- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Scott Industrial Systems, Inc. Profit Sharing 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Scott Industrial Systems, Inc. Profit Sharing 401(k) Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a

substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Scott Industrial Systems, Inc. Profit Sharing 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Scott Industrial Systems, Inc. Profit Sharing 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedules Required by ERISA

The supplemental schedule, Schedule of Assets Held at End of Year, as of December 31, 2023, is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Note #1 – Significant Accounting Policies

Basis of Accounting:

The accounting records of the Plan are maintained on the accrual basis.

Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Realized/unrealized gain and losses include the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates:

Management used estimates and assumptions in preparing these financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported additions and deductions of net assets. Actual results could vary from those estimates that were used.

Payment of Benefits:

Benefits are recorded when paid.

Note #2 – Description of the Plan

The Plan was established effective January 1, 1987. The Plan is a defined contribution plan covering substantially all employees of Scott Industrial Systems, Inc. (the Company). The Company pays certain administrative expenses of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Eligibility Requirements – Each employee of Scott Industrial Systems, Inc. shall become a participant on the entry date (January 1 or July 1) coincident with or next following age 21 and the completion of one year of service (defined as 1,000 hours).

Contributions – The Plan provides for voluntary participant contributions up to 100% of annual compensation, as defined in the Plan. Participants age 50 or older may make additional "catch-up" deferrals. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Employer matching contributions and qualified matching contributions (QMAC) to the Plan are discretionary and determined on a pay period basis. QMAC contributions are made only to non-highly compensated employees. The plan has a safe harbor plan basic matching formula of 100% of the first 3% of deferral and 50% of the next 2% of deferral. No employer QMAC matching contributions were made for 2023.

Note #2 – Description of the Plan (Continued)

The Plan also allows for an employer discretionary non-elective contribution and qualified non-elective contribution (QNEC), which would be determined on an annual basis and allocated to participants based on compensation. QNEC contributions are only allocated to non-highly compensated employees. To be eligible to receive any of these employer contributions, the participant must be employed at year end or have separated from service with at least 500 hours of service. There was no employer non-elective contribution or QNEC contribution in 2023. Contributions are subject to certain regulatory limitations.

Participant Accounts – Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan earnings. Plan earnings are allocated using daily valuation accounting to each participant's account in the proportion that each participant's account balances, as defined, bears to the total account balances of all participants. Participants direct their investment contributions into investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Benefit Payments – Participants have a fully vested and non-forfeitable interest in the value of their account derived from participant contributions, employer matching, QMAC, and QNEC contributions. Upon termination of employment, a participant may receive the amount of his or her vested account balance. Payments are made in the form of a lump-sum payment in cash or a rollover to an IRA or another qualified plan. If a terminated participant's account balance is less than \$5,000 they have the option to make a direct roll over or they will receive a lump sum cash payment. Hardship distributions are permitted from the participant's vested account balances, excluding QNEC and QMAC accounts. In-service distributions are permitted upon reaching age 59½ from the participant's vested account balances. Required distributions begin upon reaching age 72, even if you are still employed.

Note #3 – Certification

All of the Plan's investments and investment transactions were recorded by Ascensus Trust Company, the asset custodian. The accompanying financial statements have been prepared from the information supplied and certified by the custodian, including investment assets, transactions, and income.

Note #4 – Income Tax Status

The Plan is an adoption of a prototype plan, which obtained its latest favorable opinion letter on June 30, 2020 in which the Internal Revenue Service stated that the plan prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan and prototype have since been amended, however, the plan administrator believes that the plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Note #5 – Plan Termination

Although it has not expressed any intent to do so, the employer has the right, under the Plan, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated funds of the trust shall be allocated and all participants will become fully vested and non-forfeitable.

Note #6 – Investments

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. Fair value measurements are as follows as of December 31, 2023 and 2022:

		<u>2023</u>		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	\$ 18,765,460	\$ 18,765,460	\$ 0	\$ 0
Common Collective Trusts	1,197,968			
Total Investments	<u>\$ 19,963,428</u>			

		<u>2022</u>		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual Funds	\$ 15,855,146	\$ 15,855,146	\$ 0	\$ 0
Common Collective Trusts	1,215,571			
Total Investments	<u>\$ 17,070,717</u>			

FASB ASC 820-10, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 1 fair value measurements are based on unadjusted quoted prices in active markets for identical assets. The Plan's mutual funds values are based on the net asset value (NAV) available in an observable market.

Note #7 – Common Collective Trusts

Common collective trust funds are comprised of units in such collective trust funds that are not publicly traded. The underlying assets in these funds (common stock, preferred stock, collective investment funds, U.S. Government and Agency Obligations, debt instruments, insurance investment contracts, global wrap synthetic investment contracts, securities lending funds, repurchase agreements, futures contracts, and foreign currency contracts) are valued where applicable on exchanges and price quotes for the assets held by these funds are readily available. When current market prices or quotations are not available, valuations are determined using valuation models adopted by the Trustee or other inputs principally from or corroborated by observable market data. Common collective trust funds are valued at their net asset value (NAV) on the last day of the calendar year of the period; as a result, these investments are not classified within the fair value hierarchy.

Investments in common/collective trust funds are valued at the net value of participation units held by the Plan at year-end. The value of these units is determined by the trustee based on the current market values of the underlying assets of the common/collective trust fund as based on information reported by the investment advisor using the audited financial statements of the common/collective trust fund at year end. The Plan held collective trust funds at December 31, 2023 and 2022 as described below.

The objective of the Metlife Stable Value Fund – Series 25053 Class 65, common/collective trust fund is to provide safety and preservation of principal and accumulated interest for participant-initiated transactions. The interest credited to balances in this fund will reflect both current market conditions and performance of the underlying investments in this fund. This fund is not FDIC-insured or registered with the Securities and Exchange Commission.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes the valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

Note #8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note #9 – Subsequent Events

Plan Management has evaluated subsequent events through the date of the report of these financial statements, which is the date on which the financial statements were available for issue.
