We have audited the financial statements of GE HealthCare Pension Plan, GE HealthCare Legacy Affiliates Pension Plan (formerly known as Instrumentarium Cash Balance Plan) and Retirement Income Plan for Bargaining Unit Employees of Datex-Ohmeda, Inc. Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our reports. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis-of-Matter – GE HealthCare Pension Plan

As discussed in Note 3 to the financial statements, the financial statements include private equities, hedge funds and real estate investments valued at approximately \$3.96 billion (27% of the Plan's net assets available for benefits) as of December 31, 2023, whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or general partners. Our opinion is not modified with respect to this matter.

Emphasis-of-Matter – GE HealthCare Legacy Affiliates Pension Plan (formerly known as Instrumentarium Cash Balance Plan)

As discussed in Note 3 to the financial statements, the financial statements include private equities, hedge funds (as applicable) and real estate investments valued at approximately \$192 million and \$19 million (27% of the Plan's net assets available for benefits) as of December 31, 2023 and 2022, respectively, whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or general partners. Our opinion is not modified with respect to this matter.

As discussed in Note 2 to the financial statements, the Plan has elected to change its method of accounting and disclosure for the accumulated plan benefit information and the change in accumulated plan benefit information to the beginning of the plan year. Previously this information was accounted for and presented as of the end of the plan year. Our opinion is not modified with respect to this matter.

Emphasis-of-Matter – Retirement Income Plan for Bargaining Unit Employees of Datex-Ohmeda, Inc.

As discussed in Note 3 to the financial statements, the financial statements include private equities, hedge funds (as applicable) and real estate investments valued at approximately \$19 million (27% of the Plan's net assets available for benefits) as of December 31, 2023 and 2022, whose fair values have been estimated by management in the absence of readily determinable fair values. Management's estimates are based on information provided by the fund managers or general partners. Our opinion is not modified with respect to this matter.

As discussed in Note 2 to the financial statements, the Plan has elected to change its method of accounting and disclosure for the accumulated plan benefit information and the change in accumulated plan benefit information to the beginning of the plan year. Previously this information was accounted for and presented as of the end of the plan year. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining current plan instruments, including all plan amendments, administering the Plans, and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Note 1 - Plan Description

The following descriptions of the GE HealthCare Pension Plan ("HealthCare Pension Plan" or "HCPP"), the Retirement Income Plan for Bargaining Unit Employees of Datex-Ohmeda, Inc. (the "Retirement Income Plan" or "RIP"), and the GE HealthCare Legacy Affiliates Pension Plan (the "Legacy Affiliates Plan" or "LAPP"), collectively the GE HealthCare Defined Benefit Plans, provides only general information. Participants should refer to each respective plan's agreement for a more complete description of the Plans' provisions. The Plans are defined benefit pension plans and are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

General

GE HealthCare Pension Plan

The GE HealthCare Pension Plan is a contributory defined benefit plan and was formed on January 1, 2023 as a result of GE HealthCare Technologies Inc.'s (the "Company") spin-off from General Electric Company ("GE"). The Company is part of GE HealthCare ("GEHC"). Accordingly, assets and liabilities of approximately \$14,838,000 and accumulated plan benefits of approximately \$13,823,000 were transferred to the HCPP from the GE Pension Plan. The GE Pension Plan is a defined benefit plan sponsored by GE. HCPP is sponsored by GE HealthCare Technologies Inc. (the "Plan Sponsor").

HCPP provides benefits to covered participants based on the greater of two formulas recognizing: a) a regular pension based on career earnings; or b) a minimum guaranteed pension based on length of service and final average earnings. Benefit provisions are subject to collective bargaining. If participants made contributions to the HCPP, they are also eligible for a Personal Pension Account Annuity or a Voluntary Pension Account Annuity as defined in the HCPP's agreement.

Salaried employees who commenced service on or after January 1, 2011 at the Company or GE, and any employee who commenced service on or after January 1, 2012 at the Company or GE, are not eligible to participate in the HCPP, but will participate in a defined contribution retirement plan. Salaried employees benefits are frozen. All other employees who commenced service prior to January 1, 2012 are accruing pension benefits.

Retirement Income Plan For Bargaining Unit Employees of Datex-Ohmeda, Inc.

The Retirement Income Plan is a noncontributory defined benefit plan sponsored by Datex-Ohmeda, Inc. ("Datex-Ohmeda"). Datex-Ohmeda is an affiliate of the Company.

RIP provides benefits to substantially all union employees of Datex-Ohmeda hired before June 15, 2012. RIP was closed to new participants effective June 15, 2012. Benefits are determined based on length of service and a dollar multiplier that is subject to collective bargaining.

GE HealthCare Legacy Affiliates Pension Plan

Effective December 31, 2023, the non-contributory Retirement Plan for Select GE Businesses (the "Select Plan") sponsored by the Company, and the Amersham Health Retirement Plan (the "Amersham Plan") sponsored by GE Healthcare USA Holding LLC, merged into the Instrumentarium Cash Balance Plan, sponsored by Datex-Ohmeda, Inc. Subsequent to the merger, the Instrumentarium Cash Balance Plan was renamed the GE HealthCare Legacy Affiliates Pension Plan, and the Plan Sponsor was changed from Datex-Ohmeda to the Company. In accordance with the effective date of the merger, the net assets of the Select Plan and Amersham Plan, totaling \$438,688, and \$206,894, respectively, and accumulated plan benefits of \$463,130 and \$153,653, respectively, transferred to the Legacy Affiliates Plan's interest in the GE HealthCare Pension Master Trust on the accompanying Statement of Net Assets Available for Benefits as of December 31, 2023. The physical assets of the Select Plan and Amersham Plan were transferred to the Legacy Affiliates Plan in January 2024. The Legacy Affiliates Pension Plan is a frozen defined benefit pension plan, other than accumulation of interest credits due for participants under the terms of the former Instrumentarium Cash Balance Plan.

December 31, 2023 and 2022

(000s omitted)

Note 1 - Plan Description (Continued)

Master Trusts

Prior to January 1, 2023, RIP and LAPP held an interest in the GE Pension Trust ("GEPT"). Each participating benefit plan had an undivided interest in the GEPT.

Effective January 1, 2023, the Plans hold an interest in the GE HealthCare Pension Master Trust ("GEHC MT"), which was established on this date for the investment of assets of the Plans. Each participating benefit plan has an undivided interest in the GEHC MT as of December 31, 2023.

Effective January 1, 2023, the GEHC MT has a divided interest in the GEPT. The GEHC MT and GEPT are collectively referred to herein as the "Master Trusts." Certain plan assets were transferred from GEPT to GEHC MT in April, 2024.

Contributions

Contributions are made by the Company and Datex-Ohmeda (the "Plan Sponsors") in actuarially determined amounts. The funding policy of the Plans is to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax law plus additional amounts as the Company may determine to be appropriate. There were no contributions required by the Plan Sponsors to meet the minimum funding requirements of ERISA during 2023.

Effective January 1, 2023, employees may voluntarily contribute 3 percent of their first \$100,000 of eligible compensation and required to contribute 3 percent of any eligible compensation above \$100,000 to the HCPP. Required and voluntary contributions of participating employees are 100 percent vested and earn interest credits as defined by the Plan.

Vesting

Participants are generally fully vested for retirement benefits after five years of service. For the cash balance components, participants are fully vested for retirement benefits.

Pension Benefits

GE HealthCare Pension Plan

Participating qualified employees are generally entitled to pension benefits (paid monthly) beginning at normal retirement age (65) consisting of a regular pension, and if applicable, an additional pension to provide the minimum guaranteed pension, a Personal Pension Account Annuity, and a Voluntary Pension Account Annuity. The Pension Plan permits early retirement at age 60.

Retirement Income Plan for Bargaining Unit Employees of Datex-Ohmeda, Inc.

Participants are entitled to pension benefits beginning at normal retirement age of 65. The Retirement Income Plan permits early retirement beginning at age 55 with certain reductions of benefits as defined in the Retirement Income Plan document. If a participant becomes disabled and meets the criteria, the Retirement Income Plan provides for a disability retirement benefit.

GE HealthCare Legacy Affiliates Pension Plan

Participants are entitled to pension benefits (paid monthly or in certain cases as a lump sum) beginning at normal retirement age of 65. The Legacy Affiliates Plan permits early retirement beginning at age 55 if a participant has 10 or more years of credited service. If a participant becomes disabled and meets the criteria, the Legacy Affiliates Plan provides for a disability retirement benefit. In addition, for those with a prior Cash Balance benefit in the LAPP, distributions are permitted at any age after termination of employment.

December 31, 2023 and 2022

(000s omitted)

Note 1 - Plan Description (Continued)

Death Benefits

In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to their normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plans.

Party-in-interest Transactions

Certain plan assets are in investment funds held by the Master Trusts and managed by State Street Corporation or its affiliates. State Street Corporation is the trustee of the Plans, therefore these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Change in Accounting Principle

Beginning in 2023, the accumulated plan benefit information for the Legacy Affiliates Plan and the Retirement Income Plan has been presented as of the beginning of the plan year. Previously, such information was presented as of the end of the plan year. GAAP allows presentation of accumulated plan benefits as of the beginning or end of the year. The change is preferable from a comparability and consistency standpoint, as all plans included within these combined financial statements now present this information as of the beginning of the plan year. The change did not have an impact on the net assets available for benefits or the changes in net assets available for benefits of these Plans as previously presented.

Investment Valuation and Income Recognition

Investments held by the Master Trusts are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of the Plans' respective interests in the Master Trusts is based on the beginning of the year value of each of the respective Plans' interests in the Master Trusts, plus actual contributions and allocated investment income (loss), less actual distributions for benefit payments, expenses, and allocated expenses. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid. The HCPP prefunded retiree benefit payments on the accompanying Statements of Net Assets Available for Benefits represents funds withdrawn from the GEPT prior to December 31, 2023, and paid as benefits to participants or beneficiaries in January 2024.

December 31, 2023 and 2022

(000s omitted)

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plans' provisions, to the service employees have rendered through the valuation date. These include benefits expected to be paid to:

- (a) Retired or terminated employees or their beneficiaries
- (b) Beneficiaries of employees who have died
- (c) Present employees or their beneficiaries

Actuarial Assumptions

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation of the Plans at December 31, 2022 are summarized as follows:

Assumed rate of return	7.00% (6.00% at December 31, 2021)
Mortality basis	<p>HCPP - Pri-2012 mortality study with adjustments for age, sex, and wage class projected generationally to 2016 by the MP-2018 improvement scale and projected generationally from 2016 by the MP-2021 improvement scales for males and females modified to converge to the 2021 proxy SSA long-term rates</p> <p>RIP - Pri-2012 amounts-weighted aggregates rates with blue collar adjustment for employees and healthy annuitants projected generationally by the MP-2021 improvement scale modified to converge to the 2021 proxy SSA long-term rates</p> <p>LAPP - Pri-2012 amounts-weighted aggregates rates for employees and healthy annuitants projected generationally by the MP-2021 improvement scale modified to converge to the 2021 proxy SSA long-term rates</p>
Average retirement age	<p>HCPP - Ranging from 60 to 70</p> <p>RIP - Ranging from 55 to 70</p> <p>LAPP - Ranging from 55 to 70</p>

The foregoing actuarial assumptions are based on the presumption that the Plans will continue. Were the Plans to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The effect of plan amendments on accumulated plan benefits are recognized during the year in which such amendments are adopted. There were no amendments effective January 1, 2023 or January 1, 2022 recognized in the actuarial present value of accumulated plan benefits as of December 31, 2022 and 2021, respectively.

December 31, 2023 and 2022

(000s omitted)

Note 2 - Summary of Significant Accounting Policies (Continued)

The other changes component included in the accompanying statement of changes in accumulated plan benefits represents the normal operations of the pension plan. It consists primarily of those items of plan experience not associated with plan asset performance.

Administrative Expenses

Certain fees and expenses are directly charged to the Plans and certain fees and expenses are allocated based on the Plans' respective interests in the Master Trusts. Other costs of administering the Plans are paid by the Plan Sponsor and Datex-Ohmeda.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

Contributions to the Plans and the accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks, which include risks related to pandemics and international conflict. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 14, 2024, which is the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust

The GEHC MT has a divided interest in the GEPT and does not have any investments outside of this interest.

The HCPP, the LAPP, and the RIP have an undivided interest in the GEHC MT. These Plans do not hold any investments outside of this interest. Investment income and expenses relating to the GEHC MT are allocated to the individual plans based upon average monthly balances invested by each plan. Application of the percentages of each Plan's undivided interest in the GEHC MT from the table below to the types of investments held by the GEHC MT represents each respective Plan's interest in the investments held by the GEHC MT.

At December 31, 2023, the Plans' approximate ownership interests in the GEHC MT (rounded to the nearest 1 percent) were as follows:

	2023
GE HealthCare Pension Plan	95 %
Legacy Affiliates Plan	5
Retirement Income Plan (Less than 1 percent)	
Total GE HealthCare Master Trust investments	100 %

Derivative Instruments

In the normal course of business, the GEPT enters into transactions in various financial instruments with offbalancesheet risk. These financial instruments involve varying degrees and types of risks, including interest rate, credit, and market risks, which may be in excess of the amounts recognized in the net assets of the GEPT. Forward contracts and futures are recorded at fair value, and the unrealized gain or loss is included in due to brokers and due from brokers in the GEPT's statements of net assets. Financial futures are marked to market and settled with the broker on a daily basis. The GEPT has elected to offset the fair value amounts recognized for receivables and payables for derivative positions executed with the same counterparty under the same master netting agreement. The majority of the GEPT's derivative contracts have master netting agreements in place.

The below table represent the notional amounts and fair values, by primary risk exposure, presented as gross assets and liabilities and gains (losses) as of December 31, 2023:

	Notional Amounts Long	Notional Amounts Short	Fair Value Asset	Fair Value Liability	Fair Value Net	Gain/(Loss) Recognized in Income
Swaptions	\$ 31,675	\$ (19,347)	\$ 6,715	\$ -	\$ 19,044	\$ 7,452

The below table represent the notional amounts and fair values of GEPT, by primary risk exposure, presented as gross assets and liabilities and gains (losses) as of December 31, 2022:

	Notional Amounts Long	Notional Amounts Short	Fair Value Asset	Fair Value Liability	Fair Value Net	Gain/(Loss) Recognized in Income
Swaptions	\$ 10,465	\$ (24,965)	\$ -	\$ (48,390)	\$ (62,890)	\$ -

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

December 31, 2023 and 2022

(000s omitted)

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Master Trusts' investments:

Global Equities

Level 1 global equities, which include mutual funds, common stock, and registered investment companies, are valued at quoted prices reported in active markets. A subset of the funds in this asset class are structured as common/collective trusts. Common/collective trusts are valued at the net asset value (NAV) per share or its equivalent of the funds, which is based on the fair value of the funds' underlying net assets.

Debt Securities

Debt securities, which include investments in state and municipal debt, U.S. and non-U.S. government bonds, commercial mortgage-backed securities, option derivatives, and swap derivatives are valued based on quotes received from independent pricing services or from dealers who make markets in such securities. Pricing services utilize matrix pricing, which considers readily available inputs such as the yield or price of securities of comparable quality, coupon, maturity and type.

Certain debt securities are valued at the NAV per share or its equivalent of the fixed income funds, which is based on the fair value of the fixed income funds' underlying net assets.

Option and swap derivatives are valued based upon the expected amount that the Master Trusts would receive or pay to exit the derivative at the reporting date. The valuation methodology uses the income approach and relies on inputs, including, but not limited to, benchmark yields, swap curves, cash flow analysis, ratings updates, and interdealer broker rates.

The cash in the investment fund is valued based on quoted market prices.

Private Equities and Other Investments

Certain investments in private equities are valued at the NAV per share or its equivalent of the funds, which is based on the fair value of the funds' underlying net assets.

Certain investments in private equities are valued using unobservable inputs and are therefore classified as Level 3. Private equity security valuations are reviewed at the end of each reporting period utilizing available market data to determine whether or not any fair value adjustments are necessary. The market data includes recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers. Unobservable inputs include company specific fundamentals and other third-party transactions in that security.

Real Estate

Certain real estate investments are valued at the NAV per share or its equivalent of the real estate funds, which is based on the fair value of the funds' underlying net assets.

Certain real estate investments are valued using discounted cash flow techniques using estimated future cash flows generated by the property, market analysis and sales comparison information. Cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy, and capitalization rates.

Investments in Entities that Calculate Net Asset Value per Share

The GE Pension Trust holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

At year end, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

	Fair Value	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period

Note 5 - Plan Termination

Should the Plans terminate at some future time due to distress, their net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all.

December 31, 2023 and 2022

(000s omitted)

Note 5 - Plan Termination (Continued)

Although it has not expressed any intention to do so, the Company has the right under the Plans to terminate the Plans subject to the provisions set forth in ERISA. In the event the Company exercises this right for any reason other than distress, all benefits would be fully paid to participants.

Note 6 - Tax Status

RIP and LAPP have received determination letters dated April 28, 2017 and April 23, 2021, respectively, from the Internal Revenue Service indicating that these plans, as designed, are qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although RIP and LAPP have been amended since receiving the determination letters, management believes that these plans are designed and are currently being operated in compliance with the applicable requirements of the IRC. HCPP will file for a determination letter by December 31, 2024 in accordance with IRC filing requirements. Although the HCPP has not received a formal determination letter, management believes that HCPP is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in these financial statements.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).
