Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants
Electron Devices Bargained Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Electron Devices Bargained Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is a complete and accurate reflection of its records.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules, Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2023, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the Electron Devices Bargained Plan, formerly known as L3Harris Electron Devices Pension Plan for Bargained Employees (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was established effective February 28, 2005 in connection with the acquisition of Boeing Satellite Systems, Inc. by the Company, from Boeing Company. On that date, the Plan accepted a transfer of assets and liabilities attributable to certain employees of Boeing Satellite Systems, Inc. who participated in The Boeing Satellite Systems Retirement Plan for Bargained Employees (the Prior Plan). The Plan is a defined benefit plan covering bargaining unit employees, who are eligible to participate in the non-contributory and/or contributory benefit. Participation in the Plan commenced as of the effective date when an employee was represented by a collective bargaining agreement that specifically provided for coverage under the Plan. On June 29, 2019, L3 Technologies, Inc. completed its merger with Harris Corporation to create L3Harris Technologies, Inc. In 2019, investment assets of the Plan were maintained in the L-3 Communications Corporation Master Trust, administered by Bank of New York Mellon, as trustee through December 31, 2019. Effective December 31, 2019, the Plan's funds were transferred to the L3Harris Pension Master Trust. All Plan assets are held in safekeeping by Northern Trust Company (the trustee). The trustee maintains these assets and the related accounting records, executes transactions and distributes benefits paid by the Plan. The Plan is subject to the provisions of ERISA.

Effective October 4, 2021, L3Harris Technologies, Inc. completed the divestiture of Electron Devices to Arlington Capital Partners, which began operating Electron Devices independently under Stellant Systems (the Company). The Plan's funds were transferred from the L3Harris Pension Master Trust to a trust in the name of Stellant Systems with assets held in safekeeping by Northern Trust Company. As of the divestiture date, the Plan name was changed from L3Harris Electron Devices Pension Plan for Bargained Employees to Electron Devices Bargained Plan.

Plan amendment: On September 20, 2023, the Board of Directors of the Company amended the Plan to cease future benefit accruals effective September 30, 2023.

On October 30, 2023, the Board of Directors of the Company amended the Plan to terminate the Plan effective October 31, 2023. All participants will become fully vested as of October 31, 2023 and will have the option to receive a lump sum payment or an annuity for the value of their accumulated benefits, upon termination. The estimated effect of the plan termination on the accumulated benefit obligation is not known at this time.

Funding: Contributions to provide benefits under the Plan are made by the Company and eligible employees. Active employees' accumulated contributions with interest for the years ended December 31, 2023 and 2022 were \$1,084,510 and \$1,604,795, respectively. Employee contributions were credited interest at a rate of 4.84% and 1.16% for the years ended December 31, 2023 and 2022, respectively. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements for 2023 and 2022.

Eligibility: Under the contributory benefit participation, the Plan requires employee contributions for eligible employees under the Prior Plan with active or rehired status as of February 27, 2005. Participation in the contributory benefit requires employees' contribution of 3% of pay, as defined under the Plan.

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan (Continued)

Eligibility (continued): The contributory portion of the Plan is frozen to any employee hired after the effective date of the Plan. The Plan is frozen for employees hired on or after June 1, 2007. The Plan is also frozen for all portions as of January 1, 2017 with respect to new hires who are represented by the Electronic and Space Technicians Local 1553 ("EAST"). In 2018, EAST became part of the United Brotherhood of Carpenters and Joiners of America Local 721. As such, employees hired on or after January 1, 2007, who are represented by EAST are not eligible to participate in the Plan. The Plan is frozen for all portions as of May 31, 2007 with respect to new hires who are hired on or after June 1, 2007 and are represented by the International Brotherhood of Electrical Workers Local 2295 ("IBEW 2295").

Pension benefits: A participant becomes fully vested in the Plan after completing 5 years of service or upon reaching age 65, regardless of the number of service years completed. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits (unless age 65 or above). Participants are entitled to receive pension benefits beginning at the normal retirement age of 65 equal to the greatest of the Final Average Monthly Compensation Benefit, Career Average Benefit, and Minimum Benefit calculations stated in the Plan document. The Plan permits early retirement at age 55 for participants with five years of service. The benefit may begin at the date of early retirement.

Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension benefits commence, the surviving spouse of the deceased vested participant generally receives benefits equal to 50% of the amount which would have been payable to the retiree under the applicable joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree.

Death benefits: A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement. If vested, but not eligible for retirement, how the benefit is calculated depends on whether the participant deceased prior to reaching age 55 or after and is stated within the Plan document. If the participant is not vested, a lump sum of the participant contribution account is paid to the beneficiary. The surviving spouse of a married vested participant is entitled to lifetime benefit of a 50% survivor annuity, payable at what would have been the participant's early retirement date.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated Plan benefits as of the date of the financial statements and changes therein. Actual results could differ from those estimates.

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Directors determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2023) through October 15, 2024, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Northern Trust Company (Trustee)

The following is a summary of the Plan's information as of December 31, 2023 and 2022, and for the years then ended, included throughout the Plan's financial statements and ERISA-required supplemental schedules obtained by management and agreed to or derived from information certified by the Trustee. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets is a complete and accurate reflection of its records. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedules related to the following assets:

	December 31	
	2023	2022
Investments at fair value:		
Short-term investment	\$ 596,689	\$ 930,684
Common collective trust funds	56,836,171	59,596,513
	<u>\$ 57,432,860</u>	<u>\$ 60,527,197</u>

Northern Trust Company also certified to the completeness and accuracy of \$4,642,755 of net appreciation in the fair value of investments and \$16,489 of interest, related to the aforementioned Plan assets for the year ended December 31, 2023. Northern Trust Company also certified to the completeness and accuracy of \$6,840,143 of net depreciation in the fair value of investments and \$196,726 of interest, related to the aforementioned Plan assets for the year ended December 31, 2022.

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4. Risks and Uncertainties

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices which are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 5. Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Short-term investments: Primarily comprised of short-term money market funds, which invest primarily in short-term, high quality money market securities such as government obligations, commercial paper, time deposits and certifications of deposit which are valued at cost, which approximate fair value, or valued at quoted market prices of identical instruments.

Common collective trusts: Valued at NAV and are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. Common collective trusts are reported at NAV, as of the measurement date. NAV is used as a practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022.

Description	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Short-term investment	\$ 596,689	\$ -	\$ -	\$ 596,689
Investments measured at NAV (a)				56,836,171
Investments at fair value				\$ 57,432,860

Description	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total
Short-term investment	\$ 930,684	\$ -	\$ -	\$ 930,684
Investments measured at NAV (a)				59,596,513
Investments at fair value				\$ 60,527,197

- (a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2023 and 2022.

NOTES TO FINANCIAL STATEMENTS

Note 5. Fair Value Measurements (Continued)

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

Note 6. Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries.

The actuarial present value of accumulated Plan benefits is determined by Segal, independent consulting actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated Plan benefits at January 1, 2023, was:

Vested benefits:

Participants currently receiving benefits	\$ 28,570,372
Accumulated employee contributions for active participants	1,084,510
Other participants	12,159,410
Actuarial present value of non-vested benefits	<u>146,317</u>

Total actuarial present value of accumulated Plan benefits	<u>\$ 41,960,609</u>
---	-----------------------------

During 2023, the actuarial present value of accumulated Plan benefits changed as follows:

Actuarial present value of accumulated Plan benefits, beginning of year	\$ 52,219,178
Increase (decrease) during the year attributed to:	
Benefits accumulated and other	159,191
Benefits paid	(8,992,933)
Assumption changes	<u>(1,424,827)</u>
Actuarial present value of accumulated Plan benefits, end of year	<u>\$ 41,960,609</u>

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6. Actuarial Present Value of Accumulated Plan Benefits (Continued)

The effect of Plan amendments on accumulated Plan benefits is recognized during the year in which such amendments become effective. The significant actuarial assumptions used in the valuations as of January 1, 2023 the date of the latest actuarial valuation, are summarized as follows:

Discount rate – 4% (previously 7.50%), compounded annually

Mortality table – Pri-2012 Gender-Specific Mortality Table projected with MP-2021 scale.

Retirement age – Retirement starting at 55 through 70, at varying rates, with 100% by age 70. The retirement assumption at age 65 was 25%.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2023. Had the valuations been performed as of December 31, 2022 there would be no material differences.

The actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Note 7. Related Party and Parties-in-Interest Transactions

Northern Trust Company is the Trustee of the Plan; therefore, transactions with the Trustee qualify as party-in-interest transactions. Fees paid by the Plan to the Trustee totaled \$19,257 and \$13,898 for the years ended December 31, 2023 and 2022, respectively.

Creative Planning Holdco, LLC and Blackrock are investment advisors of the Plan; therefore, transactions with the investment advisors qualify as party-in-interest transactions. Fees paid by the Plan to Creative Planning Holdco, LLC and Blackrock totaled \$116,667 and \$83,041, respectively, for the year ended December 31, 2023. Fees paid by the Plan to Creative Planning Holdco, LLC and Blackrock totaled \$50,000 and \$0, respectively, for the year ended December 31, 2022.

Certain investments were invested in securities managed by the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund.

Segal is the actuary of the Plan and PBMares, LLP serves as Plan auditor; therefore, transactions with the actuary and the Plan auditor qualify as party-in-interest transactions. Fees paid by the Plan to the actuary and the Plan auditor totaled \$234,768 and \$52,794, respectively, for the year ended December 31, 2023. Fees paid by the Plan to the actuary and the Plan auditor totaled \$187,732 and \$0, respectively, for the year ended December 31, 2022. The Company also paid certain administrative expenses of the Plan.

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 8. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions (if applicable), taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2023, that ceiling is \$6,750 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC. See Note 1 for discussion of termination.

ELECTRON DEVICES BARGAINED PLAN

NOTES TO FINANCIAL STATEMENTS

Note 9. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated October 18, 2017, stating that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is designed, and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

Note 10. Nonexempt Transactions

During January to September 2022 and 2021, the Company inadvertently failed to deposit \$30,629 and \$10,192, respectively, of participant deferrals within the required timeframe as stated by the DOL regulations. The Company filed the Form 5330 and paid the applicable excise taxes in 2023. The excise tax payments were made from the Company's assets and not from assets of the Plan.

In addition, during November 2022, the Company inadvertently failed to deposit \$3,488 of participant deferrals within the required timeframe as stated by the DOL regulations. The Company intends to file Form 5330 and intends to pay the applicable excise taxes in 2024. The excise tax payments will be made from the Company's assets and not from assets of the Plan.

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest	The interest rates used for the 2023 plan year are the 24-month average corporate bond segment rates for September 2022 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. Each of the three segments of the yield curve reflecting the 25-year average rates is constrained to be no less than 5%. For 2023, the stabilization corridor is 5%. It will remain at 5% through 2030 and then increase by 5% per year beginning in 2031 until it reaches 30% for 2035. The interest rate description above reflects that the plan sponsor elected to apply the ARPA provisions beginning with the 2022 plan year. The rates are as follows:			
		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
	Current Year, reflecting stabilization (post-ARPA)	4.75%	5.00%	5.74%
	Current Year, without stabilization	1.41%	3.09%	3.58%
	Prior Year, reflecting stabilization (pre-ARPA)	4.75%	5.18%	5.92%
	Prior Year, without stabilization	1.07%	2.68%	3.36%
	The interest rates used to determine the PBGC variable-rate premium are:			
		Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
	Current Year	4.84%	5.15%	4.85%
	Prior Year	1.16%	2.72%	3.10%
	These interest rates are based on the plan sponsor's election (an election that can currently be changed) and are subject to the constraints established by law.

	70	100.00%	100.00%
	Based on a review of the assumed rates compared to historical experience, in light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.		
Description of Weighted Average Retirement Age	Age 62, determined as follows: The individual weighted average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements. The overall weighted average retirement age is the average of the weighted average retirement ages of contributory and non-contributory active participants included in the January 1, 2023 actuarial valuation.		
Retirement From Inactive Status	<u>Contributory:</u> Participants who met the “Rule of 75” eligibility at termination are assumed to retire immediately <u>Non-Contributory and Non-“Rule of 75” Contributory:</u> 100% at Age 65 Based on a review of the assumed rates compared to historical experience, in light of the plan provisions and professional judgment, these assumed rates reflect a reasonable expectation for the future.		
Percent Married	70% male, 55% female. Spouse is assumed to be the opposite gender.		
Age Difference	Male spouses are assumed to be three years older than female spouses.		
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$200,000 (previously, \$100,000) are expected to be paid by the plan during the year. This assumption is based on recent historical data, adjusted to reflect PBGC premium changes, input from the plan sponsor, and estimated future experience and professional judgment.		
Asset Method	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50% for 2021 and 4.00% for 2022, not to exceed the applicable third segment rate of 5.47% for 2021 and 5.92% for 2022.

Funding Method and Contribution Requirement	<p>Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.</p> <p>Plan sponsors are required under Internal Revenue Code Section 430 to make a minimum level of contributions to qualified pension plans. Available credit balances can be used to satisfy this required contribution. In general, the minimum required contribution is the sum of the target normal cost and an installment that amortizes the plan's funding shortfall, offset by any plan overfunding, if applicable. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within fifteen years. Once that is achieved, or for overfunded plans, the minimum required contribution will generally equal the target normal cost reduced by any overfunding.</p>
