Independent Auditors' Report

To the Plan Administrator of
AkzoNobel Hourly Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of AkzoNobel Hourly Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of AkzoNobel Hourly Savings Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 12 to the financial statements, is complete and accurate

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about AkzoNobel Hourly Savings Plan's ability to continue as a going concern for at least one year following the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year), as of December 31, 2023 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

AkzoNobel Hourly Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

1. Description of Plan

The following description of the AkzoNobel Hourly Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering certain union hourly paid employees of AkzoNobel, Inc. (the Company) (the Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Employees are immediately eligible to participate in the Plan if they are a full-time employee and eligible to participate under their respective collective bargaining agreement. Part-time employees are eligible to enroll in the Plan after completing 1,000 service hours within the first year (12 months) of employment.

Master Trust

The Plan's investments are held in the AkzoNobel Retirement Savings Master Trust (the Master Trust), which also includes investments of the AkzoNobel Retirement Savings Plan, another savings plan sponsored by the Company. Fidelity Management Trust Company is the trustee of the Master Trust and the Plan (Trustee).

Contributions

Participants may contribute up to 25% of eligible compensation on a pre-tax or Roth after-tax basis and up to 6% of eligible compensation on an after-tax basis, as defined in the plan document, up to the maximum limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). New employees have 60 days from their date of hire to make an election regarding deferral of eligible compensation. If no such election is made, the employee will be deemed to have elected to defer 3% of his or her eligible compensation, until such election is modified or revoked. This assumption of deferral is facilitated through the Plan's automatic enrollment feature. Participants may opt out of deferring compensation by revoking the automatic enrollment option with the Trustee. Automatically enrolled participants will have their deferral rate increase by 1% on the anniversary of their enrollment date until their deferral rate reaches 6%. The Company makes matching and service-based contributions based on location, the elective contributions made by the participants, and participant compensation, as defined by Plan provisions. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, and an allocation of the Plan's earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

AkzoNobel Hourly Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

Vesting

Participants are vested immediately in their contributions and any Company matching contributions plus actual earnings thereon. Company service-based contributions are fully vested after three years with no incremental vesting. However, for any employees who are employed past normal retirement date, then they are immediately vested in the Company contributions.

Forfeited Accounts

As of December 31, 2023 and 2022, forfeited nonvested accounts totaled \$5,371 and \$5,698, respectively. These accounts may be used to reduce future Company contributions or plan expenses. In 2023, the Company's contributions were reduced by \$37,024 from forfeited nonvested accounts.

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, reduced by their highest outstanding loan balance in the preceding 12 months. The loans are secured by the balance in the participant's account and bear interest rates between 4.25% to 9.50% as of December 31, 2023, which is determined by the prime rate based on Reuters Prime Rate on the first business day of the month in which a participant loan becomes effective, plus 1% as defined by the plan document. Principal and interest is paid ratably through payroll deductions and are reinvested in the investment option(s) selected by the participant. Terms range from one to five years or greater for the purchase of a primary residence.

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in their account or periodic partial distributions as defined by the plan document. In addition, the Plan allows for hardship distributions if certain criteria are met, as defined by the plan document. In-service distributions are allowed for participants that have attained the age of 59 1/2.

Fund Transfers

Due to participant job transfers and business unit divestitures, certain assets may be transferred into or out of the Plan from the AkzoNobel Hourly Savings Plan to the AkzoNobel Retirement Savings Plan, a related plan sponsored by the Company. For the plan year ended December 31, 2023, there were transfers of \$555 from the Plan into another plan sponsored by the Company and there were no transfers into the Plan from another plan sponsored by the Company.

2. Recent Accounting and Regulatory Pronouncements

The SECURE 2.0 Act of 2022 was signed into law on December 29, 2022. This legislation includes a vast array of provisional changes to retirement plans, becoming effective in 2023 and beyond. Plan management adopted mandatory provisions effective for the year ended December 31, 2023. Plan management is evaluating the impact of optional SECURE 2.0 provisions and awaiting additional regulatory guidance from the IRS and the DOL. The application of SECURE 2.0 Act did not have a material effect on the Plan's financial statements. The Plan will be amended to reflect any changes made in response to SECURE 2.0 prior to the deadline set by law or applicable regulations.

3. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisors. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income and losses relating to the Master Trust are allocated to individual plans based upon each Plan's undivided interest in the Master Trust.

Fixed Income Fund

The Plan invests in the AkzoNobel Fixed Income Fund (the Fund), a separately managed account through the Master Trust. The Fund is managed by Galliard Capital Management (the Fund Manager). The Fund is valued based on its underlying assets, which consist of security-backed synthetic guaranteed investment contracts (synthetic GICs) and collective trust funds. The Plan owns the underlying investments associated with the synthetic GICs which are held within Wells Fargo-Managed Fixed Income Funds. The synthetic GIC contracts within the Fund are considered fully benefit responsive. Contract value represents contributions made under the contract, plus interest accrued at the contract rate, less any withdrawals. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the contract value of the Plan's interest in the Master Trust for the synthetic GICs held by the Fund. The Statements of Net Assets Available for Benefits present the fair value of the Plan's interest in the Master Trust's investment for the collective trust funds held by the Fund, which are valued at the net asset value (NAV) of units of the underlying collective trust funds.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. Related fees are recorded as administrative expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2023 and 2022.

AkzoNobel Hourly Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events

Subsequent events were evaluated through October 15, 2024, the date the financial statements were available to be issued.

4. Plan's Interest in Master Trust

The Plan's assets are in the Master Trust, which was established for the investment of assets of the Plan and other Company-sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust based on each Plan's investment options chosen by the respective participants. The assets of the Master Trust are held by the Trustee.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses relating to the Master Trust are allocated to the individual plans based upon each plan's interest in the Master Trust, unless fees are directly related to the Plan.

The following table presents the investments and other assets and liabilities of the Master Trust and the Plan's undivided interest as of December 31, 2023 and 2022:

5. Fair Value Measurements, Master Trust

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation technique are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets of the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2023 and 2022.

Shares of registered investment companies (Level 1): Registered investment companies (mutual funds) are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds (Level 1): Valued at the quoted NAV of shares held by the Plan at year end.

AkzoNobel Hourly Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

Units of collective trusts: The collective trust funds are valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Self-directed brokerage accounts (Level 1): The fair values of investments in the self-directed brokerage account are determined by obtaining quoted market prices from a nationally recognized exchange.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the assets held by the Master Trust measured at fair value as of December 31, 2023 and 2022:

Assets at Fair Value as of December 31, 2023	Level 1		Level 2		Level 3		Total

6. Investment in AkzoNobel Fixed Income Fund

At December 31, 2023 and 2022, the Master Trust is invested in the AkzoNobel Fixed Income Fund (the Fund). The Fund is principally invested in synthetic GICs and collective trust funds.

The synthetic GICs are composed of underlying security-backed assets and wrappers, which are contracts that enable withdrawals to be made at contract value rather than at the fair value of the underlying assets. The contracts have underlying assets invested in common/collective trusts. Contract crediting rates for synthetic GICs are reset at least quarterly, as specified in the respective contracts and will have an interest crediting rate not less than 0%. Formulas are provided in each contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets.

The Fund holds investments in the Wells Fargo Short-Term Investment Fund S, which is a collective trust fund, as of December 31, 2023 and 2022.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

AkzoNobel Hourly Savings Plan

Notes to Financial Statements

December 31, 2023 and 2022

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

The Fund is made of the following underlying assets:

	2023	2022
AkzoNobel Fixed Income Fund		
Synthetic investment contracts	\$ 82,583,076	\$ 101,108,045
Collective trust funds	1,327,905	1,805,487
Total	\$ 83,910,981	\$ 102,913,532

The following table details the interest crediting rates (in percent) of the Fund at December 31, 2023 and 2022, for each of the synthetic GICs:

	2023	2022
Synthetic Investment Contracts		
Metropolitan Life Insurance Co.	2.65	2.27
Prudential Insurance Company of America	2.80	2.43
Transamerica Premier Life Insurance Co	2.73	2.40
American General Life Insurance	2.79	2.50

7. Concentrations

As of December 31, 2023 and 2022, the Master Trust held investments of \$234,139,565 and \$230,554,505, respectively, that were concentrated in two funds.

8. Related-Party and Party in Interest Transactions

Certain plan investments are managed by Fidelity Management Trust Company, the Trustee and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in Plan net investment gain in Master Trust, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These transactions qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions.

10. Tax Status

The IRS has determined and informed the Company by a letter dated April 19, 2018, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the IRS Determination Letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

12. Information Prepared and Certified by Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA for 2023 and 2022. Accordingly, Fidelity Management Trust Company, the Trustee of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statements of Net Assets Available for Benefits as of December 31, 2023 and 2022 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2023 and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2023 and the investment information included in the Plan's Interest in Master Trust (Note 4).
