Independent Auditors' Report

To the Participants and Plan Administrator of
The Dial Labor Pension Program

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of The Dial Labor Pension Program (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Baker Tilly US, LLP is a licensed CPA firm that provides assurance services to its clients. Baker Tilly Advisory Group, LP and its subsidiary entities provide tax and consulting services to their clients and are not licensed CPA firms.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

1. Description of Plan

The following description of The Dial Labor Pension Program (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, established August 1, 1952, and restated as of January 1, 2015, is a noncontributory, defined benefit pension plan. The Plan provides retirement and certain other benefits to employees of The Dial Corporation (the Company or Dial), who are represented for collective bargaining purposes by certain labor organizations. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On March 29, 2004, Dial became a wholly owned subsidiary of Henkel of America, Inc. (Henkel).

On January 26, 2009, Dial sold its Aurora, IL manufacturing facility. As of the date of the sale, employees of the facility ceased employment with Dial and their participation in the Plan moved to inactive status. The Plan was amended to immediately vest all benefits of those participants who ceased to be employees of Dial as a result of the sale of the facility and the Plan was frozen as of January 26, 2009.

The Henkel of America, Inc. Benefits Administrative Committee (the Committee), and the plan administrator control and manage the operation and administration of the Plan. State Street Bank and Trust Company, N.A. (State Street) serves as the trustee of the Plan.

Effective September 1, 2013, the Plan was amended to allow for certain terminated vested participants to receive a distribution of their vested benefits if certain requirements were met for a period of time as defined.

The Plan was amended effective October 7, 2022 to allow for the purchase of one or more group annuity contracts. The annuity contracts will cover accrued benefits for certain participants or beneficiaries with payment dates on or before August 1, 2022 and monthly benefits in payment as of August 1, 2022 that are less than $1,500 monthly. On October 14, 2022, the Company entered into an annuity contract with Massachusetts Mutual Life Insurance Company (Mass Mutual) and transferred $32,591,505 in assets out of the Master Trust to Mass Mutual to cover 543 participants that met the criteria as outlined in the amendment. In 2023, the Plan received $1,032,601 in refunds in relation to the 2022 annuity purchase.

Eligibility

Employees who were employed in a collective bargaining unit of the Company represented by a union were eligible to participate in the Plan.

Pension Benefits

An eligible participant becomes vested after the participant completes five years of service. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity or single life annuity. The amount of such benefit depends primarily upon the participant's credited length of service and the benefit unit earned according to the applicable program supplement. In addition to normal retirement benefits at age 65, the Plan also provides, under certain conditions, for early retirement, disability, death, termination and spousal benefits.

Generally, payment of benefits will be in the form of a single life annuity for unmarried participants and a joint and survivor annuity for married participants, unless the participant, with spousal consent, elects another form of benefit permitted by the Plan. Other forms of pension benefit payments are available at the participant's option. The distribution of benefits to any participant entitled to receive a benefit will commence no later than April 1 of the following calendar year in which the participant (1) attains age 72 or (2) the calendar year in which the participant retires.

Death and Disability Benefits

If a married vested participant dies prior to retirement, then a monthly survivor annuity is payable to the surviving spouse. If the participant dies after age 55, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant retired on the day before his or her death. If the participant dies before age 55, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant survived to age 55. If an active participant with five or more years of service dies after age 55, then the surviving spouse is eligible to receive an additional supplemental death benefit, as defined in the plan document.

A participant who becomes disabled while an employee of the Company is eligible to receive a benefit commencing at normal retirement based on continuous service, determined as though the participant had continued in active employment to age 65.

Transfers In

Transfers in of $489,163 as of December 31, 2023 represent reallocations of assets within the Master Trust between the Plan and affiliated plans of the Company that are within the Master Trust.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are held in the Master Trust. Investments in the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Henkel of America Pension Investment Committee determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income (loss) includes the Plan's interest in the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company, including actuarial fees, insurance premiums, legal fees and accounting fees, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Accrued expenses include investment and administrative expenses. Certain investment related expenses are included in the plan interest in the Master Trust investment income (loss) presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is based on an actuarial valuation as of January 1, 2023, prepared by the Plan's actuary, Mercer, using the present value of accrued benefits.

Accumulated plan benefits are those future periodic benefits payments, including lump-sum distributions that are attributable under the Plan's provisions to the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of participants who have died and (c) present participants or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability and termination of employment - are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits as of January 1, 2023 is as follows:

Vested benefits:		
Retired participants and beneficiaries currently receiving benefits	$	2,905,057
Other participants		3,253,824
Total vested benefits		6,158,881
Total actuarial present value of accumulated plan benefits	$	6,158,881

The change in actuarial present value of accumulated plan benefits for the year ended December 31, 2022 is as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	$ 44,863,980
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience (gains) or losses	(3,144,314)
Increase for interest due to decrease in discount period	1,447,344
Benefits paid*	(36,755,573)
Changes in actuarial assumptions	(252,556)
Actuarial present value of accumulated plan benefits, at end of year	$ 6,158,881

*Benefits paid includes the prior year annuity purchase.

Significant assumptions underlying the actuarial computations for the year ended December 31, 2022 are as follows:

Interest rate	4.70%
Mortality	Pri-2012 sex distinct, separate employee and retiree tables with contingent survivor adjustments and no collar adjustments applied and with future improvement using the MP-2021 projection scale
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed from 4.20% to 4.70% resulting in a decrease of $252,556 in actuarial present value of accumulated benefits for the year ended December 31, 2022.

Subsequent Events

Subsequent events were evaluated through October 11, 2024, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by
- correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value by the Plan and in the Master Trust. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Short-term investments consist of cash and cash equivalents, foreign currencies, the State Street Short Term Investment Fund and U.S. Treasury Bills. The State Street Short Term Investment Fund is valued at net asset value (NAV) of shares held at year end. Foreign currencies and U.S. Treasury Bills are valued based on quoted market prices in the active markets on which the individual securities are traded.

Corporate debt obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The collective trusts and commingled funds are valued at the NAV of units of a bank collective trust. The collective trusts and commingled funds are valued at the NAV of the unit values of such funds held by the Plan at year-end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trusts and commingled funds, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The private equity limited partnerships are valued at NAV in a manner consistent with fair value guidance. The values assigned are based upon the general partners estimates and assessment of each underlying investment, incorporating valuation techniques that consider the evaluation of financing and sale transactions with third parties, EBITDA (earnings before interest, taxes, depreciation and amortization) multiples, expected cash flows and market-based information, including comparable transactions and performance multiples, among other factors. The Committee considers fair value measurements based on valuations provided by the investment manager of the partnerships. The private equity limited partnerships have unfunded commitments and redemption restrictions and are classified as Level 3 in the fair value hierarchy. The redemption restrictions do not have a material impact on the stated NAV's of the limited partnerships, which represent fair value, as of December 31, 2023 and 2022.

Investments Measured Using NAV per Share Practical Expedient

The following tables summarize investments measured at fair value based on NAV per share as of December 31, 2023 and 2022:

December 31, 2023	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Collective trusts and commingled funds	$ 100,850,723	$ -	Daily	N/A

December 31, 2022	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Collective trusts and commingled funds	$ 95,930,331	$ -	Daily	N/A

4. Undivided Interest in the Henkel of America Master Trust

The Plan's investments are in the Master Trust, which was established for the investment of assets of the plan and several other Company sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income (loss) less actual distributions and allocated administrative expenses. At December 31, 2023 and 2022, the Plan's undivided interest in the net assets of the Master Trust was 3% and 2%, respectively. Total investment gain (loss) (including net appreciation (depreciation) in the value of investments) and administrative expenses of the Master Trust are allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the Master Trust.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's undivided interest as of December 31, 2023 and 2022:

	Master Trust Balances 2023	Plan's Interest in Master Trust Balances 2023	Master Trust Balances 2022	Plan's Interest in Master Trust Balances 2022
Short-term investments	$ 47,634,890	$ 1,237,462	$ 45,687,769	$ 1,042,322
Corporate debt obligations	363,253,686	9,436,622	358,371,400	8,175,896
U.S. government agency securities	6,036,992	156,829	5,123,938	116,898

Receivables for interest, dividends and securities sold	5,316,983	138,125	3,062,075	69,858
Total	$ 523,681,118	$ 13,604,214	$ 511,939,299	$ 11,679,398

The following are net appreciation (depreciation) in the fair value of investments and investment income for the Master Trust for the years ended December 31, 2023 and 2022:

	2023	2022
Net appreciation (depreciation) in fair value of investments	$ 29,094,584	$(235,635,223)
Investment income	19,128,987	10,268,351
Total	$ 48,223,571	$(225,366,872)

The following is a summary of the allocation of net assets of the Master Trust between the plans as of December 31, 2023 and 2022:

Allocation of Net Assets of the Master Trust as of December 31, 2023 and 2022	2023	Percent %	2022	Percent %

Total Master Trust investments in the fair value hierarchy	45,687,769	363,495,338	692,030	409,875,137
Investments measured at net asset value (a)				95,930,331
Total Master Trust investments at fair value	$ 45,687,769	$ 363,495,338	$ 692,030	$ 505,805,468

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The table below sets forth a summary of certain changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2023 and 2022:

Changes in the Fair Value of Level 3 Assets for the Years Ended December 31, 2023 and 2022	2023	2022
Distributions	$ (81,822)	$ (195,249)

The amount of total losses for the years ended December 31, 2023 and 2022 attributable to the change in unrealized gains relating to assets still held at the reporting date was $47,218 and $317,546, respectively.

5. Information Certified by Trustee

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, State Street, the trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022 and the related investment activity reported in the Statements of Changes in Net Assets Available for Benefits for the years then ended.

6. Related-Party and Party in Interest Transactions

The Plan's investments are administered under a contract with State Street. Contributions are held and managed by State Street, who invests cash received, interest and dividend income and makes distributions to participants. These transactions are party in interest transactions under ERISA.

Certain expenses of State Street related to plan operations and investment activity are paid by the Plan, as described in Note 2. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. These transactions are party in interest transactions under ERISA.

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former participants or their beneficiaries have been receiving for at least three years, or that participants eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations (discussed subsequently).

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 4, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

There were no concentrations for the years ended December 31, 2023 and 2022.

10. Funding Policy

The Plan's funding policy is for the Company to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. During 2023 and 2022, the Company made no contributions. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2023 and 2022, to Form 5500:

	2023	2022
Net assets available for benefits per the financial statements	$ 13,578,315	$ 11,654,906
Accrued expenses	25,899	24,492
Net assets available for benefits per Form 5500	$ 13,604,214	$ 11,679,398

The following reconciles the increase in net assets per the financial statements for the year ended December 31, 2023, to Form 5500:

Increase in net assets per the financial statements	$ 1,923,409
Plus current year accrued expenses	25,899
Less prior year accrued expenses	(24,492)
Increase in net assets per Form 5500	$ 1,924,816

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial assumptions for January 1, 2023 funding valuation

Discount rate sponsor elections			
• Segment rates or full yield curve	Segment		
• Look-back months	0		
	Stabilized[1]	**Nonstabilized**	**PBGC**
• First 5 years	4.75%	2.13%	2.13%
• Next 15 years	5.00%	3.62%	3.62%
• Over 20 years	5.74%	3.93%	3.93%
Mortality sponsor elections			
• Healthy and disabled participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2014 mortality tables, adjusted to remove post-2006 projection factors, and projected with mortality improvement to specified years depending on age and gender based on Scale MP-2021.		
417(e) lump sums	Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality with generational improvements projected using MP-2021 projection scale.		
Other economic assumptions			
• Salary increases	Not applicable		
• Flat-dollar benefit increases	Not applicable		
• Social Security wage base increases	Not applicable

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Form of payment	Single life	50% J&S	Lump sum
• Current vested deferred – Married	15%	15%	70%
• Current vested deferred – Single	30%	0%	70%
Unpredictable contingent event assumptions	Not applicable		

Rationale for economic assumptions

- **Discount rate** – The discount rate assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- **417(e) lump sums** – The 417(e) lump sum assumptions for funding purposes are prescribed by IRS Section 430 and relevant regulations.
- **Expected investment return** – The expected rate of return on plan assets for funding purposes is the median rate based on the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions. The expected return on assets assumption is net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Expenses** – Administrative expenses are not paid from the plan trust and are therefore assumed to be $0.

Rationale for demographic assumptions

- **Mortality for Funding** – The mortality assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- **Form of Payment, Vested Deferred Commencement Age and Spouse assumptions** – These assumptions are based on the experience study report titled *Henkel Corporation 2021 Experience Analysis*, issued on November 29, 2021, and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of Major Plan Provisions

Effective date and plan year	Original plan: August 1, 1952 Restated plan: January 1, 2015 Plan year: Calendar Year
Status of the plan	Inactive participants only
Significant events that occurred during the year	None
Definitions	
• Covered employees	Employed in a participating collective bargaining unit and not eligible to participate in the Dial Future Security Plan.
• Employee contributions	None
• Accrued benefit	The benefit rate in effect at termination or retirement times credited service. All locations are inactive.
• Vesting service	One year of vesting service is credited for each year in which an employee works 1,000 or more hours.
• Credited service	One year of credited service is granted for each year in which an employee works 1,615 or more hours. Proportionate credit, to the nearest 1/10 of a year, is given for hours less than 1,615.
Normal retirement	
• Eligibility	First of month coincident with or next following age 65
• Benefit	Accrued benefit, payable at normal retirement
Early retirement	
• Eligibility	Age 55 with 10 years of credited service
• Benefit	The accrued benefit to date of retirement reduced by 6% for each year by which benefit commencement precedes the age listed below:

Unit	Name	Age
869*	Aurora	65
873*	Ft. Madison	65
802	New Berlin	60
878	Memphis	62
892	Clifton	65
875	Bellwood	60

* For master bargaining units, the January 1, 1986 accrued benefit is payable reduced 6% per year from age 60, if greater than the total accrued benefit reduced 6% per year from age 65.

Deferred vested	
• Eligibility	5 years of vesting service or credited service
• Benefit	Accrued benefit payable at normal retirement date. Former participants can also begin receiving benefits after termination. Such benefit is reduced by 6% per year from age 65 to age 55 and actuarial reduction thereafter. Benefit is only payable prior to early retirement age if the participant does not have a grandfathered non-qualified benefit.

Schedule SB, Part V — Summary of Plan Provisions

Disability	
• Eligibility	10 years of credited service; totally & permanently disabled prior to normal retirement date.
• Benefit	Accrued benefit to date of disability, reduced by Worker's Compensation benefits. In addition, if not eligible for a disability pension from Social Security, a temporary annuity is payable to age 65 equal to the accrued benefit.
Thirty Year Retirement	
• Eligibility	Thirty years of credited service and age less than 62 (for master bargaining units only)
Benefit	• Unreduced accrued benefit plus a supplemental benefit ($150 per month for Aurora participants, $175 per month for Fort Madison participants) which is payable to age 62. • For Thirty Year retirements on or after April 1, 2007, Aurora participants will receive their unreduced accrued benefit plus a supplement of $300 per month, payable to age 65.
Pre-retirement death	
• Eligibility	Terminated with deferred vested pension, married at least 1 year
• Benefit (if participant has a grandfathered non-qualified benefit)	Monthly benefit amount equal to the amount which would have been payable to the spouse had the participant retired on the first day of the month following the month in which his death occurred, or at age first eligible for retirement, if later, having elected a 50% joint and survivor annuity.
• Benefit (if participant does not have a grandfathered non-qualified benefit)	Monthly benefit amount equal to the amount which would have been payable to the spouse had the participant retired on the first day of the month following the month in which his death occurred, having elected a 50% joint and survivor annuity.
Form of benefits	
• Automatic form for unmarried participants	Straight Life Annuity
• Automatic form for married participants	50% Joint and Survivor Annuity
• Optional forms (prior to early retirement eligibility for participants who do not have grandfathered non-qualified benefits)	– Straight Life Annuity – Joint and Survivor Annuity: 50% (QJSA) and 75% – Lump Sum
• Optional forms (after early retirement eligibility)	– Straight Life Annuity – Joint and Survivor Annuity: 50% (QJSA), 75%, 100% – Lump Sum (except for grandfathered non-qualified benefits)
• Actuarial equivalence	– Optional Form Annuities: 7.5% interest; 1971 TPF&C (6-yr setback for beneficiaries) – Lump Sum: 417(e) applicable interest and mortality. Stability period: One month. Lookback: fifth month prior to the date of distribution.

Schedule SB, Part V — Summary of Plan Provisions

Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2023, the limit is $265,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2015 and amended through January 1, 2023, are included in this valuation.

- **Most recent plan amendments included:** Amendment #1, adopted November 15, 2016.
- **Plan amendments excluded:** None
- **Late retirement increases:**
  - *Active participants:* Not applicable
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including a retroactive lump sum as of valuation date. The amounts of lump sum is actuarially equivalent to a temporary life annuity of missed payments from age 65 to the valuation date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2022 to 2023.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- The lump sum mortality table was updated to 2023 per IRC section 417(e) and generational improvements based on MP-2021 scale to better reflect future expected lump sum conversion basis.
- Expected investment return was changed from 3.20% for 2022 to 5.10% for 2023.
