Independent Auditor's Report

Audit Committee and Participants
403(b) Thrift Plan of Goodwill Industries International, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of 403(b) Thrift Plan of Goodwill Industries International, Inc. (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the Financial Statements

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter—Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, it is inappropriate to, and we do not express an opinion on the supplemental schedule referred to above.

403(b) Thrift Plan of Goodwill Industries International, Inc.

Notes to Financial Statements

Note 1. Description of Plan

The following description of the 403(b) Thrift Plan of Goodwill Industries International, Inc. (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General and eligibility: The Plan is a defined contribution, participant-directed 403(b) thrift plan covering substantially all employees of Goodwill Industries International, Inc. (GII), and is subject to the provisions of the Employee Retirement Income Security Act of 1974. The Plan was established in 1987 to enable GII employees to accumulate long-term savings for their retirement while benefiting from favorable tax treatment on their current salaries. GII employees are automatically enrolled as a participant in the Plan on the first day of the month following their date of hire.

Administration: The Plan Administrator has the overall responsibility for the Plan. This includes the power to interpret the provisions of the Plan and to determine questions concerning eligibility, participation and benefits and such other powers and duties as are necessary to the operation and administration of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions: GII employees are automatically enrolled to defer 6% of their pay as of the date they become a participant in the Plan, unless they choose a different percentage or choose not to defer. If participants do not choose a different percentage (including zero), the percentage will also be automatically increased on the first day of each successive plan year by 1% up to a maximum percentage of 10%. Participants can make contributions to the Plan through either specified-percentage or fixed-dollar payroll deductions in any amount up to statutory limitations as specified in the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are also eligible to make catch-up contributions. Participants may also contribute amounts to the Plan representing rollover distributions from certain other qualified benefit plans.

GII's makes matching and discretionary nonelective contributions. To be eligible to receive GII's contributions, participants must be at least 21 years of age and complete six months of service. For the 2023 plan year, GII matched 100% up to 4% of eligible compensation and made a nonelective contribution of 3% of eligible compensation to eligible participants.

Contributions are subject to certain IRC limitations.

Participant accounts: Participants direct the investment of their contributions and GII's contributions into various investment options offered by the Plan. Contributions are credited to the participants' individual accounts on the date received by the custodian. Participants may change their elected investment options/allocations with the custodian at any time via direct phone or internet access by using a personal identification number.

Each participant's account is credited with the participant's contributions and GII's contributions, as well as allocations of any Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant compensation, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

403(b) Thrift Plan of Goodwill Industries International, Inc.

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in GII's contributions plus actual earnings thereon is based on years of continuous service. See the table below.

Years of Service	Vested %
2	20%
3	40%
4	65%
5	100%

Payments of benefits: Distributions may be made to participations or their beneficiaries, as applicable. Upon termination of employment, death, disability or normal retirement, a participant is entitled to receive the vested percentage of their account balance. Participants may elect to receive a distribution in the form of a single lump-sum payment. Participants who are required to receive minimum required distributions may receive their distributions in the form of partial withdrawals, installments or annuities. If the participant's vested balance is \$1,000 and \$5,000, benefits shall be distributed to the participant through a lump-sum distribution, or, if no election has been made by the participant, through a direct rollover into an Individual Retirement Account. If the participant's account balance is less than \$1,000, benefits shall be distributed to the participant through a lump-sum distribution.

Participants may receive an in-service distribution from the Plan prior to termination provided they have attained age 59½ or early distributions provided they have attained age 55. In addition, hardship distributions may be made to satisfy certain immediate and heavy financial needs a participant may have, subject to certain limitations, as defined in the Plan agreement.

Forfeitures: Participant forfeitures of non-vested balances are used to pay the expenses of the Plan or to offset future GII contributions. During 2023, GII contributions were offset by \$75,501 from forfeited non-vested accounts. Unallocated forfeitures totaled \$38,379 and \$34,258 at December 31, 2023 and 2022, respectively.

Notes receivable from participants and subsequent event: Participants may borrow from their account balances held by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) from a minimum of \$1,000 up to a maximum amount which is equal to \$50,000 or 50% of their vested account balance, whichever is less. The loans bear interest at rates available for similar loans from commercial lending institutions. The interest rate remains constant for the term of the loan. The notes receivable outstanding as of December 31, 2023, mature through May 2029, with interest rates ranging from 4.25% to 9.50%. Effective January 15, 2023, the Plan was amended to only allow one outstanding loan at a time. Prior to this, up to five loans were allowed at a time.

Administrative expenses: Certain administrative functions are performed by officers or employees of GII. However, such employees receive no compensation from the Plan. GII and the Plan participants share in the Plan expenses. Plan expenses, such as transaction fees from receiving a withdrawal or distribution from the Plan, are deducted from participants' accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment issuers and custodians. See Note 4 for discussion of fair value measurements.

Investments held by a defined contribution plan are required to be reported at fair value, except fully benefit-responsive investment contracts. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold during the year as well as held at year-end.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make the scheduled repayments and the Plan Administrator deems the participant to be in default, the participant's note receivable is reduced and a benefit payment is recorded based on the terms of the Plan. No allowance for credit losses has been recorded as of December 31, 2023 and 2022.

Contributions: Contributions from Plan participants and contributions from the employer are recorded in the year in which participant compensation is earned.

Benefits paid to participants: Benefit payments are recorded when paid.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 15, 2024, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Principal, Mutual of America Life Insurance Company (MOA) and Voya Retirement Insurance and Annuity Company (Voya)

The following is a summary of the Plan's asset information as of December 31, 2023 and 2022, and for the year ended December 31, 2023, included throughout the Plan's financial statements and ERISA-required supplemental schedule, obtained by management and agreed to or derived from information certified by Principal, MOA and Voya, the custodians of the Plan. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator by the custodians related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and ERISA-required supplemental schedule related to the following assets:

	2023	2022
Investments at fair value:		
Registered investment companies	\$ 23,768,727	\$ 21,102,219
Pooled separate accounts	635,822	532,161
Money market funds	601,886	465,624
Guaranteed interest accounts	222,940	221,476
	<u>\$ 25,229,375</u>	<u>\$ 22,321,480</u>
Investments at contract value:		
Guaranteed investment contracts	<u>\$ 1,140,944</u>	<u>\$ 639,430</u>
Notes receivable from participants	<u>\$ 331,881</u>	<u>\$ 430,302</u>

The custodians also certified to the completeness and accuracy of \$3,213,613 of net appreciation in fair value of investments and \$936,069 of interest and dividends related to the aforementioned plan assets for the year ended December 31, 2023.

Note 4. Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

403(b) Thrift Plan of Goodwill Industries International, Inc.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Registered investment companies (mutual funds) and money market funds: Valued at the daily closing price as reported by the fund. The mutual and money market funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission and are deemed to be actively traded. The funds are required to publish their daily net asset value (NAV) and to transact at that price.

Pooled separate accounts: Valued at the NAV of shares in each account held by the Plan at year-end. The net asset value is not a publicly-quoted price in an active market. The NAV, as provided by the insurance carrier, is used as a practical expedient to estimate fair value.

Guaranteed interest accounts: The guaranteed interest accounts cannot be sold to a third party; thus, the only option to exit the guaranteed interest accounts is to withdraw the funds prior to maturity. This fair value is determined by comparing current market interest rates to the interest rate on the account and adjusting for the number of years until the maturity date. These accounts are not fully benefit-responsive and as such are reported at fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2023 and 2022:

- (a) In accordance with the Fair Value Measurements topic, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following table sets forth additional disclosures of the Plan's investments whose fair value is estimated using NAV per share (or its equivalent) as a practical expedient as of December 31, 2023 and 2022:

- (a) This asset class invests in a combination of assets, such as aggressive stocks, international stocks, large-company stocks, government bonds, foreign bonds or money markets.
- (b) This asset class seeks long-term growth of capital or a combination of growth and income by investing in stocks of larger, mature companies.
- (c) This asset class invests primarily in stocks of larger U.S. companies employing an investment style of growth.
- (d) This asset class is generally comprised of investment options that invest in stocks or shares of ownership in a variety of non-U.S. companies.
- (e) This asset class generally invests in fixed income securities primarily seeking income or growth of income, with less emphasis on capital appreciation.
- (f) This asset class seeks capital appreciation by investing primarily in stocks of small- and medium-sized companies.

Note 4. Fair Value Measurements (Continued)

(g) This asset class seeks to balance growth of principal and current income by investing in a combination of stocks and bonds (generally holding 60-70% equity and 30-40% fixed income).

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits.

During the years ended December 31, 2023 and 2022, there were no purchases, issues or transfers into/out of assets classified as Level 3.

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2023 and 2022.

Investment	Fair Value December 31		Principal Valuation Technique	Unobservable Inputs	Input Values
	2023	2022			
Guaranteed interest accounts	\$ 222,940	\$ 221,476	Discounted cash flows	Risk-adjusted discount rate	4%

Note 5. Fully Benefit-Responsive Investment Contracts

The Plan holds guaranteed annuity contracts and guaranteed investment contracts that are fully benefit-responsive. In accordance with generally accepted accounting principles, fully benefit-responsive investments are presented at contract value in the statements of net assets available for benefits. The Plan's investment in these contracts is described below:

Principal Fixed Income Guaranteed Option: Investments in the Principal Fixed Income Guaranteed Option are held within the general account of Principal. Participant accounts are increased by the current rate of interest in effect and decreased by withdrawals and administrative expenses. For the year ended December 31, 2023, the effective yield of the option is guaranteed to be a minimum of 1.55% through November 2024. The rate will be reset December 1, 2024, and semiannually thereafter. For the year ended December 31, 2022, the effective yield of the option was guaranteed to be a minimum of 1.75% through May 2023.

Mutual of America (MOA) Interest Accumulation Account: Through the Plan's contracts with MOA, investments in the Interest Accumulation Account, a guaranteed annuity contract, are held within the general account of MOA. Participant accounts are increased by the guaranteed rate of interest and decreased by withdrawals and administrative expenses. For the years ended December 31, 2023 and 2022, the effective annual yield was 3% compounded daily, which is the guaranteed rate specified in the underlying contract. MOA has the option to adjust the guaranteed rate of interest on an annual basis but not below set minimum rates.

Notes to Financial Statements

Note 5. Investment Contracts (Continued)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreement without the consent of the issuer

Note 6. Related Party and Party-in-Interest Transactions

Principal, MOA and Voya are custodians of the Plan; therefore, transactions with the custodians qualify as party-in-interest transactions. Fees paid by the Plan directly to the custodians totaled \$13,206 for the year ended December 31, 2023. GII also paid certain administrative expenses of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, GII has the right under the plan agreement to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all participants would become fully vested in their accounts.

403(b) Thrift Plan of Goodwill Industries International, Inc.

Notes to Financial Statements

Note 8. Tax Status

The Plan has adopted a volume submitter 403(b) plan sponsored by Principal Life Insurance Company. The volume submitter plan provider has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter advisory letter has been relied upon by the Plan. The Plan has been amended since the volume submitter received the advisory letter. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' accounts and balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Reconciliation of Financial Statements to Form 5500
