Independent Auditor's Report

To the Board of Directors
Outward Bound USA 403(b) DC Plan
Boulder, Colorado

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Outward Bound USA 403(b) DC Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023 and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Outward Bound USA 403(b) DC Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Outward Bound USA 403(b) DC Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Outward Bound USA 403(b) DC Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Outward Bound USA 403(b) DC Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Outward Bound USA 403(b) DC Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2023 and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedules related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Outward Bound USA 403(b) DC Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a 403(b) defined contribution plan sponsored by Outward Bound USA (the Organization) for the benefit of its employees who have at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

As of May 1, 2009, all participant elective deferrals and Organization matching contributions ceased, except for participants of the Expeditionary Learning Schools, which were ceased as of May 16, 2009.

Effective July 1, 2023, the Plan was amended and restated to merge the Outward Bound USA 403 (b) TDA plan into the Plan, and allow for participant elective deferrals, Organization matching contributions, participant loans and hardship distributions. Plan assets totaling \$5,815,038 were transferred into the Plan as of July 1, 2023.

Eligibility

Effective July 1, 2023, all current Organization employees are eligible to make elective deferrals immediately and all newly hired employees are eligible to make elective deferrals upon hire. Participants are eligible to receive Organization discretionary matching contributions if they have completed 6 months of service (requirements include being regularly scheduled to work 125 days, completion of 6 months of service or completion of at least 500 hours).

Contributions

Participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

Effective July 1, 2023, participants may contribute a percentage of pretax annual compensation, as defined in the Plan, not to exceed the maximum amount allowable by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Each year, the Organization may make a discretionary matching contribution. During the year ended December 31, 2023, the Organization contributed a discretionary matching contribution up to 3% of employee wages.

Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers participants several pooled separate account options, and insurance company general account options, that are part of individual Teachers Insurance and Annuity Association of America (TIAA) variable annuity contracts.

Contributions are subject to certain IRS limitations.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 1: Description of Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contributions and Organization matching contributions, and allocations of plan earnings (losses) and forfeitures of terminated participants' nonvested accounts, and charged with allocations of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, plus actual earnings (losses) thereon. Vesting in the Organization's contribution portion of a participant's account is based on the number of years of service consisting of at least 1,000 hours worked per year. A participant is 50% vested after one year, and 100% vested after three years of credit service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 or 50% of their vested account balances. The notes are secured by the balances in the participants' accounts and bear interest equal to the Federal Reserve Board Bank Rate, plus one percent. The interest rate will be fixed on the date the note is processed and will remain constant during the term of the note. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service a participant may elect to receive either a lump-sum, annual installments, or purchase an annuity contract, equal to the value of the participant's vested interest in his or her account. Participants may choose to roll over distributions to other eligible retirement plans. The Plan also allows for in-service distributions in the event of a financial hardship, as defined in the Plan document, or upon attainment of age 59 1/2. Certain withdrawal restrictions are in place if a participant is invested in the TIAA Traditional Non-Benefit-Responsive investment contract.

Forfeitures

At December 31, 2023 and 2022, forfeited nonvested accounts totaled \$2,214 and \$1,102, respectively. These accounts will be used to reduce future Organization contributions, reallocated to participants, or to pay administrative expenses of the Plan in accordance with the plan document. No forfeitures were used during the year ended December 31, 2023.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts (FBRICs). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

FBRICs are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Organization. Expenses that are paid by the Organization are excluded from these financial statements. Investment-related expenses are allocated proportionately to plan participants based on their respective account balances and are included in total investment income.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies (Continued)

Subsequent Events

Effective September 1, 2024, the Plan was restated to add an Organization discretionary nonelective contribution upon completion of 6 months of service. Under the restated Plan document, effective January 1, 2025, the Plan will allow Roth contributions and include a 3% automatic enrollment provision for all newly eligible employees.

The Plan has evaluated subsequent events through October 14, 2024, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described, as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

Pooled Separate Accounts: Accumulation Unit Values of College Retirement Equities Fund (CREF) and TIAA Access account investments are primarily valued using market quotations or prices obtained from independent pricing sources. Accumulation Unit Values of TIAA Access are based on the value of the underlying mutual fund investments. CREF Money Market Account holdings are generally valued at amortized cost. Each account determines its unit value each day. The TIAA Real Estate Account (REA) generally invests in real estate properties and real estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments as well as such liquid fixed-income investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA also holds liquid, fixed-income investments. These are generally priced using quoted prices in active markets or values obtained from independent pricing sources. Unit values are calculated daily.

Fixed Annuity Contract: The TIAA Traditional Non-Benefit-Responsive Annuity is offered through a variety of contracts, including Retirement Annuities (RAs), Group Retirement Annuities (GRAs) and Retirement Choice annuities (RC). Units are valued based upon accumulated cash contributions, plus interest credited to the Plan's contracts, and transfers in, less any withdrawals and transfers from the Plan's contracts, which is contract value. Fair value in accordance with accounting literature is the price that would be received to sell an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date, which is a market based approach.

TIAA asserts that, based on two theories, contract value approximates fair value. TIAA has used a quantitative model, using 25 years of data for this investment as a whole, to demonstrate that discounted cash flows, based upon an 85% correlation between the 10-year treasury rate and the TIAA Traditional Annuity average return, supports one of its two theories of why the contract value approximates fair value using discounted cash flows. The other theory is that participants choosing to invest in this fund, by choice, represents willing market participation and orderly transactions. Management is unable to conclude whether there may be a material difference between contract value and using a discounted cash flows model for the Plan.

The following sets forth the restrictions pertaining to certain investments in the Plan:

CREF Accounts – Accumulation units in CREF Accounts are available for transactions at the closing accumulation unit value on any day the New York Stock Exchange (NYSE) is open for business. The daily unit values are listed on Nasdaq. In an effort to reduce market timing and excessive trading, shareholders will not be permitted to make electronic transfers back into that same account through a purchase or exchange for 90 calendar days, if a sale/exchange, repurchase, and resale/exchange within that account is made within a 60-day period, other than for the CREF Money Market Account.

TIAA Real Estate Account (REA) – Accumulation units in the REA are available for transactions at the closing accumulation unit value on any day the NYSE (or certain affiliated exchanges) is open for trading. Transfers out of the REA to a TIAA or CREF account or into another investment option can be executed at any time, but are limited to once per calendar quarter, although some plans may allow systematic transfers that result in more than one transfer per calendar quarter. Certain other limited exceptions to this restriction apply. The daily unit values are listed on the Nasdaq.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 3: Fair Value Measurements (Continued)

Although most of the underlying assets of the REA cannot be quickly sold and converted to liquid assets, the TIAA General Account provides the REA with a liquidity guarantee – i.e., TIAA ensures that the REA has funds available to meet participant redemption, transfer or cash withdrawal requests executed at quoted unit values.

TIAA Traditional Annuities - see Note 4

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2023 and 2022. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

	Assets at Fair Value as of December 31, 2023			
	Level 1	Level 2	Level 3	Total
Pooled Separate Accounts	\$ -	\$ 8,581,131	\$ -	\$ 8,581,131
Fixed Annuity Contract	-	-	764,416	764,416
Total investment assets in the fair value hierarchy	\$ -	\$ 8,581,131	\$ 764,416	\$ 9,345,547

	Assets at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total

Total investment assets in the fair value hierarchy	\$ -	\$ 2,803,482	\$ 650,453	\$ 3,453,935

There were no transfers in, transfers out, or purchases of the Plan's Level 3 assets during the year ended December 31, 2023. Issues from the Plan's Level 3 assets during 2023 totaled \$8,265.

Note 4: Investment Contracts With Insurance Company (Continued)

TIAA Traditional Annuity

The Plan invests in the TIAA Traditional Annuity option, including both fully benefit-responsive and non-benefit-responsive fixed annuity contract options that are fully and unconditionally guaranteed and backed by the claims-paying ability of TIAA, an insurance company. During the accumulation phase, the TIAA Traditional Annuity provides a guarantee of principal, a guaranteed minimum rate of interest between 1% and 3%, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year", which begins each March 1. Additional interest is not guaranteed for future years. When the contract value accumulation (plan asset) of TIAA Traditional is converted to an annuity (plan withdrawal) based on life expectancy, the present value of the stream of payments is equal to the accumulation.

TIAA issues various types of contracts as funding vehicles for retirement plans. The non-benefit-responsive contract option contains liquidity restrictions on the redemption of TIAA Traditional Annuity accumulations, which could impact the value realized upon exiting the contract. The RA contract does not allow lump-sum cash withdrawals, and participant-initiated transfers or withdrawals may only be made in ten annual installments over a period of nine years (or a fixed period annuity of 5-30 years after termination). With the GRA contract, lump-sum withdrawals are permitted within 120 days following termination of employment and are subject to a 2.50% surrender charge. Other participant-initiated transfers or withdrawals may only be made in ten annual installments over a period of nine years (or a fixed period annuity of 5-30 years after termination). Following termination of employment, participant-initiated withdrawals (other than a lump-sum withdrawal permitted in the 120-day period following termination of employment described above are limited to five annual installments. Participant-initiated lump-sum withdrawals are permitted under the RC contract within 120 days following termination of employment and are subject to a 2.50% surrender charge. Other participant-initiated transfers from the RC contract may only be made in 84 monthly installments. Institutional withdrawals from the RC contracts are allowed over a 60-month (five year) period with a 190-day advance notice from the institution.

Because a portion of the fixed annuity contract options are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of net assets available for benefits. The contract value of TIAA Traditional Annuity equals the accumulated cash contributions, interest credited to the Plan's contracts, and transfers, if any, less any withdrawals and transfers, if any. There are no reserves against contract value for credit risk of the contract issuer or otherwise. There are no known events that will limit the participant's ability to transact at contract value with TIAA. There are no known events or conditions that will allow TIAA to terminate the contract and settle at the amount different than contract value.

Note 5: Information Prepared and Certified by the Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Certain information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2023 and 2022, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2023, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TIAA and CREF, the custodians of the Plan.

Outward Bound USA 403(b) DC Plan

Notes to Financial Statements

Note 6: Party-in-Interest Transactions

Certain investments are managed by TIAA and CREF. TIAA and CREF are the custodians, as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. TIAA is also the recordkeeper of the Plan. Fees for investment management and administrative services during the year ended December 31, 2023, were offset against earnings (losses).

Note 7: Plan Termination

Although it has not expressed any intent to do so, the Organization has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their Organization contributions.

Note 8: Tax Status

The Employer adopted a volume submitter 403(b) Plan with an IRS opinion letter which states that the volume submitter plan document is in compliance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been restated since the date of the opinion letter, however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and has no income subject to unrelated business tax income. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Prohibited Transactions

Under DOL Reg. 2510.3-102(b), the Organization is required to remit the employee contributions to the Plan at the earliest date such amounts can be reasonably segregated from the Organization's general assets. As reported on Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, certain contributions for payrolls during the plan year ended December 31, 2023, totaling \$6,190, were not remitted at the earliest date reasonably segregated. This transaction constitutes a prohibited transaction as defined by ERISA.
