Independent Auditor's Report

To the Plan Administrator
Winchester Hospital Flexible Pension Plan
Winchester, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Winchester Hospital Flexible Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA ("ERISA Section 103(a)(3)(C) audit"). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency ("qualified institution"), provided that the investment information is prepared and certified by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

Prior to January 1, 2009, records were maintained at a contract, not plan, level; therefore, management has not maintained, and Fidelity Management Trust Company ("Fidelity") and Voya Retirement Insurance and Annuity Company ("Voya") did not provide, sufficient accounting records and supporting documentation relating to certain annuity contracts and custodial accounts issued to current and former employees, and supporting documentation is not adequate to assure the completeness and accuracy of the amounts included in the financial statements.

Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the financial statements have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”), and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management’s election of the ERISA Section 103(a)(3)(C) audit does not affect management’s responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan’s ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan’s transactions that are presented and disclosed in the financial statements are in conformity with the Plan’s provisions, including maintaining sufficient records with respect to each of the participants to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan’s financial statements in accordance with auditing standards generally accepted in the United States of America (“GAAS”) and to issue an auditor’s report. However, because of the matter described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Notes to Financial Statements

1. Description of the Plan

The following description of the Winchester Hospital Flexible Pension Plan (the “Plan”) provides only general information. The plan document should be referred to for a complete description of the Plan’s provisions.

General

The Plan, established on January 1, 1990, and restated effective on December 31, 2009, is a defined contribution plan established under Section 403(b) of the Internal Revenue Code (“IRC”) covering the employees of Winchester Hospital (the “Company” or “Plan Sponsor”) and other designated employers, as defined in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

The plan Sponsor and plan administrator is Winchester Hospital. Effective July 8, 2014, Winchester Hospital affiliated with the Lahey Health System. Upon the formation of Beth Israel Lahey Health (“BILH”) on March 1, 2019, Winchester Hospital became an affiliate of BILH, its sole corporate member. BILH was formed through the combination of hospitals and other affiliates of three legacy health care systems based primarily in the Eastern Massachusetts market, including the former CareGroup system, the former Lahey Health System, and the Seacoast Health System. The Board of Directors has delegated responsibility for oversight of the Plan to BILH, who has delegated to the BILH Retirement Plans Committee the responsibility to oversee the Plan, including administrative matters, and to determine the appropriateness of the Plan’s investment offerings as well as to monitor investment performance.

Effective December 31, 2023, the Plan was restated and merged into the Beth Israel Lahey Health 403(b) Retirement Savings Plan and the sponsorship of the Plan was transferred to BILH. Concurrent with the merger, the assets of the Plan, comprised of \$259,485,541 investments and \$1,922,015 notes receivable from participants, were transferred to the Beth Israel Lahey Health 403(b) Plan as noted in the accompanying statement of changes in net assets available for benefits.

Eligibility

Employees of the Company became eligible to participate in the Plan on the first day of hire following the employee’s twenty-first birthday. Eligible employees must have attained age 21 and completed 1000 hours of service to receive company contributions. Leased employees and temporary employees (unless they satisfy the age and service requirements for participation) were excluded from the Plan. Additionally, per diem employees and employees covered by a collective bargaining agreement were not eligible for company contributions.

Contributions

Participants could contribute up to 100% of their compensation, as defined by the Plan, on a pre-tax basis, subject to IRC limitations. Participants who were at least age 50 could make additional catch-up contributions subject to IRC limitations. Participants could also contribute funds from another qualified retirement plan (“rollover contributions”), subject to certain requirements. Employee contributions could be matched by the Company at its discretion. During 2023, the Company matched 50% of 4% of each participant’s deferred compensation, up to a maximum of 2% of compensation. The Company could also contribute a non-elective amount at its discretion to all eligible employees, regardless of whether or not they were contributing to the Plan. The Plan’s

Winchester Hospital Flexible Pension Plan

Notes to Financial Statements

match true-up and non-elective contributions were credited on an annual basis. For 2023, total match true-up and non-elective contributions were \$90,308 and \$2,024,658, respectively.

Participants Accounts

Each participant's account was credited or charged with contributions, investment income, and administrative expenses. Investment income, including realized and unrealized gains and losses, and expenses were allocated to participants' accounts based on each participant's account balance within each fund. Participants determined the percentage in which contributions were to be invested in each fund. Participants could change their investment options as set forth in the plan document.

Vesting

Participants were fully vested in that portion of their account which relates to their contributions and the income earned thereon. Participants became 100% vested in company contributions upon death, total and permanent disability, or attainment of normal retirement age. Otherwise, participants became 100% vested after three years of service.

Forfeitures

When certain terminations of participation in the Plan occurred, the non-vested portion of a participant's account represented a forfeiture, as defined by the Plan. If a forfeiting participant was re-employed and fulfills certain requirements, as set forth in the Plan, the participant's account would be restored. Forfeitures of company contributions were used to pay plan expenses or to reduce company contributions. In 2023, employer contributions were reduced by \$97,379 from forfeited accounts. Total unapplied forfeitures were \$-0- and \$109,380 at December 31, 2023 and 2022, respectively.

Notes Receivable from Participants

A participant could borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans ranged from one to five years or 15 years for the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at rates ranging from 4.25% to 9.25%, which was commensurate with local prevailing rates determined by the plan administrator. Repayments were made directly to Fidelity Management Trust Company ("Fidelity") by the participant.

Payment of Benefits

The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. Benefits could be distributed to participants upon termination of employment by reason of retirement, disability, death, or other separation from service. Participants who terminated employment could leave their funds invested in the Plan or could elect a distribution in the form of a lump sum, installment, or, depending on the participant's investments, an annuity.

A participant could also request a withdrawal of participant upon attainment of age 59½.

2. Summary of Accounting Principles

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

The Plan was established in 1990 and was historically viewed as an amalgamation of individual annuity and custodial accounts, and the plan administrator and its service providers did not maintain financial information at a plan level. Because historical records were not maintained or are not available at a plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to October 1, 2009. Therefore, the completeness and accuracy of the annuity and custodial accounts, related investment income, and distributions related to these accounts, if any, could not be determined for the periods prior to January 1, 2009.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan, except the guaranteed investment fund, are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement.

Purchases and sales of the investments within the Plan are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are stated at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Contributions Receivable

Participant contributions and any related employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Non-elective contributions are recorded in the relevant period in accordance with the terms in the plan document.

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan Sponsor. Expenses that are paid by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Administrative expenses such as participant loan processing fees and other participant specific fees are deducted directly from participant accounts. The amounts deducted from participant accounts in 2023 amounted to \$193,284.

Other Income

The plan provides for revenue sharing agreements with various investment brokers of the Plan's investments. The income from revenue sharing agreements amounted to \$289,845 for the year ended December 31, 2023.

Subsequent Events

The Plan has evaluated subsequent events through October 15, 2024, which is the date the financial statements were available to be issued.

3. Certified Investments

Certain information disclosed in the accompanying financial statements, related to investments and notes receivable from participants held as of December 31, 2023 and 2022, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2023, was obtained by management and agreed to or derived from information certified as complete and accurate by Fidelity and Voya Retirement Insurance and Annuity Company ("Voya"), qualified institutions.

4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
---------	---

Winchester Hospital Flexible Pension Plan

Notes to Financial Statements

Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
---------	---

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Mutual Funds

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Brokerage Accounts

Investments in the brokerage account are valued at the closing price reported in the active markets in which the individual securities are traded. Mutual fund investments held in the brokerage account are valued in the same manner as previously described.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

At December 31, 2022, the Plan's holdings in the brokerage accounts and mutual funds were reported at Level 1 within the fair value hierarchy. The Plan had no investments at December 31, 2023.

5. Investments at Contract Value

The Plan held a traditional investment contract issued by Voya ("the contract issuer"). The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts

Winchester Hospital Flexible Pension Plan

Notes to Financial Statements

because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses.

With traditional investment contracts, the Plan owns only the contract itself. These contracts are designed to accrue interest based on crediting rates established by the contract issuers.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3%. Such interest rates are reviewed on an annual basis for resetting. The contract does not have a maturity date.

Full surrenders from the Fixed Plus Account II are paid by Voya in equal principal payments, with interest, over a period not to exceed 60 months. Other plan-level withdrawals are subject to withdrawal charges from 1% to 5% depending on completed contract years. There are no withdrawal charges if the Plan has completed five or more contract years.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related-Party Transactions and Party-in-Interest Transactions

Certain plan investments were shares of mutual funds managed by an affiliate of Fidelity and a guaranteed investment contract managed by Voya. Fidelity and Voya were the trustees as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in

Winchester Hospital Flexible Pension Plan

Notes to Financial Statements

fair value of investments. The Plan made a direct payment to the third-party administrators of \$193,284, which was not covered by revenue sharing. The Company pays directly any other fees related to the Plan's operations. Notes receivable from participants also qualify as exempt party-in-interest transactions.

8. Tax Status

The Plan is designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service or the DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
