Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

The Plan Administrator
Cargill Meat Solution Corporation Employees' Retirement Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Cargill Meat Solution Corporation Employees' Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2023 and 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information

to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedules of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 and Schedule H, line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1 Description of Plan

Plan Description

The following is a brief description of the Cargill Meat Solutions Corporation Employees' Retirement Plan (the Plan) (formerly, Excel Corporation Employee's Retirement Plan). Participants should refer to the Plan document for more complete information.

a) General

The Plan is a defined-benefit pension plan designed to provide benefits to eligible employees. The Plan sponsor is Cargill Meat Solutions Corporation (formerly, Excel Corporation), a wholly owned subsidiary of Cargill, Incorporated (together, the Company) and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The plan is funded entirely by contributions from the Company. Prior to January 1, 1989, a provision of the Plan also allowed voluntary participant contributions. Voluntary contributions are not included in the actuarial valuation of accumulated plan benefits and may be withdrawn at the election of the participant.

The Plan is administered by the Company. The Cargill, Incorporated People Team has overall responsibility for plan design and operations except to the extent it has delegated such responsibilities. Plan investment oversight is provided by the Cargill, Incorporated Pension Investment Committee (the Committee), which has responsibility for establishing investment strategy and monitoring investment performance. Both Cargill, Incorporated People Team and Cargill, Incorporated Pension Investment Committee report to the Cargill, Incorporated Board of Directors. Bank of New York Mellon serves as the trustee of the Plan (the Plan Trustee). Transactions are executed by the Plan Trustee, as directed by the Committee in its capacity as Plan Administrator.

b) Funding Policy

The funded status of the Plan is continually monitored by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to fund pension benefits to Plan participants. Contributions to the Plan are determined by the actuary using the Unit Credit method. The Company's contributions for 2023 and 2022 equaled or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company made no contributions in 2023 and 2022.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

1 Description of Plan (cont.)

c) Pension Benefits

The Plan covers certain employees of the Company who are not covered under any other qualified pension plan to which the Company contributes. Normal retirement occurs at the older of age 65 or the participant's age 5 years after being hired, not to exceed age 70. An early retirement option is available with reduced benefits.

Participants are vested at different rates based on the number of years of service according to the plant location the participant provided service. A participant's vesting percentage is 20% after 3 years of service, and 20% each year thereafter until they become fully vested after 7 years, except for certain plant locations where a participant becomes vested after 5 years of services and has no vesting credits for less than 5 years of service.

A participant's retirement benefit is based on the participant's months of service as defined in the Plan Document. Participants may choose from several options to receive their retirement benefit including a monthly income to the participant for life, a monthly income to the participant for life with certain survivorship rights, and a monthly income to the participant for a fixed period of time with certain survivorship rights.

Effective June 30, 2018, the Plan ceased benefit accruals for all active participants whose benefit has not been previously frozen and all participants ceased earning benefits.

d) Death and Disability Benefits

An active employee who becomes disabled is eligible for a disability benefit. If they remain disabled until early or normal retirement age, they are treated as active through that date and the benefit will be the greater of the Disability Benefit or Accrued Benefit as of the day prior to commencement of their Disability Benefit.

If an employee dies and has a surviving spouse or domestic partner (of at least one continuous year), the benefit is payable to the surviving spouse or domestic partner as an annuity for his or her lifetime. The surviving spouse benefit is payable at the employee's earliest retirement date which is age 55 if the employee had 15 or more years of service). The benefit is payable to a domestic partner beginning the year following employee's death or as a lump sum if the employee is at least age 50 at date of death. The present value of the benefit of a vested participant who dies without a spouse or registered domestic partner will be paid in a lump sum to the participant's estate.

2 Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

b. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual amounts could differ from those estimates.

c. Risks and Uncertainties

The Plan has investments across a range of investment strategies. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates and the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

d. Investments and Income Recognition

The Company established, effective September 3, 1985, a master trust fund (the Master Trust). The purpose of the Master Trust is to pool investment transactions and achieve uniform rates of return on comparable funds under each plan in the Master Trust. Each plan deposits investable funds in the Master Trust and each owns an undivided interest in the net assets of the Master Trust. The Plan's investment in the Master Trust represents its pro rata interest in the net assets of the Master Trust. The unaudited financial statements of the Master Trust are separately filed with the Department of Labor (See note 6).

Transactions and assets of the Master Trust are accounted for separately from those of the Plan. Securities transactions are recognized on the date the order to buy or sell is executed. Net appreciation and depreciation of investments include realized and unrealized gains and losses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See note 7 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

2 Summary of Accounting Policies (cont.)

e. Derivatives

Derivative financial instruments are used by the Master Trust's investment managers primarily to rebalance the fixed income and equity allocation of the Master Trust's portfolio. The derivatives most commonly used by the investment managers are highly liquid exchange-traded equity and fixed-income futures. The fair value of the derivative instruments, none of which are accounted for as hedge instruments under Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 815, *Derivatives and Hedging*, is included in the Master Trust's statement of assets under plan interest in investment income/(loss) of the Master Trust. The use of derivative instruments is not believed to materially increase the credit or market risk of the Master Trust's investments.

f. Payments to Participants

Payment of benefits to participants is recorded upon distribution.

g. Administrative Expenses

Some expenses are paid out of the Master Trust by the Plan Trustee. Any expenses that are directly incurred such as Pension Benefit Guaranty Corporation (PBGC) insurance premiums, and actuarial, audit, and benefits administration fees, are allocated to the plans based on actual costs. These expenses totaled \$2,321,602 and \$976,016 for the years ended December 31, 2023 and 2022, respectively. Expenses incurred by the Master Trust, such as the Plan Trustee and investment management costs, are allocated to the individual plans based upon beginning of month balances invested in the Master Trust. These expenses totaled \$65,127 and \$576,855 for the years ended December 31, 2023 and 2022, respectively. Certain plan administration costs are absorbed by the plan administrator.

3 Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions, to service rendered by employees. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts have been reduced from plan assets and removed from the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits, including both vested (benefits to which participants are entitled, regardless of future service with the Company) and nonvested benefits, is determined as of the beginning of the plan year by the independent actuarial firm Mercer and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements for death, disability, termination, or retirement) between the valuation date and expected dates of payment.

Significant assumptions used in the valuation of the Plan's actuarial present value of accumulated plan benefits include (a) withdrawal and disability rates based upon past experience, (b) assumed mortality rates based upon published statistical data using the PRI-2012 table projected using Scale MMP-2021 for preretirement and the MILES (Mercer Industry Longevity Experience Study) for the Consumer Goods, Food & Drink industry group projected using Scale MMP-2021 for postretirement; (c) assumed retirement age varies from 55 to 65 based upon past experience, (d) assumed rate of return of 5.85% for 2023 and 3.83% for 2022, respectively.

4 Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

In the event the Plan terminates, the benefit of any Highly Compensated Employee (and any Highly Compensated Former Employee), as defined in the Plan, is limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code (IRC).

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with the plan assets, will satisfy all benefits accumulated to the date of the plan termination.

5 Information Certified by the Plan Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the Master Trust, and collects the related investment return.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets and investment returns of the Plan and Master Trust as of and for the years ended December 31, 2023 and 2022 as outlined in the following table:

	2023	2022
Plan Interest in Cargill Master Trust:		
Investments at fair value	\$ 128,653,554	\$ 126,683,883
Investment returns	13,404,656	(36,393,427)

6 Interest in Master Trust

Most of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Cargill sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Plan Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment returns, including realized and unrealized gains and losses, less actual distributions, and allocated administrative expenses. As of December 31, 2023 and 2022, the Plan's interest in the net assets, including realized and unrealized gains and losses, of the Master Trust was approximately 4.7% and 4.7%, respectively. Investment returns related to the Master Trust is allocated to the individual plans based upon beginning of the month balances invested in the Plan.

Investments at fair value, prior to consideration of accrued administrative expenses, for the Master Trust are as follows:

6 Interest in Master Trust (cont.)

Net investment returns for the Master Trust is as follows:

	2023	2022
Net realized and unrealized appreciation (depreciation) in fair value	155,637,352	(852,684,034)

Master Trust investment returns attributable to the Plan	\$ 13,404,656	\$ (36,393,427)

The Master Trust has \$472,971,279 and \$539,121,656 of investments in alternative investment funds as of December 31, 2023 and 2022, respectively, which are reported at NAV. The NAV is used as a practical expedient to estimate the fair value of the investment. Such investments are redeemable with the fund at NAV under the original terms of the partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the Master Trust's interests in the funds.

7 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis for fair value measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices of similar or identical assets in markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present the level within the fair value hierarchy at which the Master Trust investment assets are measured on a recurring basis as of December 31, 2023 and 2022.

	December 31, 2023			
	Level 1	Level 2	Level 3	Total

As of December 31, 2022, the Plan held a direct investment of \$1,639,828 in The Boston Company, Inc. Pooled Employee Funds Daily Liquidity Fund which is a short-term investment fund classified as Level 1.

- (1) Individual securities held directly whose values are based on quoted prices in active markets in which they trade (level 1), and individual securities held through Collective Investment Trusts where the securities are valued based on quoted prices but the Trust is not actively traded (level 2).
- (2) Individual securities whose value is based on quoted NAV and corporate bonds with significant inputs which are observable in the market. As such, they are classified as Level 2 within the fair value hierarchy.
- (3) Short-term investment funds consist of primarily cash and cash equivalents, including liquidity funds which are valued daily by the fund administrator.
- (4) As a result of the application of ASU 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. It consists of limited partnership interests that invest in real estate, private equity, hedge funds, and public equities. Real estate includes debt and equity investments in U.S. and non-U.S. securities. Private equity includes debt and equity investments in U.S. and non-U.S. securities across buyouts, growth capital, distressed debt, mezzanine debt, and venture capital. Real estate and private equity valuations require significant management judgment due to the absence of quoted market prices. Hedge fund investments are diversified by manager, geography, and strategy. Hedge funds are valued based on quoted NAV as determined by the fund administrator. Public equities are managed by an investment management fund in domestic and international markets and are highly illiquid.

During 2023, the Plan management re-evaluated the fair value measurement inputs for investments in collective investment trusts and certain other investment classifications, which were included in equity and debt securities. The Plan management determined the measurement inputs for these category of investments qualify as Level 1 inputs. The value of the investments was also reclassified from Level 2 to Level 1 in 2022 to correct the presentation. Plan management determined this correction is immaterial to the 2022 financial statements and does not affect prior year net assets available for benefits or the prior year changes in net assets available for benefits.

8 Tax Status

The Plan obtained its latest tax determination letter dated March 7, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, qualified under Section 401(a) of the IRC and the Trust created thereunder was exempt from federal income taxes under Section 501(a). The Plan has been amended since this determination letter. However, the Company believes the Plan, as amended, continues to meet the requirements of Section 401(a) of the Code and the related Trust is exempt from income tax under Section 501(a) of the Code. Therefore, no provisions for income taxes have been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2023, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9 Party-in-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Plan Trustee is a party in interest as defined by ERISA as a result of its investing plan assets in certain of their funds. The Master Trust, a master trust established by the plan administrator, is a party-in-interest, as defined by ERISA, as a result of the Plan purchasing participation units of the Master Trust. The transactions described above are exempt under Section 408(b)(8) and are not prohibited by ERISA.

10 Subsequent Events

The Plan has evaluated subsequent events from the statement of net assets available for benefits date through October 11, 2024, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.

• Social Security wage base	Not applicable
• Inflation	Not applicable
• Expected investment return	5.70% for 2021; 2.95% for 2022; 5.55% for 2023
• Expenses	\$2,200,000 added to current year normal cost

Rationale for economic assumptions – Funding

- Discount rate – Prescribed by the IRS and based on the company's current elections.
- Expected investment return – This assumption was confirmed for reasonableness, i.e., equal to the 50th percentile result from Mercer's Portfolio Return Calculator for January 2023, based on the plan's target asset mix provided by Cargill.
- Expenses – Based on the actual administrative expenses from the prior year (excluding the PBGC premiums paid in the prior year) plus expected PBGC premiums for the current year.

35	15.37%
40	12.25%
45	8.69%
50	7.88%
55	4.09%

Rationale for demographic assumptions – Funding

- Mortality – Prescribed by the IRS.
- Withdrawal – Withdrawal rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- Disability incidence – Based on plan's historical experience, an assumption of no disability incidence has historically been used for the plan. This assumption is reviewed annually and has not produced significant gains or losses.
- Retirement age – Retirement rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- Spouse age difference – Based on a plan experience study completed in 2019; it is expected that future spouse age difference will not differ significantly from the period studied.
- Percentage married – Based on a plan experience study completed in 2019; it is expected that future married percentage will not differ significantly from the period studied.
- Form of payment – Based on a plan experience study completed in 2019; it is expected that future form of payment elections will not differ significantly from the period studied.

Actuarial methods for funding**Asset methods – Effective January 1, 2009**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Participant methods – Effective January 1, 2008**

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods – Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Normal Retirement					
•	Benefit	Accrued Benefit as of the date of retirement.			
Early Retirement					
•	Eligibility	Early Retirement is available after attainment of age 50.			
•	Benefit	Accrued Benefit as of the Early Retirement Date multiplied by the vesting percentage and by the factor shown below:			
		Years Early	Factor	Years Early	Factor
		0	1.0000	8	.6042
		1	.9389	9	.5673
		2	.8816	10	.5327
		3	.8278	11	.5002
		4	.7773	12	.4696
		5	.7298	13	.4410
		6	.6853	14	.4141
		7	.6435	15	.3888
Vested Termination					
•	Eligibility	Participants at Albert Lea are 20% vested after 3 years, plus 20% per year thereafter, up to 100%. All other participants are 100% vested after 5 years of vesting service or attainment of age 65.			
•	Benefit	Accrued Benefit as of the date of termination multiplied by the vesting percentage and by the Early Retirement Benefit factor.			
Disability					
•	Eligibility	Active Participant becomes eligible for Social Security disability benefits.			
•	Benefit	The monthly disability benefit is equal to 30 times the Participant's hourly rate of pay on the last day he was actively employed. Payments cease upon the earlier of (1) the Participant's retirement, (2) the Participant's Normal Retirement Date, (3) the Participant's death, or (4) the day following the date the Participant is no longer Disabled. At Normal Retirement, the Participant's Accrued Benefit becomes payable if it exceeds the disability benefit amount.			
Death					
•	Eligibility	A Vested Participant who dies before benefit commencement.			
•	Benefit	If the Participant is survived by a spouse, the benefit is an annuity to the spouse for an amount no less than would have been received had the participant elected a 50% joint and survivor benefit option, quit on the day of his death, lived to and retired on the earliest retirement date, then died the next day. If the Participant is not survived by a spouse, then the actuarial equivalent of the vested accrued benefit will be paid to the beneficiary in a lump sum.			

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	15-year Certain annuity
• Automatic form for married participants	50% Joint and Survivor for married participants.
• Optional forms	Single life annuity, 50%, 66-2/3%, 75% and 100% Joint and Survivor annuity, 5, 10 and 15 year Certain and Life annuity and Certain annuity of at least 5 years, but not more than 15 years; lump sum up to \$25,000.
• Optional form conversion factors	Optional annuity forms of benefit are the actuarial equivalent of the normal form; effective January 1, 2013, actuarial equivalence is based on the RP-2000 mortality table (blended 50% males and 50% females, projected to 2020 using Scale AA) and an interest rate of 5% (optional form benefit cannot be less than the accrued benefit as of December 31, 2012 based on the prior factors); lump sums based on applicable 417(e) mortality and interest rates (fourth month preceding the plan year).
Miscellaneous	
• Maximum benefits	Annual benefits may not exceeds the limits in IRC Section 415. This limit is indexed annually. For 2023, the limit is \$265,000.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2019, adopted December 19, 2022 are included in this valuation.

- **Most recent plan amendments included:** Plan document restatement adopted December 19, 2022.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Current active employees over age 65 are valued including accruals after age 65.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase to age 75.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits: See below.*
 - *Plan amendments: See above.*
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
