2022 were as follows:

- Mortality assumptions:

	January 1, 2023	January 1, 2022
Healthy	Base Mortality Table - RP-2006 sex distinct Healthy Employee and Annuitant base tables projected to 2014 base year using MP-2017. - Retirement ages, which start at 55 and use actual plan experience.
- Turnover rates, which vary with age and length of service.
- Administrative expense assumption was \$581,000 and \$326,000 for 2023 and 2022, respectively.
- Discount rate of 5.75% and 3.00% in 2023 and 2022, respectively.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. Unaudited Information Certified by Trustee

JPMorgan Chase Bank N.A. (Trustee) holds the Plan's investments and executes its transactions. The Trustee has prepared the information included in the accompanying financial statements as of December 31, 2023 and 2022 and for the years then ended and has furnished it to the plan administrator together with a certification that such information is complete and accurate. Such certifications are required under the method of compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 elected by the plan administrator.

4. Fair Value Measurements

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair value measurements are based on a framework that utilizes the inputs market participants use to determine the fair value of an asset or liability and establishes a fair value hierarchy to prioritize those inputs. The fair value hierarchy is comprised of three levels that are described below:

Level 1 Inputs to the valuation methodology are based on quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs other than Level 1. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable inputs based on little or no market activity and that are significant to the fair value of the assets and liabilities.

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are obtained from independent sources and can be validated by a third party, whereas unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability based on the best information available under the circumstances. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for the underlying assets measured at fair value. There have been no significant changes in the methodologies used at December 31, 2023 and 2022.

Registered mutual fund: The shares of registered investment companies are valued at quoted market prices in an exchange or active market. Registered mutual funds are pooled assets of multiple investors overseen by investment managers. Investors own a proportionate interest in the fund (i.e. number of units of the fund). Daily price (Net

Trane Pension Plan
Notes to Financial Statements

Asset Value or NAV per share) is determined based on the total market value of the fund divided by total number of shares outstanding. Registered mutual funds are typically daily traded, and their NAVs are publicly quoted. As a result, these funds are not subject to leveling.

Short-term investment fund: The short-term investment fund is valued at the closing price or amount held on deposit by the custodian bank or at the fair value by discounting the related cash flows based on the current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer. As these investments are traded on active markets, these investments are classified as Level 1.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Assets at fair value as of December 31, 2023

5. Plan Termination

Subject to the applicable collective bargaining agreement, Trane Technologies plc has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and the IRC.

Title IV of ERISA allows a plan sponsor to terminate a fully funded plan in a standard termination. If the Plan terminates in a standard termination, the Plan must pay out all benefits, either as a lump sum or by buying an annuity for each Plan participant.

In the event the Plan is terminated in a termination other than a standard termination, the net assets of the Plan will be allocated, as prescribed by ERISA and the IRC and their respective related regulations. Certain benefits under

the Plan are insured by the PBGC if the Plan is terminated in a termination other than a standard termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee benefits to all Plan participants and for all types of benefits and the amount of benefit protection is subject to certain limitations. Whether all participants receive their benefits should the Plan be terminated in a termination other than a standard termination will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC. Typically, only a company that is in bankruptcy may terminate a pension plan without fully funding the plan.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 21, 2020, that the Plan and related trust are designed in accordance with the applicable sections of the IRC to be exempt from taxation. The plan administrator believes that the Plan is designed and is being operated in material compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023 and 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Risks and Uncertainties

The Plan invests in various fixed-income and other investment securities. These securities are exposed to various risks, such as interest rate, market and credit risks. The Benefit Investment Committee's (BIC) objective in managing defined benefit plan assets is to ensure that all present and future benefit obligations are met as they come due. It seeks to achieve this goal while trying to mitigate volatility in plan funded status, contribution, and expense by better matching characteristics of the plan assets to that of the plan liabilities. The BIC utilizes a dynamic approach to asset allocation whereby a plan's allocation to fixed income assets increases as the plan's funded status improves. Due to the level of risk associated with certain of investments, and the level of uncertainty related to changes in the fair values of such investments, it is at least reasonably possible that changes in such risks in the near term would materially affect the Plan's investment balances, and amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
