INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator
Firstmark Credit Union Retirement Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Firstmark Credit Union Retirement Pension Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits (in liquidation) as of December 31, 2023, and the related statements of changes in net assets available for benefits in liquidation for the year then ended and the statement of accumulated plan benefits as of December 31, 2022, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2023 and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audits of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Termination and Use of Liquidation Basis of Accounting

As further discussed in Note 6 to the financial statements, the Board of Directors of Firstmark Credit Union made a decision to terminate the Firstmark Credit Union Retirement Pension Plan and determined that liquidation was imminent. As a result, in accordance with GAAP, Firstmark Credit Union Retirement Pension Plan has changed its basis of accounting from ongoing basis of accounting in presenting the 2022 financial statements to the liquidation basis of accounting used in presenting the 2023 financial statements. Our opinion is not modified with respect to this matter.

Emphasis of Matter – Change in reporting period for the Statement of Accumulated Benefits and related Statement of Changes in Accumulated Benefits

The Plan has elected to change its reporting period for the statement of accumulated plan benefits and related statement of changes in accumulated benefits. The Plan will report the statement of accumulated benefits as of December 31, 2022, and the statement of changes in accumulated benefits for the year then ended. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting

a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing audits in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Other Matter - Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) and reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including its form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter – 2022 Financial Statements

The 2022 financial statements of the Plan were audited by predecessor auditors. In accordance with ERISA Section 103(a)(3)(C) pursuant to CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the Plan that were certified by a qualified institution. Their report dated October 5, 2023, indicated that (a) the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with GAAP, and (b) the information in the 2022 financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2022 supplemental schedule, other than the information in the 2022 supplemental schedule that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2022 supplemental schedule related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Note 1 – Description of the Plan

General

As discussed in Note 5, the Plan has been terminated and is in process of liquidation. The Plan is a non-contributory defined benefit pension plan established January 1, 1973, covering employees of Firstmark Credit Union. The Plan has been amended and restated throughout the years to comply with tax legislation. The Plan was last amended and restated on January 1, 2020.

Effective December 31, 2016, the Plan froze accrued benefits. As a result, all affected participants became fully vested in their Accrued Benefit under the Plan. Prior to that, effective July 1, 2013, participation in the Plan was frozen, and as a result, any Eligible Employee who had not become a Participant as of July 1, 2013 would not be able to enter and become a Participant in the plan on or after July 1, 2013. Prior to July 1, 2013, the Plan covered all employees of Firstmark Credit Union (the employer) who had attained age 20 and completed six months of service. Also, an employee would enter the Plan on the January 1st following satisfaction of eligibility criteria.

The Plan is subject to the provisions of the Employment Retirement Income Securities Act of 1974 (ERISA).

Administration

The Credit Union is the Plan Sponsor and named Plan Administrator. The Plan Administrator is responsible for oversight of the Plan. The Trustees determine the appropriateness of the Plan's investment offerings and monitors investment performance and fees. The Plan's Investment Custodian is Charles Schwab Trust Bank. The Investment Custodian holds all of the Plan's assets and executes all of the Plan's transactions. The Plan has also retained Milliman to provide actuary services.

Benefits:

Normal Retirement Benefits - Prior to January 1, 2007, normal retirement age was 65. After that date, normal retirement age is the better of 65 or the "Rule of 85" age (where age plus service equals 85). but in no event earlier than age 62. At the normal retirement age, with five years of service, participants will be entitled to receive a normal retirement benefit. The normal retirement benefit prior to September 10, 2007, is 2% times basic monthly earnings times years of service (not to exceed 20 years). Basic monthly earnings is the participant's average monthly earnings during the highest 60 consecutive completed months of service with the Credit Union. Benefits ceased to accrue under this formula as of September 10, 2007. After July 24, 2007, the normal retirement benefit is equal to the greater of 2%% times the basic monthly earnings times year of service (maximum of 20 years), or the sum of 50% times the basic monthly earnings and 9% times the basic monthly earnings in excess of Social Security Covered Compensations. Payment of benefits will begin as soon as practicable following Normal Retirement Date. All benefit accruals under the Plan ceased as of the December 31, 2016 freeze date. The Normal Form of this benefit is a 120 month Certain and Life annuity for single participation. Married participants may receive a fully subsidized joint and survivor annuity equal to 50% continuation to a surviving spouse (following a 120 month certain period) if the participant predeceases the spouse. Participants may elect other options under the plan.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Early Retirement Benefits - For participants who entered the Plan prior to January 1, 2007, early retirement is age 55. Participants entering after that date can take early retirement at the later of age 55 and 10 years of service. Early retirement benefits shall equal (1) the normal retirement benefit reduced by 7.2% for each of the first five years, and 3.6% for the next five years preceding the Normal Retirement Date, prior to January 1, 2007. After that date, the reduction is 3% per year or portion thereof for each year preceding normal retirement. Payment of the Early Retirement benefits will begin as soon as practicable following the date the participant elects to receive payment and will be paid in the same form as the normal retirement date.

Terminated Benefits - A terminating participant who has completed five years of service is entitled to receive a vested monthly benefit starting on their normal retirement date. The amount of the benefit is equal to the retirement income earned on the basis of service to date multiplied by the appropriate vested percentage. Vesting is 100% at five or more years. An actively employed participant shall be 100% vested upon attainment of early or normal retirement age.

Disability Pension - If a participant with five years of service becomes permanently and totally disabled, he will continue to be treated as if he were employed at the rate of compensation and with the regular number of hours he was earning just prior to becoming disabled. If the participant is no longer disabled, he will be treated as a terminated participant entitled to deferred benefits. Disability benefits will cease upon attainment of normal retirement age.

Death Benefits - In the event of a married participant's death before retirement but after becoming vested, the death benefit will be payable to the surviving spouse in the form of a subsidized survivor annuity. This is a subsidized benefit payable for 120 months and reduced to 50% at the end of the certain period. If there is no surviving spouse, the death benefit is forfeited.

Vesting: All affected participants became 100% vested in their Accrued Benefit as of the December 31, 2016 plan freeze date.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements have been prepared on the accrual basis of accounting. Income from investments is recorded when earned. Expenses are recorded in the accounting period in which they are incurred. Effective November 30, 2023, the Credit Union's Board of Directors adopted a resolution to terminate the Plan. As a result, the Plan's financial statements as of December 31, 2023, and for the year then ended, have been prepared on the liquidation basis, in accordance with accounting principles generally accepted in the United States of America (GAAP). There were no material changes to the 2022 financial statements as a result of the change under the liquidation basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results may differ from those estimates.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and the Investment Custodians. See Note 4 for discussion of fair value measurements.

The purchase and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits expected to be paid to: (i) retired or terminated vested participants or their beneficiaries, (ii) beneficiaries of participants eligible to retire who have died, and (iii) present participants or their beneficiaries.

Benefits payable under all circumstances (retirement, death, and termination of employment) are included in the computation to the extent they are considered attributable to employee service rendered at the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and it is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2022 were (i) investment return of 6.00% per annum, (ii) life expectancy of participants (mortality) based upon mortality rates from the Society of Actuaries (SOA) Pri - 2012 Study with mortality improvement scale based on the SOA MI PI - 2021 model for male and female, (iii) normal retirement age assumptions as defined in the Summary of Plan Provisions.

Actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was terminated, different actuarial assumptions might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2023. Had the valuation been performed as of December 31, 2022, there would be no material differences.

Payment of Benefits

Benefit payments to participants and beneficiaries are recorded at the time of distribution.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Liability

The Plan recorded a liability to the Plan sponsor for repayment of the purchase of the \$4,756,000 annuity contract.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 9, 2024, which is the date the financial statements were available to be issued. Subsequent to the year ending December 31, 2023, the Plan paid \$12,011,923 to the Credit Union on January 26, 2024, to return the remaining balance owed, including the liability for the purchase of the annuity contract, as well as the reversion of all excess Plan assets, effectively liquidating the Plan.

Note 3 – Unaudited Information Certified by the Investment Custodians

Plan management has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the following information has been certified by the Plan's Investment Custodians, as to its completeness and accuracy and was not subjected to any auditing procedures performed by the Plan's independent auditors:

1. All investment balances reflected in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023, and 2022,
2. All investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2023,
3. All investment-related information included in the Supplemental Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2023 and the Schedule H, Line 4j - Schedule of Reportable Transactions for the year ended December 31, 2023.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The availability of inputs relevant to the asset or liability and the relative reliability of the inputs might affect the selection of appropriate valuation technique. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets, quoted prices for identical assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Level 3 – Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measure at fair value. There have been no changes in the methodologies used as of December 31, 2023 and 2022.

Mutual funds and money funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the plan are deemed to be actively traded.

The tables below aggregate all financial assets as of December 31, 2023 and 2022 that are measured at fair value on a recurring basis (at least annually) into the most appropriate level with the fair value hierarchy based on inputs used to determine the fair value at the measurement date.

	As of December 31, 2023			
	Total	Level 1	Level 2	Level 3
Government money fund	\$ 25,347	\$ 25,347	\$ -	\$ -
Mutual funds	8,328	8,328	-	-
Total assets at fair value	<u>\$ 33,675</u>	<u>\$ 33,675</u>	<u>\$ -</u>	<u>\$ -</u>

	As of December 31, 2022			
	Total	Level 1	Level 2	Level 3
Government money fund	\$ 11	\$ 11	\$ -	\$ -
Mutual funds	20,272,071	20,272,071	-	-
Total assets at fair value	<u>\$ 20,272,082</u>	<u>\$ 20,272,082</u>	<u>\$ -</u>	<u>\$ -</u>

Note 5 – Party-in-Interest Transactions

Plan assets consist of mutual funds, and a general investment account managed by the Investment Custodians. The Plan paid direct compensation of approximately \$143,000 and \$119,000 to the record keeper for services rendered for the years ended December 31, 2023 and 2022, respectively. Indirect compensation (that is netted against investment income in the Statement of Changes in Net Assets Available for Benefits) is paid to the record keeper from total annual operating expenses charged on the balance of fund investments, depending on the particular fund. Transactions involving these investments are considered party-in-interest transactions; however, these transactions are not considered prohibited transactions under 29 CFR 408(b) of the ERISA regulations.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

Note 6 – Plan Termination

The Credit Union has the right under the Plan to terminate the Plan subject to written notification to all interested parties and provision set forth in ERISA. The PBGC also has the right to terminate the Plan subject to Section 4042 of ERISA. All participants' benefits became fully vested upon termination of the Plan. Effective November 30, 2023, the Credit Union elected to terminate the Plan. A notice of intent to Terminate was distributed to Plan participants on or about September 1, 2023 and the liquidating distribution of the Plan assets to the Plan participants was completed on or about December 27, 2023. The Plan filed termination documents with the IRS and PBGC and has received no further inquiries throughout the waiting period. As per the provisions of the Plan document, the excess balance of Plan assets, after all benefits are paid out, will revert to the Plan Sponsor.

In addition, the following Plan document provisions were applicable at liquidation:

- a. The Plan amendment offered a Lump-Sum Window Option – This Lump-Sum Window Option was provided in connection with the termination of the Plan effective November 30, 2023 (payable no earlier than such date), and was available for a Participant who was eligible under the terms of the Plan document to elect, for a limited period from September 1, 2023 through November 1, 2023, as follows:

If the Present Value of the Vested Accrued Benefit of a Participant who has not commenced benefit payments under the Plan as of November 1, 2023 (whether the Participant's employment with the Employer is active or terminated as of such date), is greater than \$5,000, such Participant shall be eligible to elect to either: (i) receive their benefit in the form of an immediate lump-sum payment, or (ii) immediately begin to receive monthly benefit payments in the form of payment that applies to such Participant under the terms of the Plan Document Section 5.7(a)(1), or in any of the alternative forms of distribution available to such Participant under Section 5.7(b), irrespective of the otherwise applicable Earliest Retirement Date under the Plan. If a Participant is eligible to elect this option by the stated due date fails to do so, payment of their Vested Accrued Benefit shall be subject to the provisions of Section 5.7(f) and Article IX, Plan Termination.

The lump-sum value of a Vested Accrued Benefit paid pursuant to this Section 5.7(b)(12) shall be based on the greater of the Actuarial Equivalent of the Normal Retirement Benefit payable at Normal Retirement Age and the immediate Early Retirement Benefit (if eligible for an immediate Early Retirement Benefit under Section 5.1(b)). This payment shall constitute full payment of a Participant's Vested Accrued Benefit under the Plan. After the Section 5.7(b)(12) lump-sum window option election deadline, lump-sum payments shall not be permitted, other than for small lump-sum amounts paid pursuant to Section 5.7(d), or lump-sum payments under Section 5.7(b)(1) available only for Employees who were Participants in the Plan on or before January 1, 2007.

Note 7 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated February 28, 2023, that the Plan is designed in accordance with applicable sections of the IRC. The plan document was most recently restated, effective January 1, 2020. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2023 AND 2022

The Plan permitted provisions of SECURE Act 2.0 during the year ended December 31, 2023. Written amendments to the Plan document to reflect these operational changes have been adopted in accordance with the deadlines pursuant to applicable laws and IRS guidance.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that, more likely than not, would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

Plan investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the short-term would-be material to the financial statements.

Note 9 – Funding Policy and Administrative Fees

The Plan is funded by contributions made by the Credit Union. The Credit Union's funding policy is to, at a minimum, make contributions to the Plan as recommended by the Plan's actuary. The Credit Union made no contributions December 31, 2023 and 2022, as there were none recommended by the Plan's actuary.

In order for the Investment Custodians to provide administrative services to the Plan, they charge an amount necessary to cover certain expenses. The Plan's expenses are paid either by the Plan or the Credit Union, as provided by the Plan document. Certain administrative functions are performed by officers and employees of the Credit Union. These administrative expenses, including salaries and overhead, are paid directly by the Credit Union. Expenses that are paid directly by the Credit Union are excluded from these financial statements. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

FIRSTMARK CREDIT UNION RETIREMENT PENSION PLAN

Schedule SB, Line 22 - Description of Weighted Average Retirement Age

The weighted average retirement age for active participants is 64. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown below.

(1) Age	(2) Expected Active Headcount	(3) Retirement Rate	(4) (2) x (3) = Expected Retirements	(5) (1) x (4) = Weighted Age
62	42.0867	0.2704	11.3781	705.4450

Appendix A – Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is equal to the Market Value of Assets. The Market Value of Assets is equal to the Fair Value of Assets as of the valuation date plus discounted value of employer contributions made after the valuation date. The contributions are discounted back to the valuation date using the Effective Interest Rate for the prior plan year.

PBGC Variable-Rate Premium Method

The standard method is used for the PBGC variable-rate premium calculation.

Amortization Method

For the Plan's ERISA funding requirements, incremental Funding Shortfall amounts are amortized over a fifteen year period, and the related shortfall amortization payment is determined on the first valuation date following the plan year in which it arises based on the segment rates used for ERISA minimum funding purposes on that date, as prescribed under IRC Section 430.

ASOP 56 Modeling

ASOP 56 provides guidance to actuaries in respect to the development and involvement of models used in their actuarial services. The signing actuary should have a limited ability either to obtain information about the model or to understand the underlying workings of the model. Certain disclaimers and disclosures are required whenever particular models or field experts are relied upon. The valuation results were developed using models intended for valuations that use standard actuarial techniques.

Changes in Actuarial Methods Since Prior Valuation

None.

Appendix B – Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding	Maximum Contribution	PBGC Premium
Segment 1 (0–5 years)	4.75%	1.41%	4.84%
Segment 2 (5–20 years)	5.00%	3.09%	5.15%
Segment 3 (20+ years)	5.74%	3.58%	4.85%
Effective Interest Rate	5.44%	3.41%	4.95%

ERISA minimum funding: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: Spot segment rates for the month preceding the valuation date, but not adjusted to reflect segment rate stabilization. The standard method is used for the PBGC variable rate premium calculation.

FASB ASC Topic 960: 6.00% per year (adopted January 1, 2023). This is the assumed rate of return for the Plan's entire portfolio of assets, net of investment expenses and including assumed inflation rate of 2.35% (adopted January 1, 2023). It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Asset Returns

ERISA minimum funding and Maximum Contribution: 6.00% per year (adopted December 31, 2022). It is based on the Plan's investment policy, including target asset allocation, and Milliman's capital market expectations.

Compensation Increases

Not applicable. (Benefit accruals are frozen).

Inflation (CPI)

2.35% per year (adopted January 1, 2023). It is based on Milliman's capital market expectations.

Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

Maximum Benefit and Annual Compensation Limitation Increases

ERISA minimum funding and Maximum Contribution: 0% per year as required by statute.

FASB ASC Topic 960: The assumed inflation assumption of 2.35% per year.

Administrative Expenses

Expected administrative expenses payable from the trust are explicitly loaded to the normal cost. For the current valuation, the loading for expenses (assumed to be payable at the beginning of the year) is \$0.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, demographic assumptions are based on the actuary's judgment and continued review of experience.

Mortality

ERISA minimum funding, Maximum Contribution, and PBGC premium: Statutory static tables for 2023 based on RP-2014 Mortality Table adjusted to base year 2006, with projections to anticipate greater future longevity using projection scale MP-2021, with separate rates for non-annuitants and annuitants.

FASB ASC Topic 960: PRI-2012 Mortality Tables projected forward using Scale MP-2021 on a generational basis, with sex-distinct employee rates before benefit commencement and retiree rates after benefit commencement (adopted January 1, 2022 for FASB ASC Topic 960). As a generational table, it reflects mortality improvements both before and after the measurement date. The Society of Actuaries' Retirement Plans Experience Committee recommends use of the PRI-2012 table and MP-2021 scales for valuing retirement plan liabilities.

Retirement

Participants are assumed to retire at their Normal Retirement Age.

Termination

Annual rates of termination are based on age. Sample rates are shown in the following table.

Age	Rate
25	9.7%
30	9.3
35	8.7
40	7.8
45	6.4
50	4.2
55	1.5

Disability

None assumed.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

50% of active participants eligible for a lump sum option are assumed to elect the lump sum option with all other benefits paid as an annuity. All annuities are assumed to be paid in the subsidized normal form: if married, as a joint and 50% survivor annuity with 10 years certain; if single, as a life annuity with 10 years certain.

Marital Characteristics

For participants not in pay status: 90% of male participants and 80% of female participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 3 years older than females.

For participants in pay status: Actual birth dates of beneficiaries are included in the census data, where relevant.

For beneficiaries: Actual birth dates are included in the census data, where relevant.

Benefits Not Valued

All plan benefits are valued.

Special Data Adjustments

None.

Weighted Average Retirement Age

The weighted average retirement age for active participants is 64. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown in the following table.

(1)	(2)	(3)	(4)	(5)

Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Definitions

Accrued Benefit: A monthly benefit equal to 50% of Average Monthly Compensation plus 9% of Average Monthly Compensation in excess of one-twelfth of Covered Compensation, multiplied by an accrual fraction. The accrual fraction (which may not be greater than one (1)) equals Years of Service completed as of the date of computation divided by the greater of 25 or Years of Service had the participant remained employed until Normal Retirement Age. When applying this fraction to the 9% of Average Monthly Compensation over Covered Compensation, the denominator is limited to 35. All benefit accruals under the Plan ceased as of the December 31, 2016 plan freeze date.

Actuarially Equivalent: Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. In general, for purposes other than determining lump sum amounts, actuarially equivalent factors are based on the 1971 Group Annuity Mortality for Males and an interest rate of 8.0%. For purposes of determining lump sum distribution amounts, actuarially equivalent factors are based on the applicable mortality table specified in IRS Notice 2013-49 for the plan year of distribution and the statutory three-tier segment interest rates in effect for the November prior to the plan year of distribution.

Average Monthly Compensation: The average of monthly Compensation in the five consecutive plan years during the last 10 years of employment for which such average is the highest. However, Compensation earned after the December 31, 2016 plan freeze date will not be considered.

Compensation: Total compensation that is subject to income tax and paid by the Employer during the Plan Year. If a participant is self-employed, compensation will be equal to earned income.

Plan Effective Date: September 1, 1973; the Plan was most recently restated effective January 1, 2012. The effective date of the most recent amendment to the Plan is January 1, 2017.

Plan Year: The 12-month period beginning January 1 and ending December 31.

Vesting Service: A full year is credited for each employment year in which 1,000 or more hours of service are credited, including periods prior to the Effective Date of the Plan.

Years of Service: A full year is credited for each employment year in which 1,000 or more hours of service are credited. However, service earned after the December 31, 2016 plan freeze date will not be considered for purposes of benefit accrual.

Eligibility for Participation

Employees hired prior to July 1, 2013 enter the plan on the January 1 following the completion of six months of service and attainment of age 20. Employees hired or rehired on or after July 1, 2013 are excluded from participation.

Normal Retirement

Normal Retirement Date: The first day of the month coincident with or next following the earlier of:

- the attainment of age 65, or
- the date on which the sum of age and years of service equals 85, but in no event earlier than age 62.

Normal Retirement Benefit: The Accrued Benefit.

Early Retirement

Early Retirement Date: For participants in the Plan as of January 1, 2007, first day of the month coinciding with or following the date on which the participant terminated employment.

For participants who entered the Plan after January 1, 2007, the first day of the month coincident with or next following the attainment of age 55 and completion of 10 Years of Service.

Early Retirement Benefit: The Accrued Benefit, actuarially reduced for commencement prior to Normal Retirement Date, if prior to age 55. If on or after age 55, the Accrued Benefit, reduced by 3% per year for each year the Early Retirement Date precedes the Normal Retirement Date.

Postretirement Benefit Increases

Three percent (3%) simple interest annual increase for the first 10 years of an annuity.

Deferred Retirement

Deferred Retirement Date: The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.

Deferred Retirement Benefit: The greater of (i) the retirement benefit accrued as of the end of the Plan Year containing the Deferred Retirement Date, or (ii) the actuarial equivalent of the benefit as of the close of the Plan Year immediately preceding the Deferred Retirement Date.

Termination

Termination Date: The date of termination of service other than for reasons of retirement, disability, or death.

Termination Benefit: The Accrued Benefit, multiplied by the vested percentage in the following table, payable at the Normal Retirement Date, or payable as of the first day of any month coincident with or next following attainment of Early Retirement Age (reduced as described above for commencement prior to Normal Retirement Date).

Years of Vesting Service	Vested Percentage
Less than 5	0%
5 or more	100%

All active participants in the plan as of December 31, 2016 became 100% vested as a result of the December 31, 2016 plan freeze.

Preretirement Death

Preretirement Death Benefit Eligibility: Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.

Preretirement Death Benefit: The benefit which would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected the automatic joint and survivor annuity, and died on that same date. The automatic joint and survivor annuity provides the spouse an unreduced benefit until the period ending 120 months after the benefit commences and 50% of the benefit thereafter.

Disability Retirement

Disability Retirement Eligibility: Normal Retirement Date, after the occurrence of total and permanent disability as defined by the Plan document.

Disability Retirement Benefit: The Accrued Benefit, determined as if the participant were still employed at the same rate of Compensation and with the same number of hours per Plan Year.

Forms of Payment

Normal Forms: Life annuity with 10 years certain if single; joint and 50% survivor annuity with 10 years certain if married.

Optional Forms: Actuarially equivalent life annuity; actuarially equivalent life annuity with 5 or 15 years certain; actuarially equivalent annuity with 5 to 20 years (as elected) certain only; actuarially equivalent joint and 50% to 100% (as elected) survivor annuity; lump sum distribution (only available to participants in the Plan as of January 1, 2007); split lump sum & annuity distribution (only available to participants in the Plan as of January 1, 2007).

Small Lump Sum: Payable automatically if the actuarially equivalent present value of the vested Accrued Benefit is \$5,000 or less.

Changes in Principal Plan Provisions Since Prior Valuation

None.

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)

d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)

e Was this plan covered by a fidelity bond?

f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?

g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?

h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?

i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)

j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)

k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?

l Has the plan failed to provide any benefit when due under the plan?

m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)

n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☐ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year
