# INDEPENDENT AUDITOR'S REPORT

October 15, 2024

To the Participants and Plan Administrator
Camden Casting Center, Inc. Hourly Pension Plan

## Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Camden Casting Center, Inc. Hourly Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statements of changes in net assets available for benefits for the years then ended, as well as the related notes to the financial statements.

The Plan's management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

The Plan's management has obtained certifications from a qualified institution as of, and for the years ended, December 31, 2023 and 2022, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

## Opinion

In our opinion, based on our audits and on the procedures performed as described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section:

- The amounts and disclosures in the financial statements, other than those agreed to, or derived from, the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### Opinion (continued)

- The information in the accompanying financial statements related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that the Plan's management determined meets the requirements of ERISA Section 103(a)(3)(C).

### Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("U.S. GAAS"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

### Responsibilities of Management for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

The Plan's management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

### Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the "Scope and Nature of the ERISA Section 103(a)(3)(C) Audit" section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. *Reasonable assurance* is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### Auditor's Responsibilities for the Audit of the Financial Statements (continued)

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS:

- We exercise professional judgment and maintain professional skepticism throughout the audit.

- We identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and we design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- We evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, and we evaluate the overall presentation of the financial statements.

- We conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## INDEPENDENT AUDITOR'S REPORT (CONTINUED)

### Supplemental Schedules Required by ERISA

The supplemental schedules of assets (held at end of year) as of December 31, 2023, and reportable transactions for the year then ended, are presented for the purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to, or derived from, the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with U.S. GAAS. For information included in the supplemental schedules that agreed to, or is derived from, the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to, or derived from, the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to, or is derived from, the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by, and certified to by, a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

## NOTE A — DESCRIPTION OF THE PLAN

The following brief description of the Camden Casting Center, Inc. Hourly Pension Plan (the "Plan") is provided for general informational purposes only. Participants should refer to the Plan document for more complete information, including information regarding vesting and benefit provisions. Copies of this document are available from the human resources department of the Plan sponsor.

### General

The Plan, established December 9, 1985, is a defined benefit pension plan covering all full-time employees of Citation Camden Casting Center, LLC (the "Company"), a division of Grede II LLC, which is a wholly-owned subsidiary of Grede Holdings LLC, who are members of the bargaining group represented by the Aluminum Brick & Glass Workers International Union ("ABG") and ABG Local 224 and who have completed one hour of service prior to February 28, 2003.

### Eligibility

Effective February 28, 2003, all hourly employees of the Company were terminated from employment. The Plan was amended such that, effective February 28, 2003, all Plan participants ceased accruing benefits under the Plan. Each Plan participant's accrued benefit was fixed and frozen as of February 28, 2003.

### Benefits

Eligible participants are entitled to normal annual pension benefits beginning at the participant's normal retirement age of 65, as described in the Plan. The Plan permits early retirement after age 60 and the completion of 10 years of vested service. Early retirement benefits are reduced to an actuarially determined value if the benefits begin before the normal retirement age. Normal retirement benefits are equal to a benefit level per month, payable for the participant's lifetime, multiplied by a participant's years of credited service.

The benefit levels for participants are as follows:

| Termination Date on or After | Benefit Level | Termination Date on or After | Benefit Level |
|---|---|---|---|
| December 9, 1985 | $ 12.75 | December 6, 1999 | $ 15.75 |
| December 9, 1996 | 13.50 | December 4, 2000 | 16.50 |
| December 8, 1997 | 14.25 | December 3, 2001 | 17.25 |
| December 7, 1998 | 15.00 | | |

## NOTE A — DESCRIPTION OF THE PLAN (CONTINUED)

### Benefits (continued)

If a participant was employed on February 28, 2003, the participant became fully vested in the Plan. For participants that were not employed on February 28, 2003, participants become fully vested upon the earlier of normal retirement age, death, or disability. In the event that employment was terminated prior to normal retirement, death, or disability, employees became 100 percent vested in the Plan after completion of five years of vested service. A year of vested service is a Plan year in which an employee completed at least 1,000 hours of work with the Company. No vesting is achieved for less than five years of vesting service.

Upon the death of an active participant after his or her retirement date, the surviving spouse receives the survivor portion of the qualified joint and survivor annuity, as defined by the Plan. If an active participant who has a vested interest in the Plan dies prior to his or her normal retirement age, the participant's survivor is entitled to a death benefit equal to the benefit the participant would have received under the qualified joint and survivor annuity provisions, as defined by the Plan. A participant whose employment terminated due to disability shall receive a benefit equal to his or her accrued benefit on his or her disability retirement date reduced by any company-paid insurance benefits and/or any workers' compensation benefits payable to such participant with respect to his or her disability.

Benefits under the Plan are paid through a single life annuity or a 50 percent joint and survivor annuity. There is an automatic lump-sum distribution for amounts under $1,000.

### Contributions

The Plan has met the minimum funding requirements of the Employee Retirement Income Security Act of 1974, as amended. The Company has the right under the Plan to discontinue such contributions at any time and to amend, modify, suspend, or terminate the Plan, consistent with the collective bargaining agreement and applicable law. No amendment, modification, suspension, or termination of the Plan shall have the effect of providing that any amounts then held under the Plan may be used or diverted to any purpose other than for the exclusive benefit of members or their beneficiaries.

## NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

## NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Investments

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price).

Investments in pooled separate accounts are valued at their estimated net asset value, which is based on the fair value of the funds' underlying assets.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on sales of securities are based on average costs. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation include gains and losses on investments bought and sold, as well as held, during the year.

### Fair Value Measurements

The Plan uses fair value measurements in the preparation of its financial statements, which utilize various inputs, including those that can be readily observable, corroborated, or are generally unobservable. The Plan utilizes market-based data and valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Additionally, the Plan applies assumptions that market participants would use in pricing an asset or liability, including assumptions about risk.

The measurement of fair value includes a hierarchy based on the quality of inputs used to measure fair value. Financial assets and liabilities are categorized into this three-level fair value hierarchy based on the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities and the lowest priority to unobservable inputs.

The various levels of the fair value hierarchy are described as follows:

- Level 1 — Financial assets and liabilities whose values are based on unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access

- Level 2 — Financial assets and liabilities whose values are based on quoted prices in markets that are not active or model inputs that are observable for substantially the full term of the asset or liability

## NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Fair Value Measurements (continued)

- Level 3 — Financial assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement

The use of observable market data, when available, is required in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and accumulated plan benefits, as well as disclosure of contingent assets and liabilities, at the date of the financial statements, and the reported amounts of changes in net assets and accumulated plan benefits during the reporting period. Actual results could differ from those estimates.

### Risks and Uncertainties

The Plan invests in various securities, including pooled separate accounts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

### Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note C) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on various plan benefit formulas, as defined in the Plan document, depending upon the date of the retirement, death, or termination of employment. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

## NOTE B — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### Subsequent Events

The Plan's management has evaluated subsequent events through October 15, 2024, the date that the accompanying financial statements were available to be issued.

## NOTE C — ACCUMULATED PLAN BENEFITS

The Plan's actuary, Principal Financial Services, estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of January 1, 2023 and 2022 is as follows:

| | 2023 | 2022 |
|---|---|---|
| **Actuarial Present Value of Accumulated Plan Benefits:** | | |
| Vested benefits: | | |
| Participants currently receiving payments | $ 2,962,761 | $ 2,789,921 |
| Participants with deferred benefits | 1,936,588 | 1,646,080 |
| **Total Actuarial Present Value of Accumulated Plan Benefits** | **$ 4,899,349** | **$ 4,436,001** |

## NOTE C — ACCUMULATED PLAN BENEFITS (CONTINUED)

Changes in the actuarial present value of accumulated plan benefits for the year ended January 1, 2023 are as follows:

| | |
|---|---|
| **Changes in Accumulated Plan Benefits Attributable to:** | |
| Benefits accumulated and other changes | $ (23,038) |
| Interest due to decrease in discount period | 247,078 |
| Benefits paid | (281,940) |
| Change in actuarial assumptions | 521,248 |
| **Change in Accumulated Plan Benefits** | **463,348** |
| Actuarial Present Value of Accumulated Plan Benefits, January 1, 2022 | 4,436,001 |
| **Actuarial Present Value of Accumulated Plan Benefits, January 1, 2023** | **$ 4,899,349** |

The more significant assumptions underlying the actuarial valuations are as follows:

| | |
|---|---|
| Actuarial cost method: | |
| Funding purposes | Projected unit credit |
| Accumulated plan benefits | Unit credit |
| Weighted average discount rate for the present value of accumulated plan benefits | 2023 – 4.50 percent<br>2022 – 5.75 percent |
| Mortality basis | 2023 and 2022 – Pri-2012 Total dataset mortality table projected generationally using the Principal Mortality Improvement Scale |
| Employee turnover | A moderate rate |
| Retirement | A graduated scale |

These actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

## NOTE C — ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee compensation and demographics. Due to the nature of these assumptions and the uncertainties inherent in setting these assumptions, it is at least reasonably possible that changes in the near term to these assumptions would be material to the financial statements.

## NOTE D — INVESTMENTS AND FAIR VALUE

The following is a summary of information regarding the Plan, included in the Plan's financial statements, that was obtained or derived from information provided to the Plan administrator, and was certified as complete and accurate, by Principal Life Insurance Company ("Principal"), the Plan's custodian. Information included in the supplemental schedules of assets (held at end of year) and reportable transactions was also obtained from, and certified as complete and accurate by, Principal.

Assets certified by Principal as of December 31, 2023 and 2022 are summarized as follows:

| | 2023 | 2022 |
|---|---|---|
| **Certified Assets:** | | |
| Investments measured at net asset value: | | |
| Pooled separate accounts | $ 4,451,644 | $ 4,651,412 |

The Plan's investments in pooled separate accounts may be redeemed at any time. There are no unfunded commitments to acquire additional units of these funds as of December 31, 2023 or 2022.

Investment income (loss) certified by Principal for the years ended December 31, 2023 and 2022 is as follows:

| | 2023 | 2022 |
|---|---|---|
| Net appreciation (depreciation) in fair value of investments | $ 190,656 | $ (1,062,250) |

## NOTE D — INVESTMENTS AND FAIR VALUE (CONTINUED)

As of December 31, 2023 and 2022, the Plan held the following investments with various parties-in-interest:

| | 2023 | 2022 |
|---|---|---|
| Investments managed by Principal: | | |
| Pooled separate accounts | $ 4,451,644 | $ 4,651,412 |

## NOTE E — TRANSACTIONS WITH PARTIES-IN-INTEREST

The investments held by the Plan as of December 31, 2023 and 2022 are managed by the Plan's custodian. Such investments fall within the investment guidelines of the Plan and are considered parties-in-interest. See Note D for investments held by the Plan with various parties-in-interest.

Fees for accounting, legal, and custodial services were paid by the Plan. The fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

## NOTE F — INCOME TAX STATUS

The Plan obtained its latest determination letter on January 4, 2018, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. In addition, the Plan administrator is not aware of any uncertain tax positions or unrecognized tax benefits as of December 31, 2023 or 2022. Therefore, no provision for income taxes has been included in the Plan's financial statements.

## NOTE G — PLAN TERMINATION

Should the Plan terminate at some future time, its assets will generally not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at the time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

| | |
|---|---|
| **Assumptions prescribed by law** | |
| Mortality | Before benefit payment period<br>IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female.<br><br>During benefit payment period<br>IRS Prescribed Mortality - Optional Combined Table for Small Plans, male and female. |
| **Assumptions selected by actuary** | |
| Inflation | 2.40% increase per year.<br><br>Our long-term inflation assumption considered the current economic environment, recent and historical data, and forecasts from Federal Reserve Bank FOMC, Congressional Budget Office, and Survey of Professional Forecasters. See Long-Term Capital Market Assumptions link. |
| Asset return | 4.50% for the current plan year.<br>The asset return is developed as a weighted average rate based on the target asset allocation of the plan and the long-term capital market assumptions. The calculated return is on an arithmetic mean basis. For details, see the Long-Term Capital Market Assumptions link. |
| Expected expense | The expected expense included in target normal cost is an estimate based on prior year expenses paid from plan assets, with an updated estimate of PBGC premiums. This is the best estimate available of upcoming year's expenses. |
| Retirement | Participants are assumed to retire at normal retirement age as defined in Plan provisions.<br>This assumption is based on the results of recent experience analysis and anticipated future experience. |
| Disability | None. There are no active participants in the plan. |
| Marriage | 75% married; husbands are 3 years older than wives.<br>This assumption does not have material impact on the results of this report and has been selected based on our best estimate of active workforce. |
| Withdrawal | None. We do not have a withdrawal assumption since there are no actives in the plan. |
| Form of benefit | Participants are assumed to receive their benefits on the normal form at the assumed retirement age. |

| | |
|---|---|
| **Methods prescribed by law** | |
| Liability measure | Funding target is the present value of the benefits accrued on the valuation date. Included in Funding Target is the value of any missed required minimum distributions (defined in IRC §401(a)(9) and Treasury Regulation §1.401(a)(9)), equal to back payments with interest at 7.50%.<br><br>Target normal cost is based on benefits expected to accrue during the current plan year and includes an estimate of plan expenses for the year. |
| **Methods selected by plan sponsor** | |
| Asset method | The asset valuation method is prescribed by law for plans that elect to use a value other than market value.<br><br>For each of the preceding two years, an expected value of assets at the end of the year is compared to the end of year market value. The resulting gain or loss is recognized evenly over three plan years.<br><br>The expected value includes contributions, distributions, any deducted administrative expenses, and expected earnings (based on the lesser of the assumed interest rate or the maximum allowable rate). The deferred gains and losses are added to the current market value and then restricted to no more than 110% and no less than 90% of that market value.<br><br>When actual returns exceed the assumed return, the actuarial value of assets will lag below market value. The lag and the smoothing effect are limited since the value must be within 10% of market value. |
| Segment rates | 24-month average with no weighting to prior law basis. Use rates where August is the last month included in the average. |
| PBGC premium basis | Variable rate premiums are calculated using census, market value of assets and interest rates in effect on the current valuation date. Interest rates are the 24-month average rates used for annual cost but without the interest rate corridor defined in IRC §430(h)(2)(C)(iv). You elected this Alternative interest method for the 01/01/2020 plan year and this method must be used for five years before a change can be made. |
| **Methods elected by actuary** | |
| Retirees | Assets and liabilities for current and future retirees are included. |
| Vested benefits | A benefit is included in vested benefits if it meets the requirements under PBGC. The benefit is multiplied by the participant's vesting percentage applicable to each benefit on the valuation date.<br><br>The following ancillary benefits are always treated as nonvested: disability benefits payable to retirement age unless in pay status, pre-retirement death benefits in excess of the survivor annuity death benefit and post retirement death benefits for non-retired participants except as noted in the Plan provisions. |

## Assumptions and methods elected by actuary - plan accounting (ASC 960)

With the exceptions below, all assumptions and methods are the same as those used in determining your plan's regular funding target and target normal cost.

**Mortality**

Based on Pri-2012 Blue collar base rate mortality table projected generationally using the using the Principal Mortality Improvement Scale (Principal 2022).

**Mortality base rates**

Before benefit payment period
Employee amount-weighted, male and female
During benefit payment period
Retiree amount-weighted, male and female

The Society of Actuaries (SOA) is an actuarial organization that periodically reviews mortality data and publishes mortality tables and improvement scales. In October 2019, the SOA released the Pri-2012 Mortality Tables for private-sector retirement plans in the U.S. The Pri-2012 report contains different sets of mortality tables based on complete dataset or various subsets. The Blue collar base rate table was selected based on information provided by the plan sponsor.

Pri-2012 section 12.4. provided three approaches for designated beneficiaries in the calculation of joint-and-survivor annuities. We believe "Approach 1" is reasonable for this plan.

**Mortality improvement**

Principal 2022 MI scale is based on MIM-2021-v3 application tool issued by SOA in October 2022 with the following parameters:

| Parameter | Principal 2022 |
|---|---|
| Historical dataset | SSA |
| Whittaker-Henderson Graduation | Order 3 |
| Interpolation Structure | Basic |
| Graduated MI data last year ("jumping off" point) | 2017 |
| H/D transition ultimate year by age/cohort | 2028/2028 |
| Weight placed on interpolation by cohort | 50% |
| Initial Slope periods (constraint) | 2016-2017 (0.000) |
| LTR | SSA LTR 2022 |
| COVID-19 or Excess load | None[1] |

[1]Based on the sponsor's input, plan experience does not show a need for long-term excess death or Covid death load adjustments.
See Mortality documentation for rationale and additional information.

| | |
|---|---|
| Interest rate used to value liabilities | 4.50%<br>The interest rate used to value ASC 960 liabilities is developed as long-term expected geometric return on plan assets. Arithmetic expected return is calculated as the weighted average of broad asset classes' arithmetic returns of the plan's target asset allocation, and then converted to the geometric under lognormal distribution assumption. For details, see Long-Term Capital Market Assumptions link. |
| Treatment of administrative expenses | No adjustments are made for administrative expenses, either through a reduction in the discount rate or by calculating a present value of future expenses.<br><br>Plan sponsors may change their administrative expense handling at any time. Our approach provides consistent handling of ASC 960 liabilities from year to year, whether expenses are paid with plan assets or directly by the employer.<br><br>Note - expenses paid with plan assets are required to be included in funding normal cost. As a result, the plan is reimbursed annually through required funding. Exception – contributions are not required due to assets sufficiently in excess of liabilities to fund both expenses and normal cost. In this case, administrative expenses are taken from the excess assets. |

There have been no changes in principal eligibility or benefit provisions since the last valuation.

### Significant Event

The enrolled actuary has not been made aware that any significant events have occurred during the year.

Schedule SB, Line 24 – Change in Actuarial Assumptions
Citation Camden Casting, Inc. Hourly Pension Plan
EIN 62-0899399  Plan No. 014

Certain non-prescribed assumptions have been changed since last year.  These assumptions were changed to better reflect the anticipated experience of your plan.  See the attachment, Part V – Statement of Actuarial Assumptions/Methods, for the rationale for each assumption.

The assumed asset return for the current year has decreased from 6.00% to 4.50%.  This rate is used in the calculation of the actuarial value of plan assets.
