INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
CalPortland Company Retirement Plan
for Hourly Employees at the Colton Plant:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of CalPortland Company Retirement Plan for Hourly Employees at the Colton Plant (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from U.S. Bank National Association as of December 31, 2023 and for the period from April 1, 2023 to December 31, 2023, and The Northern Trust Company as of and for the year ended December 31, 2022 and for the period from January 1, 2023 to March 31, 2023 stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Merger

As described in Note 1, the Board of Directors of Calportland Company approved the merger of the Plan into Calportland Company Defined Benefit Pension Plan (Calportland Pension Plan) effective December 31, 2023. Accordingly, the Plan's investments are reported as assets of Calportland Pension Plan as of December 31, 2023. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

CALPORTLAND COMPANY RETIREMENT PLAN
FOR HOURLY EMPLOYEES AT THE COLTON PLANT

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2023

NOTE 1 – Description of the Plan

The following description of the CalPortland Company Retirement Plan for Hourly Employees at the Colton Plant (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit plan of CalPortland Company (the Company) which covers all hourly employees hired or rehired by the Company prior to September 21, 2007, who were working at the Colton Plant and were members of the applicable bargaining unit. The Plan was frozen to new participants effective September 21, 2007. The Plan was established by negotiations between the Company and officials of the predecessor union to the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Worker Intl Union AFL-CIO Local 12-0089 (the Union). The California Portland Cement Company Master Retirement Trust (the Master Trust) held investments on behalf of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Administrative Committee is responsible for oversight of the Plan, determining the appropriateness of the Plan's investment offerings, and monitoring investment performance.

Plan Merger and Asset Transfer

Effective December 31, 2023, the Board of Directors approved a plan amendment to merge the Plan into the Calportland Company Defined Benefit Pension Plan (Calportland Pension Plan) and the assets held by the Master Trust became the plan assets of the Calportland Pension Plan at December 31, 2023. As a result of the merger, the Plan reported a transfer of assets from this plan totaling $15,613,063 on the statement of changes for the year ended December 31, 2023. All participants' benefits remain consistent in the Calportland Pension Plan.

NOTE 1 – Description of the Plan (Continued)

Funding Policy and Vesting

Participants with ten years of service who were hired before April 3, 1989, are fully vested. Participants hired after April 3, 1989, accrued monthly benefits, payable at age 65, based on the number of years of credited service. A participant receives one year of credited service after completing 1,000 hours of service during the plan year and vests as follows:

Years of Vesting Service	Vesting Percentage
Under 3	0%
3	20%
4	40%
5	60%
6	80%
7 or more	100%

A participant becomes fully vested in their accrued benefits at the earliest of the following events:

- The participant reaches age 65 while employed by the Company,
- Partial or complete termination or discontinuance of the Plan.

The Plan's funding policy is for the Company to contribute an amount, based on actuarial computations using the unit credit cost method, which will meet or exceed the annual ERISA minimum funding requirement. During 2022, the Company made contributions of $525,000. The Company's contributions for 2022 exceeded the minimum funding requirements of ERISA. There were no minimum funding requirements for 2023, and as such there were no Company contributions for the plan year 2023. Participants may not contribute to the Plan.

Participant-Accrued Benefits and Payment of Benefits

Each participant’s monthly benefit at normal retirement age is determined based on years of service, subject to the vesting schedule above, multiplied by the applicable benefit factor. As a result of collective bargaining negotiations, the benefit factor is based on the date of employment termination and ranges from $25.00 to $56.00.

NOTE 1 – Description of the Plan (Continued)

Participant-Accrued Benefits and Payment of Benefits (Continued)

Benefits are generally payable upon a participant's retirement but may be payable upon termination of employment or for other reasons. Normal retirement benefits are payable in monthly life annuity payments to the participant, his or her surviving spouse, or alternative payee. Certain participants, surviving spouses, or alternative payees may elect to receive their retirement benefit under the Plan immediately in the form of lump-sum payments.

Participants who meet certain requirements may be eligible to receive early retirement benefits. The amount of vested benefit payments for early retirement payments is reduced by 0.30 percent for each month the early retirement date precedes the normal retirement date. No reduction shall apply to any participant who has at least 30 years of credited service, or who is at least age 62, and has at least 20 years of credited service and is an employee when the participant elects early retirement.

Any participant who remains employed after the normal retirement date shall have any benefits payable suspended until the participant's ultimate termination. Thereafter, benefit payments shall resume, adjusted for any suspended payments and additional benefits earned during the period of suspension. Further details are contained in the plan summary description, which is provided to all plan participants.

NOTE 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee, and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income (loss) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment-related expenses are included in net investment income (loss) of fair value investments. Administrative expenses comprised the following:

	2023	2022
Actuarial fees	$ 11,321	$ 46,545
Other	17,664	85,295
	$ 28,985	$ 131,840

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits relate to employee service and earnings through December 31, 2022, for which a vested right exists, as well as those for which a nonforfeitable right has not yet been earned by virtue of the service vesting requirements.

The actuarial present value of accumulated plan benefits was calculated by the Plan's consulting actuaries, October Three Consulting, LLC, by actuarially adjusting the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2022, were: (a) life expectancy of Pri-2012 amount weighted tables with Society of Actuaries (SOA) MP- 2021 projection scale, and blue collar adjustment; (b) 100% retirement of participants at age 62; and (c) investment return of 7.00%.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits (Continued)

As of the most recent valuation date, December 31, 2022, the actuarially computed present value of accumulated plan benefits and the changes in accumulated plan benefits were:

	December 31, 2022
Actuarial present value of accumulated plan benefits	
Vested Benefits:	
Participants currently receiving payments	$ 12,460,022
Participants entitled to deferred benefits	997,346
Total actuarial present value of accumulated plan benefits	$ 13,457,368

	Year Ended December 31, 2022
Total actuarial present value of accumulated plan benefits at beginning of year	$ 14,529,480
Benefits accumulated and demographic experience	(499,384)
Increase for interest	964,182
Benefits paid	(1,536,910)
Actuarial present value of accumulated plan benefits at end of year	$ 13,457,368

Subsequent Events

The plan has evaluated subsequent events through October 15, 2024, the date the financial statements were available to be issued.

NOTE 3 – Certified Investments

The plan administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(c) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, U.S. Bank National Association (US Bank) as of December 31, 2023, and for the period from April 1, 2023, to December 31, 2023, and The Northern Trust Company (Northern Trust) as of and for the year ended December 31, 2022, and for the period from January 1, 2023, to March 31, 2023, the trustees of the Plan, have certified that the following data included in the accompanying financial statements is complete and accurate with respect to investments:

- Investments in the Master Trust, at fair value
- Plan's interest of net investment income (loss) of the Master Trust

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE 4 – Investments in Master Trust

The Plan's investments are held in the Master Trust, which was established March 5, 1996, for the investment of assets of the Plan and several other affiliated Company-sponsored plans. Each participating plan had an undivided interest in the Master Trust. As of December 31, 2022, the assets of the Master Trust are stated at fair value. Investment income (loss) and administrative expenses relating to the Master Trust are allocated to the individual plans based on average daily balances invested by each plan. Effective December 31, 2023 the Master Trust ceased to exist and all assets were merged into the Calportland Pension Plan.

NOTE 4 – Investment in Master Trust (Continued)

The following tables summarize the net assets of the Master Trust and the Plan's interest in the Master Trust net assets as of December 31, 2023 and 2022:

	December 31, 2023		December 31, 2022	
	Master Trust	Plan's Interest in Master Trust	Master Trust	Plan's Interest in Master Trust
Net Assets				
Investments at fair value:				
Collective trust funds	$ -	$ -	$ 31,391,051	$ 9,140,116
Real estate fund	-	-	5,388,845	1,569,067
Mutual funds/ETF	-	-	10,457,483	3,044,900
Hedge fund	-	-	6,513,355	1,896,490
Accrued investment income	-	-	160,329	46,683
Total Net Assets	$ -	$ -	$ 53,911,063	$ 15,697,256
Plan's Percentage Interest in the Master Trust at Year-End		- %		29.1 %

The following comprises the Master Trust net income (loss) for the year ended December 31, 2023 and 2022:

	2023	2022
Net appreciation (depreciation) in fair value of investments	$ 4,359,466	$ (10,720,889)
Investment interest and dividend income	475,814	207,370
	$ 4,835,280	$ (10,513,519)

NOTE 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 – Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Exchange-traded funds (ETF): Valued at the closing price reported on the active market on which the individual securities are traded.

Collective trust funds: Valued at NAV of units of the collective trust. The NAV is based on the fair value of underlying investments held by the fund, less its liabilities. Transactions (purchases and sales) may occur daily. Were the Master Trust to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Real estate fund: The real estate fund account consists of a fund account which generally invests in real estate properties and real estate-related investments, and these are valued based on the investments held. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. Real estate securities are generally priced using values obtained from independent pricing sources. The fund is required to publish their daily NAV and to transact at that price.

Hedge fund: Hedge funds are valued by the trustee at NAV based on statements received from the investment manager. The hedge fund for which fair value is measured using the NAV per share as a practical expedient are not leveled within the fair value hierarchy and are included as a component of the total investments. The fund manager may limit the redemption, if the hedge fund were to receive a request for more than 15% of the hedge fund's NAV in any quarter.

NOTE 5 – Fair Value Measurements (Continued)

The following table set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value measurements at December 31, 2022:

	Assets at Fair Value as of December 31, 2022			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds/ETF	$ 10,457,483	$ -	$ -	$ 10,457,483
Total assets in the fair value hierarchy	10,457,483	-	-	10,457,483
Investment measured at NAV [(a)]	-	-	-	43,293,251
Investments at fair value	$ 10,457,483	$ -	$ -	$ 53,750,734

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent), as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table is intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5 – Fair Value Measurements (Continued)

NOTE 6 – Related-Party and Party-in-Interest Transactions

Certain plan investments are managed by US Bank and Northern Trust. US Bank and Northern Trust are the trustees and recordkeepers for the Plan and, therefore, these transactions qualify as party-in-interest transactions. Certain fees incurred by the Plan for investment management services are included in net income (loss) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The trustee and recordkeeper fees are paid by the Master Trust.

NOTE 7 – Nonexempt Transactions with Party-in-Interest

During 2022, the Master Trust paid expenses on behalf of another plan sponsored by the Company. Based upon the allocation of such expenses among all plans participating in the Master Trust, the Plan provided, in effect, a loan to the Company or the other plan. Such loans are considered nonexempt transactions, which totaled $703 for 2022. There were no nonexempt transactions for the fiscal year ending December 31, 2023.

NOTE 8 – Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated July 14, 2017, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9 – Risks and Uncertainties

The Plan invests in various investment securities through the Master Trust. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect accumulated accrued benefits and the amounts reported in the statements of net assets available for benefits.

MAXIMUM BENEFIT

The maximum benefit payable under IRC section 415 is $265,000 for 2023.

EXPENSES

Assumed expenses are $140,000 for 2023. The assumed expenses are based on actual expenses paid in the prior plan year, rounded to the nearest thousand. In accordance with our understanding of the available guidance, the expense assumption reflects administrative expenses and does not include investment-related expenses or any other non-administrative expense.

Changes from Prior Year and Rationale for Changes

None.

Actuarial Methods

VALUATION DATE

The valuation date is January 1, 2023.

ACTUARIAL VALUE OF ASSETS

The actuarial value of assets is determined by recognizing asset gains and losses over a period of three years. Asset gains and losses are defined as the difference between the expected return on the market value of assets, using a return assumption not to exceed the third segment rate, and the actual return on the market value of assets. This gain or loss is recognized over a period of three years at 33% per year, beginning in the current year. The actuarial value of assets must be within 10% of the market value of assets.

MINIMUM FUNDING METHOD

The funding target and target normal cost for minimum funding calculations are determined using the traditional unit credit cost method as prescribed by Treasury regulation section 1.430(d)-1. The liability under the unit credit cost method is the value of the accrued pension benefit using service and pay as of the valuation date. The sum of the present value of the accrued benefits for all participants is the ERISA funding target. The normal cost is the present value of the benefits earned during the year. The target normal cost is the sum of the normal costs for all participants and the assumed administrative expenses.

Changes in Method from Prior Year and Rationale for Changes

None.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
