Independent Auditor's Report

Board of Trustees, Plan Administrator and Plan Participants
University of Saint Joseph 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of University of Saint Joseph 403(b) Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 5 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent assurance, tax, and consulting firms.
Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Accounting principles generally accepted in the United States of America (U.S. GAAP) require that these accounts and the related income and distributions be included in the accompanying financial statements.

Emphasis of Matter—Investments
As discussed in Note 4, the financial statements include an investment representing 22% and 23% of total assets as of December 31, 2023 and 2022, respectively, whose fair value has been estimated using unobservable inputs in the absence of readily ascertainable fair values. Our disclaimer of opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor’s Responsibilities for the Audit of the Financial Statements
Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA
The supplemental schedule of Schedule H, line 4i—schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Note 1. Description of Plan

The following description of the University of Saint Joseph 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan was established by the University of Saint Joseph (the University) in 1946 as a defined contribution plan. The Plan is administered by certain officers and employees of the University. The Plan is subject to Section 403(b) of the Internal Revenue Code (IRC) and is funded with annuity contracts and custodial accounts that comply with that section. The Plan was most recently restated effective January 1, 2019 under a volume submitter Plan document to comply with the requirements of the IRC. The Plan was amended on June 25, 2020, effective August 16, 2020, to modify the University's matching contributions and non-elective contributions to be discretionary at the discretion of the Board of Trustees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). All investments are participant directed.

Eligibility: All employees of the University, except student employees, are eligible to participate in the Plan. Eligible employees may begin to make elective deferrals and after-tax voluntary contributions into the Plan upon their date of hire. Employees who normally work more than 20 hours per week are eligible to participate in the University's contribution portion of the Plan upon attaining the age of 25 and completing one year of eligible service. A year of eligible service is defined as any year in which the employee works at least 1,000 hours.

Contributions: Participants may make elective deferrals and after-tax contributions up to 100% of their eligible wages, as defined by the Plan, not to exceed the maximum annual contribution allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Certain classifications of employees receive an employer contribution (University contribution) even if they do not make deferrals under the Plan. All other eligible nonexempt and eligible exempt employees are required to defer a minimum of 2% and 5%, respectively, of their eligible compensation, as defined by the Plan, in order to receive a University contribution. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (Rollover). During the year ended December 31, 2023, the University made contributions equal to 5.5% of eligible wages, as defined by the Plan, for all eligible employees actively participating in the Plan. Total University contributions amounted to $1,282,710 for the year.

Participant accounts: Each participant's account is credited with the participant's contributions, the University's contributions and his or her individual investment earnings and charged with an allocation of administrative expenses and plan servicing credits, if any. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the accumulated balance that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, including rollover, plus actual earnings thereon. Participants who are benefits eligible after January 1, 2019 will have the University's contributions vested 100% after three years of service and 0% if less than three years of service. Participants who were benefits eligible prior to January 1, 2019 are immediately vested in all of the University's contributions.

Note 1. Description of Plan (Continued)

Participant investment options: Participants direct their contributions and the University's contributions to any of the Plan's investment options. Investment options available to participants include the Teachers Insurance and Annuity Association (TIAA) fixed annuity contracts, referred to as the TIAA Traditional Annuity, TIAA pooled separate account, referred to as the TIAA Real Estate Account, a variety of College Retirement Equities Fund (CREF) registered investment companies and TIAA-CREF proprietary mutual funds, including the TIAA-CREF Lifecycle Funds, as well as other mutual funds.

Payment of benefits: The Plan permits withdrawals of 100% of the participant's vested account balance when a participant terminates employment, retires or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. Participants may elect to receive their benefit payments in lump-sum payments, installments or annuity distributions as allowed under the applicable funding vehicle.

Forfeitures: Forfeitures may be used to pay administrative expense under the Plan or to reduce future University contributions. Forfeited non-vested accounts totaled $18,901 and $49 as of December 31, 2023 and 2022, respectively. Total forfeitures amounted to $18,852 during the year ended December 31, 2023. None of the forfeitures were used to reduce University contributions or to pay administrative expenses during 2023.

Notes receivable from participants: A participant may borrow from his or her participant account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 reduced by the excess, if any, of the highest outstanding balance of his or her loans during the one-year period ending on the day before the loan is made over the outstanding balance of his or her loans on the date the loan is made or 50% of his or her vested participant balance. Loan terms can range up to five years or up to 10 years for the purchase of a primary residence. Loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with rates charged by persons in the business of lending money for loans under similar circumstances. A participant may have only one outstanding loan at a time and are limited to applying for one loan per calendar year. Principal and interest are paid ratably through payroll deductions. The loans bear interest at rates that range from 4.25% to 9.50% and mature through November 15, 2028.

Plan administration: Certain administrative functions are performed by officers or employees of the University. No such officer or employee received compensation from the Plan. The University is the Plan Administrator and has the authority to appoint person(s) or entities to carry out the operation of the Plan (Plan Administrator).

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Note 2. Summary of Significant Accounting Policies (Continued)

Investments valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. If a participant ceases to make loan repayments, has terminated employment, and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Investment related expenses are included in net depreciation of fair value of investments. Fees related to certain participant transactions are charged directly to the participant's account and are included in administrative expenses.

Plan servicing credits: On a quarterly basis, the Plan receives plan servicing credits from TIAA, which represent excess revenue generated that is returned to the Plan by TIAA. These funds may be used to pay reasonable and necessary expenses for the Plan and can also be used to provide plan servicing credits to participants. During the year ended December 31, 2023, the Plan received $153,035 in plan servicing credits, which are included in other income in the statement of changes in net assets available for benefits, recognized investment income of $2,553, and used $65,561 to pay plan expenses. As of December 31, 2023 and 2022, unused plan servicing credits totaled $90,046 and $19, respectively. The remaining balance as of December 31, 2023 will be used to pay expenses or be allocated to participants in accordance with the terms of the agreement.

Income taxes: U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by federal, state or local tax authorities for three years from the filing date.

Note 3. Information Certified and Provided by TIAA and CREF

The following is a summary of the Plan's asset information as of December 31, 2023 and 2022, and for the year ended December 31, 2023, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by TIAA and CREF, as issuer of the registered investment companies, the pooled separate account and the fixed annuity contracts and as agent for TIAA, FSB, the custodian of the mutual funds, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from TIAA and CREF that the information provided to the Plan Administrator by TIAA and CREF related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supporting schedule related to the following assets.

	2023	2022
Investments certified by TIAA and CREF as issuer:		
Investments at fair value:		
Registered investment companies	$ 43,683,707	$ 36,975,212
Pooled separate account	4,375,831	6,072,549
Non-benefit responsive fixed annuity contracts*	28,271,660	26,914,579
Investments at contract value:		
Fully benefit-responsive fixed annuity contracts	7,052,382	7,304,911
Investments certified by TIAA and CREF as agent for the custodian:		
Investments at fair value:		
Mutual funds	44,021,104	38,417,125
Total investments	$ 127,404,684	$ 115,684,376
Notes receivable from participants	$ 157,383	$ 88,031

* Investments certified at contract value, which approximates fair value.

TIAA and CREF also certified to the completeness and accuracy of $13,508,167 of net appreciation in the fair value of investments, $1,626,046 of interest and dividends and $153,035 of other income related to the aforementioned assets for the year ended December 31, 2023.

Note 4. Fair Value Measurements

U.S. GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Registered investment companies: The fair value of the registered investment companies offered by TIAA-CREF are determined based on the daily unit value published on NASDAQ. These funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund.

Pooled separate account: TIAA offers the TIAA Real Estate Account (REA), which is a separate account of TIAA where returns are not guaranteed and its accumulations and returns fluctuate based on the performance of the underlying investments. The REA reflects a structure similar to mutual funds and have a readily determinable fair value as published on NASDAQ each day that current transactions are recorded. The fund is not traded on this exchange.

Non-benefit responsive fixed annuity contracts: Investments in TIAA Traditional Annuity contracts that are non-benefit responsive are reported at fair value, which approximates contract value (see Note 6). Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. Valuation techniques include a theoretical transfer (exit value) approach and a discounted cash flow value calculated using appropriate risk adjusted market discount rates, which correlates closely with TIAA Traditional Annuity's historical crediting rates.

Mutual funds: The fair value of the mutual funds offered by TIAA-CREF are determined based on the daily unit value published on NASDAQ. These funds are not traded on this exchange. The value of the unit holder's investment rises and falls with the returns on the underlying assets in the fund. The other mutual funds are valued based on quoted market prices of the funds, when available.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

Note 4. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of transfer relative to total net assets available for benefits. For the year ended December 31, 2023, there were no transfers in or out of Level 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	December 31, 2023			
	Level 1	Level 2	Level 3	Total
Investments:				
Registered investment companies	$ 43,683,707	$ -	$ -	$ 43,683,707
Pooled separate account	-	4,375,831	-	4,375,831
Non-benefit responsive fixed annuity contracts	-	-	28,271,660	28,271,660
Mutual funds	44,021,104	-	-	44,021,104
Total investments	$ 87,704,811	$ 4,375,831	$ 28,271,660	$ 120,352,302

	December 31, 2022			
	Level 1	Level 2	Level 3	Total
Investments:				
Registered investment companies	$ 36,975,212	$ -	$ -	$ 36,975,212
Pooled separate account	-	6,072,549	-	6,072,549
Non-benefit responsive fixed annuity contracts	-	-	26,914,579	26,914,579
Mutual funds	38,417,125	-	-	38,417,125
Total investments	$ 75,392,337	$ 6,072,549	$ 26,914,579	$ 108,379,465

The following tables represent the Plan's Level 3 investments, the valuation techniques used to measure fair value of those investments and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2023 and 2022.

	December 31, 2023			
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Fixed annuity contracts: TIAA Traditional Annuity: Non-benefit responsive	$ 28,271,660	Discounted cash flow theoretical transfer (exit value)	Risk-adjusted discount rate applied	4.00%-6.75%

Note 4. Fair Value Measurements (Continued)

	December 31, 2022			
Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Fixed annuity contracts:		Discounted cash flow		
TIAA Traditional Annuity:		theoretical transfer	Risk-adjusted discount rate	
Non-benefit responsive	$ 26,914,579	(exit value)	applied	3.70%-6.50%

Note 5. Excluded Contracts

The Plan Administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan Administrator's knowledge prior to January 1, 2009, as permitted by the DOL's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the statement of changes in net assets available for benefits. U.S. GAAP requires that these accounts and the related income and distributions be included in the accompanying financial statements. The Plan Administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related income and distributions because records relating to these are not available or do not exist.

Note 6. Investment Contracts with TIAA

The Plan has investment contracts with TIAA, classified as fixed annuity contracts. Under these contracts are sub-contracts, some of which are fully benefit-responsive, while others are not. Contracts are determined to be non-benefit responsive due to the restrictions on withdrawals from the contracts. TIAA maintains the contributions held under the TIAA Traditional Annuity contract in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Each premium allocated to the investment contract buys a guaranteed minimum amount of lifetime income based on the rate schedule in effect at the time the premium is credited.

For investment contracts that are non-benefit responsive, fair value is the relevant measurement attribute for the portion of the net assets available for benefits attributable to the guaranteed investment contract. Investment contracts that are non-benefit responsive are included in the financial statements at fair value, which approximates contract value as reported by TIAA and CREF. Average yields for non-benefit responsive investment contracts for the year ended December 31, 2023, are as follows:

Non-benefit responsive:	
TIAA Traditional Annuity:	
Based on actual earnings	4.80%
Based on interest rate credited to participants	6.38%

Note 6. Investment Contracts with TIAA (Continued)

For investment contracts that are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. These contracts are included in the financial statements at contract value, as reported to the Plan by TIAA and CREF. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3.00%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan document (including complete or partial plan termination or merger with another plan, (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the University or other University events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 7. Tax Status

The Plan has adopted a volume submitter plan sponsored by Angell Pension Group. The volume submitter plan has received an advisory letter from the IRS, dated March 31, 2017, as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, benefits will be provided as if all participants were then eligible for retirement.

Note 9. Party-in-Interest Transactions

Plan investments consist of registered investment companies, a pooled separate account, fixed annuity contracts and certain mutual funds managed by TIAA and CREF. Transactions in such investments qualify as exempt party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Approximately 28% and 30% of the Plan's investments are held in the TIAA Traditional Annuity as of December 31, 2023 and 2022, respectively. Approximately 15% and 14% of the Plan's investments are held in the CREF Stock R2 as of December 31, 2023 and 2022, respectively. As such, these are considered to be concentrations of credit risk.

U.S. GAAP requires the financial statements to present the fair value of investments. The investments in non-benefit responsive investment contracts outlined in Note 4 have been presented at contract value, which approximates fair value, as reported to the Plan by TIAA and CREF. This determination is based on TIAA and CREF's credit rating and yield during 2023 and 2022 being comparable to similar alternative investments and the interest rate, which re-sets quarterly being comparable to a 10-year treasury bond. In subsequent periods, if market conditions change, such as the insurance company credit rating or interest rate environment, the difference between contract value and fair value could become significant.

Note 11. Plan Loans

Participants may borrow from TIAA and CREF using a portion of their plan account as security for the loan. The minimum loan is $1,000 and may be up to the lesser of $50,000, minus the difference between the highest outstanding balance of loans in the past 12 months and the outstanding balance of loans from the Plan on the date the loan is made or 50% of their vested account balance. The maximum number of loans outstanding at any one time is three. The loans bear interest at rates that range from 5.02% to 5.56%, which are commensurate with local prevailing rates at date of loan inception as determined periodically by TIAA and CREF and mature through August 2024. Principal and interest is paid ratably throughout monthly or quarterly automatic transfers by the participant to TIAA and CREF for a period of up to five years (or 10 years if the loan is for the purchase of a principal residence). The Plan Administrator has concluded that these loans are not plan assets and that such arrangements are exempt transactions. Effective December 3, 2021, TIAA and CREF are no longer offering collateralized loans to participants and are no longer offering new loans to participants within the Plan. Any existing loans that were issued prior to December 3, 2021 will remain in effect until they are paid off.

The balances as of December 31, 2023 and 2022 are $5,924 and $39,373, respectively. Under the borrowing terms, $6,517 and $43,311 of the plan assets serve as collateral to these loans as of December 31, 2023 and 2022, respectively. Interest paid by participants on such loans during the plan year ended December 31, 2023 was approximately $600.

In the event of default, such loans are reportable to plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan. During the year ended December 31, 2023, no loans were in default. As of December 31, 2023 and 2022, plan loans in default amount to $0 and $24,740, respectively. Such amounts include principal and accumulated interest.

Note 12. Subsequent Events

The Plan has evaluated subsequent events through October 14, 2024, the date on which the financial statements were available to be issued.
