Independent Auditor's Report

To the Participants and Retirement Committee of the
Retirement Plan for Salaried Employees of Cotter Corporation

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Retirement Plan for Salaried Employees of Cotter Corporation (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the years then ended and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022 and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and

certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Retirement Plan for Salaried Employees of Cotter Corporation and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 and the supplemental schedule of reportable transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for supplementary Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their

form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution and the supplemental schedule of reportable transactions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Retirement Plan for Salaried Employees of Cotter Corporation

Notes to Financial Statements

December 31, 2023 and 2022

1. Description of Plan

The Retirement Plan for Salaried Employees of Cotter Corporation (the “Plan”) is a noncontributory defined benefit pension plan, which provides retirement, disability, and death benefits to all eligible employees of Cotter Corporation (the “Company”). These financial statements include only general information about the Plan. The Plan Document contains the complete description of the Plan’s provisions and benefits. Unless the context otherwise requires, terms used in these notes to the financial statements which are capitalized are defined terms within the Plan Document.

The Plan is administered by the Retirement Committee of the Company (the “Plan Administrator”) and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Benefits payable under the Plan are subject to the minimum and maximum benefit limitations under the Internal Revenue Code (“IRC”). The Retirement Trust for Salaried Employees of Cotter Corporation (the “Retirement Trust”) was created as a trust fund for the purpose of paying benefits granted under the Plan. Investment assets are held by The Northern Trust Company (the “Trustee”) pursuant to a trust agreement.

In 2010, the Plan was frozen for all participants, and these participants were not credited with any Credited Service or Final Monthly Compensation, as defined under the Plan, after 2010.

2. Summary of Significant Accounting Policies

Method of Accounting

The Plan maintains its accounting records and prepares its financial statements and supplemental schedule on the accrual basis.

Investment Valuation and Income Recognition

Investments are stated at fair value. Net appreciation (depreciation) in fair value of investments consists of realized gains and losses on investments sold during the year and unrealized appreciation or depreciation on investments held at year-end. Purchases and sales are reflected on the trade date. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date.

Contributions and Funding

Contributions are actuarially determined and take into account the minimum funding requirement of ERISA and the maximum amount of deductible contributions allowable under the IRC. Annual funding was determined under the standard unit credit actuarial cost method.

Benefit Payments

Benefit payments to participants or beneficiaries are recorded upon distribution.

Administrative Expenses

The Plan pays for all administrative expenses incurred on behalf of the Plan and with a direct benefit to the Plan participants. The Company pays any expenses relating to the Plan having no direct benefit to the Plan participants.

Accumulated Plan Benefits

Accumulated Plan benefits information is presented as of the beginning of the Plan year.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

3. Information Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted under 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified the following data included in the accompanying financial statements and supplemental schedules as complete and accurate:

- Investments, other receivables and other liabilities as shown in the Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022;
- Net appreciation (depreciation) in fair value of investments and interest and dividends, as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2023 and 2022; and
- Schedule of Assets (Held at End of Year) at December 31, 2023.
- Schedule of Reportable Transactions for the year ended December 31, 2023.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the date the Plan was frozen.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date, the expected date of payment and administrative expenses. The Standard Unit Credit Method was used for the valuation as of January 1, 2023 and 2022.

4. Actuarial Present Value of Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuations as of January 1, 2023 and 2022 were as follows:

Return on assets	2023 and 2022: 5.00%	
Discount rate	2023: 5.55% 2022: 2.96%	
Mortality rate (healthy and disabled pensioners)	2023 and 2022: Generational Mortality Table for Annuitants and Non-Annuitants	
Retirement rates (salaried)	<u>Age</u> 55 – 57 58 – 61 62 – 64 65 and over	<u>Rate of Retirement</u> 5% 10% 20% 100%
Retirement age (hourly)	Age 65	
Funding asset valuation method	2023 and 2022: Smoothed Market Value for Current and Prior Two years	
3-tier segmented interest rates	2023: 4.75% / 5.00% / 5.74% 2022: 4.75% / 5.18% / 5.92%	

The foregoing actuarial assumptions are based on the presumptions that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2023 was as follows:

Vested benefits	
Participants currently receiving payments	\$ 12,738,396
Other inactive participants	1,884,642
Active participants	-
	<u>14,623,038</u>
Non-vested benefits	-
Total actuarial present value of accumulated benefits	<u>\$ 14,623,038</u>
Net decrease from the actuarial present value of accumulated plan benefits as of January 1, 2022	<u>\$ (4,356,334)</u>

The net increase is a result of the following changes:

Reduction in discount period	\$ 542,637
Benefits paid	87,078
Change in actuarial assumptions	(3,682,438)
Benefits accumulated and (gains)/losses	<u>(1,303,611)</u>

5. Fair Value Measurements

The FASB's authoritative guidance on fair value measurements provides a framework for measuring fair value and assumes that an orderly transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. Fair value measurements are based on an exit price model.

The guidance on fair value measurements establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs, where available. This hierarchy prioritizes the inputs into three broad levels, as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Observable inputs, other than Level 1 inputs, such as quoted prices for similar assets and liabilities in active or inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data through correlation.

Level 3: Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities.

A financial asset or liability's classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for Plan investments measured at fair value, all consistently applied at December 31, 2023 and 2022.

Investments in Common/Collective Trust: Valued at net asset value based on quoted market prices of, or observable inputs used in, valuing the underlying assets held by the trust and then divided by the number of shares outstanding.

Investments in registered investment companies (corporate bond and other fixed income): Valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

Investments in registered investment companies (insurance-linked fund): Valued at net asset value on the basis of observable inputs, primarily coupon rates of the underlying securities, and unobservable inputs including periodic broker quotes from market participants, considering the risks and modeled probabilities of triggering events, market liquidity risks, indemnity risks, indemnity risks and reinsurance industry risks related to the underlying securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2023:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,132,425	\$ —	\$ —	\$ 9,132,425
Total assets in the fair value hierarchy	9,132,425	—	—	9,132,425
Investments measured at net asset value	—	—	—	4,775,140
Investments at fair value	\$ 9,132,425	\$ —	\$ —	\$ 13,907,565

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2022:

	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 8,565,056	\$ —	\$ —	\$ 8,565,056
Total assets in the fair value hierarchy	8,565,056	—	—	8,565,056
Investments measured at net asset value	—	—	—	4,643,499
Investments at fair value	\$ 8,565,056	\$ —	\$ —	\$ 13,208,555

The following tables summarize investments for which fair value is measured using the net asset value per share as a practical expedient as of December 31, 2023 and 2022, respectively.

December 31, 2023	Fair Value	Unfunded Commitments	Redemption frequency	Redemption notice period
Common collective trusts	\$ 4,775,140	n/a	Daily	n/a

December 31, 2022	Fair Value	Unfunded Commitments	Redemption frequency	Redemption notice period
Common collective trusts	\$ 4,628,939	n/a	Daily	n/a
Insurance-linked fund	14,560	n/a	Bi-annual	7 days

6. Income Tax Status

The Internal Revenue Service issued a determination letter dated December 21, 2017, that the Plan is a qualified defined benefit plan under Section 401(a) of the IRC ("IRC"), and the related trust is exempt from federal income tax under Section 501(a) of the IRC. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service ("IRS"). The Plan Administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions.

7. Plan Termination

While the Company has not expressed any intent to terminate the Plan, the Plan provides that the Company reserves the right to discontinue its contributions and to terminate the Plan by action of its Board of Directors and subject to provisions of the IRC and ERISA. In the event of the termination of the Plan or written notice to the Trustee that contributions to the Plan are to be permanently discontinued by the Company, the Retirement Committee shall determine the asset value and the method of distribution of the assets of the Retirement Trust (net of the expenses of such distribution) in the manner and order set forth in ERISA.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (the “PBGC”) in the event the Plan terminates. Vested benefits under the Plan are guaranteed by the PBGC at the level in effect on the date of the Plan’s termination, subject to statutory ceilings.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. Party-in-Interest Transactions:

Certain Plan investments are held in short term investment funds managed by the Trustee, as defined by the Plan; and therefore, these transactions qualify as party-in-interest.

9. Subsequent Events

The Plan Administrator has evaluated events subsequent to December 31, 2023 through October 14, 2024, the date the Plan issued these financial statements. There have been no material events noted in this period which would impact the results reflected in this report, the Plan’s results going forward, or require additional disclosure.

Retirement Plan for Salaried Employees of Cotter Corporation

EIN 85-0125530 / PN 001

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded and accounted for. Annual contributions and accounting expense are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is equal to the Market Value of Assets minus a decreasing fraction of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Market Value of Assets. The Market Value of Assets is equal to the Fair Value of Assets as of the valuation date plus the discounted value of employer contributions made after the valuation date. These contributions are discounted to the valuation date using the Effective Interest Rate for the prior plan year. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 5.00% per year) or the applicable statutory interest rate for the year.

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen-year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

CHANGES IN ACTUARIAL METHODS SINCE PRIOR VALUATION

None.

Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Deductible	PBGC Premium
Segment 1 (0–5 years)	4.75%	1.41%	4.84%
Segment 2 (5–20 years)	5.00%	3.09%	5.15%
Segment 3 (20+ years)	5.74%	3.58%	4.85%
Effective Interest Rate	5.12%	3.07%	5.05%

ERISA minimum funding: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization. The standard method (adopted January 1, 2023) is used for the PBGC variable-rate premium calculation.

FASB ASC Topics 715 and 960: 5.55% per year. This discount rate reflects the theoretical rate at which the liabilities could be settled in the bond market as of December 31, 2022.

Asset Returns

5.00% per year. It is based on the Plan's investment policy, including target asset allocation, and the Plan Sponsor's capital market expectations.

Compensation Increases

Not applicable.

Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

Administrative Expenses

An administrative expense load equal to the average of the actual expenses paid during the prior three years (rounded to the nearest \$1,000) is added to the Target Normal Cost and Service Cost.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, demographic assumptions are based the actuary's judgment and continual review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: Statutory static tables for 2023 based on RP-2014 Mortality Table adjusted to base year 2006, with projections to anticipate greater future longevity using projection scale MP-2021, with separate rates for non-annuitants and annuitants.

FASB ASC Topics 715 and 960: Pri-2012 Mortality Tables projected forward using Scale MP-2021 on a generational basis, with sex-distinct employee rates before benefit commencement and annuitant rates after benefit commencement. As a generational table, it reflects mortality improvements both before and after the measurement date.
