INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator of the
Carlos Albizu University 403(b) DC Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Carlos Albizu University 403(b) DC Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statement of net assets available for benefits as of December 31, 2023 and 2022 and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023, and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements – (continued)

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) and the supplemental Schedule of Delinquent Participant Contributions as of and for the year ended December 31, 2023 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2023 and 2022

Note 1 - Description of the plan

The following description of Carlos Albizu University 403 (b) DC Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all regular employees of the Carlos Albizu University, Miami Campus (the Plan Sponsor), who have completed 3 months of continuous service and are age 18 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan Sponsor contributes 5% of each participant's compensation once participants are eligible to participate in the Plan, regardless of whether the participant makes individual contributions.

Each year, participants may contribute an amount of their compensation, as defined in the Plan, not exceeding the maximum deferral amount specified by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions limited to the maximum amount specified by law. Participants may also contribute amounts representing distributions from other qualified plans.

Participants direct the investment of their account balances into various investment options offered by Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF or the Custodian), the custodian of the Plan.

Participant accounts

Each participant's account is credited with the participant's contributions, allocations of the Plan Sponsor contributions and Plan gains or losses. The benefit to which a participant is entitled is the vested benefit that can be provided from the participant's accounts.

Vesting

Participants are immediately vested in their voluntary contributions, Plan Sponsor's contributions, and actual earnings thereon.

Notes to Financial Statements – (Continued)

December 31, 2023 and 2022

Note 1 - Description of the plan – (continued)

Payment of benefits

Upon retirement, disability or death, a participant or beneficiary receives the entire amount credited to the participant's account in either a lump sum or, at the participant's election, in annual installments. Upon termination, other than by retirement, disability, or death, a participant becomes eligible to receive the current value of the participants' vested account in a lump-sum.

Loans

Loans are issued as separate contracts by TIAA-CREF and do not represent Plan assets. Loans are collateralized using a participant's TIAA Traditional Annuity account balance in an amount equal to 110% of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 45% of the participant's TIAA Traditional Annuity account balance, subject to annuity contract and Plan provisions. Loan terms range from one (1) to five (5) years in one-year increments. Principal and interest are paid ratably by the participant to TIAA-CREF and each payment will reduce the amounts collateralized by the borrowing participant's TIAA Traditional Annuity account balance. Outstanding loans from participants due to TIAA-CREF amounted to \$16,335 and \$30,954 as of December 31, 2023 and 2022, respectively.

Plan expenses and administration

The Plan Sponsor is responsible for the general administration of the Plan and for carrying out the provisions thereof. The Plan Sponsor contributions are held and managed by the Custodian, who manages cash received and investment income, and makes distributions to participants. All expenses of the Plan are paid by the Plan Sponsor.

Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, vested participants' accounts, and all funds previously contributed to the Plan, will be used to provide nonforfeitable retirement annuities for the exclusive benefit of participants on the same basis as such apportionment would have been made on the last day of any contract year.

Excess contributions payable

Participants, at times, may contribute excess contributions to the Plan. Such contributions have been historically reimbursed to the participants. Excess contributions are recorded as a liability in the statements of net assets available for benefits and as a reduction of participant-directed contributions for the year.

Note 2 - Summary of significant accounting policies

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP). Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the defined contribution plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (SRA) and the Group Supplemental Retirement Annuities (GSRA), are considered fully benefit-responsive, for which contract value approximates fair value. See Note 4 for further discussion of the TIAA Traditional Annuity.

Use of estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investments valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies using information provided by the investment advisers, custodians, and insurance company. See Note 5, for a discussion of fair value measurements.

December 31, 2023 and 2022

Note 2 - Summary of significant accounting policies – (continued)

Investments valuation and income recognition – (continued)

Investment in non-benefit-responsive TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. Since these investments are contract-based, observable prices for identical or similar investments do not exist, accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. Refer to Note 4 for a discussion of the characteristics of the TIAA Traditional Annuity.

The fair value of the Plan's interest in the TIAA Real Estate Account Fund (a pooled separate account) is based on the fund's daily net asset value (NAV), which is considered by plan management to be the best approximation of fair value. This investment is classified within Level 2 of the fair value hierarchy. The unit value of this fund is calculated daily and available to plan management on the TIAA's Website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this fund.

The fair value of the Plan's interest in the TIAA Access registered investment companies is based on the NAV for the corresponding funds. The NAVs for these funds are considered to be the best approximation of fair value. The investments in the TIAA Access funds are classified within Level 1 of the fair value hierarchy. NAVs are calculated daily and available to plan management on the TIAA's website. The underlying investments of each fund are generally valued using market quotations obtained from independent pricing sources.

The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies) are based on each account's daily NAV, which is considered by plan management to be the best approximation of fair value. CREF accounts are not exchange traded and are classified within Level 1 of the fair value hierarchy. Data for NAVs are available daily to plan management on the TIAA's Website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings.

Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts.

Notes to Financial Statements – (Continued)

December 31, 2023 and 2022

Note 2 - Summary of significant accounting policies – (continued)

Investments valuation and income recognition – (continued)

The Plan records purchases and sales of securities on a trade-date basis. Interest income is recorded on the accrual basis of accounting. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. During the year ended December 31, 2023, the Plan's investments appreciated in value by \$1,399,446.

Notes receivable from participants are measured at their unpaid principal balance, plus accrued interest. Interest income on those notes is recorded on the accrual basis of accounting. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income generated by the notes receivable from participants during the year ended December 31, 2023 amounted to \$411.

Payment of benefits

Benefits are recorded when paid.

Risk and uncertainties

Investment securities are exposed to several risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the recorded value of these investments will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements and supplemental schedule. In addition, the Plan's investments include funds that invest in real estate. Investments in real estate are exposed to specific risks, including fluctuations in property value, higher expenses, or lower income than expected, and environmental contingencies.

Benefits payable

The Plan accounts for benefits payable in accordance with guidance provided by the *AICPA Audit and Accounting Guide, Audits of Employee Benefit Plans*. This guidance requires that benefits payable to persons who have withdrawn from participation in a defined contribution plan be disclosed in the notes to the financial statements rather than recorded as a liability of the Plan. As of December 31, 2023 and 2022, no benefits payable were owed to participants who have elected to withdraw from the Plan, but have not yet been paid.

Notes to Financial Statements – (Continued)

December 31, 2023 and 2022

Note 3 - Information certified by the plan's Custodian (unaudited)

The plan administrator has elected the method of compliance permitted by Section 103(a)(3)(C) for the years ended December 31, 2023 and 2022 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian of the Plan, TIAA-CREF (the Custodian), has certified as to the completeness and accuracy of all investment related information and notes receivable from participants reflected in the accompanying financial statements as of December 31, 2023 and 2022, and for the year ended December 31, 2023, and the related notes to the financial statements, and the Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023.

The Custodian maintains all records, executes investment transactions, and holds all of the assets of the Plan. In addition, the Custodian, upon authorization from the plan administrator, distributes benefit payments to the participants.

Note 4 - TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed rate annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including non-benefit-responsive and benefit responsive contracts. Investment options under the TIAA Traditional Annuity include Retirement Annuities (RA), Group Retirement Annuities (GRA), Retirement Choice (RC), Supplemental Retirement Annuities (SRA), Group Supplemental Retirement Annuities (GSRA), and Retirement Choice Plus (RCP). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by the Custodian's board of trustees. Additional interest, when declared, remains in effect for the declaration year. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

Notes to Financial Statements – (Continued)

December 31, 2023 and 2022

Note 4 - TIAA Traditional Annuity – (continued)

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. With the GRA and RC contract, lump-sum withdrawals are available within 120 days after termination of employment and are subject to a 2.50% surrender charge. All other withdrawals and transfers from the GRA contract must be spread over 10 annual installments (5 annual installments for withdrawals after termination of employment). All other withdrawals and transfers from the RC contract must be spread over 84 monthly installments.

When a participant's accumulation in the TIAA Traditional Annuity is converted to an annuity (plan withdrawal), based on life expectancy, the present value of the stream of payments is equal to the accumulation. The entire amounts are recorded as a distribution in the statement of changes in net assets available for benefits.

Note 5 - Fair value measurements (unaudited)

The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible. The Plan determines fair value based on assumptions that market participants would use in pricing an asset or liability in the principal or most advantageous market.

When considering market participant assumptions in fair value measurements, the following fair value hierarchy distinguishes between observable and unobservable inputs, which are categorized in one of the following levels:

- Level 1 Inputs: Unadjusted quoted prices in active markets for identical assets or liabilities accessible to the reporting entity at the measurement date.
- Level 2 Inputs: Other than quoted prices included in Level 1 inputs that are observable for asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 Inputs: Unobservable inputs for the asset or liability used to measure fair value to the extent that observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

Note 5 - Fair value measurements (unaudited) – (continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

- *TIAA Traditional Annuity Contracts* - Non-benefit-responsive contracts are valued at contract value, which approximates fair value, based on its theoretical transfer (exit) value and a quantitative model that includes assumptions of future risk-adjusted interest rates, ranging from 3.00% to 6.50%, and related discounted cash flows.
- *TIAA Access Annuity* - Valued based on the NAV of the units held by the Plan in each subaccount of the TIAA Separate Account.
- *TIAA Real Estate Account* - Valued based on the NAV of the units held by the Plan in the TIAA Real Estate Fund.
- *Registered Investment Companies* - Valued based on the quoted market price of the shares held by the Plan in each fund, except for money market funds, which are valued at cost plus accrued interest, which approximates fair value. Investments in registered investment companies are classified as Level 1.

The preceding valuation methods may result in fair values that may not be indicative of net realizable values. The use of different methodologies or assumptions to determine the fair value of certain investments could have resulted in different fair value measurements at the reporting date.

The Plan management believes its valuation methods are appropriate and consistent with other market participants. There were no changes in the Plan's valuation methodologies used during 2023.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

Note 6 - Party-in interest transactions

The Plan's investments are managed by the Custodian, which is a party-in-interest to the Plan.

Note 7 - Tax status

403(b) plans are not required to submit to the Internal Revenue Service a request for determination of compliance with the applicable sections of the Internal Revenue Code (the Code). However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the Code. Accordingly, these financial statements do not include a provision or benefit for income taxes.

Note 8 - Delinquent participant contributions

During the year ended December 31, 2023, participants' contributions amounting to \$20,822 were not remitted to the Custodian within the period prescribed by the Department of Labor's Rules and Regulations. As of December 31, 2023, participants' contributions amounting to \$34,149 corresponding to late contributions for the year ended on December 31, 2022 remain uncorrected.

Note 9 - Subsequent events

The Plan has evaluated subsequent events through October 11, 2024, which is the date the financial statements were available to be issued. No events have occurred subsequent to the date of the statement of net assets available for benefit and through the date the financial statements were available to be issued, that would require additional adjustment to, or disclosure in, the financial statements.
