c	For active participants	374	59204703	63839207
d	Total	1216	217002648	221637152
4	If the plan is in at-risk status, check the box and complete lines (a) and (b) ☐			
a	Funding target disregarding prescribed at-risk assumptions	4a		
b	Funding target reflecting at-risk assumptions, but disregarding transition rule for plans that have been in at-risk status for fewer than five consecutive years and disregarding loading factor	4b		
5	Effective interest rate	5	5.41 %	
6	Target normal cost			
a	Present value of current plan year accruals	6a	2856962	
b	Expected plan-related expenses	6b	614257	
c	Target normal cost	6c	2692674	

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part II Beginning of Year Carryover and Prefunding Balances

	(a) Carryover balance	(b) Prefunding balance
7 Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	0	86451460
8 Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9 Amount remaining (line 7 minus line 8)	0	86451460
10 Interest on line 9 using prior year's actual return of <u>-27.53</u> %	0	-23800087
11 Prior year's excess contributions to be added to prefunding balance:		
a Present value of excess contributions (line 38a from prior year)		0
b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.59</u> %		0
b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
c Total available at beginning of current plan year to add to prefunding balance		0
d Portion of (c) to be added to prefunding balance		0
12 Other reductions in balances due to elections or deemed elections	0	0
13 Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	0	62651373

Part III Funding Percentages

14 Funding target attainment percentage	14	87.78 %
15 Adjusted funding target attainment percentage	15	116.05 %
16 Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	115.72 %
17 If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage	17	%

Part IV Contributions and Liquidity Shortfalls**18** Contributions made to the plan for the plan year by employer(s) and employees:

(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
07/01/2023	0	848289			
Totals ▶			18(b)	0	18(c) 848289

19 Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:

a Contributions allocated toward unpaid minimum required contributions from prior years.	19a	0
b Contributions made to avoid restrictions adjusted to valuation date	19b	0
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date	19c	0

20 Quarterly contributions and liquidity shortfalls:

- a** Did the plan have a "funding shortfall" for the prior year? ☐ Yes ☒ No
- b** If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? ☐ Yes ☐ No
- c** If line 20a is "Yes," see instructions and complete the following table as applicable:

Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part V	Assumptions Used to Determine Funding Target and Target Normal Cost
---------------	--

21 Discount rate:			
a Segment rates:	1st segment: 4.75 %	2nd segment: 5.00 %	3rd segment: 5.74 % ☐ N/A, full yield curve used
b Applicable month (enter code).....			21b 0
22 Weighted average retirement age			22 58
23 Mortality table(s) (see instructions) ☐ Prescribed - combined ☒ Prescribed - separate ☐ Substitute			

Part VI	Miscellaneous Items
----------------	----------------------------

24 Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment.	☐ Yes ☒ No
25 Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment.	☐ Yes ☒ No
26 Demographic and benefit information	
a Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.	☒ Yes ☐ No
b Is the plan required to provide a projection of expected benefit payments? If "Yes," see instructions regarding required attachment ...	☒ Yes ☐ No
27 If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment.....	27

Part VII	Reconciliation of Unpaid Minimum Required Contributions For Prior Years
-----------------	--

28 Unpaid minimum required contributions for all prior years	28	0
29 Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a).....	29	0
30 Remaining amount of unpaid minimum required contributions (line 28 minus line 29)	30	0

Part VIII	Minimum Required Contribution For Current Year
------------------	---

31 Target normal cost and excess assets (see instructions):			
a Target normal cost (line 6c).....	31a	2692674	
b Excess assets, if applicable, but not greater than line 31a	31b	0	
32 Amortization installments:	Outstanding Balance	Installment	
a Net shortfall amortization installment	27064327	2478577	
b Waiver amortization installment	0	0	
33 If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount	33		
34 Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)....	34	5171251	
	Carryover balance	Prefunding balance	Total balance
35 Balances elected for use to offset funding requirement	0	5171251	5171251
36 Additional cash requirement (line 34 minus line 35).....	36	0	
37 Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c).....	37	0	
38 Present value of excess contributions for current year (see instructions)			
a Total (excess, if any, of line 37 over line 36)	38a	0	
b Portion included in line 38a attributable to use of prefunding and funding standard carryover balances	38b	0	
39 Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37)	39	0	
40 Unpaid minimum required contributions for all years	40	0	

Part IX	Pension Funding Relief Under the American Rescue Plan Act of 2021 (See Instructions)
----------------	---

41 If an election was made to use the extended amortization rule for a plan year beginning on or before December 31, 2021, check the box to indicate the first plan year for which the rule applies. ☐ 2019 ☐ 2020 ☐ 2021

SCHEDULE H (Form 5500) Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Financial Information This schedule is required to be filed under section 104 of the Employee Retirement Income Security Act of 1974 (ERISA), and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	OMB No. 1210-0110
		2023
		This Form is Open to Public Inspection

For calendar plan year 2023 or fiscal plan year beginning 01/01/2023 and ending 12/31/2023		
A Name of plan SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD	B Three-digit plan number (PN) ▶	011
C Plan sponsor's name as shown on line 2a of Form 5500 SCHLUMBERGER TECHNOLOGY CORPORATION		
		D Employer Identification Number (EIN) 22-1692661

Part I	Asset and Liability Statement		
1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.			
	Assets	(a) Beginning of Year	(b) End of Year
a Total noninterest-bearing cash	1a		
b Receivables (less allowance for doubtful accounts):			
(1) Employer contributions	1b(1)		
(2) Participant contributions	1b(2)		
(3) Other	1b(3)		
c General investments:			
(1) Interest-bearing cash (include money market accounts & certificates of deposit)	1c(1)		
(2) U.S. Government securities	1c(2)		
(3) Corporate debt instruments (other than employer securities):			
(A) Preferred	1c(3)(A)		
(B) All other	1c(3)(B)		
(4) Corporate stocks (other than employer securities):			
(A) Preferred	1c(4)(A)		
(B) Common	1c(4)(B)		
(5) Partnership/joint venture interests	1c(5)		
(6) Real estate (other than employer real property)	1c(6)		
(7) Loans (other than to participants)	1c(7)		
(8) Participant loans	1c(8)		
(9) Value of interest in common/collective trusts	1c(9)		
(10) Value of interest in pooled separate accounts	1c(10)		
(11) Value of interest in master trust investment accounts	1c(11)	233840180	242910143
(12) Value of interest in 103-12 investment entities	1c(12)		
(13) Value of interest in registered investment companies (e.g., mutual funds)	1c(13)		
(14) Value of funds held in insurance company general account (unallocated contracts)	1c(14)		
(15) Other	1c(15)		

1d Employer-related investments:		(a) Beginning of Year	(b) End of Year
(1) Employer securities	1d(1)		
(2) Employer real property	1d(2)		
e Buildings and other property used in plan operation	1e		
f Total assets (add all amounts in lines 1a through 1e)	1f	233840180	242910143
Liabilities			
g Benefit claims payable	1g		
h Operating payables	1h	182604	155011
i Acquisition indebtedness	1i		
j Other liabilities	1j	17500	17500
k Total liabilities (add all amounts in lines 1g through 1j)	1k	200104	172511
Net Assets			
l Net assets (subtract line 1k from line 1f)	1l	233640076	242737632

Part II Income and Expense Statement

2 Plan income, expenses, and changes in net assets for the year. Include all income and expenses of the plan, including any trust(s) or separately maintained fund(s) and any payments/receipts to/from insurance carriers. Round off amounts to the nearest dollar. MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 2a, 2b(1)(E), 2e, 2f, and 2g.

Income		(a) Amount	(b) Total
a Contributions:			
(1) Received or receivable in cash from: (A) Employers	2a(1)(A)		
(B) Participants	2a(1)(B)	848289	
(C) Others (including rollovers)	2a(1)(C)		
(2) Noncash contributions	2a(2)		
(3) Total contributions. Add lines 2a(1)(A) , (B) , (C) , and line 2a(2)	2a(3)		848289
b Earnings on investments:			
(1) Interest:			
(A) Interest-bearing cash (including money market accounts and certificates of deposit)	2b(1)(A)		
(B) U.S. Government securities	2b(1)(B)		
(C) Corporate debt instruments	2b(1)(C)		
(D) Loans (other than to participants)	2b(1)(D)		
(E) Participant loans	2b(1)(E)		
(F) Other	2b(1)(F)		
(G) Total interest. Add lines 2b(1)(A) through (F)	2b(1)(G)		0
(2) Dividends: (A) Preferred stock	2b(2)(A)		
(B) Common stock	2b(2)(B)		
(C) Registered investment company shares (e.g. mutual funds)	2b(2)(C)		
(D) Total dividends. Add lines 2b(2)(A) , (B) , and (C)	2b(2)(D)		0
(3) Rents	2b(3)		
(4) Net gain (loss) on sale of assets: (A) Aggregate proceeds	2b(4)(A)		
(B) Aggregate carrying amount (see instructions)	2b(4)(B)		
(C) Subtract line 2b(4)(B) from line 2b(4)(A) and enter result	2b(4)(C)		
(5) Unrealized appreciation (depreciation) of assets: (A) Real estate	2b(5)(A)		
(B) Other	2b(5)(B)		
(C) Total unrealized appreciation of assets. Add lines 2b(5)(A) and (B)	2b(5)(C)		

		(a) Amount	(b) Total
(6) Net investment gain (loss) from common/collective trusts.....	2b(6)

(11) Other expenses	2i(11)	523642	
(12) Total administrative expenses. Add lines 2i(1) through (11)	2i(12)		523642
j Total expenses. Add all expense amounts in column (b) and enter total	2j		8539294

Net Income and Reconciliation

k Net income (loss). Subtract line 2j from line 2d	2k		9097556
l Transfers of assets:			
(1) To this plan	2l(1)		
(2) From this plan	2l(2)		

Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unmodified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Check the appropriate box(es) to indicate whether the IQPA performed an ERISA section 103(a)(3)(C) audit. Check both boxes (1) and (2) if the audit was performed pursuant to both 29 CFR 2520.103-8 and 29 CFR 2520.103-12(d). Check box (3) if pursuant to neither.

(1) ☐ DOL Regulation 2520.103-8 (2) ☐ DOL Regulation 2520.103-12(d) (3) ☒ neither DOL Regulation 2520.103-8 nor DOL Regulation 2520.103-12(d).

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **BDO USA, P.C.**

(2) EIN: **13-5381590**

d The opinion of an independent qualified public accountant is **not attached** as part of Schedule H because:

(1) ☐ This form is filed for a CCT, PSA, DCG or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l. DCGs do not complete lines 4e, 4f, 4k, 4l, and 5, and DCGs generally complete the rest of Part IV collectively for all plans in the DCG, except as otherwise provided (see instructions).

During the plan year:

	Yes	No	Amount
a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.)		☒	
b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)		☒	
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		☒	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		☒	
e Was this plan covered by a fidelity bond?	☒		1000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		☒	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		☒	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		☒	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked and see instructions for format requirements.)		☒	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		☒	
l Has the plan failed to provide any benefit when due under the plan?		☒	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)		☒	
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

5b(1) Name of plan(s)	5b(2) EIN(s)	5b(3) PN(s)

5c Was the plan a defined benefit plan covered under the PBGC insurance program at any time during this plan year? (See ERISA section 4021 and instructions.) ☒ Yes ☐ No ☐ Not determined

If "Yes" is checked, enter the My PAA confirmation number from the PBGC premium filing for this plan year 521625.

SCHEDULE R (Form 5500) Department of the Treasury Internal Revenue Service Department of Labor Employee Benefits Security Administration Pension Benefit Guaranty Corporation	Retirement Plan Information This schedule is required to be filed under sections 104 and 4065 of the Employee Retirement Income Security Act of 1974 (ERISA) and section 6058(a) of the Internal Revenue Code (the Code). ▶ File as an attachment to Form 5500.	OMB No. 1210-0110 2023 This Form is Open to Public Inspection.
---	---	--

For calendar plan year 2023 or fiscal plan year beginning 01/01/2023 and ending 12/31/2023

A Name of plan <u>SCHLUMBERGER PENSION PLAN FOR U.S. TAXPAYERS EMPLOYED ABROAD</u>	B Three-digit plan number (PN) ▶ <u>011</u>
C Plan sponsor's name as shown on line 2a of Form 5500 <u>SCHLUMBERGER TECHNOLOGY CORPORATION</u>	D Employer Identification Number (EIN) <u>22-1692661</u>

Part I	Distributions
---------------	----------------------

All references to distributions relate only to payments of benefits during the plan year.

1 Total value of distributions paid in property other than in cash or the forms of property specified in the instructions.....	1	<u>0</u>
2 Enter the EIN(s) of payor(s) who paid benefits on behalf of the plan to participants or beneficiaries during the year (if more than two, enter EINs of the two payors who paid the greatest dollar amounts of benefits): EIN(s): <u>36-1561860</u>		
Profit-sharing plans, ESOPs, and stock bonus plans, skip line 3.		
3 Number of participants (living or deceased) whose benefits were distributed in a single sum, during the plan year	3	<u>1</u>

Part II	Funding Information (If the plan is not subject to the minimum funding requirements of section 412 of the Internal Revenue Code or ERISA section 302, skip this Part.)
----------------	---

4 Is the plan administrator making an election under Code section 412(d)(2) or ERISA section 302(d)(2)?	☐ Yes	☒ No	☐ N/A
If the plan is a defined benefit plan, go to line 8.			
5 If a waiver of the minimum funding standard for a prior year is being amortized in this plan year, see instructions and enter the date of the ruling letter granting the waiver. Date: Month _____ Day _____ Year _____ If you completed line 5, complete lines 3, 9, and 10 of Schedule MB and do not complete the remainder of this schedule.			
6 a Enter the minimum required contribution for this plan year (include any prior year accumulated funding deficiency not waived)	6a		
b Enter the amount contributed by the employer to the plan for this plan year	6b		
c Subtract the amount in line 6b from the amount in line 6a. Enter the result (enter a minus sign to the left of a negative amount)	6c		
If you completed line 6c, skip lines 8 and 9.			
7 Will the minimum funding amount reported on line 6c be met by the funding deadline?	☐ Yes	☐ No	☐ N/A
8 If a change in actuarial cost method was made for this plan year pursuant to a revenue procedure or other authority providing automatic approval for the change or a class ruling letter, does the plan sponsor or plan administrator agree with the change?	☐ Yes	☐ No	☒ N/A

Part III	Amendments
-----------------	-------------------

9 If this is a defined benefit pension plan, were any amendments adopted during this plan year that increased or decreased the value of benefits? If yes, check the appropriate box. If no, check the "No" box.	☐ Increase	☐ Decrease	☐ Both	☒ No
---	-----------------------------------	-----------------------------------	-------------------------------	--

Part IV	ESOPs (see instructions). If this is not a plan described under section 409(a) or 4975(e)(7) of the Internal Revenue Code, skip this Part.
----------------	---

10 Were unallocated employer securities or proceeds from the sale of unallocated securities used to repay any exempt loan?	☐ Yes	☐ No
11 a Does the ESOP hold any preferred stock?	☐ Yes	☐ No
b If the ESOP has an outstanding exempt loan with the employer as lender, is such loan part of a "back-to-back" loan? (See instructions for definition of "back-to-back" loan.)	☐ Yes	☐ No
12 Does the ESOP hold any stock that is not readily tradable on an established securities market?	☐ Yes	☐ No

For Paperwork Reduction Act Notice, see the Instructions for Form 5500.

Schedule R (Form 5500) 2023
v. 230707

Part V Additional Information for Multiemployer Defined Benefit Pension Plans

13 Enter the following information for each employer that (1) contributed more than 5% of total contributions to the plan during the plan year or (2) was one of the top-ten highest contributors (measured in dollars). See instructions. *Complete as many entries as needed to report all applicable employers.*

a Name of contributing employer

b EIN

c Dollar amount contributed by employer

d Date collective bargaining agreement expires (If employer contributes under more than one collective bargaining agreement, check box ☐ and see instructions regarding required attachment. Otherwise, enter the applicable date.) Month _____ Day _____ Year _____

e Contribution rate information (If more than one rate applies, check this box ☐ and see instructions regarding required attachment. Otherwise, complete lines 13e(1) and 13e(2).)

(1) Contribution rate (in dollars and cents) _____

(2) Base unit measure: ☐ Hourly ☐ Weekly ☐ Unit of production ☐ Other (specify): _____

a Name of contributing employer

Independent Auditor's Report

The Plan Administrator
Selected Schlumberger Pension Plans
Houston, Texas

Opinion

We have audited the financial statements of the Schlumberger Technology Corporation Pension Plan and the Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad (collectively, the Plans), employee benefit plans subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2022, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plans as of December 31, 2023 and 2022 and the changes in their net assets available for benefits for the years then ended, and the accumulated plan benefits as of December 31, 2022 and the changes in their accumulated plan benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audits of the Financial Statements* section of our report. We are required to be independent of the Plans and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plans and determining that the Plans' transactions that are presented and disclosed in the financial statements are in conformity with the Plans' provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plans' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plans' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

BDO USA, P.C.

Selected Schlumberger Pension Plans

Notes to Financial Statements

1. Descriptions of the Plans

The following brief descriptions of the Schlumberger Technology Corporation Pension Plan and the Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad (collectively, the Plans) are provided for general information purposes only. Participants should refer to the applicable Plan document for complete information.

General

The Schlumberger Technology Corporation Pension Plan (the Technology Plan) is a defined-benefit pension plan that covers employees of Schlumberger Technology Corporation (the Corporation) who have met certain requirements, including length of service.

The Schlumberger Pension Plan for U.S. Taxpayers Employed Abroad (the U.S. Abroad Plan) is a defined-benefit pension plan established on January 1, 2009, covering employees (U.S. citizens and/or U.S. taxpayers employed abroad) of Schlumberger Limited (the Company) who have met certain requirements, including length of service.

The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans have an allocable interest in the net assets of the Schlumberger Master Pension Trust (the Pension Trust), a master trust arrangement that serves as the investing medium for the Plans and a certain other plan of the Company and its affiliates.

The Plans are administered by an Administrative Committee, which is appointed by the Board of Directors of the Company. The Administrative Committee is responsible for general administration of the Plans.

The Finance Committee is appointed by the Board of Directors of the Company. The Finance Committee communicates to The Northern Trust Company (the Trustee) the funding policies and methods that have been established to carry out the objectives of the Plans.

Effective May 18, 2022, the Technology Plan was amended to provide for the purchase of a group annuity contract to fund the annuity benefits, beginning August 1, 2022, for certain retirees in pay status as of January 1, 2022, whose monthly annuity benefits were less than \$464. On May 25, 2022, the Technology Plan purchased annuity contracts with American General Life Insurance Company in the amount of \$148,414,000 and with The United States Life Insurance Company in the City of New York in the amount of \$1,086,000.

Eligibility

Employees of the Corporation hired on and after October 1, 2004 are not eligible to participate in the Technology Plan. Employees hired prior to October 1, 2004 were eligible to participate in the Technology Plan on the first day of the month following the completion of one year of eligible service (i.e., 1,000 hours in 12 consecutive months). Such employees had a one-time opportunity to cease participation in the Technology Plan as of January 1, 2005 and to receive an enhanced benefit under the Schlumberger Technology Corporation Savings and Profit Sharing Plan. Benefit accruals under the Technology Plan were frozen as of January 1, 2005 for participants who elected to cease participation in the Technology Plan.

Selected Schlumberger Pension Plans

Notes to Financial Statements

Each employee of the Company who (a) is designated as an International Mobile employee, an International Commuter employee, a Europe Mobile employee, or a GeoMobile employee who was a participant in the Schlumberger International Staff Pension Plan immediately prior to January 1, 2009; (b) is a U.S. taxpayer working outside of the U.S.; and (c) has completed one year of continuous active employment, shall be eligible to commence participation in the U.S. Abroad Plan on the first day of the next following month. An employee who was a participant in the Schlumberger International Staff Pension Plan prior to January 1, 2009, and who completes one hour of service on or after such date, shall be eligible to participate in the U.S. Abroad Plan as of January 1, 2009. Employees hired after January 1, 2009 are eligible to participate in the U.S. Abroad Plan as of the date the employee completes one year of active service, as defined in the U.S. Abroad Plan document. Notwithstanding the foregoing, in order to be eligible to become a participant, each employee must agree to make participant contributions in accordance with the written procedures of the U.S. Abroad Plan.

Effective October 1, 2014, the U.S. Abroad Plan was amended to exclude any new participants from participation in the U.S. Abroad Plan.

Vesting

Effective January 1, 2009, a Technology Plan participant is 100% vested at the attainment of age 50 or completion of five years of active service, whichever occurs first. Prior to January 1, 2009, a Technology Plan participant was 100% vested at the attainment of age 55 or completion of five years of active service, whichever occurred first.

A U.S. Abroad Plan participant is 100% vested in his accrued benefits attributable to Company contributions to the U.S. Abroad Plan after five years of active service or attainment of age 50, whichever occurs first. A U.S. Abroad Plan participant is 100% vested in his accrued benefits attributable to his contribution to the U.S. Abroad Plan.

Retirement Age

Normal retirement age is 65. Under the Technology Plan, early retirement is permitted at age 55 and special early retirement is permitted at age 50, provided the participant has completed at least 20 years of active service. Under the U.S. Abroad Plan, early retirement is permitted at age 55 for benefits accrued in 2009 and age 60 for benefits accrued after 2009. Under the U.S. Abroad Plan, special early retirement is permitted at age 55 for benefits accrued after 2009, and age 50 for benefits accrued in 2009, provided the participant has completed at least 20 years of active service.

Funding Policy

Employer contributions are determined by an independent actuary, Segal Consulting (Segal), and represent the annual amount required by ERISA to meet the minimum funding standards. These contributions are funded on or before the required dates as set forth by ERISA. The Plans met the ERISA minimum funding requirement for 2023 and 2022. The Corporation or the Company, at its option, can contribute more than the minimum required. Employee contributions are not permitted under the Technology Plan. With respect to the U.S. Abroad Plan, active participants are required to contribute 6% of their admissible compensation as defined in the U.S. Abroad Plan document, for each calendar year or portion thereof by automatic payroll deduction. Upon termination of employment prior to becoming vested, participant contributions, together with appropriate accumulated interest at a 6% rate, are refunded.

Selected Schlumberger Pension Plans

Notes to Financial Statements

Benefits

Participants who are vested and whose benefits commence at or after normal, early, or special early retirement age are entitled to receive pension benefits for their lifetime in annual amounts equal to the sum of their annual retirement credits as of their retirement date reduced for early commencement, as defined in the applicable Plan document.

Technology Plan participants accrue an annual retirement credit for each year (or portion thereof) of participation in the Technology Plan equal to 1.5% of their admissible compensation, as defined in the Technology Plan document, for up to 15 years of active service and 2% for years in excess of 15.

U.S. Abroad Plan participants accrue an annual retirement credit for each year (or portion thereof) of participation in the U.S. Abroad Plan equal to 3.2% of their admissible compensation for the Plan year 2009. For each year of service after December 31, 2009, a participant shall accrue an annual retirement credit equal to 3.5% of admissible compensation.

The maximum annual benefit payable to a participant shall not exceed the lesser of \$265,000 and \$245,000 in 2023 and 2022, respectively, or 100% of the participant's average annual compensation for the three consecutive calendar years with the greatest aggregate compensation. The maximum admissible compensation shall not exceed \$330,000 and \$305,000 in 2023 and 2022, respectively. In addition, survivor benefits may be paid to a deceased participant's surviving spouse or to a designated beneficiary under certain retirement options.

Alternative benefit options are available, as outlined in the applicable Plan document.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plans are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Accordingly, actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plans' interest in the Pension Trust and net assets held in the 401(h) account are stated at fair value and consist of an allocation of the Pension Trust's net assets that are based upon cumulative employer contributions, net of benefits paid to terminated and retired participants, and allocations of the Pension Trust's investment income (loss) and administrative expenses.

The Plans follow the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Under ASC 820, fair value is defined as the price

Selected Schlumberger Pension Plans

Notes to Financial Statements

that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., the exit price). The Director of Trust Investments determines the Plans' valuation policies utilizing information provided by the investment managers and the Trustee.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1), and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plans have the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plans. Unobservable inputs are inputs that reflect the Plans' own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no significant transfers in or out of Levels 1, 2, or 3 for the years ended December 31, 2023 and 2022. See Notes 6 and 7 for the disclosures required by ASC 820 with regard to Plan investments.

A fair value measurement is for a particular asset or liability. The unit of account determines what is being measured by reference to the level at which the asset or liability is aggregated (or disaggregated) for purposes of applying other accounting pronouncements. Accordingly, because

Selected Schlumberger Pension Plans

Notes to Financial Statements

the Plans do not hold shares of the Pension Trust, the disclosures required by ASC 820 are required for the individual assets and liabilities under the Pension Trust and are not required for the Plans' total interest in the Pension Trust. Similarly, since the Pension Trust does not hold shares of the Schlumberger Group Trust (the Group Trust or SGT), the disclosures required by ASC 820 are required for the individual assets and liabilities under the Group Trust and are not required for the Pension Trust's total interest in the Group Trust. Likewise, since the Group Trust does not own shares of the different investment pools, which are disclosed in Note 7, the disclosures required by ASC 820 are required for the individual assets and liabilities under each investment pool and are not required for the Group Trust's total interest in each of the investment pools.

In the same context, the disclosures required by ASC 820 are required for the individual assets and liabilities underlying the net assets held in the 401(h) account that are measured at fair value and are not required for the net assets held in the 401(h) account itself or the amounts related to the obligation of the 401(h) account. Since all of the net assets held in the 401(h) account consist of the interest in the Pension Trust, the disclosures required by ASC 820 for the individual assets and liabilities under the Pension Trust are adequate (see Note 6).

In determining the fair value of assets and liabilities underlying the Pension Trust, Group Trust, and the investment pools owned by the Group Trust, the Pension Trust and Group Trust use various inputs and valuation methodologies, which are described in Notes 6 and 7. There have been no significant changes in the inputs or valuation methodologies used at December 31, 2023 and 2022.

Investment income (loss) relating to the Pension Trust is allocated to the respective Plan based upon the average monthly balance invested by each Plan.

Benefit Payments

Benefits are recorded when paid.

Administrative Expenses

The Plans' expenses are paid either by the Plans or the Corporation or the Company, as provided by the applicable Plan document. Expenses that are paid directly by the Corporation or the Company are excluded from these financial statements. Expenses incurred in connection with the general administration of the Plans that are paid by the respective Plan are recorded as deductions in the accompanying statements of changes in net assets available for benefits. Certain administrative expenses relating to the Pension Trust are allocated to the Plans based upon the average monthly balance invested by each Plan. Other administrative expenses are allocated to the Plans based on the specific services provided to each Plan.

Reclassification

Certain Technology Plan balances in the statement of changes in net assets available for benefits as of December 31, 2022, were reclassified to conform to the current year presentation.

3. Risks and Uncertainties

Due to various risks (i.e., interest rate, market, and credit risk) associated with certain investments of the Pension Trust and Group Trust, and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the values of the investments of

Selected Schlumberger Pension Plans

Notes to Financial Statements

the Pension Trust and Group Trust will occur in the near term, and this could materially affect the value of the Plans' interest in the Pension Trust and the corresponding investment income reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits, respectively.

The Pension Trust and Group Trust invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported in the financial statements.

4. Plan Termination

The Board of Directors of the Company reserves the right to terminate either Plan entirely or partially at any time. In the event of the termination of either Plan, the rights of all affected employees to benefits accrued to the date of such termination to the extent then-funded shall become fully vested and nonforfeitable, and the net assets of that Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in accordance with the following priorities:

- a) Benefits that a participant has been receiving for at least three years before the date of termination (or would have been receiving if he or she had retired three years before the date of termination) based on the provisions of that Plan (as in effect during the five-year period ending on such date) under which such benefit would be the least.
- b) Benefits to each participant representing the present value of benefits guaranteed under Title IV of ERISA.
- c) Benefits to each participant representing the present value of his or her nonforfeitable benefits.
- d) Benefits to each participant representing the present value of his or her accrued benefit.

After satisfaction of all liabilities of that Plan for benefits or otherwise, any residual assets remaining in the Pension Trust shall, unless otherwise required by ERISA, revert to the Corporation or the Company.

Generally, the Pension Benefit Guaranty Corporation (the PBGC) guarantees the payment of most vested normal retirement benefits, early retirement benefits, certain disability and survivor benefits, and survivor pensions, subject to certain limitations. Should either Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty,

Selected Schlumberger Pension Plans

Notes to Financial Statements

while other benefits may not be provided for at all. Participants should consult the applicable Plan document for more complete information related to guarantees of benefits.

The PBGC guarantees vested benefits at the level in effect on the date of either Plan termination. However, if benefits have been increased within the five years before either Plan termination, the whole amount of that Plan's vested benefits or the benefit increase may not be guaranteed. In addition, there is a ceiling on the amount of monthly benefits that PBGC guarantees, which is adjusted periodically.

Whether all participants receive their benefits should either Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Corporation or the Company and the level of benefits guaranteed by the PBGC.

In the event of a Plan's withdrawal from the Pension Trust, the Trustee shall set apart that portion or equitable share of the Pension Trust allocated to that Plan pursuant to a valuation and allocation of the Pension Trust by the Trustee, subject to approval by the Finance Committee.

5. Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic benefit payments, including lump-sum distributions, which are attributable under the applicable Plan provisions to the service employees have rendered to the benefit information date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plans are accumulated based on employees' compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from the applicable Plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits, which is determined by an independent actuary, is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as death, withdrawal, or retirement) between the benefit information date and the expected date of payment.

The calculation of the actuarial present value of accumulated plan benefits as of December 31, 2022 has been based on the following significant actuarial assumptions:

Selected Schlumberger Pension Plans

Notes to Financial Statements

Expected Rate of Return on Investments

The expected rate of return on investments, including a reduction of 0.5% to reflect anticipated administrative expenses associated with providing benefits, is as follows:

- Technology Plan: 6.00% for 2022 and 4.40% for 2021
- U.S. Abroad Plan: 6.00% for 2022 and 4.40% for 2021

Mortality

Total-collar amounts weighted Pri-2012 employee and retiree mortality tables for 2022 and 2021.

Retirement Rates

Technology Plan*				U.S. Abroad Plan	
Age	Rate (%)	Age	Rate (%)	Age	Rate (%)
55-58	7	62	25	50-54	-
59	9	63	20	55-59	25
60	12	64	20	60-64	40
61	12	65	100	65	100

* For former Smith and Greybull Plan participants currently in the Technology Plan, 100% retirement is assumed at age 62. For former Reda Hourly Plan participants, age 65 and five years of service for participants hired on or before October 1988.

Termination Rates Before Retirement

Technology Plan*				U.S. Abroad Plan			
Age	Rate (%)	Age	Rate (%)	Age	Rate (%)	Age	Rate (%)
20	16.67	45	4.50	25	12.60	45	8.40
25	16.67	50	2.17	30	10.30	50	11.37
30	13.00	55	-	35	8.80	54	13.20
35	9.83	60	-	40	8.25	55+	-
40	7.00						

* For former Smith and Greybull Plan participants currently in the Technology Plan, no pre-retirement termination is assumed. For former Reda Hourly Plan participants:

Age	Rate (%)
20	18.00
30	16.00
40	13.00
50	8.56
60	2.76

Selected Schlumberger Pension Plans

Notes to Financial Statements

Retirement from Terminated Vested Status

- Technology Plan: age 65
- U.S. Abroad Plan: age 60

The actuarial cost method used is the Projected Unit Credit for both funding and the calculation of the actuarial present value of accumulated plan benefits.

The foregoing actuarial assumptions are based on the presumption that a Plan will continue. Were a Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2023 and 2022. Had the valuations been performed as of December 31, there would be no material differences.

The Plans are not considered “at risk” for the 2023 Plan year.

6. Interest in the Schlumberger Master Pension Trust

The Plans’ investments are 100% in the Pension Trust. The Pension Trust was established for the investment of assets of the Plans sponsored by Schlumberger Limited and its affiliates (collectively, the Pension Plans). Each participating plan has an undivided allocable interest in the Pension Trust. The assets of the Pension Trust are held by the Trustee.

The Plans’ interest in the net assets of the Pension Trust, net of receivables and accrued expenses of the individual Plans, was as follows:

December 31,

	2023		2022	
	Percentage (%)	Amount	Percentage (%)	Amount
Technology Plan	88.38	\$ (3.425 billion)	88.81	\$ (3.396 billion)
Technology Plan (401(h) account)	5.35	(207.409 million)	5.08	(194.260 million)
U.S. Abroad Plan	6.26	(242.738 million)	6.11	(233.840 million)

Investment income and certain administrative expenses relating to the Pension Trust are allocated to the individual Plans based upon average monthly balances invested by each Plan. Other administrative expenses are allocated to each Plan based on the specific services provided to them. The Plans’ balances reflect transfers to and from the individual Plans, as well as the Plans’ share of investment income. In addition, any commitments of the Pension Trust are shared by the individual Plans based on the participating Plan’s allocable interest.

^(a) Certain investments that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to and permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits of the Pension Trust.

Valuation of Investments and Financial Liabilities

The Pension Trust interest in the Group Trust is stated at fair value and consists of an allocation of the Group Trust's net assets that is based on amounts contributed by the Pension Trust and a certain other trust and plan of Schlumberger Limited and its affiliates, net of distributions, that are invested by the Group Trust, and a respective allocation of investment income and administrative expenses.

Short-term investment funds are stated using a constant price (or amortized cost) of \$1 per unit of participation, which approximates fair value.

Investments in limited partnerships are stated at fair value represented by the NAV of the partnership interests owned by the Pension Trust at year-end, as determined by the respective general partners of the limited partnerships based on the fair value of the underlying investments of the limited partnerships. In establishing the fair value of partnership investments, general partners take into consideration information from the financial statements of the companies in which they invest, as well as the currency in which the investment is denominated. Because of the inherent uncertainty of the valuation, the valuation presented does not necessarily represent the amount that might ultimately be realized from the investment held. The investments in limited partnerships were purchased for the sole benefit of the Pension Plans.

Selected Schlumberger Pension Plans

Notes to Financial Statements

The investment in the collective trust is stated at the NAV of the units of participation owned at year-end as determined by the trustee of the collective trust based on the fair value of the underlying investments of the collective trust. The NAV is used as a practical expedient for measuring fair value.

Government and other related bonds are comprised primarily of inflation-protected U.S. treasuries and, to a lesser extent, other government-related securities (e.g., government agency obligations and municipal and provincial bonds). Government and other related bonds are stated at fair value. Government and other related bonds, other than for those that have quoted market prices available, are valued based on a bid evaluation (i.e., an estimated price at which a dealer would pay for a security). Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Pension Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth a summary of investments held by the Pension Trust reported at NAV (in thousands):

December 31,

	Fair Value		Unfunded Commitments at December 31, 2023	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	2023	2022			
Limited partnerships ⁽¹⁾	\$ 510,735	\$ 488,070	\$ 152,157	N/A	N/A
Collective trust	5,906	3,481	-	Daily	None
Total	\$ 516,641	\$ 491,551	\$ 152,157		

⁽¹⁾ Limited partnerships include investments in several fund of funds limited partnerships that invest primarily in U.S. and foreign companies. These investments can never be redeemed with the funds. Instead, the nature of the investments is that distributions are received through the liquidation of the underlying assets of the funds. If these investments were held, it is estimated that the underlying assets of the funds would be liquidated over ten to 15 years.

Commitments

The Pension Trust invests in certain real estate and limited partnerships investments whereby the Pension Trust commits to providing certain funds primarily on an as-needed basis. During the year ended December 31, 2023, the Pension Trust increased contributed capital by approximately \$26.89 million. At December 31, 2023, the Pension Trust was committed to funding approximately \$152.16 million for such investments over a period not exceeding six years.

Selected Schlumberger Pension Plans

Notes to Financial Statements

Investment Transactions and Investment Income

Net appreciation or depreciation in fair value of investments includes realized and unrealized gains or losses on investments bought and sold, as well as held during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Derivative Financial Instruments

The Pension Trust enters into various derivative financial instruments in carrying out its investment strategy, principally to: (1) hedge a portion of the Pension Trust's portfolio to limit or minimize exposure to certain risks, such as foreign exchange risk, interest rate risk, credit risk, and equity risk; (2) gain an exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets; and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments.

Interest rate contracts, such as fixed-income futures, interest rate swaps, and option premiums are used to manage the interest rate risk.

The Pension Trust enters into fixed-income futures contracts in the normal course of its investment activities to reduce the interest rate risk associated with its fixed-income investments, to replicate government bond positions, and as a duration management tool to enhance portfolio returns.

Upon entering into a fixed-income futures contract, the Pension Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Pension Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin," which is settled daily and is included in net appreciation (depreciation) in the changes in Pension Trust net assets. The Pension Trust records a variation margin receivable or payable in the Pension Trust's statements of net assets available for benefits for valuation margins that have not been received or paid at the end of the year. Fixed-income futures contracts are not included in the Pension Trust's statements of net assets available for benefits, as cash settlements are made daily.

The risk of counterparty non-performance associated with the use of fixed-income futures is considered to be modest, as performance is assured by the futures exchanges, which provide multiple layers of protection, such as the collection of variation margin on a daily basis and the use of standardized contracts to facilitate liquidity.

The notional values of derivative contracts were as follows (in thousands):

December 31,

		Long Contracts		Short Contracts	
		2023	2022	2023	2022
Interest rate contracts	\$	639,600	\$ 595,761	\$ (204,424)	\$ (345,477)

As of December 31, 2023 and 2022, the Pension Trust holds certain derivative instruments that are eligible for offset in the statements of net assets available for benefits and are subject to the terms of master netting arrangements between the Pension Trust and select counterparties. In the case

Selected Schlumberger Pension Plans

Notes to Financial Statements

of default, the master netting arrangement allows the Pension Trust to close out and net its total exposure to a counterparty with respect to all the transactions governed under a single agreement with that counterparty. For financial reporting purposes, the Pension Trust does not offset derivative assets and derivative liabilities that are subject to master netting agreements in the statements of net assets available for benefits.

The following table provides information relating to the potential effect of offsetting recognized derivative assets and liabilities that are subject to an enforceable master netting arrangement, presented in the Pension Trust's statements of net assets available for benefits (in thousands):

December 31, 2023

Selected Schlumberger Pension Plans

Notes to Financial Statements

Assets owned and included in the Pension Trust's statements of net assets available for benefits, with a fair value of \$10,050,159 and \$16,576,745 at December 31, 2023 and 2022, respectively, were held by the Pension Trust's brokers as collateral for derivative transactions. The notional amount of this collateral at December 31, 2023 and 2022 was \$11,385,000 and \$18,945,600, respectively.

Security Lending

Pursuant to the investment objectives of the Pension Trust, stock loan transactions are permitted with the objective of adding investment income to the Pension Trust. The Pension Trust may lend securities held to unaffiliated broker-dealers registered under the Securities Exchange Act of 1934, or banks organized in the United States of America through the Pension Trust's participation in the Trustee's securities lending program. At all times, the borrower must maintain cash or equivalent collateral equal in value to at least 100% of the value of the securities loaned. The cash collateral generally is invested in short-term securities that generate income that is allocated between the security lending agent and the Pension Trust at predetermined contractual rates. The primary risk in lending securities is that a third-party borrower may default during a sharp rise in the price of the security that was borrowed, resulting in a deficiency in the collateral posted by the third-party borrower. The Pension Trust seeks to minimize this risk by requiring that the market value of the loaned securities is recomputed each day and that additional collateral is furnished daily, if necessary. The Pension Trust records cash collateral received from the third-party borrower as an asset and also records a corresponding liability for the return of the cash collateral. The Pension Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. There were no securities loaned in the Pension Trust securities lending program during and as of December 31, 2023 and 2022.

7. Interest in the Schlumberger Group Trust

A portion of the Pension Trust's investments are in the Group Trust. The Group Trust serves as the investing medium for the Pension Trust and a certain other trust of Schlumberger Limited and its affiliates. Each participating trust and plan have an undivided allocable interest in the Group Trust. The assets of the Group Trust are held by the Trustee. At December 31, 2023 and 2022, the Pension Trust's interest in the net assets of the Group Trust was approximately 30.86% (\$3.015 billion) and 34.04% (\$3.030 billion), respectively. Investment income and certain administrative expenses relating to the Group Trust are allocated to the individual trusts and the Plans based upon average monthly balances invested by each trust and plan in the underlying pooled investments of the Group Trust. Other administrative expenses are allocated to each trust and plan based on the specific services provided to them.

The remainder of this page intentionally left blank.

Selected Schlumberger Pension Plans

Notes to Financial Statements

The Pension Trust's interest in the Group Trust investments was approximately as follows:

<i>December 31,</i>	2023 (%)	2022 (%)
U.S. equity index	-	-
Fixed income - short term	10.59	15.94
Treasury inflation protected securities (TIPS)	100.00	100.00

Valuation of Investments and Financial Liabilities

Cash and cash equivalents are stated at fair value. Foreign currency included in cash is translated using closing spot rates of exchange. Cash equivalents include repurchase agreements, U.S. Treasury Bills, and other highly liquid investments that are within three months of maturity when acquired, and short-term investment funds. Repurchase agreements are valued at amortized cost, which approximates fair value. U.S. government securities and government agency obligations included in cash equivalents are stated at fair value based on a bid evaluation. Short-term investment funds are stated using a constant price (or amortized cost) of \$1 per unit of participation, which approximates fair value. Other cash equivalents are valued on the basis of a bid evaluation or at amortized cost, which approximates fair value.

Equity securities include U.S. and international equity securities. U.S. equities include companies that are well diversified by industry sector and equity style (i.e., growth and value strategies). Active and passive management strategies are employed. Investments are primarily in large capitalization stocks and, to a lesser extent, mid-and small-cap stocks. International equities are invested in companies that are traded on exchanges outside the U.S. and are well diversified by industry sector, country, and equity style. Active and passive strategies are employed. The vast majority of the investments are made in companies in developed markets with a small percentage in emerging markets.

Selected Schlumberger Pension Plans

Notes to Financial Statements

Common stocks and most of other equities are stated at fair value as determined by closing quoted market prices in active markets in which the securities are traded. Certain other equity investments are valued at fair value based on bid or mid prices (i.e., the average of the bid and ask prices).

Mutual funds and other registered investment companies are stated at fair value. Mutual funds are valued at quoted market prices (available to institutions and retail clients) that represent the NAV of shares owned by the Group Trust at year-end. Certain other registered investment companies are valued based on the NAV of the units owned by the Group Trust at year-end, as determined by the investment manager of the other registered investment companies based on the fair value of the underlying investments of the other registered investment companies. ETFs, also considered to be other registered investment companies, are valued at quoted market prices, which may not represent the NAV of the units owned by the Group Trust at year-end. Other registered investment companies include an open-end interval management investment fund that offers its shareholders the opportunity to purchase and redeem shares on a periodic basis. The mutual funds and other registered investment companies held by the Group Trust are deemed to be actively traded.

Collective and other trusts are stated at the NAV of the units of participation owned by the Group Trust at year-end, as determined by the trustees of the collective and other trusts based on the fair value of the underlying investments of the collective and other trusts. The NAV is used as a practical expedient for measuring fair value.

Corporate bonds and other fixed-income obligations consist primarily of investment-grade bonds from diversified industries. Corporate bonds and other fixed-income obligations are stated at fair value. Certain corporate bonds and other fixed-income obligations are valued based on a bid evaluation, while others are valued based on mid and bid prices (i.e., a bid price represents a price a dealer is ready to pay for a security). Oftentimes, bid evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Government and other related bonds are comprised primarily of inflation-protected U.S. treasuries, and to a lesser extent, other government-related securities (e.g., government agency obligations and municipal and provincial bonds). Government and other related bonds are stated at fair value. Government and other related bonds, other than for those that have quoted market prices available, are valued based on a bid evaluation (i.e., an estimated price at which a dealer would pay for a security). Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Government mortgage-backed securities and other collateralized obligations are debt obligations that represent claims to the cash flows from pools of credit cards, auto loans, and mortgage loans that are purchased from banks, mortgage companies, and other originators and then assembled into pools by governmental, quasi-governmental, and private entities. Government mortgage-backed securities and other collateralized obligations are stated at fair value. Government mortgage-backed securities and other collateralized obligations are valued based on a bid evaluation. Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Selected Schlumberger Pension Plans

Notes to Financial Statements

Bank loans consist of term bank loans and revolving bank loans that are traded in the secondary market. Bank loans are stated at fair value. Bank loans are based on bid evaluations. Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Asset derivatives include options, rights, warrants, swaps, swaptions, and pending foreign exchange purchases. Derivatives are stated at fair value. Exchange-traded options and rights are valued based on a settlement price, which is the price set by the exchange at the end of each day's trading. Pending foreign exchange purchases are marked-to-market based upon year-end forward exchange rates. Other derivatives are valued based on a bid price or a mid-evaluation (i.e., the average of the estimated prices at which a dealer would pay for and sell a security). Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Short-term securities under the security lending agreement represent short-term investments purchased with proceeds from cash collateral received from borrowers of the Group Trust's securities. Short-term securities under the security lending agreement are valued at cost, which approximates fair value.

Other short-term securities are valued based on a bid evaluation or at amortized cost, which approximates fair value.

Liability derivatives (which include options, swaps, and pending foreign exchange sales) and other liabilities are stated at fair value. Exchange-traded options are valued based on a settlement price, which is the price set by the exchange at the end of each day's trading. Pending foreign exchange sales are marked-to-market based upon year-end forward exchange rates. Other derivatives are valued on the basis of a mid-evaluation. Oftentimes, these evaluations use proprietary models under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks. Other liabilities are valued at cost, which approximates fair value.

The obligation under the security lending agreement represents amounts due to borrowers of the Group Trust's securities for the cash collateral received from them. The amount due approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Group Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The disclosures required by FASB ASC 820 are not required for due from brokers for securities sold, due to brokers for securities purchased, accrued income, other assets, and other liabilities.

Investment Transactions and Investment Income

Net appreciation or depreciation in fair value of investments includes realized gains or losses on investments sold and unrealized gains or losses on investments held. Realized gains or losses on

Selected Schlumberger Pension Plans

Notes to Financial Statements

securities transactions are recorded as the difference between proceeds received and cost, with cost determined on the moving-average basis. Unrealized gains or losses on investments represent the change in the difference between the cost and fair value of investments at the end of the year and at the beginning of the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date.

Derivative Financial Instruments

The Group Trust enters into various derivative financial instruments in carrying out its investment strategy, principally to: (1) hedge a portion of the Group Trust's portfolio to limit or minimize exposure to certain risks, such as foreign exchange risk, interest rate risk, credit risk, and equity risk; (2) gain an exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets; and (3) increase investment returns by reducing the cost of structuring the portfolio or by capturing value disparities between financial instruments.

Forward foreign exchange contracts are used to protect the Group Trust against the exchange risk associated with the Group Trust's investment in common stock and fixed-income obligations denominated in foreign currency because the Group Trust is able to secure an exchange rate in the present for settlement at a future date. The terms of these contracts generally do not exceed one year. Risks in forward foreign exchange contracts arise from the possible inability of counterparties to meet the contract's terms and from movements in currency values.

The Group Trust reflects the fair value of all forward contracts as an asset (forward contracts to purchase foreign currency) or liability (forward contracts to sell foreign currency) in the Group Trust's statements of net assets available for benefits. The change in value of these forward exchange contracts is included as unrealized gains or losses in the changes in Group Trust net assets. When the forward exchange contract is closed, the Group Trust transfers the unrealized appreciation or depreciation to a realized gain or loss equal to the change in the value of the forward exchange contract when it was opened and the value at the time it was closed or offset. Unrealized and realized gains and losses are included in net appreciation (depreciation) in the Group Trust's statements of changes in net assets available for benefits.

Interest rate contracts, such as fixed-income futures, interest rate swaps, and option premiums, are used to manage the interest rate risk.

The Group Trust enters into fixed-income futures contracts in the normal course of its investment activities to reduce the interest rate risk associated with its fixed-income investments, to replicate government bond positions, and as a duration management tool to enhance portfolio returns.

Upon entering into a fixed-income futures contract, the Group Trust is required to pledge to the broker an amount of cash and/or liquid securities equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Group Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin," which is settled daily and is included in net appreciation (depreciation) in the changes in Group Trust net assets. The Group Trust records a variation margin receivable or payable in the Group Trust's statements of net assets available for benefits for valuation margins that have not been received or paid at the end of

Selected Schlumberger Pension Plans

Notes to Financial Statements

the year. Fixed-income futures contracts are not included in the Group Trust's statements of net assets available for benefits, as cash settlements are made daily.

The risk of counterparty non-performance associated with the use of fixed-income futures is considered to be modest, as performance is assured by the futures exchanges, which provide multiple layers of protection, such as the collection of variation margin on a daily basis and the use of standardized contracts to facilitate liquidity.

Interest rate swaps are used to adjust interest rate and yield curve exposures and as a substitute for physical securities. Swap agreements involve the exchange by the Group Trust with a counterparty of the respective commitments to pay or receive interest with respect to a notional amount of principal. Market risk of loss is limited to changes in the fair value from December 31 of each year presented through the applicable expiration date. Long swap positions increase exposure to long-term interest rates, while short positions decrease exposure. The Group Trust is subject to the risk of the counterparty to an interest rate swap agreement being unable or unwilling to make timely interest payments, or to otherwise honor its obligations.

The Group Trust reflects the fair value of all interest rate swaps as an asset or liability in the Group Trust's statements of net assets available for benefits. Gains or losses on interest rate swaps are accounted in net appreciation (depreciation) in the Group Trust's statements of changes in net assets.

The Group Trust may buy or write put and call options through listed exchanges and in the over-the-counter (OTC) market. When the Group Trust buys or writes an option, an amount equal to the premium paid or received by the Group Trust is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses upon the expiration of the options. The difference between the premium and the amount paid or received on effecting a closing purchase or sale transaction also is treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost if acquired. The Group Trust, as a writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the security underlying the written option. Options to purchase and sell fixed-income securities and swaptions are used to manage interest rate and volatility exposure, while credit spreads are used to manage credit risk. Options will become worthless at expiration if the underlying instrument does not reach the strike price of the option.

The Group Trust may use derivatives, including stock rights and warrants, as a substitute for investment in equity and fixed-income securities or to reduce the effect of fluctuating foreign currencies on foreign currency denominated investments.

Rights are the right, but not the obligation, to purchase newly issued equity shares, often in proportion to the number of shares currently owned, in a specified company, at a pre-established price on or within a pre-determined date. Rights are privately transacted in OTC markets. Rights are subject to general market risk and liquidity risk.

A warrant provides the holder the right, but not the obligation, to purchase securities from the issuing entity at a specific price and within a certain time period. Warrants are privately transacted in OTC markets. The Group Trust may purchase or receive warrants from its investment in the debt

Selected Schlumberger Pension Plans

Notes to Financial Statements

or equity of a company. The warrants provide the Group Trust with exposure and potential gains upon equity appreciation of the company's share price.

The value of a warrant has two components: time value and intrinsic value. A warrant has a limited life and expires on a certain date. As the expiration date of a warrant approaches, the time value of a warrant will decline. In addition, if the stock underlying the warrant declines in price, the intrinsic value of an "in the money" warrant will decline. Further, if the price of the stock underlying the warrant does not exceed the strike price of the warrant on the expiration date, the warrant will expire worthless. As a result, there is the potential for the Group Trust to lose its entire investment in a warrant.

Credit default swaps (CDS) are used to manage credit exposure without buying or selling securities outright. Written CDSs increase credit exposure (selling protection), obligating the portfolio to buy bonds from counterparties in the event of a default. Purchased CDSs decrease exposure (buying protection), providing the right to "put" bonds to the counterparty in the event of a default. CDS agreements involve one party making a stream of payments (referred to as the buyer of protection) to another party (the seller of protection) in exchange for the right to receive a specified return in the event of a default or other credit event for the referenced entity, obligation, or index. As a seller of protection on credit default swap agreements, the Group Trust will generally receive from the buyer of protection a fixed rate of income throughout the term of the swap, provided that there is no credit event. Typical credit events include bankruptcy, dissolution or insolvency of the referenced entity, failure to pay, and restructuring of the obligations of the referenced entity. As the seller, the Group Trust would effectively add leverage to its portfolio because, in addition to its total net assets, the Group Trust would be subject to investment exposure on the notional amount of the swap.

If the Group Trust is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Group Trust will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation, other deliverable obligations, or underlying securities comprising the referenced index; or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index. If the Group Trust is a buyer of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Group Trust will either (i) receive from the seller of protection an amount equal to the notional amount of the swap and deliver the referenced obligation, other deliverable obligations, or underlying securities comprising the referenced index; or (ii) receive a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.

The Group Trust may use CDSs on corporate issues, sovereign issues of an emerging country, or U.S. municipal issues to provide a measure of protection against defaults of the issuers (i.e., to reduce risk where the Group Trust owns or has exposure to the referenced obligation) or to take an active long or short position with respect to the likelihood of a particular issuer's default. The Group Trust also may use CDSs on credit indices to hedge a portfolio of CDSs or bonds, which is less expensive than it would be to buy many CDSs to achieve a similar effect. CDSs on indices are benchmarks for protecting investors owning bonds against default, and traders use them to speculate on changes in credit quality. At December 31, 2023 and 2022, the Group Trust did not hold CDSs where the Group Trust was a seller of protection.

Selected Schlumberger Pension Plans

Notes to Financial Statements

The maximum potential amount of future payments (undiscounted) that the Group Trust as a seller of protection could be required to make under a CDS agreement would be an amount equal to the notional amount of the agreement. These potential amounts would be partially offset by any recovery values of the respective referenced obligations, upfront payments received upon entering into the agreement, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Group Trust for the same referenced entity or entities. Securities or cash may be identified as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency.

Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate, sovereign, U.S. municipal, or U.S. Treasury obligation issues as of period-end serve as an indicator of the current status of the payment/performance risk and represent the likelihood or risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to be made to enter into the agreement. Wider credit spreads represent a deterioration of the referenced entity's credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.

The Group Trust reflects the fair value of all CDSs as an asset or liability in the Group Trust's statements of net assets available for benefits. Gains or losses on CDSs are accounted in net appreciation (depreciation) in the Group Trust's statements of changes in net assets.

The Group Trust enters into equity futures contracts in the normal course of its investment activities to replicate exposure to U.S. and non-U.S. equity markets. Upon entering into an equity futures contract, the Group Trust is required to pledge to the broker an amount of cash and/or liquid securities, equal to the minimum "initial margin" requirements of the exchange. Pursuant to the futures contract, the Group Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are known as "variation margin," which is settled daily and is included in net appreciation (depreciation) in the changes in Group Trust net assets. The Group Trust records a variation margin receivable or payable in the Group Trust's statements of net assets available for benefits for valuation margins that have not been received or paid at the end of the year. Equity futures contracts are not included in the Group Trust's statements of net assets available for benefits as cash settlements are made daily.

U.S. Treasury Bills, U.S. Treasury Bonds, short-term investments, and cash with a fair value of \$7,930,193 and \$0 at December 31, 2023 and 2022, respectively, were posted by brokers and held by the Group Trust as collateral for derivative transactions. The notional amount of this collateral at December 31, 2023 and 2022 was \$8,020,200 and \$0, respectively.

Assets owned and included in the Group Trust's statements of net assets available for benefits, with a fair value of \$4,095,867 and \$0 at December 31, 2023 and 2022, respectively, were held by the Group Trust's brokers as collateral for derivative transactions. The notional amount of this collateral at December 31, 2023 and 2022 was \$8,744,944 and \$16,147,000, respectively.

Certain of the Group Trust's derivative documents contain provisions, in addition to standard events of default, which if violated, could cause a counterparty to declare a termination event and terminate the relevant agreement(s) with the Group Trust, which would result in a determination of the net amount due to or due from the counterparty and require immediate payment in

Selected Schlumberger Pension Plans

Notes to Financial Statements

accordance therewith. The aggregate fair value of all derivative instruments with credit-risk-related contingency features that are in a net liability position on December 31, 2023 and 2022 was \$556,599 and \$45,369,937, respectively. If the credit-risk-related contingency features underlying these agreements were triggered on December 31, 2023 and 2022 with respect to one or more counterparties and any of such counterparties declared a termination event, as of the effective date of termination, all derivative positions would be valued in accordance with the valuation procedures set forth in the derivatives documentation, and the net amount due to or due from the counterparty would be payable by or payable to the Group Trust, respectively.

The Group Trust is subject to various Master Agreements, which govern the terms of certain transactions with select counterparties. These Master Agreements reduce the counterparty risk associated with relevant transactions by specifying credit protection mechanisms and providing standardization that improves legal certainty. Since different types of forward and OTC financial derivative transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different Master Agreement, resulting in the need for multiple agreements with a single counterparty. As the Master Agreements are specific to unique operations of different asset types, they allow the Group Trust to close out and net its total exposure to a counterparty in the event of a default with respect to all the transactions governed under a single agreement with that counterparty.

Master Agreements can also help limit counterparty risk by specifying collateral posting arrangements at pre-arranged exposure levels. Under the Master Agreements, collateral is routinely transferred if the total net exposure to certain transactions (net of existing collateral already in place) governed under the relevant Master Agreement with a counterparty in a given account exceeds a specified threshold, which typically ranges from \$0 to \$250,000, depending on the counterparty and the type of Master Agreement. U.S. Treasury Bills and U.S. dollar cash are generally the preferred forms of collateral, although other forms of AAA-rated paper may be used. The Group Trust's overall exposure to counterparty risk can change substantially within a short period, as it is affected by each transaction subject to the relevant Master Agreement.

Fair value amounts recognized for derivative instruments and fair value amounts recognized for the right to reclaim or return cash collateral arising from derivative instruments recognized at fair value under master netting arrangements are presented on a gross basis in the Group Trust's statements of net assets available for benefits. At December 31, 2023 and 2022, the Group Trust has the right to reclaim cash collateral under master netting arrangements of \$5,237 and \$30,916,964, respectively. At December 31, 2023 and 2022, the Group Trust has the obligation to return cash collateral under master netting arrangements of \$644,900 and \$14,056,287, respectively.

The notional values of derivative contracts were as follows (in thousands):

December 31,

	Long Contracts		Short Contracts	
	2023	2022	2023	2022
Interest rate contracts	\$ (6,889)	\$ (176,760)	\$ (18,416)	\$ (391,117)
Foreign exchange contracts	1,148	67,598	(1,143)	(69,339)
Equity contracts	(73)	237	115	(674)
	\$ (5,814)	\$ (108,925)	\$ (19,444)	\$ (461,130)

Selected Schlumberger Pension Plans

Notes to Financial Statements

The fair values of outstanding derivative instruments and the location in the Group Trust's statements of net assets available for benefits are summarized as follows (in thousands):

December 31,

December 31,

		Fair Value	
	Statement of Net Assets Location	2023	2022
Asset Derivatives			
Derivatives not designated as hedging instruments under FASB ASC 815-20:			
Interest rate contracts	Other investments: derivatives	\$ 1,136	\$ 31,982
Foreign exchange contracts	Other investments: derivatives	6	241
Equity contracts	Other investments: derivatives	116	196
Total Asset Derivatives		\$ 1,258	\$ 32,419
Liability Derivatives			
Derivatives not designated as hedging instruments under FASB ASC 815-20:			
Interest rate contracts	Derivatives and other liabilities	\$ (482)	\$ (42,715)
Foreign exchange contracts	Derivatives and other liabilities	(1)	(1,981)
Equity contracts	Derivatives and other liabilities	(74)	(674)
Total Liability Derivatives		\$ (557)	\$ (45,370)

The effect of derivative instruments on the Group Trust's statements of changes in net assets available for benefits was as follows (in thousands):

Year ended December 31,

	Amount of Gain (Loss) Recognized in Net Appreciation (Depreciation) in Fair Value of Investments		Amount of Net Income (Expense) Recognized in Interest and Dividends	
	2023	2022	2023	2022
Derivatives not designated as hedging instruments under FASB ASC 815-20:				
Interest rate contracts	\$ 5,850	\$ 19,378	\$ 2,997	\$ (809)
Foreign exchange contracts	(329)	8,495	-	-
Equity contracts	59,751	(99,898)	21,300	(25,927)
Total	\$ 65,272	\$ (72,025)	\$ 24,297	\$ (26,736)

As of December 31, 2023 and 2022, the Group Trust holds certain derivative instruments that are eligible for offset in the statements of net assets available for benefits and are subject to the terms of master netting arrangements between the Group Trust and select counterparties. In the case of default, the master netting arrangement allows the Group Trust to close out and net its total exposure to a counterparty with respect to all the transactions governed under a single agreement with that counterparty. For financial reporting purposes, the Group Trust does not offset derivative assets and derivative liabilities that are subject to master netting agreements in the statements of net assets available for benefits.

Security Lending

Pursuant to the investment objectives of the Group Trust, stock loan transactions are permitted with the objective of adding investment income to the Group Trust. The Group Trust may lend securities held to unaffiliated broker-dealers registered under the Securities Exchange Act of 1934, or banks organized in the United States of America through the Group Trust's participation in the Trustee's securities lending program. At all times, the borrower must maintain cash or equivalent collateral equal in value to at least 100% of the value of the securities loaned. The cash collateral generally is invested in short-term securities that generate income that is allocated between the security lending agent and the Group Trust at predetermined contractual rates. The primary risk in lending securities is that a third-party borrower may default during a sharp rise in the price of the security that was borrowed, resulting in a deficiency in the collateral posted by the third-party borrower. The Group Trust seeks to minimize this risk by requiring that the market value of the loaned securities is recomputed each day and that additional collateral is furnished daily, if necessary. The Group Trust records cash collateral received from the third-party borrower as an asset and also records a corresponding liability for the return of the cash collateral. The Group Trust bears the risk of loss with respect to the unfavorable change in fair value of the invested cash collateral. The fair value of the securities loaned in the Group Trust securities lending program amounted to \$561,978,674 and \$866,468,455 at December 31, 2023 and 2022, respectively, and is included in investments in the Group Trust. The Group Trust recorded gross earnings from lending securities of \$36,164,084 and \$16,294,104 in 2023 and 2022, respectively, and net income of \$1,815,530 and \$2,355,636 in 2023 and 2022, respectively. Participating brokers received (paid) \$33,985,456 and \$13,513,197 for rebates in 2023 and 2022, respectively, and the Trustee received \$363,098 and \$425,269 in 2023 and 2022, respectively, for fees relating to security lending activity.

8. Tax Status

The Technology Plan and the U.S. Abroad Plan obtained their latest determination letter on February 13, 2018, which stated that the Plans, as amended, are in compliance with applicable requirements of the Internal Revenue Code (IRC). The Plans are required to operate in conformity with the IRC to maintain the tax-exempt status. The Plans' management and tax counsel believe that the Plans currently are designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires Plans' management to evaluate tax positions taken by the Plans and recognize a tax liability if the Plans have taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service (IRS). The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On December 8, 2020, the Department of Labor (DOL) commenced a review of the Technology Plan for the Plan year ended December 31, 2017, to the date of its letter.. On July 16, 2021, the IRS commenced an examination of the Technology Plan for the Plan year ended December 31, 2019. The Technology Plan received a letter from the IRS dated May 23, 2024, noting the completion of the examination. Certain deficiencies were noted and corrected by entering into a closing agreement with the IRS.

Notes to Financial Statements

9. Related Party and Party-in-Interest Transactions

Fees paid to the Trustee by the Pension Trust were \$792,915 and \$1,219,019 for the years ended December 31, 2023 and 2022, respectively. A portion of these fees are allocated to the Plans. Through their interest in the Pension Trust, certain investments held by the Plans are managed by the Trustee or an affiliate of the Trustee. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transactions rules under ERISA. As described in Note 2, the Plans paid certain expenses related to plan operations to various service providers. These transactions are party-in-interest transactions under ERISA.

10. 401(h) Account

Effective October 26, 2005, the Technology Plan was amended to include a medical-benefit component in addition to the retirement-benefit component, to fund a portion of the postretirement health care obligations for eligible retirees and specified beneficiaries, in accordance with Section 401(h) of the IRC. A separate account has been established and maintained in the Technology Plan for the net assets related to the medical-benefit component (the 401(h) account). Assets held in the 401(h) account are invested together with other Technology Plan assets and a proportionate share of the investment gain and loss of the Pension Trust is allocated to the 401(h) account, as specified by the Finance Committee. As required by IRC Section 401(h), the Technology Plan's assets in the 401(h) account may not be used for, or diverted to, any purpose other than providing health care benefits for retirees and their beneficiaries. Assets in the 401(h) account derive primarily from direct contributions from the Plans' sponsors, whose contributions are calculated and funded at the discretion of the Finance Committee. Technology Plan participants do not contribute to the 401(h) account. There also is the possibility that assets may derive from qualified transfers of excess assets from the retirement benefits account, in accordance with IRC Section 420. Any assets thus transferred (and any investment income allocable thereto) that are not used during the Plan year must be transferred back into the retirement benefits account in the Pension Trust. The related obligations for health care benefits are not included in the Technology Plan's obligations in the statement of accumulated plan benefits but are reflected as obligations in the financial statements of the Schlumberger Group Welfare Benefits Plan. In the event an individual's interest in the 401(h) account is forfeited prior to (a) the termination of the Technology Plan, (b) elimination of the obligation to provide retiree medical benefits hereunder, or (c) termination of all of the Retiree Medical Benefit Program, an amount equal to the amount of such forfeiture shall be applied as soon as practicable thereafter to reduce the Plans' sponsors' future contributions to the 401(h) account. Any amounts remaining in the 401(h) account after the satisfaction of all liabilities for such retiree health care benefits shall be returned to the Plans' sponsors.

The remainder of this page intentionally left blank.

Notes to Financial Statements

11. Reconciliation to Form 5500

The following is a reconciliation of the Technology Plan's net assets available for pension benefits per the financial statements to Form 5500 of the Technology Plan:

<i>December 31,</i>	2023	2022
Net Assets Available for Benefits , per financial statements	\$ 3,425,378,342	\$ 3,394,708,229
Net assets held in 401(h) account included as assets in Form 5500	207,408,555	194,259,522
Net Assets Available for Benefits , per Form 5500	\$ 3,632,786,897	\$ 3,588,967,751

The net assets of the 401(h) account, included in the Technology Plan's Form 5500, are not available to pay pension benefits but may only be used to pay retiree health benefits.

The following is a reconciliation of the Technology Plan's net investment gain or loss from master trust investment accounts per the financial statements to the Technology Plan's Form 5500:

Year ended December 31, 2023

	Amounts per Financial Statements	401(h) Account	Amounts per Form 5500
Plan interest in the Pension Trust investment income consists of:			
Interest and other income	\$ 18,229,004	\$ 3,699,913	\$ 21,928,917
Net appreciation in fair value of investments	231,558,264	9,642,215	241,200,479
Administrative expenses	(8,660,585)	(193,095)	(8,853,680)
Total	\$ 241,126,683	\$ 13,149,033	\$ 254,275,716

12. Subsequent Events

For purposes of determining the effect of subsequent events on these financial statements, management has evaluated events through October 14, 2024, the date the financial statements were available to be issued. There were no other material subsequent events requiring adjustment to the financial statements or disclosures stated herein.

Actuarial Assumptions and Methods

Certain assumptions are prescribed as noted below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest:

The interest rates used for the 2023 plan year are the 24-month average corporate bond segment rates for January 2023 subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. Each of the three segments of the yield curve reflecting the 25-year average rates is constrained to be no less than 5%. For 2023, the stabilization corridor is 5%. It will remain at 5% through 2030 and then increase by 5% per year beginning in 2031 until it reaches 30% for 2035. The interest rate description above reflects that the plan sponsor elected to apply the ARPA provisions beginning with the 2020 plan year. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization (post-ARPA)	4.75%	5.00%	5.74%	5.41%
Current Year, without stabilization	2.13%	3.62%	3.93%	3.79%
Prior Year, reflecting stabilization (post-ARPA)	4.75%	5.18%	5.92%	5.59%
Prior Year, without stabilization	0.88%	2.61%	3.27%	3.03%

The interest rates used to determine the PBGC variable-rate premium are:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter
Current Year	4.84%	5.15%	4.85%

These interest rates are based on the plan sponsor's election to change methods for the 2023 plan year (the next election to change methods may not be before the 2028 plan year) and are subject to the constraints established by law.

Attachment to 2023 Schedule SB of Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 22-1692661 PN 011

Transfer Rates (from active to inactive status, applies to actives only)	Age	Rates
	25	6.10%
	30	6.70
	35	7.30
	40	7.54
	45	6.69
	50	6.12
	54	3.67
	55	2.45
	57 & Older	0.00
Active participants assumed to transfer to inactive status are not assumed to return to active status in the USAB plan. This assumption is based on historical and current data, adjusted to reflect input from the plan sponsor, estimated future experience, and professional judgment.		
Retirement (from active status) Rates	Age	Rates
	50-54	0.00%
	55-59	25.00
	60-64	40.00
	65	100.00
This assumption is based on historical and current data, adjusted to reflect input from the plan sponsor, estimated future experience, and professional judgment.		
Description of Weighted Average Retirement Age	Age 58, determined as follows: The weighted average retirement age is calculated as the sum of the product of each potential retirement age (for an employee less than the earliest retirement age) times the probability of surviving to that age and then retiring at that age, assuming no other decrements.	
Retirement From Terminated Vested Status	Age 60 This assumption is based on historical and current data, adjusted to reflect input from the plan sponsor, estimated future experience, and professional judgment.	
Percent Married	80% for males, 60% for females. Spouse is assumed to be the opposite gender. This assumption is based on historical and current data, adjusted to reflect input from the plan sponsor, estimated future experience, and professional judgment.	

Attachment to 2023 Schedule SB of Form 5500
Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 22-1692661 PN 011

Age Difference	Male spouses are assumed to be three years older than female spouses. This assumption is based on historical and current data, adjusted to reflect input from the plan sponsor, estimated future experience, and professional judgment.
Administrative Expenses	An expense assumption is required under the funding rules. Plan-related expenses of \$614,257 are expected to be paid by the plan during the year. This assumption is based on the actual amount paid during the prior year.
Active and Terminated Participants Over Normal Retirement Age	It is assumed that the plan sponsor has already reflected any required actuarial increases in the participant data provided for the valuation.
Asset Method	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 6.60% for 2021 and 4.40% for 2022, not to exceed the applicable third segment rates of 6.11% for 2021 and 5.92% for 2022.
Funding Method and Contribution Requirement	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Plan sponsors are required under Internal Revenue Code Section 430 to make a minimum level of contributions to qualified pension plans. Available credit balances can be used to satisfy this required contribution. In general, the minimum required contribution is the sum of the target normal cost and an installment that amortizes the plan's funding shortfall, offset by any plan overfunding, if applicable. If all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the plan at the minimum required contribution level is generally designed to achieve a 100% funded status within fifteen years. Once that is achieved, or for overfunded plans, the minimum required contribution will generally equal the target normal cost reduced by any overfunding.
Non-Prescribed Assumption Changes Since Prior Valuation	None.
Actuarial Models	Segal valuation results are based on proprietary actuarial modeling software. The actuarial valuation models generate a comprehensive set of liability and cost calculations that are presented to meet regulatory, legislative and client requirements. Our Actuarial Technology and Systems unit, comprising both actuaries and programmers, is responsible for the initial development and maintenance of these models. The models have a modular structure that allows for a high degree of accuracy, flexibility, and user control. The client team programs the assumptions and the plan provisions, validates the models, and reviews test lives and results, under the supervision of the responsible actuary.

c Target normal cost.....	6c 2,692,674

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Part II Beginning of Year Carryover and Prefunding Balances		(a) Carryover balance	(b) Prefunding balance
7	Balance at beginning of prior year after applicable adjustments (line 13 from prior year)	0	86,451,460
8	Portion elected for use to offset prior year's funding requirement (line 35 from prior year)	0	0
9	Amount remaining (line 7 minus line 8)	0	86,451,460
10	Interest on line 9 using prior year's actual return of <u>-27.53</u> %	0	-23,800,087
11	Prior year's excess contributions to be added to prefunding balance:		
	a Present value of excess contributions (line 38a from prior year)		0
	b(1) Interest on the excess, if any, of line 38a over line 38b from prior year Schedule SB, using prior year's effective interest rate of <u>5.59</u> %		0
	b(2) Interest on line 38b from prior year Schedule SB, using prior year's actual return		0
	c Total available at beginning of current plan year to add to prefunding balance		0
	d Portion of (c) to be added to prefunding balance		0
12	Other reductions in balances due to elections or deemed elections	0	0
13	Balance at beginning of current year (line 9 + line 10 + line 11d – line 12)	0	62,651,373

Part III Funding Percentages			
14	Funding target attainment percentage	14	87.78 %
15	Adjusted funding target attainment percentage	15	116.05 %
16	Prior year's funding percentage for purposes of determining whether carryover/prefunding balances may be used to reduce current year's funding requirement	16	115.72 %
17	If the current value of the assets of the plan is less than 70 percent of the funding target, enter such percentage.	17	%

Part IV Contributions and Liquidity Shortfalls					
18 Contributions made to the plan for the plan year by employer(s) and employees:					
(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees	(a) Date (MM-DD-YYYY)	(b) Amount paid by employer(s)	(c) Amount paid by employees
07/01/2023	0	848,289			
Totals ►			18(b)	0	18(c)
					848,289

19 Discounted employer contributions – see instructions for small plan with a valuation date after the beginning of the year:			
a Contributions allocated toward unpaid minimum required contributions from prior years	19a	0	
b Contributions made to avoid restrictions adjusted to valuation date.	19b	0	
c Contributions allocated toward minimum required contribution for current year adjusted to valuation date.	19c	0	
20 Quarterly contributions and liquidity shortfalls:			
a Did the plan have a "funding shortfall" for the prior year? ☐ Yes ☒ No			
b If line 20a is "Yes," were required quarterly installments for the current year made in a timely manner? ☐ Yes ☐ No			
c If line 20a is "Yes," see instructions and complete the following table as applicable:			
Liquidity shortfall as of end of quarter of this plan year			
(1) 1st	(2) 2nd	(3) 3rd	(4) 4th

Part V	Assumptions Used to Determine Funding Target and Target Normal Cost		
21	Discount rate:		
a	Segment rates:	<div style="display: flex; justify-content: space-around;"> <div style="border: 1px solid black; padding: 2px; text-align: center;">1st segment: 4.75 %</div> <div style="border: 1px solid black; padding: 2px; text-align: center;">2nd segment: 5.00 %</div> <div style="border: 1px solid black; padding: 2px; text-align: center;">3rd segment: 5.74 %</div> </div>	☐ N/A, full yield curve used
b	Applicable month (enter code).....	21b	0
22	Weighted average retirement age	22	58
23	Mortality table(s) (see instructions) ☐ Prescribed - combined ☒ Prescribed - separate ☐ Substitute		
Part VI	Miscellaneous Items		
24	Has a change been made in the non-prescribed actuarial assumptions for the current plan year? If "Yes," see instructions regarding required attachment. ☐ Yes ☒ No		
25	Has a method change been made for the current plan year? If "Yes," see instructions regarding required attachment. ☐ Yes ☒ No		
26	Demographic and benefit information		
a	Is the plan required to provide a Schedule of Active Participants? If "Yes," see instructions regarding required attachment.		☒ Yes ☐ No
b	Is the plan required to provide a projection of expected benefit payments? If "Yes," see instructions regarding required attachment ...		☒ Yes ☐ No
27	If the plan is subject to alternative funding rules, enter applicable code and see instructions regarding attachment	27	
Part VII	Reconciliation of Unpaid Minimum Required Contributions For Prior Years		
28	Unpaid minimum required contributions for all prior years.....	28	0
29	Discounted employer contributions allocated toward unpaid minimum required contributions from prior years (line 19a)	29	0
30	Remaining amount of unpaid minimum required contributions (line 28 minus line 29)	30	0
Part VIII	Minimum Required Contribution For Current Year		
31	Target normal cost and excess assets (see instructions):		
a	Target normal cost (line 6c).....	31a	2,692,674
b	Excess assets, if applicable, but not greater than line 31a	31b	0
32	Amortization installments:	Outstanding Balance	Installment
a	Net shortfall amortization installment	27,064,327	2,478,577
b	Waiver amortization installment	0	0
33	If a waiver has been approved for this plan year, enter the date of the ruling letter granting the approval (Month _____ Day _____ Year _____) and the waived amount		33
34	Total funding requirement before reflecting carryover/prefunding balances (lines 31a - 31b + 32a + 32b - 33)....		34 style="text-align: right;">5,171,251
	Carryover balance	Prefunding balance	Total balance
35	Balances elected for use to offset funding requirement.....	0	5,171,251
36	Additional cash requirement (line 34 minus line 35)		36 style="text-align: right;">0
37	Contributions allocated toward minimum required contribution for current year adjusted to valuation date (line 19c)		37 style="text-align: right;">0
38	Present value of excess contributions for current year (see instructions)		
a	Total (excess, if any, of line 37 over line 36)		38a style="text-align: right;">0
b	Portion included in line 38a attributable to use of prefunding and funding standard carryover balances		38b style="text-align: right;">0
39	Unpaid minimum required contribution for current year (excess, if any, of line 36 over line 37)		39 style="text-align: right;">0
40	Unpaid minimum required contributions for all years.....		40 style="text-align: right;">0
Part IX	Pension Funding Relief Under the American Rescue Plan Act of 2021 (See Instructions)		
41	If an election was made to use the extended amortization rule for a plan year beginning on or before December 31, 2021, check the box to indicate the first plan year for which the rule applies. ☐ 2019 ☐ 2020 ☐ 2021

65	100.00	185	185	11,994
Total			10,000	576,163

Weighted Average Retirement Age: 57.62

*The weighted average retirement age is equal to the total (Number of Retirements * Age) divided by the total number of retirements, rounded to the nearest integral age.*

Summary of Plan Provisions

This subsection summarizes the major provisions of the Plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Status	CLOSED TO NEW HIRES EFFECTIVE OCTOBER 1, 2014
Normal Retirement	<ul style="list-style-type: none"> • <i>Age Requirement:</i> 65 • <i>Service Requirement:</i> None • <i>Amount:</i> 3.2% of admissible compensation for the 2009 plan year, plus 3.5% of admissible compensation for each year of service after 2009.
Early Retirement	<ul style="list-style-type: none"> • <i>Age Requirement:</i> 60 for benefits accrued after 2009; 55 for benefits accrued in 2009 • <i>Service Requirement:</i> None • <i>Amount:</i> Normal retirement pension accrued without reduction for early retirement.
Special Early Retirement	<ul style="list-style-type: none"> • <i>Age Requirement:</i> 55 for benefits accrued after 2009; 50 for 2009 accruals. • <i>Service Requirement:</i> None for benefits accrued after 2009; 20 years for 2009 accruals. • <i>Amount:</i> Normal retirement pension accrued reduced by 4% per year below age 60 (post 2009 accruals) or 55 (2009 accruals).
Vesting	<ul style="list-style-type: none"> • <i>Age Requirement:</i> Age 50 or 5 years vesting service if under age 50 at termination. • <i>Amount:</i> Normal retirement pension accrued payable at age 65, or at early retirement date (i.e., 55 for 2009 accruals, age 60 for post-2009 accruals) with the following reduction – 4% for each of the first 5 years and 3% for each additional year below age 65. • <i>Vesting Percentage:</i> 100% after 5 years of service or attainment of age 50.
Pre-Retirement Death Benefits	<ul style="list-style-type: none"> • <i>Age Requirement:</i> None • <i>Service Requirement:</i> 5 years of service • <i>Amount:</i> 50% of the benefit which would otherwise have been payable if the participant retired on the day before his date of death and elected a Qualified Joint and Survivor Annuity (or retired at the earliest eligible age, if death occurred before that date); if at least age 55 at death, 60% of the benefit otherwise payable is provided. • <i>Optional Amount:</i> In lieu of the above amount, a participant in active service who meets the early or special early retirement requirements has the option to elect a pre-retirement death benefit of 100% of the benefit which would otherwise have been payable if the participant retired on the day before his date of death and elected a Qualified Joint and Survivor Annuity. Under this election, the retirement benefit is reduced by 0.25% for each year of coverage.

Attachment to 2023 Schedule SB of Form 5500
Schedule SB, Part V – Summary of Plan Provisions
Schlumberger Pension Plan for US Taxpayers Employed Abroad
EIN 22-1692661 PN 011

Post-Retirement Death Benefits	<ul style="list-style-type: none"> • <i>Joint and Survivor:</i> If married, pension benefits are paid in the form of a joint and survivor annuity unless this form is rejected by employee. If rejected, or if not married, benefits are payable for the life of the employee or in any other available optional form elected by the employee in an actuarially equivalent amount.
Employee Contributions	<ul style="list-style-type: none"> • <i>Required Contributions:</i> Participants contribute 6% (4% in 2009) of their admissible compensations. • <i>Withdrawal of Contribution:</i> Upon termination of employment prior to becoming vested, employee contributions, together with appropriate accumulated interest at a 6% rate, are refunded. • <i>Return of Contributions in the Event of Death:</i> In the event of death prior to benefit commencement, employee contributions with interest to the date of death are refunded to any participant.
Participation	<ul style="list-style-type: none"> • <i>Age Requirement:</i> None • <i>Service Requirement:</i> After one year of vesting service (including pre-2009 service). • <i>Eligibility:</i> Employees of International Staff who are US taxpayers (Citizens and GCH's) and hired before October 1, 2014.
Service	<ul style="list-style-type: none"> • <i>Vesting:</i> All years of employment are credited, including SLB service. • <i>Benefit:</i> From date of participation.
Forms of Benefit	<ul style="list-style-type: none"> • <i>Normal Form:</i> Life annuity, or if married, then a fully subsidized joint and 60% survivor annuity. • <i>Optional Forms:</i> <ul style="list-style-type: none"> Joint and 50%, 60%, 75%, or 100% survivor (with any beneficiary) Life with 5, 10, 15, or 20 years certain Social Security leveling option Lump sum if the amount is \$30,000 or less • <i>Actuarial Equivalence:</i> For purposes of converting a life annuity to an optional form of benefit (excluding lump sums), actuarial equivalence is based on a 7.00% interest rate and the 1984 Unisex Pension Mortality Table rated back three years. For purposes of calculating lump sums, actuarial equivalence is based on the assumptions specified in IRC Section 417(e), including reflecting the yield curve in effect for the August preceding the year of calculation.
