Plan Administrative Committee
Community Health Services of Georgia
Profit Sharing Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of **Community Health Services of Georgia Profit Sharing Plan**, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Community Health Services of Georgia Profit Sharing Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Community Health Services of Georgia Profit Sharing Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Health Services of Georgia Profit Sharing Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Community Health Services of Georgia Profit Sharing Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Community Health Services of Georgia Profit Sharing Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

**COMMUNITY HEALTH SERVICES OF GEORGIA
PROFIT SHARING PLAN**

NOTES TO FINANCIAL STATEMENTS

(1) Description of Plan

The following description of the Community Health Services of Georgia Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan for the exclusive benefit of eligible employees of participating companies and their beneficiaries. Employees become eligible after attainment of age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors the investment performance, and reports to the Plan Sponsor. Community Health Systems, Inc. (the Company) absorbs certain costs of the Plan.

In December 2022, Securing a Strong Retirement Act (Secure 2.0) was passed into law. The provisions of Secure 2.0 continue the themes and reforms that began with the 2019 Secure Act. Most of the provisions will become effective in 2024 and forward, therefore there is no current impact to the Plan. Since the provisions include both required and optional elements, the Company will determine the optional provisions to elect.

Contributions

Each year participants may contribute up to 50 percent of their pre-tax annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). The Company shall make safe harbor matching contributions on behalf of each participant of an amount equal to 100 percent of the participant's deferral amounts that do not exceed four percent of the participant's annual compensation. A participant is eligible for the matching contribution after completing one year of service. Contributions are subject to certain limitations.

Participant Accounts

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions, any Company contributions, and qualified rollover contributions and adjusted for gains and losses based on the investment performance of a participant's account, less any withdrawals. Participant accounts may be charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The participant is entitled to a benefit equal to his/her vested account balance.

Notes Receivable from Participants

Notes receivable from participants are not permitted by the Plan.

(1) Description of Plan (Continued)

Vesting

Participants are immediately vested in all voluntary and Company matching contributions plus earnings thereon.

Payment of Benefits

On termination of service due to death, disability, retirement, or other reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his/her account. If a participant's vested interest in his/her account does not exceed \$5,000, a distribution shall be made in a single-sum payment or through rollover as soon as administratively possible following termination of service date.

Hardship Withdrawals

In the event funds are needed because of extreme financial hardship, as defined by law, the participant may be allowed to make a withdrawal of his/her vested account balance from eligible accounts, as defined by the Plan. In accordance with the Internal Revenue Code (IRC), benefits withdrawn prior to age 59½ may be subject to additional taxes.

Investment Options and Investments

Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment options at any time. As of December 31, 2023, the Plan offered diversified investments in mutual funds and one group annuity contract as investment options for participants. Employees who do not make an investment selection from the available options are automatically enrolled in the appropriate Target Date Retirement fund.

(2) Summary of Significant Accounting Policies

The accounting policies of the Plan are maintained in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The Financial Accounting Standards Board (FASB) provides authoritative guidance regarding U.S. GAAP through the *Accounting Standards Codification (ASC)* and related Accounting Standards Updates (ASUs). The following describes the more significant of those policies:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(2) Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors, trustee, and recordkeeper. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Contributions

Contributions from Plan participants and the matching contributions from the Employer are recorded in the year in which the employee contributions are withheld from compensation.

Payment of Benefits

Benefits are recorded when paid.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions, when applicable.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to participant benefit payments are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

Accounting Pronouncement – Adopted

In June 2016, the FASB issued guidance *ASC 326* which significantly changed how entities measure credit losses for most financial assets and certain other instruments that are not measured at fair value through net income. The most significant change in this standard is a shift from the incurred loss model to the expected loss models. Under the standard, disclosures are required to provide users of the financial statements with useful information in analyzing an entity's exposure to credit risk and the measurement of credit losses. Financial assets held by the Plan that are subject to the guidance in FASB *ASC 326* are guaranteed investment contracts. The Company adopted the standard effective January 1, 2023. The impact of the adoption was not considered material to the financial statements.

(3) Information Prepared and Certified by the Trustee (Unaudited)

Principal Trust Company, the trustee of the Plan as of December 31, 2023 and 2022, have certified to the completeness and accuracy of the following data included in the accompanying financial statements.

- Investments at fair value and at contract value, as shown in the statements of net assets available for benefits as of December 31, 2023 and 2022.
- Net appreciation (depreciation) in fair value of investments and interest and dividend income, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2023.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements, including related footnote disclosures and supplemental information.

(4) Group Annuity Contract with Principal Life Insurance Company

The Plan's investments include the Principal Fixed Income Option, a fully benefit-responsive investment contract totaling \$10,043,111 and \$10,277,927 at December 31, 2023 and 2022, respectively. The Principal Fixed Income Option is a guaranteed general account-backed group annuity contract issued by Principal Life Insurance Company (Principal Life) to Principal Trust Company. The contract guarantees principal and provides a stated rate of return backed by Principal Life. The rate credited to participant accounts is a composite weighted average of underlying guarantees provided in the contract. Each underlying guarantee is in effect for its full maturity. The maturity of each guarantee varies from two to ten years at the establishment of the guarantee. Each guarantee matures at a different time. The composite rate is reset semiannually based on the changing weighted average of the underlying guarantees and applies prospectively. The composite rate is subject to an indexed minimum guaranteed rate that is determined through a formula according to state insurance regulations. The minimum rate will range between one percent and three percent depending on prevailing market conditions.

The composite crediting interest rate history for the contract is as follows:

<u>Time Period</u>	<u>Rate</u>
January 1, 2022 - June 30, 2022	1.00%
July 1, 2022 - December 31, 2022	1.15%
January 1, 2023 - June 30, 2023	1.40%
July 1, 2023 - December 31, 2023	1.70%

The rates above reflect a deduction for Plan level recordkeeping expenses of 0.65 percent.

(4) Group Annuity Contract with Principal Life Insurance Company (Continued)

The contract provides for benefit payments, including participant-directed transfers, at contract value (i.e., no transfer charges, redemption fees, early withdrawal charges, or market value adjustments) for withdrawals due to retirement, termination of employment, disability, or death. No transfer charges, redemption fees, early withdrawal charges, or market value adjustments are charged on participant transfers into or out of the Fixed Income Option. Participant transfers, either directly or indirectly, to competing Plan investment options will generally be subjected to an equity wash. An equity wash generally requires that transfers must be directed to a noncompeting investment option under the Plan for 90 days before such transferred amounts may be directed to any competing investment option available under the Plan. Competing Plan investment options include other guaranteed investment options or fixed income, money market, or bond funds that had an average duration of three years or less.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the Plan. Contract value as reported to the Plan by Principal Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of the contract issuer. Based on ongoing credit evaluations of the investments, the Company does not expect payment defaults or delinquencies and has not recorded an allowance for credit losses for the investment as of December 31, 2023. There are no unfunded commitments associated with the contract.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) temporary absence, (2) change in position or other occurrence qualifying as a temporary break in service under the Plan, (3) transfer or other change in position resulting in employment by an entity controlling, controlled by, or under common control of the Company, (4) cessation of an employment relationship resulting from a reorganization, merger, layoff, or the sale or discontinuance of all or any part of the Company's business, (5) removal from the Plan of one or more groups or classifications of participants, (6) partial or complete Plan termination, or (7) Plan disqualification. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

(5) Fair Value Measurements

The FASB issued a statement that defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2023 and 2022.

Mutual Funds: Valued at the daily closing price as reported by the funds. The funds held by the Plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2023	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual Funds	<u>\$ 122,640,826</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 122,640,826</u>
2022				
Mutual Funds	<u>\$ 103,237,419</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 103,237,419</u>

(6) Income Tax Status

The Company adopted Principal Life's Non-Standardized Pre-Approved Profit Sharing Plan with CODA. The prototype plan sponsor has received a favorable opinion letter from the Internal Revenue Service (IRS), dated June 30, 2020, which states its prototype plan, in form, meets the requirements under Section 401(a) of the IRC and, therefore, is tax exempt under the provisions of Section 401(a). The Plan has not received a determination letter specific to the plan itself, however, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Plan administrator also maintains that the Plan has been administered in accordance with all applicable laws, and accordingly, no provision has been made in income taxes in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2023, there are no uncertain tax positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(7) Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan; therefore, these transactions qualify as party-in-interest transactions. Fees paid to the trustee by the Plan for administrative services, including participant fees and withdrawal charges, totaled \$159,546 during the year ended December 31, 2023.

Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempted from the prohibition of party-in-interest transactions under ERISA.

(8) Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will remain 100 percent vested in their employer contributions.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market volatility, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

(10) Subsequent Events

Management has evaluated events subsequent to December 31, 2023 through October 11, 2024, the date these financial statements were available to be issued.
