Report of Independent Auditors

The Plan Administrative Committee
Patterson Companies, Inc.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Patterson Companies, Inc. 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2023 and 2022, and the related statement of changes in net assets available for benefits for the year ended December 31, 2023, and the related notes (collectively referred to as the “financial statements”).

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2023 and 2022, and for the year ended December 31, 2023, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor’s Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with

GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2023, (referred to as the “supplemental schedule”), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Notes to Financial Statements

December 31, 2023 and 2022, and the Year Ended December 31, 2023.

1. Description of Plan

The following description of the Patterson Companies, Inc. 401(k) Plan (the “Plan”) provides general information about the Plan’s provisions. Patterson Companies, Inc. (the “Company”) is the plan sponsor. Participants should refer to the plan document and summary plan description for a complete description of the Plan’s provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined contribution plan covering substantially all U.S. employees of the Company and certain subsidiaries. All full-time and part-time employees are eligible to become participants in the Plan on the next day following the date on which the employee has completed one hour of service. Employees classified as temporary or casual are eligible to become participants after 1,000 hours of service during an eligibility computation period. Notwithstanding these Plan eligibility requirements, an Employee will satisfy the Plan’s eligibility requirements for purposes of being eligible to make elective deferrals upon the close of the first period of three consecutive 12-month eligibility computation periods or in which the Employee has completed at least 500 hours of service. The Plan provides for automatic enrollment of newly eligible participants. Unless they affirmatively elect otherwise, each newly eligible participant will be treated as having elected to defer 3% of their compensation to the Plan effective as soon as practicable after such employee’s date of hire.

The Plan provides for an automatic escalation feature. Under this provision, a participant shall be deemed to have increased the rate of his/her elective deferral contributions by 1% of the participant’s compensation effective on each July 1, but in no event shall the automatic increase cause the participant’s elective deferral contribution percentage to exceed 15% of the compensation.

The Company is responsible for the general administration of the Plan. Delaware Charter Guarantee and Trust Company (d/b/a “Principal Trust Company”) is the trustee and record-keeper for the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Plan Merger

Effective December 31, 2023, the Company merged the Patterson Companies, Inc. Employee Stock Ownership Plan (the “ESOP”), another plan sponsored by the Company, into the Plan. The net assets transferred into the Plan are reflected on the statement of changes in net assets available for benefits as a transfer from the ESOP.

1. Description of Plan (continued)

Contributions

Subject to certain limitations, participants may contribute between 1% and 50% of their total annual compensation, as defined in the Plan. If automatically enrolled, a participant's deferral is set at 3% of eligible compensation until changed either by the participant or by means of the automatic escalation described in the preceding section. Participants may modify deferral percentages at any time. Participants who have attained age 50 before the end of the year are

eligible to make catch-up contributions. Effective January 1, 2021, the Plan was amended to provide for a qualified Safe Harbor matching contribution of up to 4% of the employee's compensation. The Company may make profit sharing and/or matching contributions at the discretion of the Company's board of directors. No such discretionary contributions have been made to the Plan for the 2023 and 2022 plan years. All contributions are subject to certain limitations of the Internal Revenue Code (the "Code").

The Plan allows a participant to contribute into the Plan any balances from another qualified benefit plan ("rollover contributions").

Participants may direct their elective contributions into various investment options offered by the Plan and can change their investment options on a daily basis. Participants that are automatically enrolled have their contributions initially invested in the Plan's default investment option (Vanguard Target Retirement Funds) until changed by the participant. The Company's contributions (if any) are invested in the same manner as that of the participant's elective contributions.

Participant Accounts

A separate account is maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions and the Company's discretionary profit sharing and/or matching contributions (if any) and allocations of plan earnings, and is charged with an allocation of administrative expenses. Plan earnings are allocated based on the participant's share of net earnings or losses of their respective elected investment options. Expenses incurred in the administration of the Plan are charged against the participant's account balance unless the Company elects to pay such expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The participant's account equals the current value of these contributions.

Additionally, the Plan allows for transfers from the ESOP, which provides for voluntary account diversification for eligible employees at least 55 years old who have completed 10 full years of participation in the ESOP.

1. Description of Plan (continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are also immediately vested in the Company's qualified Safe Harbor matching contributions. Vesting in the Company's discretionary profit sharing or discretionary matching contributions (if any) are subject to a 5-year graded vesting schedule. A participant is 25% vested in Company discretionary profit sharing and matching contributions and related earnings after two years of service. The vesting percentage increases by 25% per year until participants become fully vested after completing five years of service.

Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. Forfeited balances of terminated participants' non-vested accounts are used to pay plan expenses or reduce future Company contributions; with any remaining balances allocated among eligible participants.

Participant Loans

Loans to participants are permitted under the Plan. Plan loans are limited to participant elective deferral contributions and may not exceed the greater of \$10,000 or 50% of the Participant's vested balance; provided that in no event will such loans exceed \$50,000. Only one loan may be outstanding to a participant at one time.

Payment of Benefits

Upon separation from service with the Company due to death, disability, retirement or termination, a participant, or their beneficiary, whose vested account balance exceeds \$5,000 may elect to receive either a lump-sum or installment payments on a quarterly or annual basis. A participant whose vested account balance is \$5,000 or less and has not commenced receiving installment payments will automatically receive an immediate lump-sum distribution (in a manner consistent with Code § 401(a) (31)) equal to their vested account balance.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (the "IRS") and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Additionally, participants who are age 59 1/2 or older may withdraw all or a portion of their vested account balance for any reason.

1. Description of Plan (continued)

Administrative Expenses

Participants pay a monthly administrative fee totaling \$55 annually. The Plan pays other administrative expenses relating to the Plan, which are reflected in the statements of changes in net assets available for benefits as administrative expenses. In addition, investment expenses are paid by the Plan and are netted with investment income.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions (if any) at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid. There are no participant withdrawals from the Plan that have been approved but not paid as of December 31, 2023 and December 31, 2022.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2023 or 2022. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Funding and Contributions

Contributions from participants are deposited at least semi-monthly with the trustee.

3. Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2023 and 2022 and net appreciation in fair value, investment income and interest income on notes receivable from participants for the year ended December 31, 2023, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Trust Company, the trustee of the Plan.

4. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs to valuation other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- quoted prices for similar assets and liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active

- observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs to valuation for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management’s own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

4. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables set forth by fair value hierarchy level the Plan’s assets carried at fair value.

Assets at Fair Value as of December 31, 2023

4. Fair Value Measurements (continued)

^(a) This category includes common/collective trust funds that are designed to deliver safety and stability by preserving principal and accumulating earnings. The common/collective trust funds of this kind include Vanguard Retirement Savings Trust I. The Vanguard Retirement Savings Trust I primarily invests in investment contracts issued by insurance companies and commercial banks, and similar types of fixed-principal investments. The trust intends to maintain a constant net asset value of \$1.00 per share.

However, the Vanguard Retirement Savings Trust I has a plan-level redemption restriction in which Vanguard reserves the right to require a 12-month notice prior to a plan sponsor or fiduciary withdrawal of assets from the fund. This category also includes common/collective trust funds that are designed to manage the participant's portfolio to a particular target date at which the participant is expected to start withdrawing funds. The common/collective trust of this kind is often referred to as a target date fund and includes Vanguard Target Retirement Income Trust I Fund and the Vanguard Target Retirement Income Trust I Funds for target dates of 2015 through 2065 (in five-year increments). These Funds invest in a gradually more conservative mix of various Vanguard funds as the portfolio target date approaches. Vanguard funds utilized in the portfolio mix include Total Stock Market Index Fund, Total Bond Market II Index Fund, Total International Bond Index Fund, Total International Stock Index Trust II, and Vanguard Short-Term Inflation-Protected Securities Fund. This investment allows 1 transfer(s) per 30 day period. The transfer restriction applies to all participant directed transfers out of this investment, including non-scheduled rebalancing activity. Once the number of allowed transfers out is met, participants are not allowed to transfer back into this investment option until the holding period elapses.

Position Description	Valuation Technique
Common/collective funds	Common/collective funds are valued using the net asset value (NAV) provided by administrators of the funds.
Mutual funds	Mutual funds are valued using quoted prices in an active market on the last business day of the year. Quoted market prices for mutual funds represent the NAV of shares held by the Plan at year-end.
Self-directed brokerage accounts	Investments freely tradeable and are valued using quoted prices in an active market on the last business day of the year.

Employer stock

Investment freely tradeable and is valued using quoted prices in the NASDAQ market on the last business day of the year.

5. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

6. Reconciliation of Financial Statements to the Form 5500

There were no differences between the financial statements and Form 5500.

7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated July 27, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code), and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the IRS, the Plan was amended and restated. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended and restated, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

Management evaluated subsequent events for the Plan through October 15, 2024, the date the financial statements were available to be issued. On December 31, 2023, the Company merged the company's Employee Stock Ownership Plan (the ESOP) into this Plan and restated the Plan's written Plan document (the "Restatement").

In addition, with the adoption of the Restatement, the Company also made the following changes prospectively to the Plan: defined eligible employees as those individuals scheduled to work 20 or more hours per week and removed the 1,000 hour eligibility rule for temporary and casual employees, amended the definition of Compensation to align with the simplified Section 415

compensation outlined in Treasury Regulation 1.415(c)-2(d)(2) with one modification, and removal of a qualified joint survivorship annuity distribution option. Other amendments were included to align with recent legislation.
